SUNDS DEST DE CONCETEER

City of Austin PROPOSED 2021-22 BUDGET

As required by section 102.005 (b) of the Texas Local Government Code, the City of Austin is providing the following statement on this cover page of its proposed budget:

This budget will raise more total property taxes than last year's budget by \$52,524,899 or 5.7%, and of that amount \$21,368,668 is tax revenue to be raised from new property added to the tax roll this year.

As of the date this proposed budget went to print, the City of Austin had not yet received its certified appraisal roll from the chief appraiser of the Travis Central Appraisal District, therefore the amounts above are estimates and may change.

The amounts above are based on the City's proposed fiscal year 2021-22 tax rate of 54.31 cents per \$100 of assessed valuation. The City's fiscal year 2020-21 tax rate (the current tax rate) is 53.35 cents per \$100 of assessed valuation.

MESSAGE FROM THE MANAGER

Dear Mayor, Mayor Pro Tem, and members of the City Council:

As you know, we are experiencing a time of unprecedented challenge in our community, across our country, and around the world. Since the last time we presented a new proposed budget to you in the summer of 2020, we have faced – and even now continue to face – fundamental threats to who we are, and who we aspire to be.

We have all lived through a global public health crisis that is not yet fully resolved. We have all witnessed shocking moments of racial violence and injustice that demand we do the hard work of reforming our institutions and our thinking. We have all experienced a statewide weather emergency that laid bare an unpreparedness for extreme climate events – events which will increasingly become the norm. We have all seen the continued crisis of homelessness in our city, with far too many of our most vulnerable neighbors still at risk on the streets. And most recently, we have all been deeply distressed by the specter of a mass shooting event in the heart of our downtown – a stark reminder that the national plague of gun violence is not just happening someplace else.

It pains me that in each of these cases, lives have been lost and families have been devastated. And yet in each case, our community's resilience and drive to work together to overcome even the most daunting challenges has been on full display. I believe that is an appropriate context for the presentation of next year's proposed budget. Because while there is a clear budget path forward immediately ahead of us, the budget challenges we face as a City in the years ahead are just as formidable as the ones we have recently faced as a community, and will require the same collaboration, innovation and resilience to navigate.

Fortunately I can begin with good news, which is that Austin has come through the many challenges of the past year in as good or better shape than any big city in America. Our local economy remains fundamentally strong and performed unexpectedly well during the COVID-19 pandemic, with more positive impacts for our budget than we anticipated even a few months ago. For FY 2020-21, our sales tax collections are now projected to end the year above budget, when most forecasts anticipated a decrease. Similarly, our property tax revenue for is also projected to end the year significantly above budget.

Unfortunately our revenue picture isn't all roses. As the result of facility closures and program reductions caused by COVID – facilities and programs that we had hoped would come back online by October of 2020, but ultimately did not – we expect that other revenue sources will end the year well below budget. But on balance, our surprisingly strong sales and property tax revenue in FY 2020-21 mean that we will end the year with a revenue surplus. Taken together with savings in General Fund expenditures, we now expect to end the fiscal year with reserves that meet Council's recently approved policy goal of 14%.

These figures, and other factors, put us in a relatively stable position for the upcoming fiscal year, and allow us to deliver a proposed FY 2021-22 budget based on a combined tax and fee increase

of only 0.85% – or just over \$3.00 per month – for the typical Austin ratepayer. Note that we worked hard to keep the combined tax and fee increase in this proposal below 1% because despite the relatively good economic news overall over the past year, we clearly recognize the financial difficulty that many Austinites still find themselves in as a result of the pandemic. Importantly, we were able to stay below 1% in our proposal in large part because Council took action last month to increase the homestead exemption to 20% and increase the exemption for seniors and disabled residents from \$88,000 to \$113,000.

At the same time, it is important to acknowledge that our stable financial position is also the result of many years of commitment, on the part of both Council and staff, to prudent fiscal management policies. The fact is that we entered the pandemic in a strong position because we have historically been fiscally responsible and consistently prioritized maintaining a healthy level of reserves while still meeting the many needs our community. The bottom line is that for the upcoming fiscal year, because of long-term prudence and Council's recent actions, we can cover the increase in our base expenses and deliver our programs and services – as well as many of the critical reforms that our citizens want and that Council has prioritized – with minimal year-over-year impact on the typical Austin ratepayer.

While the immediate-term news is positive, our long-term circumstance is much more difficult. As Council already knows very well, our biggest challenge remains the 3.5% property tax revenue increase cap established by the State of Texas in 2019. What the 3.5% cap means for us is clear. In the absence of voter approval to exceed the cap, simply covering the annual increase in our base costs alone – things like wages, rent, and insurance premiums – will require a fundamental change in the way we do business. In short, without securing additional revenue and/or dramatically reducing costs, we project an ongoing budget imbalance that will grow year after year.

As we have done every year throughout my tenure, we once again focused our budgeting process around the long-term vision and core values set forth by Council in Strategic Direction 2023 (SD23). For every proposed expenditure, we continually ask ourselves whether we are moving the needle on the priority outcomes established by SD23. As you know, SD23 includes six strategic outcome areas: Economic Opportunity & Affordability; Mobility; Safety; Health & Environment; Culture & Lifelong Learning; and Government That Works For All. Each SD23 outcome area has its own set of strategies and metrics, and these are always top-of-mind for us during every budget process. In fact, most of the proposed expenditures that I have chosen to highlight here are ones that cut across multiple SD23 outcome areas and thus maximize our investment in Council's vision and values.

The "big picture" for FY 2021-22 is that we can balance our budget, make a series of important one-time expenditures, and maintain our reserves at the 14% level consistent with Council's recently adopted policy, all while adhering to the 3.5% state-mandated property tax revenue cap. As I noted above, because of Council's recent action to increase exemptions, and because of long-term fiscal prudence, our FY 2021-22 budget proposal results in a combined tax and fee increase of less than 1% for the typical City tax and ratepayer.

Overall, our proposed General Fund budget totals \$1.2 billion, and maintains our current core programs and service levels. Our proposal is also based on various cost drivers and new program expenditures that include, among other things, employee wage increases; new positions to staff the

Municipal Court Marshal Program; the opening of the Loop 360 Fire / EMS station; expansion of the Civil Rights Office; and new investments in communications technology and fleet maintenance. Notably this also includes the first year of a significant new annual contribution to the Austin Police Retirement System, which in conjunction with other reforms, will put the retirement system back on a sustainable path.

The largest portion of our proposed General Fund budget, approximately 66.5% – about \$767 million – is allocated to public safety. About 29.6% – around \$341 million – is allocated to our community service departments: Parks and Recreation, Austin Public Health, the Library, Animal Services, and the Housing and Planning Department. The remaining amount – approximately 3.9%, or around \$45.4 million – is slated for transfers to fund a range of other investments and services.

In terms of specific expenditures and related issues that I want to highlight here, I will begin with public safety. As I noted, we have already made tremendous strides in our efforts to reimagine public safety. Our core mission is to ensure that everyone, no matter who or where they are in our community, is valued, respected, and can count on us to show up for them in a crisis without fear that they'll be treated differently. And so, in this budget we are continuing to advance key RPS initiatives that were developed and initiated over the past year, embracing a holistic approach to providing public safety services and community-centered crime prevention and intervention. In fact, nearly \$30 million of RPS allocations from FY 2020-21 are carried over into FY 2021-22. We are investing in reimagining our police academy with a curriculum centered on diversity, equity and inclusion principles, and building stronger community relationships; in responding to mental health emergencies in new ways; in a family violence shelter; and in the initial phases of many other reform recommendations brought forward by the City-Community RPS Task Force, including the Office of Violence Prevention.

At the same time, as Council knows, we face a significant new challenge in the upcoming fiscal year in the form of HB1900, a new state law that levies catastrophic fiscal penalties for municipalities that cut police funding year-over-year. Be assured that our FY 2021-22 budget proposal is fully compliant with the requirements of the new law. At the same time, you can be confident that we will not abandon our commitment to reimagining public safety, so that every single person in our community feels safe in their home and neighborhood. Ultimately the structure of RPS may not look exactly like we envisioned, but my commitment to Council is that we will find a way to move this important work forward while also complying with the state's new requirements.

Next, I want to highlight our proposed investments in continuing the fight against homelessness, an issue that cuts across all six SD23 outcome areas. It has been said that the moral test of government is how it treats those in the dawn of life, those in the twilight of life, and those in the shadows of life. Certainly, our neighbors who are continuing to experience homelessness are in the shadows of life, and I could not agree more that how we treat them is fundamentally a moral issue. I noted above that we have made progress in our efforts to fight homelessness, and it is true that our work has helped to move thousands of people into housing – whether short-term, medium-term, or long-term – and transition many into sustainability. But it is also clear that chronic homelessness remains at a crisis level in our community.

In my view, that means we must continue to build a community of governments, organizations and individuals devoted to fighting chronic homelessness; and that we must continue to devote the

resources needed to help lift up our most vulnerable neighbors in their time of need. Our work is more urgent now than it has ever been.

In terms of just the City of Austin, our fight against homelessness cuts across sixteen different departments, and involves hundreds of staff. For FY 2021-22, we're proposing to maintain \$65.2 million in funding for this ongoing effort, in addition to the multi-year commitment of \$106.7 million in federal funds recently approved by Council.

With these resources, we'll focus on four core strategies: reducing inflow, crisis response, housing stabilization, and managing public spaces. We'll provide shelter and housing, both through our community partners and directly; we'll deliver mental health and substance abuse support; and we'll provide programs that help lead to employment and long-term self-sufficiency.

I want to turn briefly to the issue of mobility, another critical SD23 priority area. Obviously one of the biggest events of the past year – in fact one that was more than 20 years in the making – was voter approval of Proposition A, or Project Connect. Now, finally, our community will begin investing in a high-capacity transit system that will dramatically transform not only how we get around but also how we grow as a region. As you know, implementation of Project Connect is the joint responsibility of the City of Austin, Capital Metro, and the newly-formed Austin Transit Partnership. Immediately after voter approval in November, we began taking the steps necessary to fulfill the City's responsibility, including creating the Project Connect Office, which will serve as our single point-of-contact for departmental and interagency collaboration. Now our focus turns to making the ambitious Project Connect vision into a reality. Thus the FY 2021-22 budget includes \$2.4 million for 18 full-time employees primarily focused on design, environmental studies, permitting, utility coordination, and other requirements for the two light rail lines around which the Project Connect system will be centered.

An organizational value that I believe is central to achieving our long-term SD23 goals is resilience. Indeed, if the events of the past 16 months have taught us anything, it's that we neglect to prepare for known threats at our peril. At the same time, we have learned that people, organizations, and communities – with a little help – can and will bounce back from adversity. Especially for our most vulnerable residents, it is critical that we invest the resources necessary now to guard against the worst impacts of potential future emergencies. That is why our budget proposal includes four highpriority resilience projects.

First, the Austin Fire Department, with support from Homeland Security and Emergency Management (HSEM), will launch a wildfire evacuation assessment based on predictive modeling that will be used to ensure residents have safe escape routes in the event of a large-scale wildfire. Second, HSEM will launch a community-wide emergency preparedness campaign to educate Austinites on how to prepare for extreme weather events such as heat waves and severe freezes, like we had in February. Third, the Office of Sustainability will work with the Johns Hopkins University School of Public Health to help ensure that our regional food supply chain won't be interrupted in the face of potential disruptions or disasters. And fourth, with initial funding from the American Rescue Plan, we will continue collaborating with community partners to explore proposals for several Community Resilience Hubs. These will be publicly accessible facilities that can provide critical emergency services to residents during disaster events.

The final element of the FY 2021-22 budget proposal that I want to highlight is, in some ways, the most important. Because none of what the City of Austin does across any of the areas I have highlighted here, or any of the other vital community functions we serve, would be possible without our City employees. Our loyalty to our employees is returned by their loyalty to the people of this community that we all serve.

I am proud to say that even when we feared the worst economic effects of the pandemic over the past year, we avoided any employee layoffs or furloughs. And in FY 2021-22, for the fifth consecutive year, we have again maintained quality health benefits at no additional cost to employees. For all sworn employees, we will of course honor negotiated labor contract wage increases. And for all civilian employees, our FY 2021-22 budget includes a 2% base wage adjustment and a one-time \$500 stipend. To move the needle on Government That Works For All, it is fundamental to build and maintain an exceptional workforce. And the truth is, with the challenges we face in the years ahead, we will need the ingenuity of our employees more than ever.

I want to conclude by highlighting, once more, our greatest long-term budget challenge. Here's the simple fact: Based on the projected growth in our base costs alone over the next five fiscal years, the state's 3.5% revenue cap will result in annual budget deficits that start at \$5.5 million in FY 2022-23, and grow to \$15.6 million by FY 2025-26. Regardless of whether Council may ultimately ask voters to approve exceeding the cap – and regardless of what voters may ultimately say – it is clear that, as an organization, we must continue to take action to streamline our programs and services and to reduce our costs.

City staff has already been hard at work identifying innovative ways to work smarter, to be more efficient, and to make more of limited resources. For example, in recent years we've re-invented our approach to planning, building and acquiring office space, using public-private partnerships to make the process both faster and more affordable. In fact, throughout the City, we are now totally focused on finding new ways to improve process and lower operational costs. And because we are fundamentally an innovative organization, I know that we can close some part of our future budget gap through creativity and determination. What we do not know yet is exactly what our future revenue picture will look like, or exactly how much we can reduce our costs without compromising the programs and services that Council has prioritized and that our community expects. For now, it is enough to simply acknowledge that there are difficult choices ahead, and agree that the hand that we have been dealt will require us all to work together to find new ways to meet Austin's future needs.

I will end where I began, and note again that this has been a period of challenge like we have never experienced before. There were moments over the past sixteen months when many of us asked ourselves how things could possibly get worse.

We are innovative and determined. We have shared values and a clear vision. We are dedicated to improving the equity and efficiency of the services we deliver. And we will drive relentlessly in the direction of collaboration and resilience on behalf of the residents of this great city. Because no matter what comes our way, Austin's best days are always ahead of us.

I want to thank our City staff, led by our Budget Office, for devoting countless hours to creating this proposal for Council's review, including extensive work to solicit the input of community stakeholders. That includes receiving and analyzing dozens of budget recommendations from 21 different citizens boards and commissions, and citizen task forces; and over 1,200 responses to our community budget priority survey. We are always stronger together, and this proposal is the result of a collaborative process.

Respectfully submitted,

Spencer Cronk City Manager

City of Austin 2021-2022 Proposed Budget

Greetings from Austin

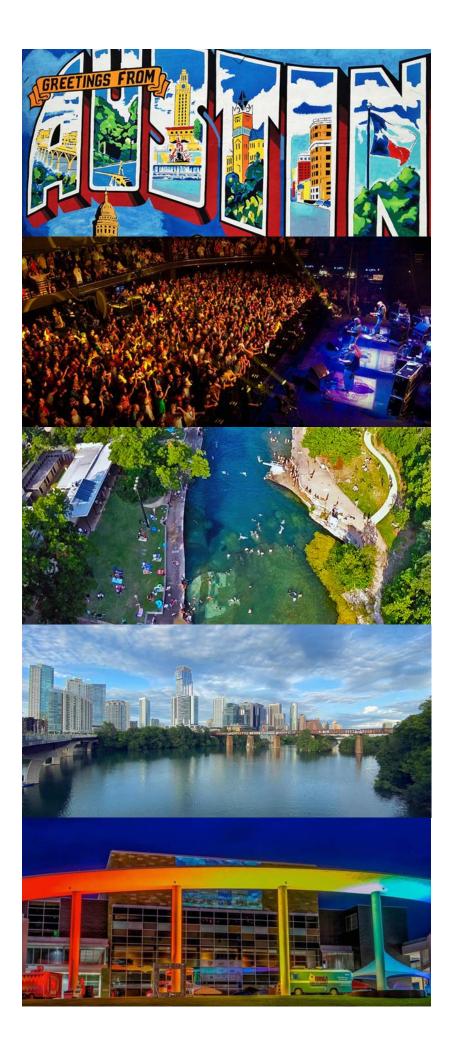

Greetings from AUSTIN

WELCOME TO AUSTIN

Austin is known by many names: Live Music Capital of the World, City of the Violet Crown, Silicon Hills, or its unofficial tagline, "Keep Austin Weird;" but what makes Austin special is not its nicknames, it is the people who live here, lovingly dubbed "Austinites," who are always pursuing the Austin state of mind.

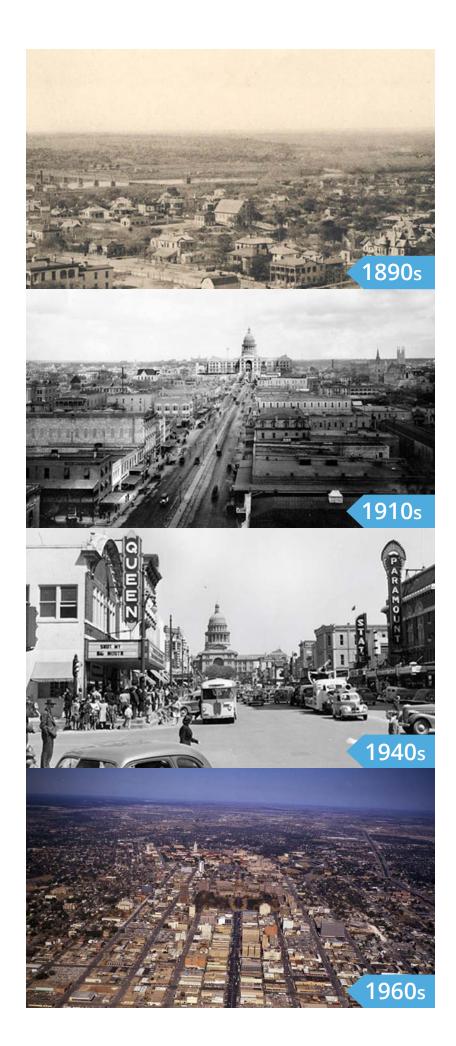

Located in Central Texas, Austin is the capital of the state of Texas, the Lone Star State. Since 2011, Austin has received more than 50 local and national rankings, and it is easy to see why. Austin's warm climate allows you to enjoy outdoor activities virtually year round, with 300 days of bright sunshine to guide you through its gorgeous natural vistas and greenspaces, like Lady Bird Lake, Mount Bonnell, Barton Springs, and Zilker Park. World-famous festivals, such as South by Southwest or Austin City Limits, along with countless live music acts showcase the city's vibrant entertainment and culture. And one cannot forget about the food, whether it is breakfast tacos, barbeque, chips and queso, or all the delicious edibles that spring from Austin's 1,000 food trucks.

AUSTIN'S History

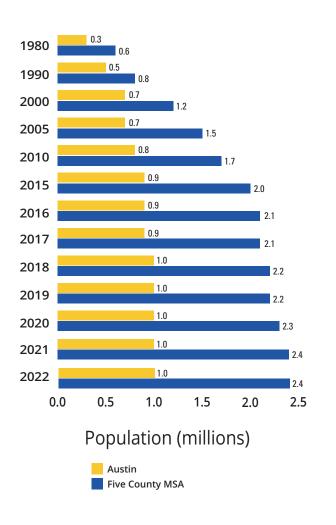

With its humble beginnings as a small village called Waterloo, Austin was eventually chosen in 1839 to be the capital of the new Republic of Texas and renamed after Stephen F. Austin, "the father of Texas." A town plan, still largely intact, included a hilltop site for a capitol building, advertised as the "7th largest building in the world" when it was completed in 1888. In 1893, the construction of the Great Granite Dam on the Colorado River contributed to the city's growth by stabilizing the river, providing electricity, and attracting manufacturers.

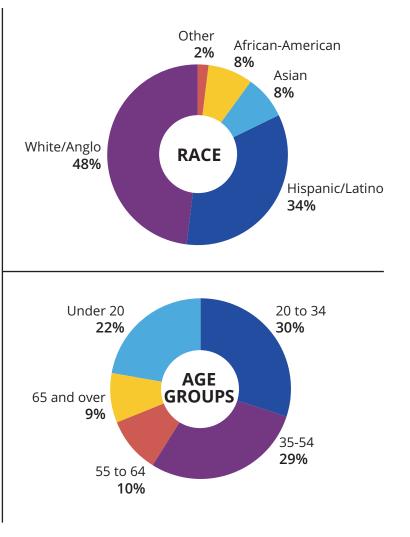

After the Great Depression, several research laboratories and think tanks were founded in the 1940s and 1950s, drawing innovative thinkers and hightech companies to the area, which continues to this day. The 1970s also brought substantial changes: rapid growth contributed to more political activity, creating strong environmental, historic preservation, and neighborhood communities; and a musical rebirth drew national attention, and in turn more musicians, to the city because of artists such as Stevie Ray Vaughan and Willie Nelson.

POPULATION AND DEMOGRAPHICS

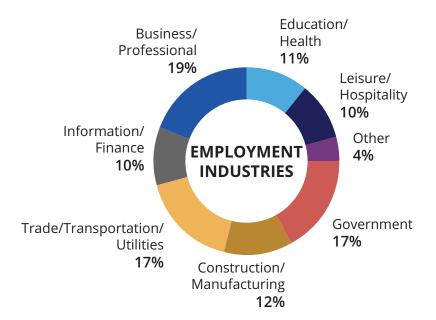

Austin is the fourth-most populous city in Texas and the 11th in the nation. Austin's population has almost tripled since 1980, while the five-county MSA (metropolitan statistical area) of Travis, Hays, Bastrop, Caldwell, and Williamson counties has almost quadrupled. The Austin area is expected to continue to grow in the near future, but growth most likely will not reach these previous levels. Below is an overview of population growth and projections in the Austin area. Demographically speaking, Austin continues to experience profound change. Keeping up with how these demographic shifts affect the city is essential to successful operations and planning. Austin's demographic transformation continues to revolve around two major themes: sustained job and population growth, and increasing demographic diversification. However, this change is being curbed by price increases in the city's housing market. The pie charts on this page break out Austin's race and age group demographics.

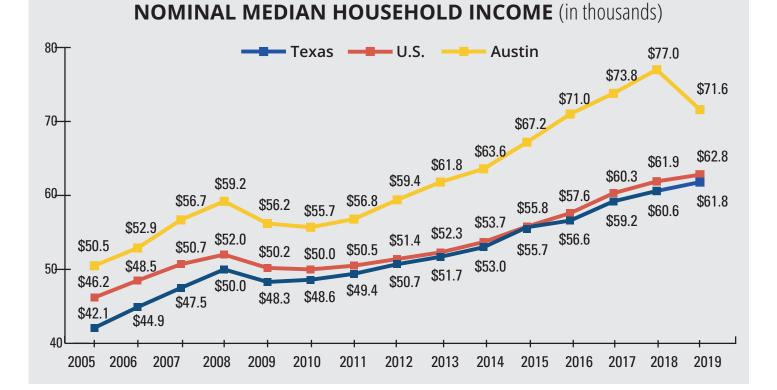

THE AUSTIN ECONOMY

Austin continues to have strong economic growth, exhibited by its 6.2% average unemployment rate in 2020, lower than the 8.1% national average. The largest employers are the State of Texas, The University of Texas, and the City of Austin, and many technology companies, such as Apple, Google, IBM, and Samsung. The pie chart on the right details Austin employment by industry. The chart below shows that Austin has consistently exceeded the nominal (noninflation-adjusted) median household income in Texas and the U.S. from 2005 to 2019 (year with the latest available data).

2020 UNEMPLOYMENT RATE 6.2%

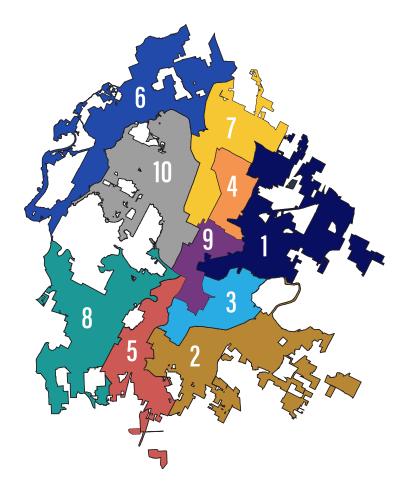

CITY GOVERNMENT

The City of Austin's charter establishes a councilmanager form of government. This means that the elected officials, or the City Council in Austin's case, are the legislative body that approves the budget and passes ordinances and regulations. The City Council appoints a city manager, who is responsible for the day-to-day operations of the organization and for implementing ordinances. Furthermore, the City Council appoints members to boards and commissions, who provide an advisory role.

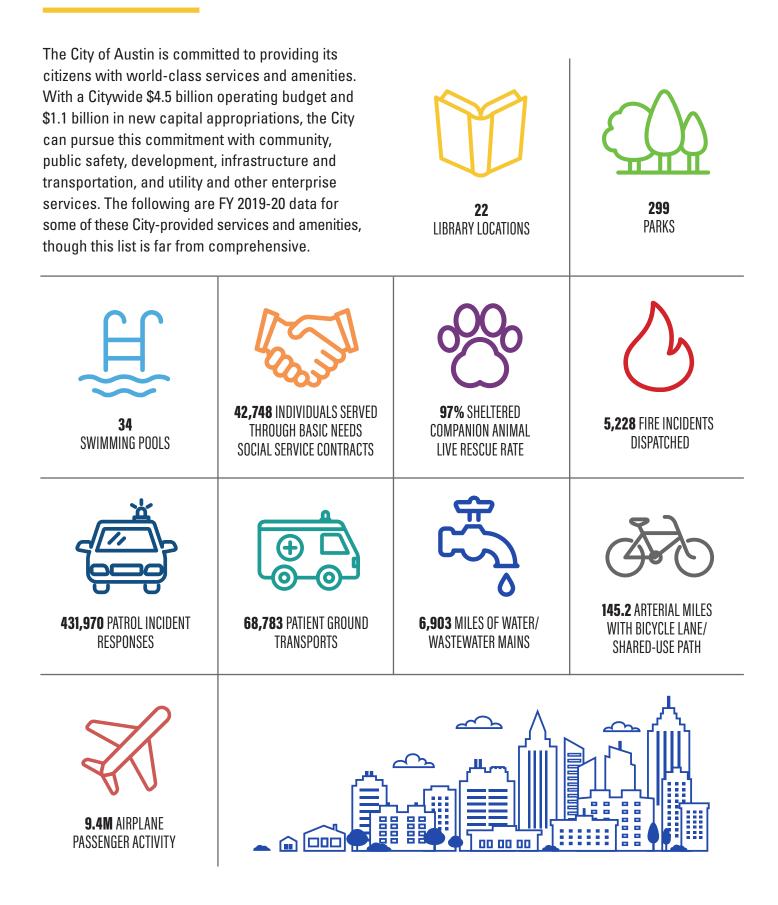

On November 6, 2012, Austin voters approved an amendment to the City's charter, converting the City Council from six at-large councilmembers and one at-large mayor to ten district-representing councilmembers and one at-large mayor. This system is known as 10-ONE and has been in effect since the inauguration of the council on January 6, 2015. The single-member district map, shown to the right, was drawn by an independent citizens redistricting commission that will also adjust the boundaries of the districts after each U.S. census is taken.

CITY SERVICES & AMENITIES

City of Austin 2021-2022 Proposed Budget

Budget Overview

AMERICAN RESCUE PLAN ACT

American Rescue Plan Act Background

President Joe Biden signed the federal American Rescue Plan Act of 2021 (ARPA) into law on March 11, 2021, apportioning \$1.9 trillion to address devastating health and economic impacts caused by ongoing COVID-19 crisis. Through ARPA, Congress established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund. These funds provide a combined \$350.0 billion to eligible state, local, territorial, and tribal governments to meet pandemic response needs and rebuild stronger and more equitable economies.

On May 17, 2021, the United States Department of the Treasury (Treasury Department) issued an interim final rule to implement the Coronavirus State and Local Fiscal Recovery Funds. In summary, the Treasury Department's rule allows recipients to use federal aid for:

- 1. Supporting public health expenditures, by, for example, funding COVID-19 mitigation efforts, medical expenses, behavioral healthcare, and certain public health and safety staff;
- 2. Addressing negative economic impacts caused by the public health emergency, including economic harms to workers, households, small businesses, impacted industries, and the public sector;
- 3. Replacing lost public sector revenue, using this funding to provide government services to the extent of the reduction in revenue experienced due to the pandemic;
- 4. Providing premium pay for essential workers, offering additional support to those who have and will bear the greatest health risks because of their service in critical infrastructure sectors; and
- 5. Investing in water, sewer, and broadband infrastructure, making necessary investments to improve access to clean drinking water, support vital wastewater and storm water infrastructure, and to expand access to broadband internet.

Recipients cannot use this funding to offset a reduction directly or indirectly in net tax revenue due to a change in law from March 3, 2021 through the last day of the fiscal year in which the funds provided have been spent. The Treasury Department also forbids recipients from using these federal funds to make deposits into pension funds. Visit <u>the Treasury Department's website</u> for additional information.

City of Austin ARPA Spending Framework

The Treasury Department's allocation methodology for the Coronavirus State and Local Fiscal Recovery Funds resulted in the City of Austin receiving \$188.5 million and Travis County receiving \$247.5 million. The Treasury Department will distribute the funds in two tranches, with 50% arriving in May 2021 and the balance arriving approximately 12 months later.

As part of the City's ongoing commitment to supporting Austin residents, businesses, and organizations that were impacted by the COVID-19 pandemic, City Council and staff worked diligently for several months to establish a spending framework for the ARPA allocation.

On June 10, 2021, Council approved an ARPA spending framework totaling \$245.0 million, which includes \$188.5 million from ARPA – State and Local Fiscal Recovery Funds, \$35.3 million from ARPA – Emergency Rental Assistance, \$11.4 million from ARPA - HOME, and \$9.8 million from General Fund Reserves.

The table below summarizes the final APRA spending framework approved by Council.

Health - \$46.3 Million	
COVID - HSEM	\$6.0
COVID - APH	\$38.3
Navigators	\$0.5
Colony Park Sustainable Community Health Center	\$1.5
Homelessness - \$106.7 Million	
Homelessness General (incl. HEAL, "3K in 3Yr")	\$88.6
Grant: HOME	\$11.4
Emergency Shelter	\$4.2
Capacity Building	\$0.5
Homelessness: Workforce (WFS, TOOF, etc)	\$2.0
Economic Development - \$32 Million	
Childcare/Childhood/Family Connects	\$11.0
Workforce: General (WFS, Capitol Idea, etc)	\$15.0
Workforce: Austin Civilian Conservation Corps (ACCC)	\$5.0
Workforce: ACCC (Homeless and/or Creative Sector Focus)	\$1.0
Resilience - \$6 Million	
Food Security/Food Access	\$3.0
Resilience Hubs	\$3.0
Creative Sector - \$12 Million	
Non-Profit Emergency Relief - Arts / Music	\$2.0
Arts	\$6.0
Music	\$4.0
Emergency Relief - \$42 Million	
Rental Assistance	\$35.3
Individual Assistance (additional eviction support if needed)	\$6.7

ARPA Program Development and Delivery

Public Health

Public health funding of \$44.3 million is allocated to continue the operations of non-congregate shelters, isolation facilities, alternate care sites, infusion centers, and the Emergency Operations Center. Also included is funding for testing services; the purchase of personal protective equipment, and other necessary supplies; the Eating Apart Together (EAT) program for unsheltered homeless and the AISD Caregiver Meals program; and contact tracing, epidemiology, and general public safety. The funding assumes staff will begin transitioning services to pre-emergency levels in spring 2021.

Community Navigators

To partner with contractors (referred to as "Community Navigators"), \$500,000 is allocated to ensure businesses, civic organizations, and creative professionals receive assistance necessary to recover from the economic impacts of the COVID-19 pandemic. Activities supported by this funding include outreach and engagement to historically underserved communities; high-quality technical assistance for businesses, civic organizations, and creative professionals; and application assistance for federal, state, and local COVID-19 pandemic-related recovery and resiliency programs.

Colony Park Sustainable Community Health Center

An allocation of \$1.5 million will be used to install critical infrastructure (water, wastewater, and storm water) needed to construct the Northeast Health and Wellness Center in the 208-acre Colony Park Sustainable Community. Residents living in the Colony Park, Lakeside, and nearby communities disproportionately experienced higher COVID-19 cases and hospitalizations, compounded by their historical experience with higher rates of chronic and preventable diseases. Constructing a health center in this community will improve these outcomes by enhancing residents' access to high-quality and affordable healthcare.

Homelessness

The \$106.7 million total allocation for homelessness is divided into five subcategories: general (\$88.6 million), affordable housing and services (\$11.4 million funded separately through the federal HOME Investment Partnerships Program), emergency shelter (\$4.2 million), workforce development (\$2.0 million), and capacity building (\$500,000). Consistent with a motion Council adopted as part of the ARPA spending framework, staff is continuing conversations with central Texas jurisdictions and philanthropic organizations with the goal of having partners commit significant monetary resources to help address homelessness in Austin. Additionally, staff is reviewing recommendations from the recently convened Summit on Homelessness to affirm or revise the recommendations, including financial assumptions. Once this review is complete, City staff will host community meetings to discuss the plan and will use public feedback to inform final recommendations for the general funding subcategory to Council.

Childcare/Childhood/Family Connects

This allocation of \$11.0 million plans to enhance Austin's childcare and early childhood education systems, and City staff continue to coordinate childcare and early childhood efforts with Travis County officials and local community partners. The types of programs that could be supported with these funds include:

• expanding the Family Connects program (a joint-partnership between United Way for Greater Austin and Austin Public Health that provides free nurse home visits to all families with a newborn)

- expanding access to dual-language full-day Pre-K for four-year-olds; providing additional child care funding to address gaps created for families due to changes in employment status
- sustaining and scaling innovative infrastructure to increase access to affordable high-quality care meeting needs of all families
- implementing solutions to address identified gaps and to strengthen the childcare system
- stabilizing the childcare workforce and programs that support families with young children outside of full-time childcare.

Workforce Development

The \$21.0 million total funding allocated for workforce development is divided into three subcategories.

- Workforce: General (\$1.5 million): City staff continue to coordinate workforce development efforts with Travis County officials to optimize the use of funds to support residents who were economically impacted by the pandemic. Programs include evidence-based job (re)training and placement services, along with those that prepare residents for career pathways into nursing and skilled trades.
- Workforce: Austin Civilian Conservation Corps (\$5.0 million): This program helps Austinites earn income, serve their community, and gain equitable access to skills, training, and certifications which can lead to careers in sustainability and environmental fields. Staff will use Council's allocated funding to expand operations, programs, and partnerships.
- Workforce: Homelessness/Creative Sector (\$1.0 million): Staff is in the process of evaluating options for maximizing the effectiveness of this funding and anticipate proving an update to Council in fall 2021.

Food Access

This allocation of \$3.0 million will support several activities consistent with motions that Council adopted as part of the ARPA spending framework. Approximately \$2.0 million will support ongoing food access needs resulting from the COVID-19 pandemic. The remaining balance will support the development of nonprofit or community-owned grocery stores in areas of the City that lack healthy food retail outlets; and supporting the development of a regional food system plan that includes sustainable operational structures, policies, food sector resilience planning, programs, and financing.

Resilience Hubs

This allocation of \$3.0 million will support the development of resilience hubs in local communities. Resilience hubs are community-facing places of refuge during emergencies. These hubs will include redundant power, water and communications, emergency supply storage, and have the ability to serve as central staging areas for City and community-based emergency response. During non-emergency times, these hubs can provide culturally sensitive, multilingual programming for community-building efforts that increase resilience. Per Council direction, staff will provide budget analysis, funding strategies, and intergovernmental agreement options for potential resilience hub locations, including equity-centered strategies considering the most vulnerable populations.

Creative Sector

The total \$12.0 million allocation for creative sector support is divided into three subcategories.

- Nonprofit Emergency Relief (\$2.0 million): Staff will use these funds for an Austin Arts and Culture Nonprofit Relief Grant. This grant program will support creative sector nonprofit organizations that were impacted by the COVID-19 pandemic.
- Arts (\$6.0 million) and Music (\$4.0 million) Sector Support: Staff will use these funds to benefit the creative community based on guidance and direction from Council and collaboration with the Arts and Music Commissions.

Emergency Relief

Of the \$42.0 million total allocation for emergency relief, \$35.3 million is from the ARPA-Emergency Rental Assistance Fund (APRA-ERA), not the Coronavirus Local Fiscal Recovery Fund. Staff will use APRA-ERA funds to continue offering direct rent assistance through the <u>Relief of Emergency Needs for Tenants (RENT)</u> <u>Assistance Program</u>. Consistent with Council direction, the remaining \$6.7 million will be used for additional individual assistance for Austinites affected by the pandemic, including additional eviction support if needed.

OUR VISION

Austin is a beacon of sustainability, social equity, and economic opportunity; where diversity and creativity are celebrated; where community needs and values are recognized; where leadership comes from its community members, and where the necessities of life are affordable and accessible to all (from Imagine Austin).

OUR STRATEGIC OUTCOMES

Together we strive to create a complete community where every Austinite has choices at every stage of life that allow us to experience and contribute to all of the following outcomes:

ECONOMIC OPPORTUNITY & AFFORDABILITY

Having economic opportunities and resources that enable us to thrive in our community.

MOBILITY

Getting us where we want to go, when we want to get there, safely and cost-effectively.

SAFETY

Being safe in our home, at work, and in our community.

HEALTH & ENVIRONMENT

Enjoying a sustainable environment and a healthy life, physically and mentally.

CULTURE & LIFELONG LEARNING

Being enriched by Austin's unique civic, cultural, ethnic, and learning opportunities.

GOVERNMENT THAT WORKS FOR ALL

Believing that city government works effectively and collaboratively for all of us—that it is equitable, ethical and innovative.

austintexas.gov/StrategicPlan

IMAGINEAUST N

STRATEGIC ANCHORS

ACROSS OUR OUTCOMES

Values that Support Quality of Life in Austin.

EQUITY

To advance equitable outcomes, the City of Austin is leading with a lens of racial equity and healing. Race is the primary predictor of outcomes and it is time to recognize, understand, and address racism at its various levels: personal, institutional, structural, and systemic. Equity is the condition when every member of the community has a fair opportunity to live a long, healthy, and meaningful life. Equity embedded into Austin's values system means changing hearts and minds, transforming local government from the inside out, eradicating disparities, and ensuring all Austin community members share in the benefits of community progress.

AFFORDABILITY

Austinites deserve to experience the necessities of life as affordable and accessible. Simply put, this means a household can afford rent or mortgage, transportation, child care expenses, utilities, and taxes. This strategic direction lays out strategies to increase economic opportunities and affordable choices across Austin, so that Austinites, families, businesses, City employees, and all generations can thrive.

INNOVATION

In Austin, we define innovation as any project that is new to you with an uncertain outcome. Aimed at addressing pressing challenges that affect our community, human-centered innovation means a new approach to exercising authority and decision-making that starts with the needs, behaviors, and experiences of our community, and continues through a process of questioning assumptions, engaging with empathy, stewarding divergent thought, reflecting, and learning. Innovation is future-oriented around what outcomes could be created together, rather than an analysis of already formed alternatives.

SUSTAINABILITY AND RESILIENCY

Being a sustainable and resilient community requires proactive steps to protect Austin's quality of life now, and for future generations. A sustainable city finds a balance among three goal areas: (1) prosperity and jobs, (2) conservation and the environment, and (3) community health, equity, and cultural vitality. Resiliency is the capacity of individuals, communities, institutions, businesses, and systems to survive, adapt, and grow from difficult times. In Austin, we bounce back stronger.

PROACTIVE PREVENTION

The City of Austin embraces the dual responsibility of being responsive to emerging challenges while also dialing up efforts to prevent problems on the front end. For example, this translates into addressing social determinants of health outcomes, rather than only treating the disease. This means investing in preventative maintenance of public assets like bridges, service vehicles, and community facilities. An intentional focus on prevention today leads to a brighter future.

COMMUNITY TRUST AND RELATIONSHIPS

Austin is a place where leadership comes from the people. We believe in honoring the spirit and soul of Austin and creating opportunities for civic engagement that are easy, meaningful, and inclusive, and that lay a foundation for lasting relationships. Trust must be earned and through strengthening partnerships with the community, we will make more progress together to advance these six outcomes.

STRATEGIC PLANNING RECAP

INTRODUCTION

The City of Austin is focused on improving quality of life and civic participation in the Austin community. This strategic direction guides the next three to five years and outlines imperatives to advance equitable outcomes across Austin.

IMPETUS FOR STRATEGIC DIRECTION

Research conducted in 2017, a few years into the City's new 10-1 system of geographic district representation, concluded four areas for the organization to address:

- 1. Lack of clear, shared citywide priorities
- 2. Shared sense that City is not dealing with critical issues that will determine its future
- 3. Effective governance has been a challenge
- 4. Inadequate feedback and learning loops

As a single playbook for the City of Austin, this strategic direction addresses these areas of opportunity and establishes a framework for effective governance going forward.

STRATEGIC DIRECTION 2023

Strategic Direction 2023 is inspired by Imagine Austin, which flourished from an extensive community engagement process that laid out a 30-year vision for our community. (View the Imagine Austin Dashboard, highlighting its eight Priority Programs and related indicators, at **austintexas.gov/imagineaustin/indicators**.)

This strategic direction sets six strategic outcomes for the next three to five years. Utilizing an outcome-based approach to setting priorities and budgeting enables the City to proactively address multiple time horizons, more thoughtfully assess performance, and improve community outcomes.

STRATEGIC DIRECTION 2023 INCLUDES:

- **Vision** an aspirational community vision for Austin.
- **Outcomes** results we seek the Austin community to experience.
- **Challenge Statements** -evidence-based diagnoses of critical issues facing the Austin community. "How might we...?" phrasing sets a basis for a variety of solutions.
- Indicators and Metrics to assess to what degree the outcome is being achieved. Each indicator category has a series of metrics to track and report whether Austin is making progress on that outcome. These are a combination of community indicators of progress and specific contributions made by the City.
- **Strategies** actions the City of Austin will take to address identified challenges and "move the needle" on indicators and metrics for that outcome.

OUR JOURNEY

- 5 City Council strategy workshops to set the direction for Austin.
- 6 Outcome Teams spearheaded non-traditional community engagement and internal cross-departmental collaboration to complete a series of milestones: (1) desk and field research, (2) insights, (3) challenge statements, (4) indicators and metrics, and (5) strategies.
- 8 All-Outcome strategic planning workshops and 20+ All-Outcome "huddles" to collaborate across outcomes on crosscutting issues, such as applying the City's equity tool.
- 4 Department Director Summits and Workshops, and a series of strategic planning touchpoints with City executives and department leadership.
- Acknowledged recent community engagement results and incorporated recommendations from 125-plus City and regional plans. Outcome Teams took stock of rich insights from what the Austin community has said and integrated into cohesive results-driven strategies.

Strategic Alignment

Austin Strategic Direction 2023 oultines priorities set by City Council. Informed by long-range goals and master plans, this direction is brought to life through the City budget, department operations, and an adaptive strategic management system focused on delivering results and improving community outcomes.

Comprehensive Plan

- Long Range: 30 years
- Shared Community vision
- Future land use and place-based

Master Plans & Roadmaps

- Time Horizon: varies
- Generally topic or location based
- Robust plans and community partnerships

Strategic Plan

time horizon

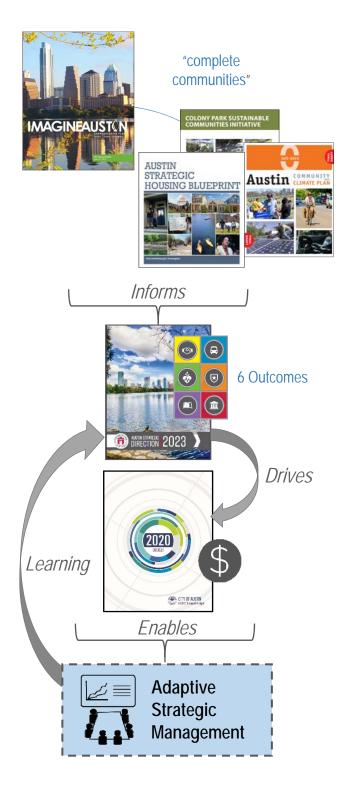

- Mid Range: 3-5 years
- Council's citywide priority focus areas
- Organizational direction for employees

Budget, Financial & Operational Plans

- Short Range: 1+ years
- Departmental service levels & capital outlays
- 5-Year Financial Forecast, tax/revenue rates

Strategic Management System

- Daily strategic discipline, performance management, and pathways for improvement
- Regular reporting to Council and community
- Austinites experience results and transparency

BUDGET BY OUTCOME

The City of Austin is focused on improving the quality of life and civic participation in the community. In March 2018, the City Council adopted a strategic plan to guide the City's budget and day-to-day operations for the next five years. During development of the plan, Council and staff identified four key areas that needed to be addressed: 1) A lack of clear, shared Citywide strategic priorities; 2) a shared sense that the City is not dealing with significant issues that will determine its future in the most efficient possible manner; 3) challenges in establishing an effective governance structure; and 4) inadequate feedback and learning loops. The plan, Strategic Direction 2023, addresses each of these areas of opportunity, and—in so doing—establishes a clear decision-making framework for the future of Austin.

The five-year strategic plan was developed within the guidelines of Imagine Austin, borne from an extensive community engagement process that laid out a 30-year vision for Austin. To further the City's long-term vision and aspiration of being one of the most unique, thriving, and livable cities in the country, City Council chose to focus City operations and budgets around six strategic outcomes: Health & Environment, Culture & Lifelong Learning, Economic Opportunity & Affordability, Government That Works for All, Mobility, and Safety. The City is committed to fostering a complete community where every Austinite has choices at every stage of life that allow all residents to experience and contribute to each of these outcomes.

Health & Environment	Enjoying a sustainable environment and a healthy life, physically and mentally.
Culture & Lifelong Learning	Being enriched by Austin's unique civic, cultural, ethnic, and learning opportunities.
Economic Opportunity & Affordability	Having economic opportunities and resources that enable us to thrive in our community.
Government that Works for All	Believing that city government works effectively and collaboratively for all of us—that it is equitable, ethical and innovative.
(a) Mobility	Getting us where we want to go, when we want to get there, safely and cost-effectively.
Safety	Being safe in our home, at work, and in our community.

Recrafting the City's budget document to align with Strategic Direction 2023 and integrating Council's strategic priorities into the City's budget decision-making framework was a cornerstone of the FY 2018-19 budget process. On April 4, 2018, Council embraced the task of selecting their budget policy priorities through a discussion centered on the 35 indicators of success defined within the strategic plan. A facilitated work session with the City Council resulted in the prioritization of 10 of these indicators across the six strategic outcomes. These 10 indicators were selected by the City Council as the areas in which the City most needs to improve over the lifetime of Strategic Direction 2023.

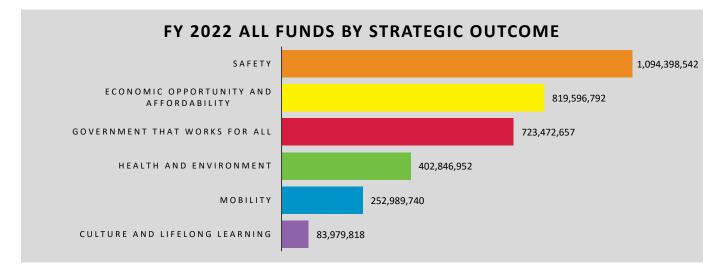

Council Priority Setting by Indicator

Economic Opportunity & Affordability
Housing
Homelessness
Skills and capability of our community workforce (including education)
Health & Environment
Accessibility to quality health care services, both physical and mental
Climate change and resilience
Accessibility to quality parks, trails, and recreational opportunities
Mobility
Accessibility to and equity of multi-modal transportation choices
Safety
Fair administration of justice
Government that Works for All
Condition/quality of City facilities & infrastructure and effective adoption of technology
Culture & Lifelong Learning
Vibrancy and sustainability of creative industry ecosystem

The FY 2021-22 Budget continues support for Council's top-ten indicators and priorities. Within these priorities, addressing the needs of individuals and families experiencing homelessness, as well as the affordability and availability of housing, are greatly emphasized. In addition, the crafting of this year's Budget was highly influenced by the State's action to lower the property tax revenue cap to 3.5%, beginning in FY 2020-21. This curtailing of local revenues has made it essential to strike a balance between funding programs that advance Council priorities and ensuring the long-term financial health of the City.

All Funds Operating Budget by Strategic Outcome

Depicted below is an overview of the City's operating budget mapped to the six strategic outcomes. Note that interfund transfers and debt service totaling \$2.5 billion are excluded from the chart, as these funds are instead aligned to the six outcomes in various operating budgets and in the CIP budget. (The CIP budget alignment is shown separately later in this section.)

The largest outcome category for the operating budget is Safety at \$1.1 billion. The Safety outcome primarily comprises expenditures from the City's three public safety departments: Police, Fire, and Emergency Medical Services. The next largest portion of the Safety outcome comes from the two municipal utilities, Austin Energy and Austin Water, for services related to the maintenance and operation of critical utility infrastructure, such as power generation facilities and water treatment plants. Other significant components of the Safety outcome include flood mitigation efforts of the Watershed Protection Department and the maintenance and upkeep of the regional public safety communications system.

Next is Economic Opportunity & Affordability with an operating budget of \$819.6 million focused on ensuring that residents have the opportunities and resources to thrive. Austin Energy is the largest contributor primarily due to allocating their Power Supply unit to this outcome, although a variety of other services are offered, including power plant, chiller, and energy market operations; green building, multifamily rebates, weatherization, and customer assistance programs; and portions of pass-through expenses for power supply costs and required payments to the Electric Reliability Council of Texas (ERCOT) for build-out of the Texas electrical grid.

Another large cost driver for this outcome includes the operation and maintenance of the Austin Convention Center for spending on tourism and promotion. Development Services Department also aligns to this outcome through residential and commercial work largely for land use and expedited plan reviews as well as site, subdivision, and building inspections. Finally, this outcome also includes funding related to addressing affordable housing through the Housing and Planning budget.

Your All Day, Any Day, Info Center 5M

The operating budget for the Government That Works for All outcome is \$723.5 million, comprising expenditures from the most City departments. Major cost centers for this outcome include Austin Energy and Austin Water in support of the City's customer care and billing system, the 311 call center, maintenance of the energy and water distribution

systems, portions of pass-through expenses for power supply costs, and required payments ERCOT for buildout of the Texas electrical grid. Corporate support functions such as Financial Services, Human Resources, and Management Services make up the other significant component of the Government That Works for All outcome.

Significant investments in social services contracts, public health programs, and the parks system contribute to the total operating budget for the Health & Environment outcome of \$402.8 million. Sustaining Austin's no-kill commitment for companion animals entering the shelter annually, Emergency Medical Services Community Health Paramedic program, custodial services at City facilities, and intensive case management services for frequent offenders also align to this outcome. Additional contributors to the funding for this outcome include green- energy initiatives, residential recycling and trash collection, litter abatement, wastewater treatment, and water quality programs.

The Mobility outcome comprises \$253.0 million of the City's total budget. The largest component of the Mobility outcome is the budget for the Public Works Department, followed by the Austin Transportation, Fleet Mobility Services, and Aviation Departments. It is important to note that these amounts are only representative of the City's operating budget. Funding for mobility-related capital improvement projects from the voter-approved transportation propositions from the 2012, 2016, 2018, and 2020 Bond Programs are noted in the following section.

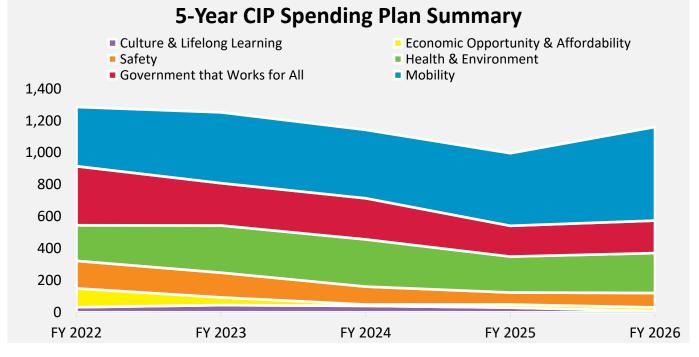

Lastly, the Culture & Lifelong Learning outcome primarily comprises library services, cultural arts contracts, and educational programs, at \$84.0 million of the total operating budget. Additional contributors to the total funding for this outcome include the Historic Preservation Fund, which was established to promote tourism through preservation, restoration, and rehabilitation of historic properties.

Capital Improvement Program Budget by Strategic Outcome

The City's Capital Improvement Program (CIP) comprises more than 3,000 active projects with appropriations authorized by the City Council in prior fiscal years and \$1.1 billion in new appropriations for FY 2021-22. The capital budget differs from the operating budget significantly in that appropriations do not expire at the end of a fiscal year, as capital appropriations remain in effect until depleted. Projects included in the following sections are identified as "active" or "anticipated."

Due to the multi-year nature of capital budget appropriations, a better way to consider CIP is through the lens of a five-year spend plan. The chart on the following page highlights the City's planned CIP spending by strategic outcome over a five-year period from FY 2021-22 to FY 2025-26. In total, spending on CIP projects over this five-year period is estimated at \$5.8 billion, ranging between \$1.0 billion to \$1.3 billion each year.

The largest portion of the five-year CIP spending plan is the Mobility outcome at \$2.3 billion, with \$371.5 million of that spending planned for FY 2021-22. The largest part of Mobility CIP spending is for Aviation, which includes \$1.0 billion over five years for various projects, including a new planned terminal/concourse to accommodate increased airline and passenger traffic. Additionally, projects by the Austin Transportation and Public Works Departments related to the 2012, 2016, 2018, and 2020 Bond Programs are expected to increase spending substantially over the next five years.

With a \$1.3 billion spending plan over this period, \$223.1 million of which occurring in FY 2021-22, capital plans for the Health & Environment outcome largely concentrate on the City's water infrastructure and the many shared-use areas distributed throughout the city. The largest component of this five-year spending is from the City's water utility, Austin Water, which has five-year planned CIP spending of \$864.7 million in Health & Environment for upgrades and improvements throughout the water and wastewater infrastructure system. Additionally, Health & Environment includes Waller Creek District improvements, Austin Resource Recovery vehicle procurements, Watershed Protection Drainage improvements, and Parks and Recreation parkland acquisitions and improvements.

The Government That Works for All outcome includes five-year spending expected at \$1.3 billion and is the second-largest component in FY 2021-22, with \$370.0 million. The Government that Works for All outcome includes projects funded by the City-owned electric utility, Austin Energy, which has five-year planned CIP spending of \$1.1 billion in this strategic outcome. Overall, much of Government that Works for All CIP spending focuses on critical information technology, equipment, and facility replacements and rehabilitations

Citywide that ensure the Austin's infrastructure supports the services required from a rapidly growing population.

The five-year CIP spending plan aligned to the Safety outcome includes \$605.1 million, with \$172.0 million planned for FY 2021-22. Safety encompasses Fire, Police, and Emergency Medical Services Departments, which comprise \$116.4 million of the Safety five-year CIP planned spending. Austin Water also contributes to Safety spending through ongoing water and wastewater treatment plant infrastructure improvements, which ensure safe and reliable drinking water for all community members and visitors. Additionally, Communications and Technology Management is continuing purchases of critical equipment, such as radio replacements and upgrades, along with wireless vehicle equipment necessary for public safety communications. Lastly, the Watershed Protection Department is

continuing its work on flood mitigation buyouts and Waller Creek District improvements.

The Economic Opportunity & Affordability outcome anticipates spending \$217.3 million over the next five years, with \$118.6 million planned for FY 2021-22. The Housing and Planning Department contributes the largest share with \$120.9 million in planned spending over five years. Proposition A from the 2018 Bond Program is the primary driver of this spending, providing for the creation, rehabilitation, and retention of affordable rental and ownership housing. Secondly, the Austin Convention Center Department plans to spend \$56.7 million over the next five years for the rehabilitation and replacement of aging infrastructure at the Austin Convention Center and the Palmer Events Center facilities.

Culture & Lifelong Learning is the smallest outcome component in terms of spending and project scope. This outcome's CIP program projects spending of \$152.2 million over the next five years, with \$31.2 million in FY 2021-22, funded mostly through Proposition B from the 2018 Bond Program. Major areas of emphasis include building improvements at various branch libraries, such as roof replacements, foundation repairs, HVAC systems, and upgrades to the interior infrastructure to improve the customer experience; artwork restoration and installation of public art through the Economic Development Department's Art in Public Places program; and improvements and rehabilitation to various Parks and Recreation Department museums and cultural facilities.

Strategic Outcome Overviews and Highlights

This budget includes many targeted investments aimed at supporting the successful pursuit of the City Council's six strategic outcomes, ten priority indicators, and the high-priority areas of homelessness and housing. In the sections that follow, department programs and initiatives are highlighted within each outcome area. Key performance data are referenced and illuminated graphically where applicable. To facilitate the reader's review, the following labels are used throughout the narrative to flag budget recommendations that are in alignment with various budget considerations:

व्य	Initiatives related to a Council resolution
© <u>Å</u> ®	Initiatives with a positive impact on equity
35	Initiatives aligned to one or more of Council's top ten indicator priorities
	Initiatives associated with recommendations from one or more of the City's Boards and Commissions
	Initiatives associated with audit findings
	Initiatives related to City's response to resiliency

Strategic Performance Measures by Outcome and Indicator Category

As the City continues to support and advance Council's priorities through our Strategic Plan (<u>Strategic</u> <u>Direction 2023</u>, SD23), focus on strategic performance measures for data driven decision making is critical. On June 5, 2020, the Office of Performance Management (OPM) announced the release of the new <u>City of Austin Strategic Performance Dashboard</u>. This dashboard is home for all strategic performance measures included in the City's strategic plan. This is the second year of transitioning from department Key Performance Indicators (KPI) to strategic measures in this document. While KPIs are not presented within the budget document, they remain measured and publicly accessible and searchable on the City of Austin's performance measures site, located <u>here</u>.

The Strategic Performance dashboard was developed to greatly improve the ease of interpreting results through presentation of trending information and other visualizations. This dashboard is a significant complement to the annual budget process and assessing how funds are allocated among the various strategic outcomes. It includes more than 200 measures and highlights the Top 10 Indicator categories prioritized by City Council.

Several of the measures in SD23 are brand new and require establishing definitions for components of the measure, assessing data availability and/or data collection requirements, assignment of staff responsibilities, data analysis and visualization development, and discussion and agreement among leadership on target setting and next steps for related programs/services. These steps require significant collaboration among staff and has created equally significant opportunities to boost skills and capabilities around data analysis and performance measurement.

All strategic performance measures are included in this document with the measure information, current target, the latest achievement to date, status of how the City is tracking to meet the established target, and trending direction. The in-depth measure sections throughout the strategic outcomes represents the top ten viewed measures on the Strategic Performance Dashboard. Further measure details including data source and story page with more information can be accessed by following any of the links. Lastly, the "lcon Legend" below is provided to navigate through the list of strategic measures following each outcome.

Dashboard reporting occurs throughout the year as data becomes available. The live dashboard link may reflect more recent data not available at the time this document was published.

Several SD23 measures rely heavily on the feedback and data received from the City of Austin's annual community survey. Due to the COVID-19 pandemic, the survey was postponed but is anticipated to be conducted in fiscal year 2022. Therefore, some measures presented on the following pages are reporting prior-year data and will be updated upon completion of the next survey. For further information, previous survey reports and presentations can be accessed at Austin Finance Online through the following link.

Targets

Each measure is developed to either observe trends over time or to monitor progress toward reaching an established target. In order to set a target, departments evaluate a number of resources including previous Council direction, industry standards or best practices, historical trends, and internal/external conditions that may impact or impede progress of the measure. In addition, at the bottom of each measure page in the <u>Strategic Performance Dashboard</u>, you will find details and definitions for the measure including how the target was calculated.

Icon Legend

Each outcome includes a table with the list of related strategic measures. Icons and labels are provided in each table to illustrate how the City is performing in relation to established targets and trends. Trend icon may represent a directional or significant change. Additionally, measures under some level of development are designated as "in progress" and noted within these tables.

Туре	Label/Icon	Definition				
	On Track	Latest achieved data is at or above target

The Strategic Performance Measures by Indicator pages are located after each corresponding Strategic Outcome section.

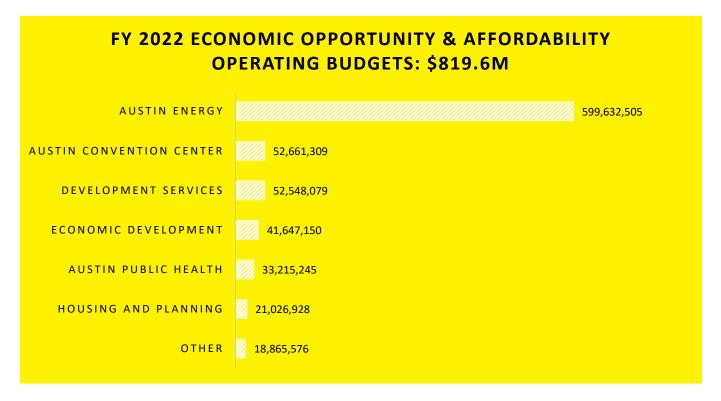

The Economic Opportunity & Affordability outcome is aimed at ensuring that every Austinite has access to economic opportunities and resources that enable them to thrive in our community, and that the necessities of life are affordable and accessible to all. Overall, \$819.6 million of the FY 2021-22 operating budget supports this outcome. Council established seven indicator categories for measuring success in the Economic Opportunity & Affordability outcome:

- Employment
- Income equality
- Cost of living compared to income
- Housing
- Homelessness
- Skills and capability of our community workforce
- Economic mobility

The largest contribution for the Economic Opportunity & Affordability outcome comes from Austin Energy (AE), comprising \$599.6 million of the total outcome, of which \$431.4 million is for power supply expenditures. AE's management of market operations, power generation, and fuel supply collectively help to keep rates as low as possible for all AE customers. Additionally, green building, multifamily rebates, small business rebates, weatherization, and customer assistance programs provide bill and energy efficiency assistance for AE customers, including those participating in AE's Customer Assistance Programs (CAP).

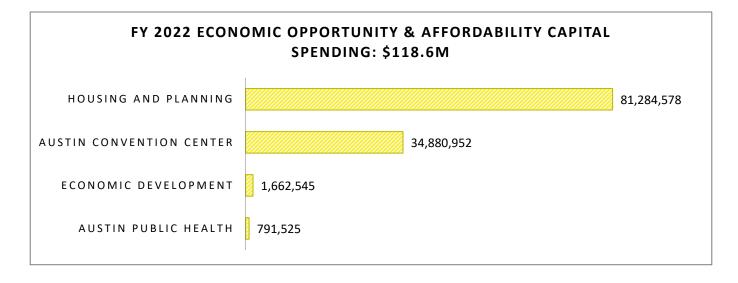

The next largest components are the Austin Convention Center and the Development Services Departments, with funding for the Economic Opportunity & Affordability outcome of \$52.7 million and \$52.6 million, respectively. Other significant contributors to the Economic Opportunity & Affordability outcome include the Economic Development, Housing and Planning, and Austin Public Health Departments, with a combined total of \$95.9 million, or 12% of the strategic outcome. Additionally, the "Other" category on the following chart includes nine departments, for a total of \$18.9 million, or 2%.

Within the Economic Opportunity & Affordability outcome portion of the Capital Improvement Program (CIP), FY 2021-22 planned spending totals \$118.6 million. The largest component of the outcome's CIP spending is Housing and Planning, with \$81.3 million, a majority of which derives from the 2018 Bond Program, Proposition A. Major project expenditures relate to development of affordable and mixed-income multifamily rental units; construction of new units for permanent supportive housing (PSH) to house persons experiencing homelessness or families meeting PSH criteria; and for the acquisition, rehabilitation, construction, and development of affordable ownership housing.

Facility improvements at the Austin Convention Center and the Palmer Events Center—including rehabilitation and replacement of aging infrastructure, the construction of the new marshalling yard, and planning for future expansions—are the second largest component of the Economic Opportunity & Affordability CIP spending plan, for a total of \$34.9 million in FY 2021-22. These improvements allow the two facilities to maintain top-quality services for vendors and visitors.

Lastly, Economic Development plans to spend \$1.7 million—almost all attributed to the Colony Park Sustainable Community Health & Wellness Center project—and Austin Public Health plans to spend \$792,000 for rehabilitation of the Austin Resource Center for the Homeless (ARCH) facility.

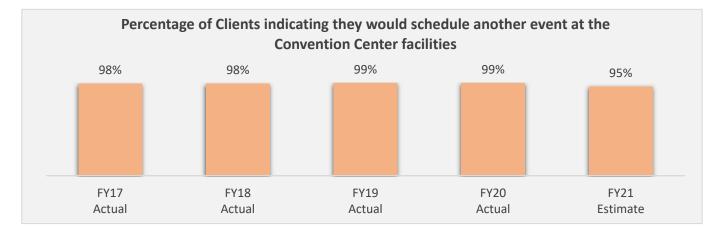

ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME - OVERVIEW

AUSTIN CONVENTION CENTER

The Austin Convention Center Department (ACCD) budget primarily aligns to the Economic Opportunity & Affordability outcome with \$52.7 million in funding. ACCD supports this outcome by increasing economic opportunities and resources for the residents of Austin and within the hospitality industry. ACCD's facilities and services attract out-of-town visitors to the community, which has a positive impact on the local economy. A healthy tourism industry helps local businesses to thrive and creates employment opportunities, which together contribute to building a vibrant, resilient, and diverse economy as envisioned by the *Imagine Austin Comprehensive Plan*. A higher level of employment increases family income, further fueling economic growth within the city.

In addition to providing direct benefits to local businesses and local employment opportunities, visitors generate significant revenue through the Hotel Occupancy Tax (HOT), vehicle rental tax, sales tax, and alcohol beverage tax. Visitor sales taxes and alcohol beverage taxes flow into the City's General Fund where they help lower the local tax burden on Austin residents and support basic City services, such as emergency response, parks, and libraries.

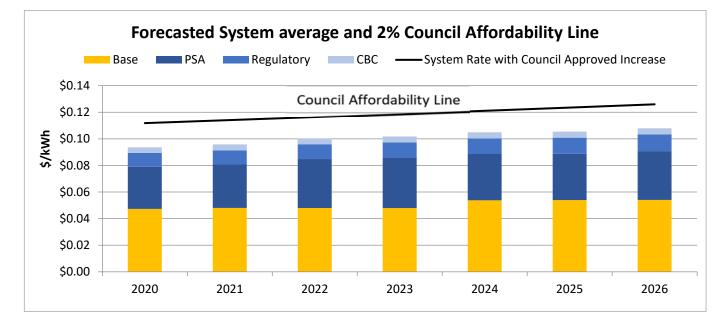

AUSTIN ENERGY

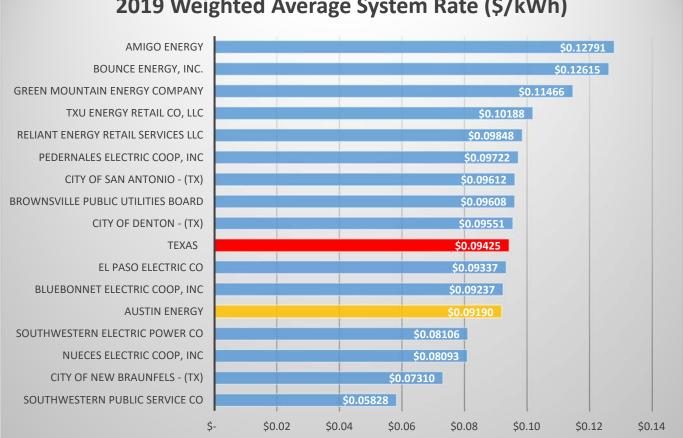

Austin Energy is the City of Austin's municipally owned electric utility serving more than 528,000 customer accounts within Austin city limits and surrounding communities. With funding of \$599.6 million, Austin Energy is the largest portion of the Economic Opportunity & Affordability outcome. Austin Energy programs under this outcome include power generation, energy market operations, green building programs, weatherization and multifamily rebates, and City of Austin's Customer Assistance Program (CAP). All power supply expenses are also included in this outcome, except for GreenChoice® fuel costs which remain within the Health & Environment outcome.

Austin Energy's programs under the Economic Opportunity & Affordability outcome allow the utility to protect customers from dramatic price swings in the electric market and better service the community by investing in energy efficiency, peak load shifting, vehicle electrification, smart grid technologies, and renewable energy resources. The FY 2021-22 budget provides Austin Energy the opportunity to deliver excellent electric service, adapt to system growth, and continue to meet all financial policies and affordability measures.

Affordability is an overarching goal for Austin Energy with a focus on maintaining system average rates at or below 2% compound annual growth starting October 2012; and average system rates to be in the lower 50th percentile, statewide. Austin Energy is currently meeting both affordability goals.

2019 Weighted Average System Rate (\$/kWh)

For published rates of other Texas cities, 2019 is the latest data.

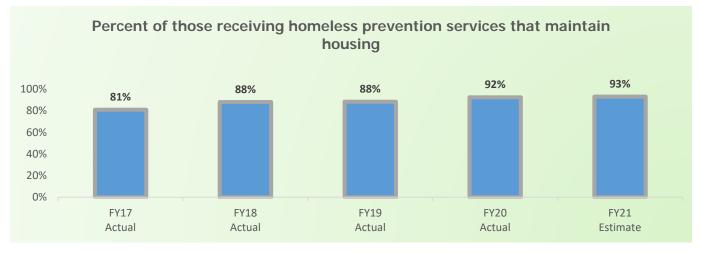

For customers in need, Austin Energy and the City of Austin have a program that brings affordability down to a more granular level. Customers on low or fixed incomes who participate in certain state, federal, or local assistance programs can benefit from the City of Austin's Customer Assistance Program (CAP) Discounts. CAP Discounts can help reduce utility bills an average of \$900 a year. Austin Energy offers rebates and incentives to residential, multifamily and commercial customers. In the residential and multifamily sectors, Austin Energy offers no-cost home energy improvements to qualifying customers with low-to-moderate incomes. The improvements reduce energy costs and enhance indoor comfort while improving indoor air quality. In residential homes, an energy assessment is completed and based on the results and available funding, Austin Energy can provide no-cost home weatherization improvements, such as:

- Attic insulation •
- Minor duct repair and replacement •
- Air filtration
- Home and duct work sealing •
- Weather stripping on doors •
- Solar screens
- Window air conditioner replacement (for qualifying customers) •
- Installation of carbon monoxide and smoke detectors
- High-efficiency lighting •
- Air conditioner equipment inspection and cleaning

AUSTIN PUBLIC HEALTH

With \$33.2 million budgeted within Economic Opportunity & Affordability, Austin Public Health (APH) is the fifth-largest contributor to this outcome and assists people in achieving stability and self-sufficiency. The Community Services program provides direct services to clients and links them to services throughout the community and at neighborhood centers. APH provides basic needs, case management, and other essential services to low-income persons to meet their immediate needs. APH expects that 14% of individuals enrolled in employment support will obtain employment, and 42.4% of clients enrolled in self-sufficiency case management will report a reduction or elimination of income barriers. These results are lower than typical years due to the changes in operations in response to the COVID-19 pandemic, but the Department expects a return to more normal operations in FY 2021-22.

Additionally, APH funds and administers social services contracts totaling \$30.2 million for Economic Opportunity & Affordability, which include an array of social services, such as workforce development, homelessness, and child and youth services. These social services provide stable housing and other essential services for low-income persons, mental health and substance abuse services for eligible individuals, training and technical assistance to childcare program providers and early education and care services.

DEVELOPMENT SERVICES

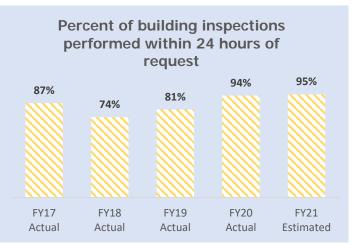

The Development Services Department (DSD) supports the Economic Opportunity & Affordability Outcome through the provision of timely and efficient plan review and building inspection services, and with resources of \$52.5 million, DSD is the third-largest contributor to this outcome. In FY 2019-20, DSD performed over 359,000 citywide inspections, an increase of over 3,000 compared to the previous year. The Development Services Department also provides a full spectrum of engagement, marketing and outreach services, as well as free permitting guidance to assist single-family homeowners, small business owners, and developers to better and more efficiently plan their development, all of which is expected to ultimately lower the cost to consumers.

One of DSD's goals for FY 2020-21 was to conduct timely plan reviews and inspections in order to facilitate a more efficient review process overall. DSD has improved on-time electrical inspections by modifying business processes, increasing staff, and reorganizing the division for more effective leadership. This has resulted in improved customer experiences and strengthened DSD's relationship with stakeholders.

Additionally, increased staff along with divisional reorganizations have enhanced DSD's ability to perform building inspections within 24 hours of request. As a result, the percentage of building inspections performed within 24 hours is trending upwards from 81% in FY 2018-19 to 94% in FY 2019-20 and is estimated to end FY 2020-21 at 95%.

Furthermore, the percentage of on-time reviews for residential building plans continues to improve. The Residential Plan Review team has increased work capacity by redirecting preliminary plan reviews and some residential building plan

reviews to the highly skilled Expedited Plan Review team. As a result, DSD's FY 2019-20 on-time performance has shown positive results, with an actual of 92%, compared to the FY 2018-19 actual of 87%.

ECONOMIC DEVELOPMENT

The Economic Development Department (EDD) contributes \$41.7 million to the Economic Opportunity & Affordability outcome. The Department's purpose is twofold: increase the commercial tax base of the City to reduce financial pressure on residents and invest in the city's rapid growth, while also reducing poverty and its associated costs and subsidies by creating new pathways to good jobs and well-paying careers.

EDD provides economic opportunities and resources to small businesses, start-up companies, entrepreneurs, creatives, and non-profit organizations to help retain over 5,000 businesses, support 50,000 jobs, provide 6,000 hours of in-person and virtual training and coaching, and provide access to workforce development to uplift 27% of participants to middle-skilled jobs.

Tools deployed by EDD include overseeing the Chapter 380 programs to offer five incentive and grant agreements and support 24 active low-interest loans and provide \$2.5 million in new loans to stimulate business and commercial activity, offering professional expertise to redevelop 242 acres of City owned land under negotiation for redevelopment. Other tools include partnerships with the Austin Economic Development Corporation (AEDC) to engage and support the development of socially beneficial real estate development projects, including \$12.0 million to support the procurement and acquisition of creative spaces.

ECONOMIC DEVELOPMENT DEPARTMENT

Global Business Expansion

Heritage Tourism

Entertainment

Redevelopment

Small Business

HOUSING AND PLANNING

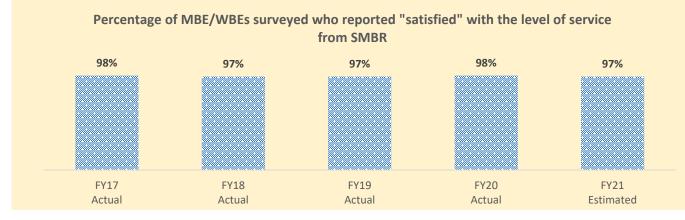

The Housing & Planning Department's operating budget includes \$21.0 million within the Economic Opportunity & Affordability outcome. The programs and activities administered by the Housing and Planning Department provide resources to better coordinate planning, zoning, housing, and community development activities that are essential to enhancing the quality of life of all Austinites. The Department prioritizes resources for displacement prevention polices,

programs, and projects that integrate comprehensive planning for related activities. Equitable, efficient, and comprehensive planning with displacement prevention as a prioritized focus is the Department's core charge in delivering housing services to the community. This enables the City of Austin to focus on issues impacting Austinities who are most vulnerable to displacement.

SMALL AND MINORITY BUSINESS RESOURCES

The Small and Minority Business Resources (SMBR) Department budget includes \$4.5 million within Economic Opportunity & Affordability through its programs for Minority-Owned Business Enterprise/Women-Owned Business Enterprise (MBE/WBE) Procurement—which provides development opportunities and resources to small, minority, and women-owned businesses participating in City contracting.

Numerous other City offices and departments also support the Economic Opportunity & Affordability outcome. These functions include:

- Expenses and administrative costs, including debt service payments, for the Whisper Valley, Indian Hills, and Estancia Hill Country Public Improvement Districts, funded by special assessment tax revenues, which cover basic infrastructure to support the development of these communities and enhance the local economy (\$5.7 million);
- Austin Water's rebates, incentives, and conservation activities geared at reducing consumer costs through demand reduction (\$730,000);
- Aviation's Business Development and Property Management, which solicits and manages concessions and real estate contracts (\$2.0 million);
- Austin Resource Recovery's Circular Economy program works toward the City's goal of reaching Zero Waste by 2040 by supporting innovation and local reuse opportunities (\$679,000).

ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME – HIGHLIGHTS

AFFORDABLE HOUSING 2018 BOND PROGRAM: Voters approved Proposition A as part of the 2018 Bond Program, authorizing a total of \$250.0 million for affordable housing. In FY 2021-22, Housing and Planning expects to spend \$79.0 million from this Proposition to continue the City's commitment to reach key affordable housing goal targets, as set forth in the Strategic Housing Blueprint.

AUSTIN CIVILIAN CONSERVATION CORPS: One-time funding of \$3.2 million is included for the Austin Civilian Conservation Corps (ACCC), a program designed to help Austinites economically impacted by COVID-19. ACCC partners with nonprofit American YouthWorks to hire and train crews to restore landscapes at City parks and conduct tree maintenance. These activities help to create more resilient landscapes while providing quality jobs and a living wage.

AUSTIN CONVENTION CENTER MARSHALLING YARD: In FY 2021-22, the Austin Convention Center will continue construction of the marshalling yard, with planned spending of \$28.5 million and a total project cost of \$44.4 million. This off-site facility will function as a staging area for clients, as well as a warehouse and office space for staff.

CHAMBERS OF COMMERCE: The Economic Development Department's FY 2021-22 Budget includes \$1.3 million for all chamber of commerce contracts. In November 2021, Council will consider a resolution to approve a funding model and methodology for contracting and funding the local chambers of commerce for FY 2021-22 and into the future. The chambers of commerce partnerships create jobs and increase the City's tax base, while also diversifying and strengthening the local economy by developing Austin's existing businesses and recruiting outside businesses to relocate to or expand in Austin. The City currently has one-year contracts with the Multi-Ethnic Chamber Alliance, the Austin Young Chamber of Commerce, Austin LGBT Chamber of Commerce, and the Greater Austin Economic Development Corporation (Opportunity Austin) to provide business development, economic development, and recruitment and retention services.

CIRCULAR CITY PROJECT: Austin Resource Recovery's Circular Economy unit within the Waste Diversion program works toward the City's goal of reaching Zero Waste by 2040 by supporting innovation and local reuse opportunities. A current focus of this group is the design and implementation of National and Global Plastics commitments. The Circular Economy unit is adding one additional position and increasing programmatic resources in the amount of \$238,000, for a total budget of \$679,000 in FY 2021-22. The new position will assist in the development of the Circular City Project to advance diversion goals within City of Austin facilities.

ECONOMIC INCENTIVE AGREEMENTS: Chapter 380 of the Local Government Code authorizes municipalities to offer incentives designed to promote economic development, such as commercial and retail projects. Specifically,

it provides loans and grants of City funds or services to promote state and local economic development and to stimulate business and commercial activity. The Economic Development Department's most direct job creation methods are City Council-authorized Chapter 380 economic performance-based agreements with targeted companies, small business services, and low-interest loans for small business expansions. These services not only create jobs, but also increase the City's tax base, diversify the local economy, and provide a strong economic foundation for all residents. The FY 2021-22 budget includes \$11.7 million to support this program.

FUNDING FOR PLANNING ACTIVITIES: The FY 2021-22 Budget includes \$1.1 million in one-time funding for Housing and Planning staff to complete various planning processes, including an Equitable Transit Oriented Development Policy Plan and geographic-specific plans. The funding will support Council's direction on equitable planning activities and engagement strategies.

HOUSING AND PLANNING FACILITY UPGRADES: The Housing and Planning Department's (HPD) budget includes \$300,000 in one-time funding for facility upgrades related to the merger of the Neighborhood Housing and Community Development and the Planning and Zoning Departments, which occurred in FY 2020-21. These upgrades—consisting of physical and structural work to include increased cubicle capacity, significant improvements to the records area, and associated office furniture—will enable HPD staff to collocate at the Street-Jones Building.

HOUSING TRUST FUND: The Housing Trust Fund will be fully funded in FY 2021-22 according to City Council's policy directions with a \$9.6 million transfer from the General Fund. The Housing Trust Fund (HTF) provides investments in program areas that benefit people experiencing homelessness, low-income communities, and those facing displacement pressures. Planned HTF investments in FY 2021-22 include the Low-Income Housing Voucher program, which will provide an ongoing operating subsidy for Permanent Supportive Housing to serve people experiencing homelessness. HTF funding will also provide capital subsidies that enable affordable housing developers to build units for people experiencing homelessness through the Continuum of Care.

REDEVELOPMENT OF CITY-OWNED LAND: The Economic Development Department (EDD) has a successful track record managing the City's redevelopment services, serving as the professional convener and conduit across numerous departments to carry out development activities that embrace a multi-disciplinary and interdepartmental approach. EDD will continue to serve as the managing department of City owned land, offering professional expertise to redevelop under-utilized City-owned tracts in various areas in Austin. To more effectively accomplish this task, a Planner Principal position will transfer from the Housing and Planning Department to execute a redevelopment strategy across the portfolio of property. EDD's FY 2021-22 budget includes \$403,000 for this service, which includes an incremental increase of \$140,000 for outside legal counsel. City staff will continue to work with the community stakeholders on planning the Colony Park Sustainable Community. This budget includes \$390,000 in ongoing funding and \$2.4 million in one-time funding for pre-development planning and other expenses.

STAFFING INCREASE FOR DEVELOPMENT SERVICES: DSD's Development Assistance Center (DAC) provides development consulting services and business-related permitting services. The FY 2021-22 budget includes four new positions for the DAC at a total cost of \$480,000 to address continued and sustained permit application volume increases, including one position specifically dedicated to expediting affordable housing requests.

ECONOMIC OPPORTUNITY & AFFORDABILITY OUTCOME - STRATEGIC OUTCOME MEASURES BY INDICATOR

The following section highlights the strategic measures for the Economic Opportunity & Affordability outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

Economic Opportunity and Affordability strategies focus on reducing economic disparities by understanding and addressing root causes, leveraging public-private partnerships, and supporting children and adults toward long-term success. These strategies also foster economic resiliency by strengthening the small business sector, aligning worker skills and employer needs, and developing an inclusive workforce. Several strategies address the need for better data and systems to ensure our efforts are cost effective and impactful to the people we serve.

INDICATOR A: Employment

The Employment indicator category includes six strategic measures. Three of the measures are on track and the remaining three are being measured without set targets or available data.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.A.1	Percentage unemployment rate	Not Available	6%	Measuring	Not Available
EOA.A.2	Number of Small Business Per Capita	3%	3%	On Track	
EOA.A.3	Number and percentage of commercial and mixed-use development permits that are issued in Imagine Austin Activity Centers and Corridors*	Not Available	51%	Measuring	Not Available
EOA.A.4	Percentage of commercial and mixed-use reviews completed on time.	Not Available	85%	Measuring	Not Available
EOA.A.5	Percentage of prime contractors that meet solicitation goals (at time of award) through the utilization of certified minority owned, women-owned, and disadvantaged businesses on applicable City of Austin contracts set by the Small and Minority Business Resources (SMBR) Department.	95%	98%	On Track	~
EOA.A.6	Number of Small Businesses Supported by City of Austin Programs	4,266	4,266	On Track	

* The data listed reflects the percentage only

INDICATOR B: Income Equality

Income Equality is composed of six strategic measures. One measure is off track and the remaining measures are in phases of development.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.B.1	Number and percentage of residents living below the poverty level (poverty rate)	Not Available	12%	Measuring	Not Available
EOA.B.2	Distribution of household income	Not Available	45.2%	Measuring	Not Available
EOA.B.3	Number and percentage of Census tracts meeting criteria for R/ECAP (Racially/Ethnically Concentrated Areas of Poverty)	Not Available	7%	Measuring	Not Available
EOA.B.4	Number and percentage of Census tracts that are economically and/or racially segregated	Not Available	35%	Measuring	Not Available
EOA.B.5	Number of jobs provided by City of Austin (regular, contract, and temporary employees) that do not pay a living wage	1	6	Off Track	\checkmark
EOA.B.6	Median Family Income	Not Available	\$97,600	Measuring	Not Available

INDICATOR C: Cost of Living Compared to Income

Eight strategic measures are included in this indicator category, which addresses the cost of living compared to income. The table below shows that two measures are on track, one measure is off track, one is near its target, and the balance are in development.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.C.1	Percentage of households paying more than 30 percent (and more than 50 percent) of income toward housing	Not Available	37%	Measuring	Not Available
EOA.C.2	Percentage of households that are considered cost-burdened based on calculation of housing and transportation costs relative to income	In progress			
EOA.C.3	Dollars per hour wage that an individual must earn to support a family in Austin.	\$22.20	\$24.12	Near Target	<
EOA.C.4	Percentage of residential units permitted in Imagine Austin Activity Centers and Corridors	Not Available	60%	Measuring	Not Available
EOA.C.5.a	Austin Energy Average Annual System Rate	\$0.11412	\$0.09367	On Track	\checkmark

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.C.5.b	Percent of Median Household Income Spent on the Average Annual Residential Austin Water Bill	1.50%	1.36%	On Track	\checkmark
EOA.C.5.c	Dollar amount and percentage increase of major rates and fees	Not Available	\$115.47	Measuring	Not Available
EOA.C.6	Number and percentage of residents that are living in an area considered to be a "Complete Community"	100%	11%	Off Track	0

INDICATOR D: Housing

This is one of City Council's top-ten indicator categories. Seven strategic measures are used to signal performance related to housing opportunities. Five measures are lacking available data and the two remaining indicator measures are off track and either trending flat or negatively.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.D.1	Number of unsubsidized affordable market- rate rental units	Not Available	129,000	Measuring	Not Available
EOA.D.2	Number and percentage of residential units considered vacant*	Not Available	10%	Measuring	Not Available
EOA.D.3	Median House Value	Not Available	\$318,000	Measuring	Not Available
EOA.D.4	Number of subsidized and incentivized rental units considered to be affordable	60,000	28,600	Off Track	
EOA.D.5	Number and percentage of residential plan reviews completed on time	Not Available	93%	Measuring	Not Available
EOA.D.6	Number and percentage of newly constructed housing units that are in the range of housing types from small lot single family to eightplex	30%	13%	Off Track	\bigcirc
EOA.D.7	Ratio of residents whose income is less than 60 percent median family income (MFI) residing in the City of Austin to residents whose income is less than 60 percent MFI residing in the Greater Austin Metropolitan Statistical Area	Not Available	56%	Measuring	Not Available

* The data listed reflects the percentage only

INDICATOR E: Homelessness

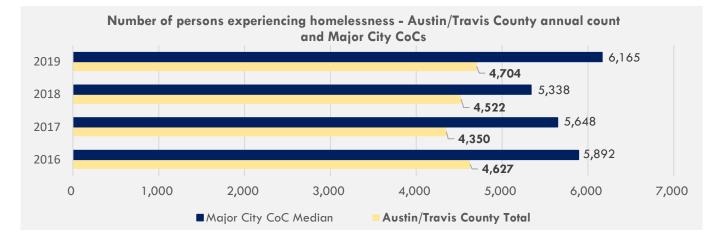

This is one of City Council's top-ten indicator categories. Nine strategic measures are used to signal performance regarding efforts to assist persons experiencing homelessness. The table below catalogues these measures. Most notably, seven of the indictor measures are on track with four reporting positive trends in comparison to prior-year data.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.E.1.a	<u>Number of persons experiencing</u> <u>homelessness - Point-in-Time (PIT) count</u>	2,275	2,506	Off Track	\bigcirc
EOA.E.1.b	Number of persons experiencing homelessness - Annual count of sheltered homeless persons in the Homeless Management Information System (HMIS)	4,700	3,371	On Track	\checkmark
EOA.E.2	Number and percentage of persons who successfully exit from homelessness*	30%	39%	On Track	\checkmark
EOA.E.3	Number of persons who have not been served by the community's homeless system in the two years prior to entry into the homeless system	3,500	2,647	On Track	
EOA.E.4	Number and percentage of people receiving homelessness services through City of Austin contracts and Downtown Austin Community Court case management who move into housing*	80%	75%	Near Target	Not Available
EOA.E.5	Number of new Continuum of Care (CoC) units constructed	50	69	On Track	\checkmark
EOA.E.6	Number of Homeless Outreach Street Team (HOST) encounters with persons experiencing homelessness resulting in potential diversions or avoided system costs	1,000	1,206	On Track	~
EOA.E.7	Number of permanent supportive housing (PSH) units dedicated to persons experiencing chronic homelessness	1,144	1,144	On Track	Not Available
EOA.E.8	Number of people who return to housing	18%	18%	On Track	\bigcirc

* The data listed reflects the percentage only

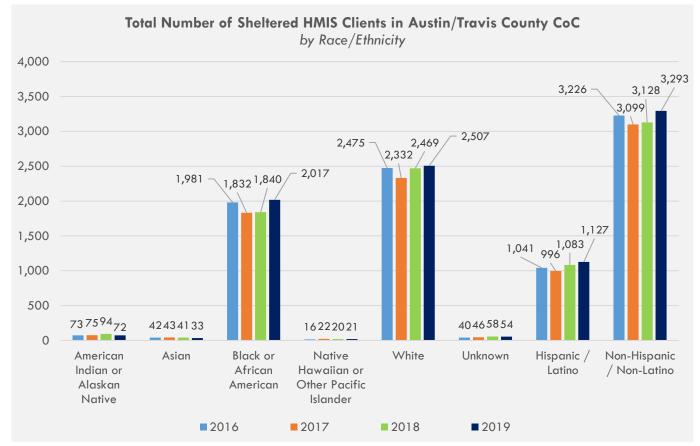

IN-DEPTH: Number of persons experiencing homelessness – annual count of sheltered homeless persons in the Homeless Management Information System (HMIS)

Continuums of Care (CoC) representing the 50 most populous cities in the United States, including the Austin/Travis County CoC, are assigned to the "Major City" CoC category by the Department of Housing

and Urban Development (HUD). This is done to better understand how homelessness differs by geography and levels of urbanization and population.

The chart below displays the number of sheltered clients in HMIS over the past four years broken out by race and ethnicity. It is important to examine the characteristics of clients being served by the homeless services system with a lens to racial equity. This helps our community recognize disparities that exist and work to eliminate them, ensuring that individuals experiencing homelessness in Austin can access and receive services without prejudice. As of May 2021, average numbers for 2020 are not yet available.

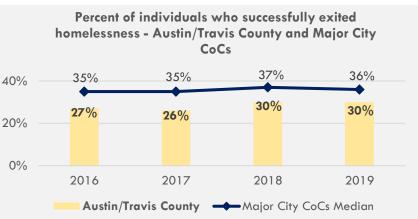

*Average numbers for 2020 are not available yet

IN-DEPTH: Number and percentage of persons who successfully exit from homelessness

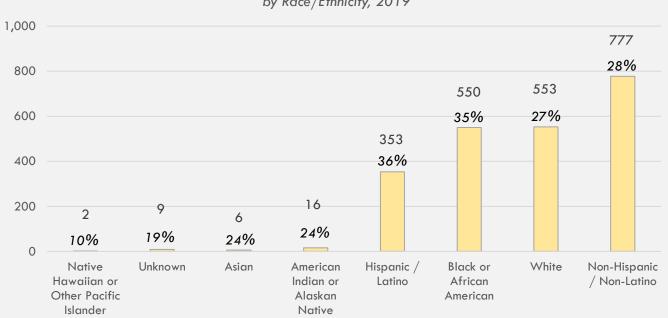

This measure represents the number of persons who successfully exit from homelessness in a given fiscal year in the Austin/Travis County Continuum of Care (CoC). The following two bullets, 7b1 and 7b2, are derived from the Department of Housing and Urban Development (HUD) and are data resources for this measure.

- 7b1: Total persons exiting emergency shelter, transitional housing, safe haven or rapid re-housing program to permanent housing.
- 7b2: Total persons exiting housing programs to permanent destinations or remaining in permanent housing for 6+ months.

The Austin/Travis County CoC is performing slightly below the national standard (average and median) for 7b1 and on target for 7b2. The average percentage of individuals who have a positive exit from emergency shelter, transitional housing, safe haven, or rapid re-housing programs has remained steady over the past three years.

The chart below displays the number and percent of individuals who successfully exit homelessness into housing broken out by race and ethnicity. It is important to examine the characteristics of clients being served by the homeless services system with a lens to racial equity. This helps our community recognize disparities that exist and work to eliminate them, ensuring that individuals experiencing homelessness in Austin can access and receive services without prejudice. As of May 2021, average numbers for 2020 are not yet available.

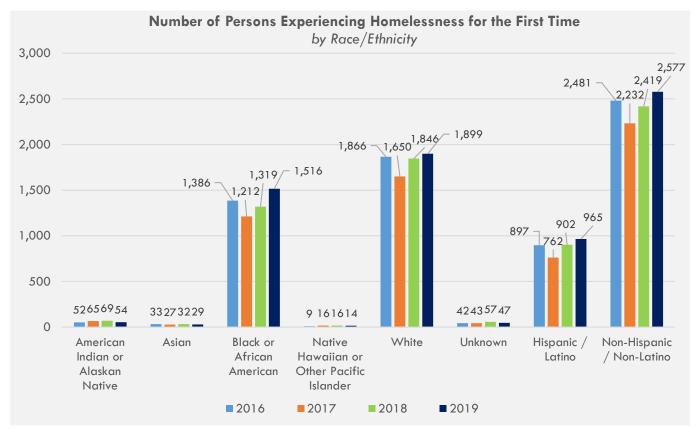

*Average numbers for 2020 are not available yet

IN-DEPTH: Number of persons who have not been served by the community's homeless system in the two years prior to entry into the homeless system

This measure represents the number of persons who are experiencing homelessness for the first time in a fiscal year (October 1 - September 30) in the Austin/Travis County Continuum of Care (CoC). This is assessed based on whether a person has received services in the past two years from any homeless services program in Austin/Travis County that inputs data into the Homeless Management Information System (HMIS) database.

The Austin/Travis County CoC is performing well above the national standard (average and median) for this measure. As you can see <u>here</u>, the number of people experiencing homelessness for the first time decreased from 3,559 in FY 2019 to its lowest level seen over the last five years of 2,647 for FY 2020. The average from FY 2016-2019 for Austin was 3,325 annually compared to 4,210 among the major CoCs representing the 50 most populous U.S. cities.

The chart below displays the number of individuals experiencing homelessness for the first time broken out by race and ethnicity. It is important to examine the characteristics of clients being served by the homeless services system with a lens to racial equity. This helps our community recognize disparities that exist and work to eliminate them, ensuring that individuals experiencing homelessness in Austin can access and receive services without prejudice. As of May 2021, average numbers for 2020 are not yet available.

*Average numbers for 2020 are not available yet

For each of the measures detailed "in-depth" above, the Ending Community Homelessness Coalition (ECHO) is leading a work group to evaluate equity within Austin's homeless services system, particularly with regards to race, and they have set the following objectives:

- Collaborate with the City of Austin Equity Office to critically analyze system tools, policies, hiring practices, housing interventions/ strategies, etc.
- Switch the responsibility of culturally congruent services from the client to the service provider(s)/ homeless system.
- Work with the CoC to ensure that all agencies/ programs working within the CoC adhere to best practices that decrease racial disparities.

INDICATOR F: Skills and Capability of our Community Workforce

This is one of City Council's top-ten indicator categories. Six strategic measures are used to signal performance related to skills and capability of the community workforce. Of these, three measures are on track, one measure is near target, and two measures are off track.

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.F.1	Number and percentage of students graduating from high school (including public, charter, private, and home schools and students earning high school equivalent data if available)*	90%	97%%	On Track	~
EOA.F.2	Number and percentage of students attending schools rated as "F" by Texas Education Agency*	0.40%	0.40%	On Track	\checkmark
EOA.F.3	Number of apprenticeship and internship positions offered by City of Austin	15	84	On Track	\checkmark
EOA.F.4	Number and percentage of people who successfully complete Workforce Development training*	40%	40%	Near Target	\checkmark
EOA.F.5	Number and percentage of digital inclusion program participants who report improved digital skills*	83%	38%	Off Track	\bigcirc
EOA.F.6	Number and percentage of children enrolled in high-quality Early Childhood Education programs (as evidenced by meeting National Accreditation and/or Texas Rising Star 4 Star level criteria) *	70%	29%	Off Track	\bigotimes

* The data listed reflects the percentage only

INDICATOR G: Economic Mobility

Three strategic measures are included in this indicator category, which addresses economic mobility. Of the below measures, one is on track, and the remainder are being measured without set targets or trend data available to date. The table on the following page lists these indicator measures.

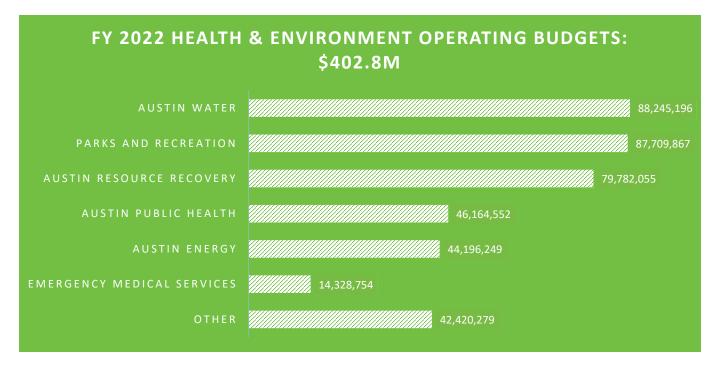

ID	Measure	Target	Latest Achieved	Status	Trend
EOA.G.2	Number and percentage of leased affordable housing units with look back periods meeting a local fair housing standard	Not Available	0	Measuring	Not Available
EOA.G.3	Number of persons moved out of poverty into middle-skill jobs	27%	31%	On Track	\checkmark
EOA.G.4	Number of households benefiting from Customer Assistance Program (CAP)	Not Available	35,600	Measuring	Not Available

The Health & Environment outcome is aimed at ensuring that every Austinite enjoys a sustainable environment and a healthy life, physically and mentally. Overall, \$402.8 million of the total FY 2021-22 operating budget supports the Health & Environment outcome. Council established six indicator categories for measuring success in the Health & Environment outcome:

- Healthy conditions among individuals
- Accessibility to quality health care services, both physical and mental
- Accessibility to quality parks, trails, and recreational opportunities
- Environmental quality
- Climate change and resilience
- Food security and nutrition

The largest cost center for Health & Environment is Austin Water at \$88.2 million, or 22% of the total outcome. Parks and Recreation and Austin Resource Recovery contribute \$87.7 million and \$79.8 million, respectively, toward the outcome, while Austin Public Health, Austin Energy, and Emergency Medical Services allocate a combined \$104.7 million. These six departments represent 89% of the total budgeted funds within the Health & Environment outcome, while "Other" includes eight other departments for a remaining \$42.4 million, as shown on the chart on the following page.

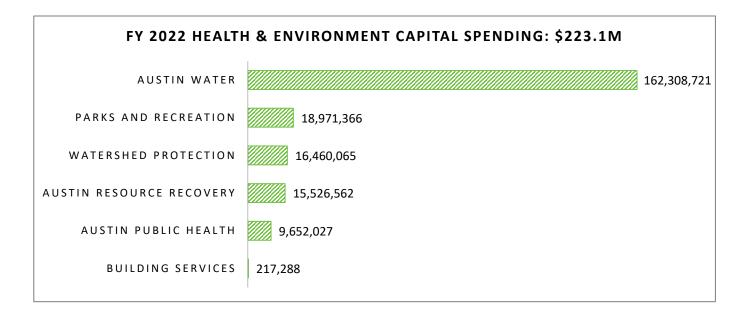

The Health & Environment outcome supports planned Capital Improvement Program (CIP) spending of \$223.1 million for FY 2021-22. Austin Water is the largest component with \$162.3 million in planned spending, which includes construction of or improvement to water, wastewater, and reclaimed water infrastructure. Major projects will provide water and wastewater upgrades and improvements through the Walnut Creek Wastewater Treatment Plan and the Advanced Metering Infrastructure projects.

Parks and Recreation ranks second with \$19.0 million in planned spending in aquatics, parks, trails, and facility improvements. Major projects for Parks and Recreation include the Seaholm Intake Facility Rehabilitation, Givens District Park Vision Plan Implementation, and Pharr Tennis Center Renovation.

Watershed Protection, with planned capital spending of \$16.5 million for the Health & Environment strategic outcome, is focusing on system-wide improvements related to drainage, erosion control, flood control, and water quality protection. Next is Austin Resource Recovery with planned CIP spending of \$15.5 million for the purchase of new and replacement vehicles and fleet technology upgrades.

Finally, Austin Public Health is including \$9.7 million for the Dove Springs Neighborhood Center project, capital rehabilitation of existing City health facilities and hotels, and Building Services is including \$217,000 for repairs to the Austin Animal Center and asbestos surveys.

The following chart highlights capital spending by department for the Health & Environment strategic outcome.

HEALTH & ENVIRONMENT OUTCOME - OVERVIEW

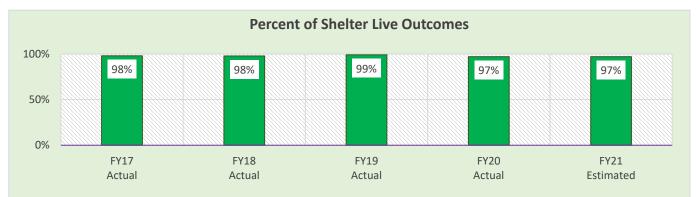

ANIMAL SERVICES

Animal Services supports the Health & Environment outcome through a \$10.2 million operating budget for pet placement and veterinarian services in Austin and the unincorporated areas of Travis County. In partnership with community organizations, Animal Services provides a safety net for lost and homeless pets and is dedicated to sustaining Austin's no-kill commitment of achieving live outcomes exceeding 95% for the companion animals that enter the shelter each year.

In FY 2020-21, the Austin Animal Center expects to be the temporary home for approximately 8,000 pets, or about 0.9 companion animals per 100 Travis County residents. With the assistance of full-time and temporary staff, volunteers, and community partners, the Austin Animal Center is on track to find positive outcomes for nearly 7,500 companion animals, more than half of which were through adoption. Additionally, animal care staff cleaned, fed, and cared for animals each day, while veterinary personnel performed thousands of spay/neuter and

emergency surgeries, in addition to providing preventative and diagnostic medical care for every animal that entered the Center. In total, it's anticipated that around 5,000 community pets and 6,800 sheltered pets received no- or low-cost spay/neuter surgeries through the Austin Animal Center and its partners. Due to the COVID-19 pandemic, the Austin Animal Center was closed to the public for much of FY 2019-20 and FY 2020-21, which lowered performance data across many different measures.

AUSTIN ENERGY

Austin Energy is the municipally owned electric utility serving more than 528,000 customer accounts in the city of Austin and surrounding communities. At \$44.2 million, Austin Energy is the fifth-largest operating portion of the Health & Environment outcome, demonstrating the Utility's commitment to the quality of our environment.

Renewable Power Generation Comparison Chart <i>(as of 2019)</i>						
Austin Energy	Texas (ERCOT)	CPS Energy (San Antonio)	USA			
43%	22%	22%	17%			
<i>Sources:</i> Austin Energy Texas (ERCOT)						

Austin Energy's investment in renewable power began in the 1990s, by blazing a trail and purchasing power from the state's first commercial wind plant. Since then, Austin Energy has continued to support green power by responsibly adding to its renewable portfolio, with plans to continue well into the future. Austin Energy's resource management has been so successful that the utility's total carbon dioxide emitting capacity in 2012 was nearly the same as it was in 1990. This achievement reflects the effectiveness in managing carbon dioxide emissions through renewable energy.

Responsible management of Austin Energy's traditional fuel assets and encouraging the use of alternative fuel sources reduces Austin Energy's reliance on higher-polluting traditional fuel sources to help improve upon its Health & Environment goals. The FY 2021-22 Austin Energy budget includes \$33.4 million for expenses related to the GreenChoice® program that tracks to this strategic outcome.

Further cementing the utility's commitment to renewable energy, City Council approved the Austin Energy Resource, Generation and Climate Protection Plan to 2030 in March of 2020. This plan increased Austin

Energy's energy efficiency and demand response goals from 900 MW by 2027 to 1200 MW by 2030. Through the efforts of the Energy Efficiency Services and Green Building programs, Austin Energy has achieved 871 MW of demand savings thus far. Austin Energy's strategy to reach 1200 MW of peak demand savings by 2030 involves a targeted mix of energy efficiency product offerings and services, including demand response programs for residential and commercial customers. In FY 2019-20 alone our programs helped benefit more than 41,000 customers directly. This goal, along with the specific target of 225MW of peak demand response are aimed at reducing overall system peak load as well as Austin Energy's overall peak demand.

Another component of Austin Energy's Health and Environment strategic outcome is the solar program which provides rebates and incentives to homeowners and businesses for qualifying photovoltaic systems. The Utility's FY 2021-22 budget includes \$5.25 million for these programs. As of October 2020, Austin Energy supports more than 10,765 residential solar energy systems, 517 commercial projects, 57 school projects, and 60 municipal projects. Residential customers can also choose solar energy with Austin Energy's Community Solar Program. Customers can go solar and meet 100% of their electricity needs with energy supplied from local Community Solar projects, which currently includes the 185 kilowatt Community Solar array at the Palmer Events Center, the 2.6 MW La Loma Community Solar Farm northeast of Airport Boulevard and Springdale Road, and the most recent installation for 1.5 MW at Austin Bergstrom International Airport. One half of the Community Solar program is reserved for CAP customers who can participate with no upfront or

ongoing cost. Austin Energy is in the midst of the Shared Solar Pilot Program to develop offerings that will enable limited-income multifamily participation on a broader scale. Unlike fossil fuels, the sun provides clean and renewable energy day after day, with no fuel costs, noise, or pollution. The use of renewable solar power reduces Austin's carbon footprint and helps protect the environment.

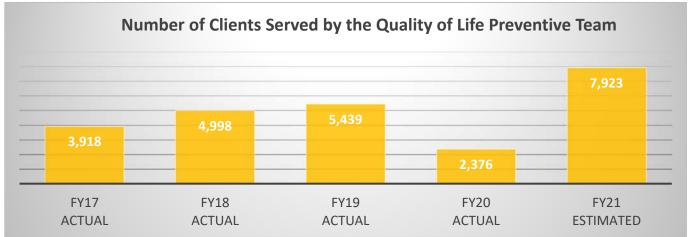

Austin Energy's Green Building team began rating homes for energy efficiency and sustainable building practices more than 30 years ago. As the first of its kind in the United States, it was the impetus for the creation of the U.S. Green Building Council and Leadership in Energy and Environmental Design (LEED) ratings. It has twice won awards from the United Nations, including the Scroll of Honour, considered the most prestigious human settlements development award in the world.

Austin Energy's commitment to environmental excellence can also be found in its environmental management programs ensuring compliance with environmental regulations and helping to reduce the utility's impact on air, water, and land quality.

AUSTIN PUBLIC HEALTH

The role of Austin Public Health (APH) is to promote community well-being and self-sufficiency, and to protect the community from infectious diseases, epidemics, and environmental hazards. To achieve these goals, APH provides a range of programs and services that promote healthy behaviors, prevent diseases, provide food protection, offer life-saving immunizations, prepare and respond to public health emergencies, and help people navigate through crises. With \$46.2 million of its operating budget aligned to this outcome, APH is the fourth-largest contributor to this outcome.

The Health Equity and Community Engagement program, which encompasses the Quality of Life program (QoL), Departmental Planning and Development, HIV Resources Administration, and Social Services Policy, works to improve health outcomes based on the social determinants of health. The program accomplishes this by working closely with community-based organizations and key stakeholders in the development of coordinated and collaborative community strategies and by developing and implementing risk reduction intervention models that support behavior change through education and social supports, with the goal of reducing chronic and communicable disease among vulnerable African American, Asian American, and Hispanic populations. In FY 2021-22, QoL staff expect to serve nearly 8,000 clients.

The Epidemiology and Public Health Preparedness program provides epidemiology and health statistics, emergency preparedness, and vital records for the community. In FY 2020-21, the Department participated in five emergency parparedness drills citywide and anticipates issuing nearly 31,000 certified copies of death and birth certificates. In addition, this program continues to lead county-wide efforts to identify, track, and help contain the spread of COVID-19 through case investigations and disease surveillance tracking.

The Disease Prevention and Health Promotion (DPHP) program provides services through the Communicable Disease and Community Health activities. These activities focus on services that screen for and prevent illnesses and other health issues, which include testing for HIV, Sexually Transmitted Diseases, and chronic diseases, as well as counseling, outreach, and education. In FY 2020-21, APH staff expect to provide over 1,000 HIV/STD tests in outreach settings.

Finally, the Environmental Health Services (EHS) program provides protection and enforcement services to the public in order to minimize environmental and consumer public health hazards. This program expects to issue around 11,000 food permits and certifications in FY 2020-21. Through its inspection and re-inspection programs, EHS expects that 90% of Austin's retail and food service fixed establishment routine inspections will result in a "substantially compliant" score.

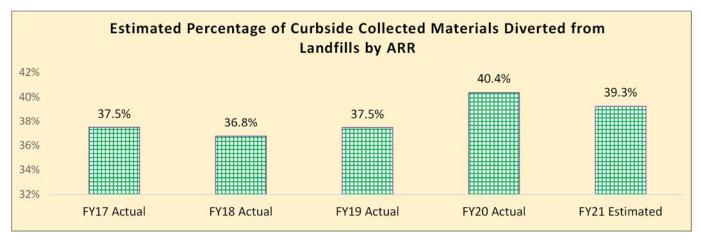

AUSTIN RESOURCE RECOVERY

Austin Resource Recovery (ARR) supports the Health & Environment strategic outcome by providing reliable and integrated waste management services for its customers. Sanitation is essential to the health and well-being of our citizens and our environment, and it remains a key focus for all collections and remediation services. ARR provides a broad range of programs, including curbside collection of trash, recycling, yard

trimmings, compost, brush, and bulk items; Central Business District trash collection; education and brownfields remediation; outreach; street sweeping; litter abatement; homeless encampment cleanup support; household hazardous waste collection; and dead animal pickup. To provide these services in a professional and efficient manner, ARR operates six different facilities within the service area. With \$79.8 million of its operating budget allocated to Health & Environment, ARR represents the third-largest component of the City's Health and Environment strategic outcome.

Zero Waste, affordability, environmental protection, and safety are the guiding principles for ARR in providing services. The 2009 Zero Waste Strategic Plan provides the Department's policy foundation, while the ARR Master Plan defines implementation strategies for improving current and future services and programs. The Master Plan serves as the Department's roadmap for investing in the projects, resources, and infrastructure necessary to achieve the diversion goal established by Council, and it guides the Department in the development of the annual budget. While ARR is currently on track with most metrics, a significant variance still exists between the goal of 75% waste diversion by 2020 as set by the current Master Plan and the projected FY 2020-21 result of 39%.

ARR completed the expansion of curbside compost collection to all households in the curbside service area in FY 2020-21, providing weekly service to more than 210,000 homes. In FY 2020-21, ARR began the process of updating the Comprehensive Plan to seek out new methods for increasing diversion from landfills and public input. This critical project is evaluating existing programs and policies, identifying opportunities for increasing diversion, and providing guidance for achieving the 2040 Zero Waste goal. Upon completion of the Comprehensive Plan Update, the Department will conduct a facilities study to comprehensively evaluate the feasibility of adding facilities to assist the Department in reaching its Zero Waste goal.

AUSTIN WATER

Austin Water invests substantial resources into achieving ambitious sustainability goals and preserving the quality of the environment and availability of natural resources. In FY 2021-22, \$88.2 million of the operating budget aligns to Health & Environment for programs geared toward water conservation, wastewater treatment, and wildlands management.

Austin Water has received Platinum Certification from the Alliance for Water Efficiency and is a member of the Water Utility Climate Alliance, allowing the Utility to share best practices and stay at the forefront of climate

adaptation strategies while also developing customer guidance for on-site reuse of rainwater, laundry water, and other water sources.

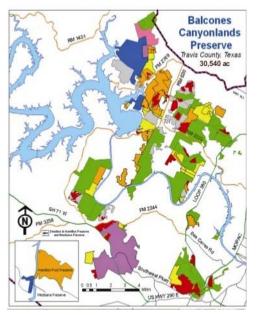

Austin Water continues to expand its reclaimed water system infrastructure by including \$6.9 million in the FY 2021-22 capital spending plan, which will allow more customers to connect for irrigation, cooling towers,

and industrial uses. Other major environmental initiatives include the management of over 44,000 acres of wildlands for drinking water protection and endangered species habitat, allowing for public access to these uniquely pristine areas.

Proper processing of wastewater effluent is critical to protecting water resources. Wastewater effluent is assessed for quality by comparing the actual level of Carbonaceous Biochemical Oxygen Demand (CBOD), in milligrams per liter (mg/L), to the permitted level mandated by the Environmental

Protection Agency and the Texas Commission on Environmental Quality. Austin's wastewater treatment measures have historically been well below the permitted level of 5.00 mg/L for the annual average.

Water's long-range conservation efforts Austin preserve environmental flows to the Colorado River and delay additional water supply costs. Gallons of water pumpage per capita per day (GPCD) measures the impact of Austin's conservation efforts over time and drives the Utility's revenue. Austin City Council adopted the goal of lowering total water use to 140 GPCD by 2020. Austin's water use in 2019 fell to 120 gallons per capita per day (GPCD), its lowest level since the City began keeping records more than two decades ago. This reflects a continuing trend of lower annual total GPCD over the last several years despite rapid population growth. This reduction was the result of a comprehensive suite of water conservation programs and measures including: once a week watering restrictions for automatic irrigation systems, a conservationoriented tiered water rate structure, reclaimed water reuse, water loss control, conservation incentive programs across all customer sectors, public education and outreach, water waste enforcement, and water efficiency ordinances for plumbing fixtures and equipment. These measures and programs have been developed

with input from customers, citizen task forces such as Water Forward, advisory boards and commissions, advocacy groups, and City Council.

Austin Water's capital spending on projects related to the Health & Environment outcome for FY 2021-22 is estimated at \$162.3 million. Project highlights include upgrades to electrical systems, replacement of aging infrastructure, and advanced metering infrastructure improvements. This spending emphasizes replacement and rehabilitation of critical assets throughout the water and wastewater systems, including pipes, valves, treatment plants, and lift stations. The focus on rehabilitation and replacement of older assets can reduce operating costs and conserve water by increasing the efficiency of the system. Austin Water continues to focus on debt management efforts of bond refinancing and debt defeasance. In addition, low-interest rate loans from the Texas Water Development Board for multiple capital projects have assisted in debt management efforts by providing substantial savings on debt service interest.

BUILDING SERVICES

The FY 2021-22 Building Services Department (BSD) operating budget includes \$5.7 million for custodial services that align with the Health & Environment outcome. Staff provide cleaning services to ensure City facilities meet or exceed sustainable cleanliness standards so that employees and citizens enjoy clean, healthy, and orderly environments. In FY 2016-17, BSD became the first department within a municipality in the nation to achieve Green Seal certification and serves as a model for other municipalities. Green Seal

certification is a strenuous process requiring BSD to maintain specific green-initiative standards in cleaning products, training programs, and recycling procedures. BSD is reviewed by a third-party auditor who will visit one BSD site annually to ensure that Green Seal guidelines continue to be followed. In March 2020, custodial services initiated cleaning strategies designed to mitigate the impact of COVID-19 and maintain a virus-free building environment, and in FY 2020-21, BSD partnered with the Office of Sustainability to contract for consulting services to explore capital improvement solutions designed to replace aged and failing building systems with those that encompass the state-of-the-art efficiency and are capable of producing energy cost savings that offset their cost.

DOWNTOWN AUSTIN COMMUNITY COURT

With a budget of \$10.0 million in operating funding for FY 2021-22, services provided by the Downtown Austin Community Court (DACC) predominantly support the Health & Environment outcome. DACC works collaboratively to support quality of life for of all residents in the Downtown Austin, West Campus, and East Austin communities through swift and creative sentencing and by providing offenders with the means and encouragement to address the underlying issues of their behavior through rehabilitation and community service restitution.

DACC seeks to identify and engage a group of individuals designated as frequent offenders, defined as individuals who have had 25 or more legal cases with the court and at least one active case in the last two years. In FY 2020-21, DACC estimates there will be 900 cases filed that will require appearance before the Court. DACC offers an intensive case management program for these frequent offenders, which includes an outreach component focused on providing wrap-around services in collaboration with other community partners. Through the community service restitution program, DACC staff supervise defendants completing community service in lieu of having to pay fines, as well as Travis County probationers. These individuals are transported throughout the city and remove brush, trash, and graffiti, which helps to keep Austin's environment clean and healthy.

EMERGENCY MEDICAL SERVICES

Emergency Medical Services (EMS) serves an important role in the healthcare community as a "safety net" organization. Accounting for an operating budget of \$14.3 million within the Health & Environment outcome, the distribution of health resources is integrated with other health care providers, public health agencies, and public safety partners to assist in providing a more comprehensive community-based health management system.

The Health & Environment services provided by EMS include the Mobile Integrated Healthcare and Community Health Paramedic Program, which provide place-based assessment, care, referrals, and enrollment

services in home, on the street, and at other various venues such as the Homeless Outreach Street Team and the Pop-up Resource Centers. As a Mobile Integrated Healthcare provider, EMS cares for people in their homes, workplaces, shelters, parks, and open spaces. Through clinical assessments and environmental scans, Community Health Paramedics (CHP) identify barriers to healthcare and provide navigation and referral services that improve access to medical care, mental health services, food, clothing, medications, and other essential services. An extensive network of service providers collaborates with CHPs to deliver services.

EMS provides numerous injury and illness prevention education programs to thousands of Austin residents every year. The Community Relations and Injury Prevention program manages various community outreach efforts. This program provides health- and safety-related information, as well as CPR training and first-aid classes to the community at-large. Programs like child safety seat instruction, infant sleep safety, cardiopulmonary resuscitation, automated external defibrillator, and other programs help prevent needless injuries and deaths in our community. Through the Child Passenger Safety program, EMS staff provided car seats, booster seats, baby-boxes, and community education to participants at 41 scheduled events in FY 2019-20. The program also reached over 6,000 people through all public education programs. The number of public education programs and events decreased significantly in FY 2019-20 because the program was temporarily suspended, due to the pandemic. EMS expects to participate in 72 of these events in FY 2021-22 and reach approximately 15,000 people.

Also included within the Health & Environment outcome are the clinical service aspects of responding to emergency and non-emergency incidents, and collecting and sharing standardized performance data to support improvements in patient care. Providing care that is respectful of, and responsive to, individual patient preferences, needs and values continues to be a priority for EMS and is monitored by an array of measures, including those that directly capture the administration of medical care to patients exhibiting signs of stroke or heart attack. The Department's goal is to administer blood glucose tests or aspirin to these patients 100% of the time to ensure system-wide response remains at optimal levels. The "Percent of Cardiac Arrest Patients Delivered to a Medical Facility with a Return of Circulation" measure is one of the best indications of the direct effectiveness of pre-hospital emergency care.

PARKS AND RECREATION

The Parks and Recreation Department (PARD) proudly operates an extensive park system that supports public access to leisure and recreational opportunities for thousands of community members and visitors daily. PARD's stewardship—over 19,000 acres of land, more than 250 miles of park trails, 163 playgrounds, six public golf courses, 34 pools, 23 community recreation and senior centers, eight performing arts venues, and three nature centers—shows its commitment to encouraging a healthy community and environment. The majority of PARD's operating budget, over 75% or \$87.7 million in Health & Environment, supports these services.

Austin is known as "a city within a park," and for good reason. PARD estimated in FY 2020-21, 66% of Austin residents living within the urban core live within 1/4 mile walking distance of a park. Zilker Park alone is 351 acres and boasts more than 3 million average annual visits as the City's most popular park. In general, parks are open for public use each day from 5 a.m. to 10 p.m., unless otherwise posted.

The National Recreation and Park Association recommends a ratio of 10 park acres per 1,000 residents for cities in Austin's population range. PARD's goal is to achieve a ratio of approximately 24 acres of parkland for every 1,000 citizens of Austin. As the population increases, park acres must also increase in order to maintain the target ratio, and as Austin's population increased nearly 20% since FY 2010-11, from approximately 800,000 to nearly 986,000 in FY 2019-20, maintaining this ratio has proven challenging. PARD generally acquires land using three funding sources: public improvement bonds, parkland dedication, and grants.

Austin's Parks and Recreation Department estimates "Satisfaction with Overall Appearance of Parks Grounds" will be more than 70%. The Department's overall satisfaction with PARD services rating of 74% is 11 percentage points higher than the national average for cities with a population of at least 250,000. For FY 2021-22, the City continues its support of PARD to be able to maintain a park system that exceeds the national standard by reflecting the values of Austin.

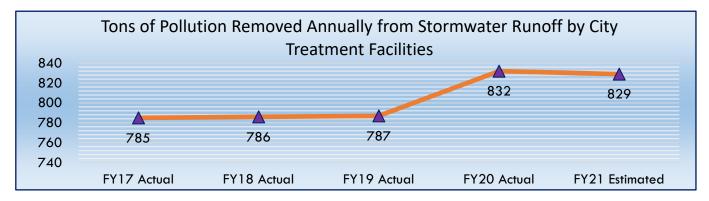

WATERSHED PROTECTION

The mission of the Watershed Protection Department (WPD) is to protect lives, property, and the environment of our community by reducing the impact of floods, erosion, and water pollution. WPD primarily supports the Health & Environment outcome through programs focused on water quality evaluation, stormwater permit compliance, stream restoration, stormwater treatment, development and implementation of regulations, watershed education, green infrastructure maintenance, the Waller Creek District, and the upkeep of Lady Bird Lake and other water bodies with an operating budget of \$7.9 million. WPD protects and improves the water quality in Austin's creeks, lakes, and aquifers for the community and aquatic life by preventing, evaluating, and reducing water pollution. To monitor and assess water quality, staff maintains a network of 29 stormwater monitoring stations 120 creek monitoring stations, as well monitoring three Austin reservoirs. The Environmental Integrity Index is a program designed to continuously monitor and assess the chemical, biological, and physical integrity of Austin's creeks and streams. Currently, all watersheds are monitored on a two-year rotating basis. Water chemistry data from multiple sites within each watershed is collected quarterly while biological and physical surveys are conducted annually.

Watershed Protection designs and constructs at least one stormwater treatment facility each year to remove pollution from stormwater runoff. Collectively, these stormwater treatment facilities removed over 832 tons of pollution from stormwater runoff in FY 2019-20. These controls help protect and improve the health of Austin's creeks, rivers, lakes, and springs to provide clean and flowing water for all.

Watershed Protection also positively impacts the environment through stream restoration—which improves a stream's ecological health—and riparian zone restoration. The riparian zone is the transition area between the aquatic environment and the terrestrial environment. Healthy riparian buffers with mature vegetation provide a wide range of critical ecological and water quality services. The program works collaboratively with other City departments, non-profit partners, and the community to restore riparian areas to improve water quality, reduce erosion and maintenance demands, and to help achieve climate protection goals. Water Quality Protection staff are now expanding the program to also include small-scale green stormwater treatment installations in parks and public-school campuses to alleviate drainage problems and enhance water quality.

Watershed Protection's Salamander Conservation Program was awarded a 2016 Recovery Champions Award by the U.S. Fish and Wildlife Service. The award recognizes efforts to promote the recovery of the endangered Barton Springs and Austin blind salamanders. These efforts include habitat protection and restoration, research and monitoring, and community outreach and education.

OTHER HEALTH & ENVIRONMENT OUTCOME PROGRAMS

Numerous other City offices and departments also play roles in supporting the Health & Environment outcome. These functions include:

- The Environmental Inspection Unit within the Development Services Department (DSD), provides environmental inspections of residential and commercial projects (\$971,000);
- The Office of Sustainability aims to achieve community-wide net-zero greenhouse gas emissions by 2050 and to promote a healthy and just local food system, resource-efficient strategies for municipal

operations, tangible projects that demonstrate sustainability, and a resilient and adaptive city (\$861,000);

- The Development Services Department's Urban Forestry Program supports a healthy urban forest and helps protect and renew Austin's tree canopy through tree review, implementation of the City's Urban Forest Plan, and targeted community outreach (\$874,000); and
- The Airport's Environmental Affairs activity implements regulatory-driven compliance programs and innovative green initiatives in order to reduce the airport's impacts on the natural environment (\$2.1 million).

HEALTH & ENVIRONMENT OUTCOME – HIGHLIGHTS

ADDITIONAL POSITIONS TO SUPPORT AUSTIN WATER: In FY 2021-22, Austin Water is adding nine new positions for a total of \$1.1 million included in the Health & Environment outcome. These include positions to support Water Forward efforts, hydraulic analysis of water, wastewater and reclaimed infrastructure; a position to support expanded reclaimed connection requirements; and a position support reclaimed distributor system modeler efforts.

AQUATICS MAINTENANCE AND CAPITAL IMPROVEMENTS:

The Parks and Recreation (PARD) FY 2021-22 operating budget contains \$85,000 for aquatics maintenance and operating expenses for Shipe and Govalle pools. There is one additional position included in the budget for \$79,000 to help with deferred maintenance across the City's aquatics program. This position is funded through the reallocation of existing resources, for a net-zero impact to the General Fund budget. In addition, PARD is in the process substantial of deliverina many capital improvement projects through the 2018 Bond Program. In FY 2021-22, PARD plans to spend a total of \$2.2 million toward the designs of a

new pool in Colony Park District Park (District 1) and completing renovations of Givens District Park (District 1), Beverly S. Sheffield Northwest District Park (District 7), and Montopolis Neighborhood Park (District 3) pools and Parque Zaragoza Neighborhood Park's (District 3) bathhouse.

AUSTIN ANIMAL CENTER SURGERY RECOVERY KENNELS: One-time funding of \$400,000 is included for large surgery recovery kennels for the vet services suite at the Austin Animal Center. Currently, there is a limited number of surgery recovery kennels, especially for large dogs, so these kennels will increase Animal Services' capacity to perform more surgeries for adopted animals, freeing up shelter space and sending home animals more quickly.

AUSTIN HEALTH AUTHORITY SUPPORT: This budget includes one new position in Austin Public Health to support the Health Authority. The cost of the position is \$80,000 and completely offset by reallocation of existing Department resources. AUSTIN RESOURCE RECOVERY ADMINISTRATIVE STAFFING ENHANCEMENTS: The FY 2021-22 Austin Resource Recovery's budget includes seven new support services positions to eliminate multiple temporary positions and keep pace with the ongoing expansion of Operations programs. These additional positions are included at a cost of \$678,000. This is partially offset by \$175,000 in reductions to funding for temporary positions.

AUSTIN RESOURCE RECOVERY AND DROP-OFF PROGRAM: ARR continues to see a high demand for recycling and hazardous waste disposal services. To maintain efficient processing, two positions are included to supplement the household hazardous waste collection workgroup at a cost of \$164,000.

DIGITAL HEALTH SOLUTIONS CONTRACT: A total of \$100,000 in one-time funding is included in Austin Public Health's budget to enhance the Digital Health Department system to expand to virtual customer service, which aligns with the City's expansion of e-Gov initiatives. One key portion of the scope of work needed to develop this on-line payment and application functionality will involve the development of transactional interfaces to link the City's new credit card processing vendor and the City's financial systems.

DOVE SPRINGS CONSTRUCTION: The Dove Springs Public Health Facility construction, funded by 2018 Bond Proposition E, is expected to begin in FY 2021-22 with planned spending of \$6.5 million and a total project cost of \$16.0 million. This construction will be for a new multi-purpose neighborhood facility to include a neighborhood service center, WIC office, childcare center, and immunization clinic.

HARMFUL ALGAE BLOOMS: Watershed Protection is implementing dynamic monitoring, testing, and communication plans for harmful algae blooms in Lady Bird Lake. In its five-year CIP spend plan, WPD expects to spend \$642,000 for identification of cyanotoxins and analysis of species, water quality testing, and treatment to sequester and bind phosphorus in sediments and to kill cyanobacteria and neutralize toxins.

HEAVY AND LIGHT-DUTY VEHICLES AND EQUIPMENT: ARR annually purchases heavy-duty and light-duty vehicles, specialized equipment, and carts to support continued operations and meet customer needs. The ARR FY 2021-22 CIP planned spending includes \$14.3 million to increase fleet size and to replace vehicles at the end of their useful life. The goal is to reduce overall maintenance costs and add new capacity to curbside collection services to align with customer growth. ARR continues to add alternative fuel vehicles to its fleet to reduce air pollutants.

LITTLE WALNUT CREEK – JAMESTOWN TRIBUTARY EROSION AND DRAINAGE IMPROVEMENTS: The Watershed Protection Department plans to spend \$200,000 in FY 2021-22, with \$6.3 million in total spending expected through

FY 2024-25, to help protect property against erosion by stabilizing about 2,500 feet of streambank. Construction is scheduled to begin in FY 2022-23. The erosion threatens or has already undermined a wide range of resources, including the culvert at Thurmond Street, storm drainpipe outfalls, parking lots of the adjacent apartment complexes, utility poles, trees, buildings, and several private fences. The project will also upgrade the storm drain system along Jamestown Drive and replace a frequently flooded culvert at Fairfield Drive with a bridge.

MULTI-FAMILY HOUSING CART SERVICE EXPANSION: In FY 2021-22, ARR will begin converting multi-family customers currently receiving dumpster service to cart service responsive to Council's directive to address trash collection equity. The expansion is expected to spread across the next two years, with half of these multifamily customers expected to receive cart service at the beginning of FY 2021-22. Due to expected customer and household density growth, three additional fulltime positions will be required in FY 2021-22. The total personnel cost for these new positions is \$218,000. Related investments in additional vehicles is \$950,000.

PARKS AND RECREATION PERSONNEL ADDITIONS: The Parks and Recreation Department's FY 2021-22 budget includes three additional positions to supplement operational needs for a total of \$332,000. These positions will assist in various activities including landscape design, IT maintenance, and program coordination, and are funded by reallocating existing resources for a net zero budget impact.

RAIN CATCHER PILOT PROGRAM: The Rain Catcher Pilot Program (RCPP) is a comprehensive effort to integrate and leverage the City's existing Green Stormwater Infrastructure (GSI) programs and resources. RCPP incorporates existing Watershed Protection and Austin Water discounts, rebates, capital funding, and educational programs with the goal of increasing the prevalence of cisterns and rain gardens that achieve both stormwater management and water conservation objectives. Watershed Protection, in partnership with the Austin Independent School District, constructed five rain gardens and 12 cisterns at Reilly

Elementary School to capture thousands of gallons of rain each year from the school's roofs and parking lots. Catching and slowly releasing stormwater will reduce the erosion and flooding problems on the property and improve the water quality and flow in the nearby Waller Creek. The project won First Place in the National Association of Flood & Stormwater Management Agencies (NAFSMA) Green Infrastructure Awards national competition. The City plans to spend \$250,000 in FY 2021-22 to fund the implementation of this new program to incentivize eligible property owners to install rain gardens, trees, and/or cisterns that capture and slow down stormwater.

STUDY TO EVALUATE AUSTIN'S RESILIENCE TO FOOD SHORTAGES: Management Services Department's FY 2021-22 budget includes \$250,000 in one-time funding to evaluate how our regional food supply chain could be made more resilient in the face of potential disruptions or disasters. The Office of Sustainability plans to collaborate with Johns Hopkins University School of Public Health, community stakeholders, and expert consultants to better understand food supply risks and how we can take proactive steps to increase local food system security. Evaluating Austin's resilience to food shortages will also be integrated into the broader effort to develop an Austin Travis County Food Plan.

WATER QUALITY PROTECTION LANDS: In 2018, City of Austin voters approved \$72.0 million towards the purchase of open space lands as part of the Water Quality Protection Lands Program through Proposition D of the 2018 Bond Program. The purpose of this conservation land is to protect the quality and quantity of water in Austin's aquifers, springs, greenbelts, and parks; mitigate flooding; and preserve open space in perpetuity. In FY 2019-20, the City of Austin acquired 1,010 acres of open space, bringing the total acreage of the Water Quality Protection Lands to more than 30,000 acres. The Watershed Protection

Department, in partnership with Austin Water and the Office of Real Estate, plan to acquire additional open space in FY 2021-22 using 2018 Bond Program funding. Through FY 2019-20, \$24.0 million, or 33%, of Proposition D has been spent, and due to the unknown timing of land acquisition, a specific spend plan amount is not included in the Department's five-year CIP plan for open space acquisition.

HEALTH & ENVIRONMENT OUTCOME - STRATEGIC MEASURES BY INDICATOR CATEGORY

The following section highlights the strategic measures for the Health and Environment outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

The Health and Environment outcome focuses on ensuring that every community member is presented opportunities to live a full, healthy life, recognizing that a healthy environment is essential. The strategies related to this outcome address disparities within our community, by building on successful programs so that all can access healthy food, recreational opportunities, and quality health care when needed. By building stronger community connections and protecting people and the environment from the long-term effects of a changing climate and growing population, we can become a healthier, more resilient community.

INDICATOR A: Healthy Conditions among Individuals (Absence of Unhealthy Conditions)

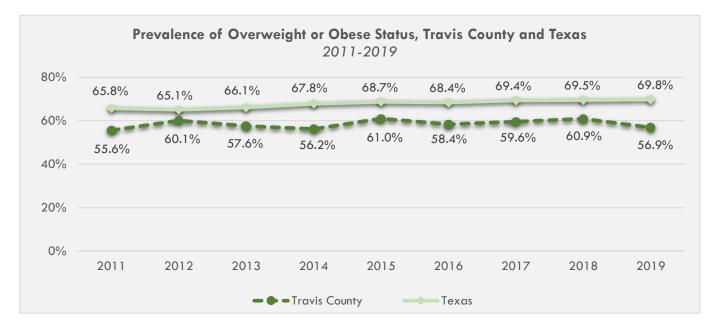

Five strategic measures are included in this indicator category, which addresses the mental and physical wellbeing of Austinites. Three measures met or exceeded their targets and exhibit a positive trend when compared to the prior reporting period. The remaining two measures performed near target (H.E.A.5) or were measured without a set target or available data (H.E.A.1).

ID	Measure	Target	Latest Achieved	Status	Trend
HE.A.1	Years of potential life lost before age 75 per 100,000 population	Not Available	4,618	Measuring	Not Available
HE.A.2	Percentage of people who report 5 or more poor mental health days within the last 30 days	23%	22%	On Track	\checkmark
HE.A.3	Percentage of adults whose body mass index (BMI) is considered overweight or obese	60%	57%	On Track	\checkmark
HE.A.4	Percentage of residents with cardiovascular disease	7%	5%	On Track	\checkmark
HE.A.5	Number and percentage of clients served through City's health equity contracts who achieve intended healthy outcomes (e.g. healthy infant birth weight)	80%	77%	Near Target	Not Available

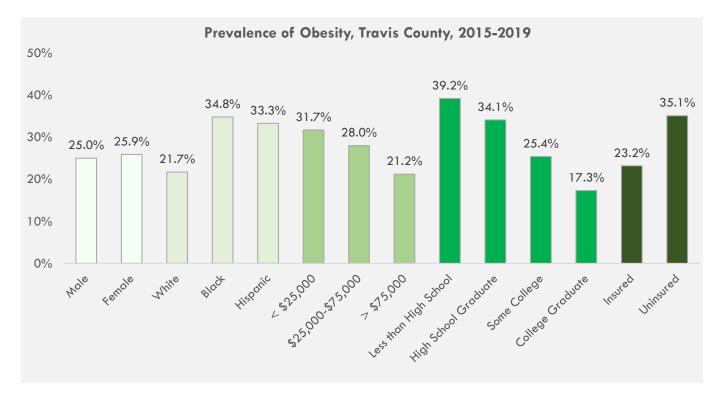

IN-DEPTH: Percentage of adults whose Body Mass Index (BMI) is considered overweight or obese

Body Mass Index (BMI) is a number calculated from an individual's height and weight that classifies their weight into various categories of health including underweight, healthy weight, overweight, and obese. This measure aims to capture the percentage of residents that have a BMI that meets the criteria of overweight or obese. BMI data for populations in Texas for 2019 were recently made available. As of 2019, it is estimated that 56.9% of residents in Travis County are overweight or obese. This estimate is a decrease

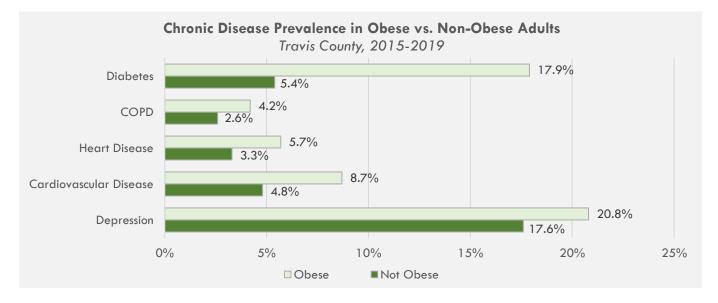

from the prior-year estimate of 60.9% in 2018. As reported in previous years, the frequency of being overweight or obese is lower for Travis County in 2019 (56.9%) as compared with the state of Texas (69.8%). The prevalence of overweight or obese residents has consistently been slightly lower for Travis County residents than for Texas residents overall. While this has fluctuated gradually from 2011-2019, 2019 is the lowest value in the past five years.

Comparing prevalence of overweight and obese adults highlights how various demographics may have an impact on the measure. Obesity is higher among Hispanics and non-Hispanic Blacks compared to non-Hispanic Whites. Differences are also apparent when comparing these values against education level and household income. Travis County has a higher reported occurrence of obesity among individuals who make less than \$75,000 annually and individuals whose highest level of education is less than some college.

Measuring the prevalence of obese and overweight adults within Travis County is valuable because of its relationship to chronic disease. The chart titled "Chronic Disease Prevalence in Obese vs. Non-Obese Adults," examines, of individuals that are obese (or not obese), what percentage have a chronic health condition. The largest difference in this data shows 17.9% of people that are obese in Travis County have diabetes compared to 5.4% of people that are not obese.

Many high risk populations were impacted by COVID-19 infection control measures that resulted in limited access to physical activity spaces such as parks, schools, and open spaces. Many lost jobs or suffered reduced wages which limited their access to fresh and healthy foods. Virtual school and work left many families without daily opportunities to be physically active. COVID-19 response efforts recognized the gaps in food access and worked with social service partners to provide food distribution opportunities throughout the community. Additionally, services such as diabetes education and Walk Texas and More! launched virtual platforms to provide support and provided tips on how to stay active during the pandemic.

Austin Public Health (APH) provides numerous programs and initiatives to promote healthy eating and active living. These include the creation and implementation of the first-ever Austin and Travis County Active Living Plan, diabetes education/prevention classes, yoga, and Walk Texas and More!, which encourage individuals to get active through walking and other forms of exercise. APH works with schools, workplaces, neighborhoods, and the faith-based community to implement policies, systems, and environmental changes that make it easier to be healthy

where people live, work, learn, play, and pray. To improve access to healthy food, APH works with local corner stores to provide fresh fruits, vegetables and prepared meals, and contracts with Farmshare Austin to provide mobile markets that offer produce and healthy staple goods in communities facing barriers to fresh foods.

Community partners are also working in coordination with APH to collectively improve obesity-related chronic disease outcomes. The 2017 Community Health Assessment identified chronic disease as a focus area. In response, community advocates and partners are implementing the Community Health Improvement Plan. The plan includes specific activities to reduce obesity and increase healthy eating and physical activity. These collaborative approaches to health are working to

ROB NSON

create environments that support, protect, and improve the well-being of all communities.

INDICATOR B: Accessibility to Quality Health Care Services, Both Physical and Mental

This is one of City Council's top-ten indicator categories. Seven strategic measures are used to signal performance related to quality health care services. The measures tell contrasting stories. Two measures are meeting their targets and are trending in a positive direction while two other measures show declining trend, but are meeting or near target. The remaining measures do not have set targets or data available.

ID	Measure	Target	Latest Achieved	Status	Trend
HE.B.1	Percentage of residents younger than 65 with no health insurance coverage	22%	22%	On Track	\checkmark
HE.B.2	$\frac{\text{Percentage of residents} \geq \text{age 65 who received}}{\text{a core set of preventive clinical services in the}}$	18%	18%	On Track	\checkmark
HE.B.3	Infant mortality rate (number of deaths of infants younger than 1-year-old per 1,000 live births)	Not Available	5.1	Measuring	Not Available
HE.B.4.a	Rate of deaths by suicide (Number of deaths per 100,000 population)	Not Available	15.3	Measuring	Not Available
HE.B.4.b	Rate of deaths by unintentional overdose (Number of deaths per 100,000 population)	Not Available	14.6	Measuring	Not Available
HE.B.5	Number and percentage of clients supported through the City of Austin, including community- based preventative health screenings, who followed through with referrals to a healthcare provider or community resource*	85%	79%	Near Target	igodot
HE.B.6	Number of Eligible Clients receiving Services through our Immunization Program	12,000	7,785	On Track	\bigcirc

* The data listed reflects the percentage only

INDICATOR C: Accessibility to Quality Parks, Trails, and Recreational Opportunities

This is one of City Council's top-ten indicator categories. Five strategic measures are used to signal performance related to access to quality parks, trails, and recreational opportunities. Of these, three measures are on track, one is near target, and one is being measured without a set target. In this indicator category, Austin's ParkScore stands out because it has an on-track status and is trending positive in comparison to other indicator measures.

ID	Measure	Target	Latest Achieved	Status	Trend
HE.C.1	Percentage of residents who have access to parks and open spaces	65%	64%	Near Target	\Diamond
HE.C.2	Austin's ParkScore Ranking	35	37	On Track	\checkmark

ID	Measure	Target	Latest Achieved	Status	Trend
HE.C.3	Percentage of residents satisfied with Parks and Recreation programs and facilities	65%	66%	On Track	\mathbf{O}
HE.C.4	Percentage of Parks and Recreation programs and services that are ADA accessible	35%	41%	On Track	Not Available
HE.C.5	Number and Percentage of Linear Miles of Newly Constructed Sidewalks and Urban Trails that Lie within Census Tracts with Low Levels of Leisure-time Physical Activity Among Adults Aged 18 Years or Older*	Not Available	45%	Measuring	Not Available

* The data listed reflects the percentage only

INDICATOR D: Environmental Quality

Six strategic measures are used to signal performance related to access to environmental quality. These measures span air quality, the quantities of materials diverted from landfills, and the health of lakes and creeks. For this indicator, one measure is on track, two are near target, and the remainder are either off track or are being measured without a set target. Notable in this indicator category is that the percentage of creeks and lakes in good to excellent health has held steady since 2017.

ID	Measure	Target	Latest Achieved	Status	Trend
HE.D.1	Number of Days Per Year of Good Air Quality	365	233	Off Track	\bigcirc
HE.D.2	Number of Days Per Year in Which Ground Level Ozone Concentration Exceeds EPA Standard	0	2	Off Track	\checkmark
HE.D.3	Number and percentage of creeks and lakes in good or excellent health	82%	79%	On Track	
HE.D.4	Estimated Number of Tons and Percentage of Curbside-Collected Materials Diverted from Landfills by Austin Resource Recovery	40.65%	40.24%	Near Target	\mathbf{O}
HE.D.5	Percentage of Austin's total land area covered by the tree canopy	Not Available	36%	Measuring	Not Available
HE.D.6	Number of Gallons of Water Pumped from Treatment Plants per Capita per Day (GPCD)	124	127	Near Target	\mathbf{O}

INDICATOR E: Climate Change and Resilience

The third Council top-ten indicator for this outcome is Climate Change and Resilience. Six strategic metrics are used to measure our performance related to climate change and resilience. Two measures are on track

and four measures are off track (*relative to target*). Most notable in this indicator category is that four of the six measures are trending in the direction.

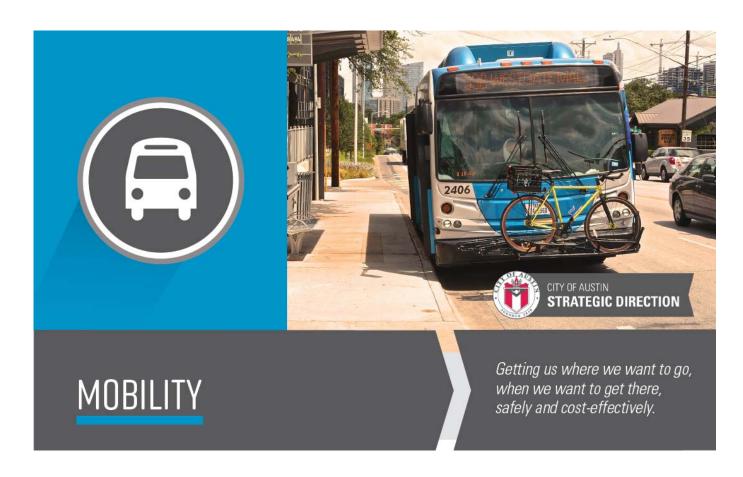

ID	Measure	Target	Latest Achieved	Status	Trend
HE.E.1	<u>Community carbon footprint (number of metric</u> <u>tons of carbon dioxide emissions)</u>	11,900,00	13,100,000	Off Track	${igsid}$
HE.E.2	Percentage of residents who report having frequent contact with friends and neighbors outside of their home	75%	78%	On Track	\checkmark
HE.E.3	<u>City of Austin carbon footprint (number of</u> metric tons of carbon dioxide emissions from our government activity)	42,100	42,100	On Track	\checkmark
HE.E.4	Percentage of total energy consumed that is generated by renewable power sources	46%	41%	Off Track	<
HE.E.5.a	Number of buildings, roadways, and properties with reduced flood risk due to City efforts	105	67	Off Track	\checkmark
HE.E.5.c	Number and percentage of buildings, roadways, and properties where exposure to wildfire risk decreased due to City efforts*	500	122	Off Track	0

* The data listed reflects the percentage only

INDICATOR F: Food Security and Nutrition

The concluding indicator category for the Health & Environment outcome addresses food security and nutrition. All four strategic measures are reporting results, but some only have one year of available data. In terms of status, the results are mixed. One measure is on track, two measures are off track, and one measure is near target.

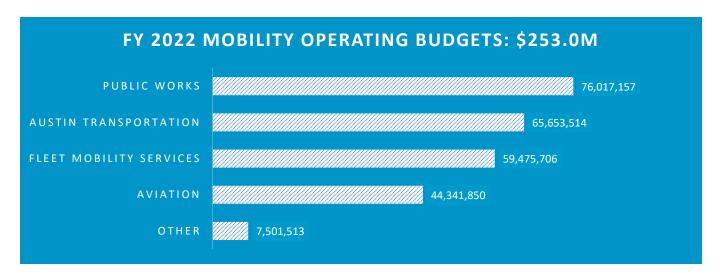

ID	Measure	Target	Latest Achieved	Status	Trend
HE.F.1	Percentage of residents experiencing food insecurity	17%	18%	Near Target	
HE.F.2	Percentage of food insecure residents that are living in proximity to a City-supported fresh food access point	25%	22%	Off Track	Not Available
HE.F.4	Percentage of residents eligible for federal food assistance programs and who are currently enrolled	50%	35%	Off Track	\mathbf{O}
HE.F.5	Number of City supported fresh food access points in census tracts with higher than average food insecurity rates	71	71	On Track	Not Available

The Mobility outcome is about getting us where we want to go, when we want to get there, safely and costeffectively. Overall, \$253.0 million of the FY 2021-22 operating budget supports the Mobility outcome. Council established five indicator categories for measuring success in the Mobility outcome:

- System efficiency and congestion
- Transportation cost
- Accessibility to and equity of multi-modal transportation choices
- Safety
- Condition of transportation-related infrastructure

The largest cost drivers for the Mobility outcome within the operating budget come from the Public Works, Fleet Mobility Services, Austin Transportation, and Aviation Departments. Collectively, these service areas comprise \$245.5 million, or 97% of the total Mobility outcome. The next largest component comes from Austin Energy, with funding for the Mobility outcome of \$2.8 million, primarily related to electric vehicles and emerging technologies. The Project Connect Office within Management Services supports this outcome with \$2.4 million in funding. Finally, the Parks and Recreation Department aligns to this outcome with \$2.3 million in funding to maintain City trails and provide transportation services for the senior population. Together Austin Energy, Management Services, and Parks and Recreation are categorized as "Other" on the chart on the following page, which illustrates the total FY 2021-22 operating budget for this outcome.

The Mobility strategic outcome supports \$371.5 million in Capital Improvement Program (CIP) planned spending for FY 2021-22. The Austin Transportation and Aviation Departments represent the largest components of the Mobility outcome planned CIP spending.

Austin Transportation represents the largest contribution to capital spending in the Mobility outcome with \$152.3 million planned. Through its capital program, the Department seeks to meet the safety and multimodal mobility needs of the community, reduce the impact of traffic congestion, provide more transportation choices, reduce the number of vehicle miles traveled within the city, and expand the use of alternative fuel vehicles to address environmental and energy-related issues caused by transportation.

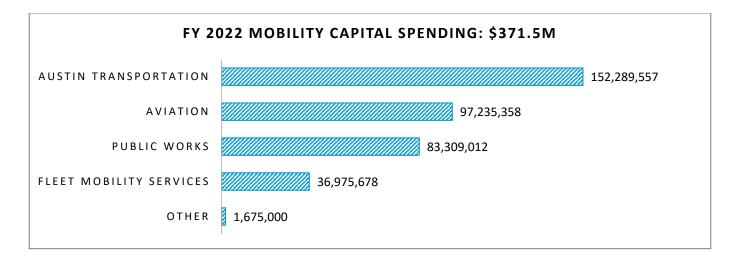

Aviation—the second-largest contributor at \$97.2 million—has several large projects, all guided by the AUS 2040 Master Plan. Main projects are improvements to the centralized baggage handling system that will increase baggage screening capacity and meet existing and long-term demands, and the new Cargo Development East warehouse facility with include cargo airside access as well as trailer staging and employee parking. Other projects include airfield electrical and pavement improvements, terminal modernization, and stormwater infrastructure renovations.

In conjunction with Austin Transportation, Public Works' capital program is the third largest at \$83.3 million. Working collaboratively with Austin Transportation and other City departments' capital delivery programs, the Department works to connect Austin with safe and reliable infrastructure through street, bridge, and structure improvements; sidewalk, bikeway, and urban trail reconstruction and rehabilitations; and the Safe Routes to School Program.

Fleet Mobility Services follows with \$37.0 million in planned capital spending for FY 2021-22. Fleet's capital program primarily focuses on vehicle and equipment purchases and reinvestment in Fleet service centers and fueling facilities, as well as upgrading and implementing information technology that will allow for improved services.

Additionally, as part of the 2020 Bond Program, voters approved \$460.0 million in capital improvements for Proposition B: Transportation Infrastructure. This Proposition provides funding for the City's existing transportation infrastructure, such as bikeways, local transit enhancements, major capital projects, safe routes to school, safety/Vision Zero, sidewalks, substandard streets, and urban trails.

The following chart highlights capital spending by department for the Mobility strategic outcome, and the "Other" category includes planned capital spending by the Parks and Recreation and the Economic Development Departments.

MOBILITY OUTCOME - OVERVIEW

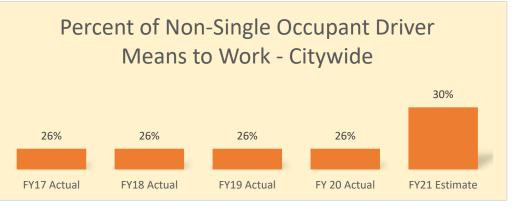

AUSTIN TRANSPORTATION

The Austin Transportation Department (ATD) comprises 26% of the Mobility outcome using a \$65.7 million operating budget to deliver a safe, reliable, and sustainable multi-modal transportation system that enhances the environment and economic strength of the region for residents, businesses, and visitors. ATD is responsible for the following aspects of transportation, mobility, and safety: roadway signage and markings, traffic engineering, traffic and pedestrian signals, ground transportation service regulation, on-street parking, parking meters, City-owned parking lots and garages, transportation systems planning, the active transportation

network, permitting of special events in the City's right-of-way, permitting and coordination of construction and maintenance in the City's right-of-way, traffic calming, and implementation of the Corridor Construction Program as part of the 2016 Mobility Bond.

ATD continually seeks other ways to track and improve congestion on roadways and city travel times for commuters. New this are key year performance indicators that measure progress in achieving the goals in the Austin Strategic Mobility Plan and the

Mobility outcome of Strategic Direction 2023. First, the ratio of average peak period travel time to average free flow travel time provides data about traffic flow during peak and non-peak travel times. This information provides travelers with time and reliability data for all modes of transportation. ATD is also seeking to increase the amount of non-single occupant drivers commuting to work. In FY 2019-20, 26% of drivers chose other means, such as public transportation, carpools, and bikes. As the 2016 Mobility bond,

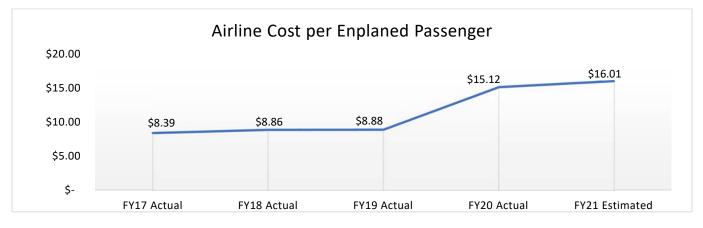

2018 Bond Program, and department initiatives emphasizing available transportation alternatives enhance multi-modal and alternative transit options, ATD expects a reduction in the number of single-occupancy vehicle trips in the region over the long-term.

AVIATION

The Aviation Department's FY 2021-22 operating budget aligns \$44.3 million with the Mobility outcome. The Aviation Department operates the Austin-Bergstrom International Airport (AUS), which opened in 1999 and has seen passenger growth at an annual rate of almost twice the national average since that time. Aside from the COVID epidemic, the Barbara Jordan Terminal had exceeded its capacity of annual passengers. The FY 2021-22 operating proposed budget supports the Mobility outcome, for managing and maintaining the various terminal and parking facilities at the airport.

The airline cost per enplaned passenger is one of the Aviation Department's performance measures and a key indicator for the airport industry. In FY 2019-20, over 4.7 million passengers departed from AUS. This measure is a function of airport costs and enplanement trends. The Aviation Department is expecting a full recovery from the unprecedented decline in passenger volume due to the COVID-19 pandemic by FY 2023-24. In anticipation of the COVID-19 vaccine deployment and the increase in its availability to the public, the Department is projecting 6.8 million enplanements in FY 2021-22 compared to the current year estimate of 3.7 million enplanements in FY 2020-21, which translates into an 86% growth rate. Due to these projected increases in enplanements, the Department is expected to reach 81% of our pre-pandemic FY 2018-19 enplanements of 8.5 million.

Despite the recent decrease in passengers due to the COVID-19 pandemic, the Department has continued to move forward with some of its capital program. The construction of the new Information Technology facility began in 2020 and is scheduled to be complete in 2022. This building will provide a modern, secure and expanded facility to allow for 20 years of growth.

FLEET MOBILITY SERVICES

Fleet Mobility Services is the third-largest component of the Mobility outcome at 24%, for a total operating budget of \$59.5 million. Fleet Mobility Services provides a full range of maintenance and repairs on behalf of customer departments to ensure safe and reliable vehicles and equipment are available to serve the public. Fleet Mobility Services is responsible for the acquisition, maintenance, fueling, and disposal of over 7,100 vehicles and other related equipment utilized by the City, and the service centers comprise 51% of Fleet's Mobility outcome operating budget. More than 5.8 million gallons of fuel is used annually, with 72% of this total consisting of alternative fuels. Fleet Mobility Services' mission is to implement transformational strategies that optimize fleet costs and sizing to meet the mobility needs of City of Austin departments and employees. As part of Fleet Mobility Services' green fleet optimization strategies, Fleet's capital budget

Alternative Fuel, Hybrid, or Electric Capable Units as a Percent of Total Units Operated 90% 88% 86% 83% 85% FY17 **FY18 FY19** FY20 FY21 Actual Actual Actual Estimated Actual

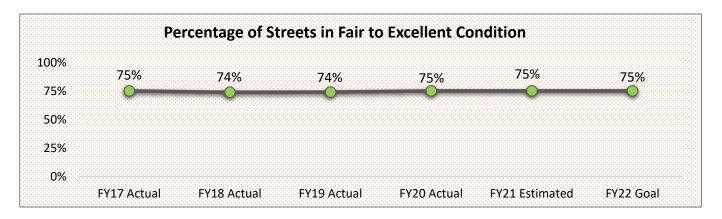

invests in alternative fueling infrastructure, which includes electrification, biodiesel, compressed natural gas, E85 and propane.

PUBLIC WORKS

The Public Works Department (PWD) is the largest contributor to the Mobility outcome operating budget with \$76.0 million, or 30%. PWD provides a range of services, including maintenance of streets, bridges, sidewalks, and urban trails. In support of the "condition of transportation-related infrastructure" indicator, work crews patch potholes, resurface streets, repair utility cuts, maintain the City's medians, and respond after storms. The Department uses various treatments and applications in order to improve the roadway surface and increase the lifespan of streets, with the goal of maintaining 80% of the City's 7,850 lane miles

in fair or better condition. Scheduled preventive maintenance helps prolong the life of the streets by protecting the surface from the effects of aging, cracking, deterioration, and water infiltration. Asphalt overlay inhouse and contract work is the most expensive treatment method and equates to \$18.7 million in FY 2021-22. The percentage of City streets that are in fair to excellent condition has been in slow decline since FY 2016-17 aging infrastructure, but due to with additional investments in street preventative maintenance in two of the previous three fiscal years, the Department anticipates maintaining street condition at 75% and gradually improving this metric towards the 80% goal.

The Department also manages a right-of way program for items other than pavement and bridges. These primarily include off-roadway projects, tree maintenance, mobility trails maintenance, urban trails, and inspections, totaling \$4.2 million in FY 2021-22. The Child Safety Fund, which provides school crossing guards to ensure a safe pedestrian and bicycle environment for Austin's students on the way to and from school, is also operated by PWD with a total operating budget in FY2021-22 of \$2.9 million.

With planned capital spending in the Mobility outcome for FY 2021-22 of \$80.0 million, PWD's main focus is on capital renewal of the City's aging mobility infrastructure, which includes streets, bridges, and sidewalks, but also addresses growing needs in urban trails and infrastructure to support safe routes to school. Project highlights include continuining design for reconstruction of Stassney Lane (Teri Rd to Burleson Rd), continuing design for the Redbud Trail Bridge over Lady Bird Lake, construction of improvements to prevent floosing and erosion on Fallwell Lane near the South Austin Regional Wastewater Treatment Plant and the Sand Hill Energy Center, construction of the Violet Crown Trail North, and construction of a new entrance and walkway to access the recently completed pedestrian bridge in the Colony Park neighborhood.

PROJECT CONNECT OFFICE

On November 3, 2020, Austin voters approved Proposition A to invest in a high-capacity transit system for Austin, a key recommendation in the Austin Strategic Mobility Plan (ASMP). A new local government corporation was formed, the Austin Transit Partnership, and together with the City of Austin and Capital Metro all three agencies will have key roles and responsibilities related to the implementation of the initial investment of the Project Connect system plan.

- Resolution No. 20200423-038 supporting an equitable transit system to benefit the whole community, and calling for data-driven policies and funding to prevent transportation investmentrelated displacement and ensure people of different incomes can benefit from transportation investments;
- Resolution No. 20200610-002, directing the City Manager to amend the ASMP to include the Project Connect System Plan and Locally Preferred Alternatives for the Orange, Blue, Gold, Green, and MetroRapid Lines, as adopted by Capital Metro;
- Resolution No. 20200807-003 Proposition A Contract with Voters provided specific direction to the City Manager and signaled to Austin voters key aspects and guidelines for Project Connect should it be approved by voters in November 2020;
- Resolution No. 20210204-062 directing the City Manager to develop and implement a process to utilize the initial \$23 million of the anti-displacement funds available in Fiscal Year 2021;
- March 2021 Interlocal Agreement funding the first four positions for the Project Connect Office

In the weeks following the voter approval, the City Manager's Office took action to establish the foundations to uphold the commitment to Austin Voters to implement Project Connect. This included the creation of the Project Connect Office funded by the Austin Transit Partnership. The mission of the Project Connect Office is to connect communities by supporting the delivery of the city's high-capacity transit system with a focus on collaboration, innovation, technical excellence, and efficiency. The Project Connect Office is the single point of contact for interagency and City of Austin departmental coordination and collaboration. In March 2021, the City Council approved an interlocal agreement accepting \$400,000 for hiring initial Project Connect Office staff.

In early 2021 the staff within the City of Austin Project Connect Office, the Austin Transit Partnership, and Capital Metro collaborated to identify resource and organizational development needs for implementing a capital program of this scale. The Project Connect – Office Fund's FY 2021-22 proposed budget of \$2.4 million includes a total of 18 positions primarily focused on utility coordination, design collaboration and review, permitting and coordination of the City of Austin's response to the National Environmental Protection Act requirements for the two light rail lines that are part of the overall Project Connect system plan.

OTHER MOBILITY OUTCOME PROGRAMS

Austin Energy's FY 2021-22 budget includes \$2.8 million of funding for electric vehicle programs, which provide public charging stations throughout the city, charging station incentives for residential and commercial customers, infrastructure management for the City's expanding electric fleet, support for Capital Metro, and other fleet electrification initiatives. In addition, Austin Energy provides electric vehicle education and outreach related to individuals, schools, and businesses.

MOBILITY OUTCOME – HIGHLIGHTS

ADDITIONAL CONCRETE CREW: The Public Works Department operating budget includes \$1.8 million and 8 positions for an additional concrete crew and equipment to support the growing workload with sidewalk rehabilitation and constructing ADA accessible ramps on street overlay projects as part of the Sidewalk Master Plan/ADA Transition Plan Update. The full cost of these positions and equipment will be funded through reallocation of existing funding.

ADDITIONAL POSITIONS TO SUPPORT FLEET MOBILITY SERVICES: In FY 2021-22, Fleet Mobility Services is adding six new positions for a total of \$532,000 to support Fleet operations, including the Fleet Service Centers and Vehicle Services Division. One position will help establish free floating car share and shuttle services, expand the inside rental program, and oversee the optimization of underutilized fleet across all departments. The other five new positions will support existing service demands from customer departments.

AIRPORT EXISTING TERMINAL CENTRALIZED BAGGAGE HANDLING SYSTEM: This project will increase baggage screening capacity and meet existing and long-term demands at the Airport, improving efficiency of the TSA and the flexibility of future growth and expansion. Aviation expects to spend \$37.5 million in FY 2021-22 and \$77.6 million over the life of the project.

AUSTIN TRANSPORTATION BOND PROJECTS: The Austin Transportation Department (ATD) will be making major investments in the coming year in mobility infrastructure funded by the 2012, 2016, 2018 and 2020 voterapproved bond programs. ATD's FY 2021-22 capital spending plan includes \$7.0 million from the 2012 Bond program, with major spending planned for the Burnet Road Corridor project, the E. 51st Street project, North Lamar Boulevard Corridor and the West Rundberg Lane extension. ATD expects to spend \$94.4 million in 2016 Bond program funds, primarily driven by the corridor projects. The 2016 Corridor Construction

Program encompasses work on Airport Boulevard, Burnet Road, Martin Luther King Blvd, Riverside Drive, Guadalupe Street, North Lamar, Slaughter Lane, South Lamar, and William Cannon. Meanwhile, the ATD 2018 Bond program is expected to spend \$6.0 million with focus on safety, signals and intersection improvements, and the 2020 Bond program is planned to spend \$22.4 million in FY 2021-22 with the spending led by intersection and signal improvements followed by substandard street improvements and local transit improvements.

AUSTIN TRANSPORTATION STAFFING: The FY 2021-22 operating budget of the Austin Transportation Department includes an additional \$3.0 million partial year funding for 26 positions to support growing demand for mobility improvements and the implementation of voter-approved bond projects. The total annual cost of these 26 positions is \$3.4 million.

FLEET MOBILITY SERVICES' GREEN FLEET OPTIMIZATION: Fleet Mobility Services is fully committed to the City of Austin's Community Climate Plan, which emphasizes the reduction of harmful emissions generated by the transportation sector. Actions to realize this plan include growing the City's electric fleet, ensuring availability throughout the City of necessary charging infrastructure, and investing in alternative fuels when possible. Alternative fuels comprise 72% of the more than 5.8 million gallons of fuel the City uses annually. The FY 2021-22 Fleet Mobility Services capital budget includes planned spending of \$1.5 million for new electric vehicles, and these new additions/replacements bring the City's battery-electric vehicles (BEV) fleet to a total of 330 BEV's across 22

departments. Fleet Mobility Services will continue working with Austin Energy to purchase and install over 165 electric vehicle charging ports at approximately 15 different City locations. This additional charging infrastructure is required to support the planned electrification of over 300 vehicles in the City's fleet. Electric vehicles experience lower life-cycle costs than gasoline and/or diesel vehicles, while avoiding the risk of volatile fuel prices. Reducing the use of gasoline and diesel mitigates the amount of greenhouse gases in the atmosphere by preventing emissions. Phase 1 of the project began in FY 2017-18 and has an anticipated completion date in FY 2021-22, with an additional \$1.5 million of capital spending planned for FY 2021-22.

PARKING MANAGEMENT: The Parking Management Fund (PMF), managed by ATD, utilizes \$14.7 million and 88.5 positions to oversee pay stations and meters, transportation permitting, and City-owned garages. The FY 2021-22 budget includes an additional \$797,000 and 16 positions to keep pace with the growing workload, both internally and externally. The Smart Mobility program continues to provide project management, coordination, technical support, and implementation of multi-modal and public-private partnership projects.

PUBLIC WORKS BOND PROJECTS: In FY 2021-22, Public Works has \$66.6 million in planned spending on transportation-related capital projects for the 2016, 2018, and 2020 Bond Programs. These projects include street rehabilitation, urban trail expansion, safe routes to schools, sidewalk rehab and construction, and improvements to bridges and culverts.

- Safe Routes to School: As part of the 2016 and 2020 bond programs, Public Works will be expanding infrastructure and capital spending on the City's Safe Routes to School program. Public Works' planned spend for FY 2021-22 on the program is \$8.5 million. These capital projects will help ensure safe and reliable pedestrian access for school children across the city.
- Sidewalk Repair and ADA Transition Plan: The Sidewalk Master Plan called for an investment of \$15.0 million annually to focus on updating older City sidewalks to meet ADA standard requirements. Public

Works is increasing the level of service for sidewalks in FY 2021-22 from the prior fiscal year by spending a total of \$13.2 million to improve existing sidewalks. The Department also plans to spend \$14.5 million to construct new ADA sidewalks throughout the city.

PUBLIC WORKS STAFFING ENHANCEMENT: The FY 2021-22 operating budget of the Public Works Department includes an additional \$500,000 and 11 new positions to provide needed support for the Neighborhood Partnering Program, ROW investigations, employee performance management, and the Utilities and Structures Division. Seven of these positions are replacing temporary with permanent positions, and the cost is net of a reduction in temporary employee funding.

TRANSPORTATION PERMIT REVIEW PROCESS: Beginning in FY 2021-22, the Austin Transportation Department will be the single point of review for driveway and parking decisions, traffic impact analysis and mitigation related decisions. Transferring the responsibility from Development Services Department to the Austin Transportation Department improves the current process by coordinating all transportation review and permitting under a single department and reducing the number of steps required for customers to seek additional information. The FY 2021-22 operating budget of the Austin Transportation Department includes \$354,000 and three positions, one transfer position from Development Services Department and two new positions, to support this review and permitting process.

VEHICLE ACQUISITION: Fleet Mobility Services plans to purchase 249 vehicles and related equipment in FY 2021-22 for General, Support Services, and Internal Fund departments with new capital appropriations of \$22.7 million, of which 70% is attributable to public safety departments.

MOBILITY OUTCOME - STRATEGIC MEASURES BY INDICATOR CATEGORY

The following section highlights the strategic measures for the Mobility outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

The Mobility outcome focuses on making our city and transportation network accessible and reliable for all members of our community. With an emphasis on collaboration, sustainable funding, and effective planning for the future, these strategies address our goals of providing equitable and safe access to a multimodal transportation network, reducing harmful emissions, meeting the needs of our growing community, and connecting Austin to the world.

INDICATOR A: System Efficiency and Congestion

Twelve strategic measures are used to signal performance for the System Efficiency and Congestion indicator category. Concerning these measures, six are on track, four are off track, and the remainder are being measured without an established target or data available. In terms of trend, six measures are trending positive. The remaining measures are trending negative or do not possess enough data to signal a trend.

ID	Measure	Target	Latest Achieved	Status	Trend
M.A.1	Percent split of modes based on commute to work (mode share)	50%	26.26%	Off Track	\checkmark
M.A.2.a	<u>Transit Travel Time Reliability: percent</u> <u>change in MetroBus on-time performance</u>	83%	85%	On Track	\checkmark
M.A.2.b	<u>Vehicle Travel Time Reliability: Percent</u> <u>change in the day-to-day variability of</u> <u>vehicle travel</u>	25%	19%	On Track	\checkmark
M.A.3	Percent split of modes by City of Austin employees based on commute to work, including off-peak drive-alone trips	50%	14%	Off Track	\mathbf{O}
M.A.4	Percent of development projects that meet or exceed drive alone trip targets	35%	35%	On Track	\checkmark
M.A.5.a	Change in average MetroBus travel speed	Not Available	13.9	Measuring	In Progress
M.A.5.b	Percent change in average vehicle travel time along major City corridors	3.0%	3.4%	Off Track	\checkmark
M.A.6	Number and percentage of City-owned battery-electric vehicles (BEV)	330	231	Off Track	\mathbf{O}
M.A.7	Number of AUS passenger seats available for purchase	14,200,000	14,800,000	On Track	\bigcirc

ID	Measure	Target	Latest Achieved	Status	Trend
M.A.8	Number of AUS non-stop destinations	50	67	On Track	\checkmark
M.A.9	Average time to clear crashes from major roadways	Not Available	107	Measuring	In Progress
M.A.10	Number of transportation projects, programs, and initiatives that are coordinated with partner agencies	30%	36%	On Track	Not Available

INDICATOR B: Transportation Cost

Four strategic measures are used to signal performance for the Transportation Cost indicator category. Three measures are on track or near target, however, two measures are trending negative or do not have data available. One measure relating to transportation cost is currently in progress and under development.

ID	Measure	Target	Latest Achieved	Status	Trend
M.B.1	Percentage of household cost attributed to transportation	In Progress			
M.B.2	Percent satisfaction with cost of transportation to get around Austin	31%	31%	Near Target	\bigcirc
M.B.3	Percent of households reducing the number of cars in their household	2%	9%	On Track	Not Available
M.B.4	Cost per mile of City-owned fleet	1.19	1.19	Near Target	\mathbf{O}

INDICATOR C: Accessibility to and Equity of Multi-modal Transportation Choice

This is one of City Council's top-ten indicator categories. Nine strategic measures are used to denote performance in the accessibility to and equity of multimodal transportation choices indicator category. Four measures are on track or near target, two measures are off track, and the balance do not possess available data or are under development. Current trends show that six measures are stable or trending positive. The remaining measures do not have enough data to indicate a positive or negative trend or in progress.

ID	Measure	Target	Latest Achieved	Status	Trend
M.C.1.a	Percentage of new residential units permitted within a quarter-mile of a high-frequency transit route or protected bicycle facility	60%	54%	Near Target	

ID	Measure	Target	Latest Achieved	Status	Trend
M.C.1.b	Percentage of new commercial square footage permitted within a quarter-mile of a high- frequency transit route or of a protected bicycle facility	75%	69%	Near Target	
M.C.2	Percent satisfaction with transportation options (aside from personal vehicle) to get around Austin (e.g. ride share, bus/train, bike, walk)	25%	24%	Near Target	
M.C.3	Percentage of population that has access to innovative public transit service or is within one quarter mile of regular fixed route transit	In Progress			
M.C.4	Percentage of existing sidewalks in functionally acceptable condition	95%	37%	Off Track	-
M.C.5	Percentage of participants in mobility public engagement processes that identify as African American, Asian, Hispanic/Latino, Indigenous, Pacific Islander, and/or other people of color	In Progress			
M.C.6.a	Percent of missing sidewalks	0.45%	0.56%	On Track	\checkmark
M.C.6.b	Percent of all ages and abilities bicycle network completed	50%	38%	Off Track	\checkmark
M.C.7	Percent of people working in Austin that come from outside Austin	Not Available	57%	Measuring	Not Available

INDICATOR D: Safety

Six strategic measures are used to signal performance for the Safety indicator category. Two measures are on track, three measures off track, and one measure is under development. Trends indicate that all five measures with available data are moving in positive directions. Targets for M.D.1-M.D.3 reflect Austin's <u>Vision Zero</u> strategy to end traffic-related fatalities and serious injuries, while increasing safe, healthy, and equitable mobility for all.

ID	Measure	Target	Latest Achieved	Status	Trend
M.D.1	Number of people and number of people per 100,000 residents who are killed or sustain serious injuries in traffic crashes*	0	51	Off Track	\checkmark
M.D.2	Number and percentage of crashes resulting in fatalities or serious injuries caused by the top contributing behaviors (speeding, distracted driving, impaired driving, failure to yield)**	0	263	Off Track	\checkmark

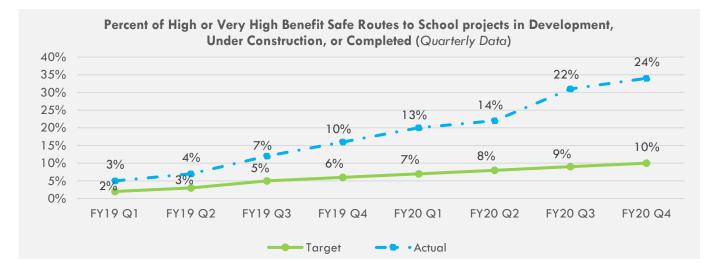

ID	Measure	Target	Latest Achieved	Status	Trend
M.D.3	Number of fatalities and serious injuries on the High-Injury Network	0	228	Off Track	
M.D.4	Number and percentage of City-owned vehicles using telematics for safety and risk reports (e.g. "driver scorecard") and number of crashes involving City vehicles**	700	534	On Track	>
M.D.5	Number and percentage of customer service requests for the removal of high priority blockages in right-of-way resolved within 72 hours	In Progress			
M.D.6	Percent of High or Very High Benefit Safe Routes to School projects in Development, Under Construction, or Completed	10%	24%	On Track	\checkmark

* The data listed reflects the number of people per 100,000 residents

** The data listed reflects the percentage only

IN-DEPTH: Percent of high or very high benefit safe routes to school projects in development, under construction, or completed

The 2016 Mobility bond was the first time the Safe Routes to School (SRTS) program was allocated dedicated capital infrastructure funding, \$27.5 million, to be evenly distributed among each of the 10 Council Districts. The first step in planning and executing these infrastructure projects was project identification and prioritization. This funding allowed the SRTS program the unique opportunity to look at how the right-of-way could best function for our youngest Austinites.

The SRTS program conducted public outreach and 137 walk audits at local elementary and middle schools to identify barriers impacting some of our most vulnerable road users. The SRTS walk audits focused on barriers up to 1/2 mile for walkers and up to 2 miles for bicyclists. Through the walk audits and public outreach, more than 4,600 safety improvements were recommended for students walking and biking to and from school. The total cost of these improvements is estimated at \$825 million. With limited funding compared to

need, the SRTS program placed each barrier into one of five benefit categories (very high, high, medium, low, and very low). The benefit was calculated through demand, 35%, safety, 30%, equity, 20%, and stakeholder Input at 15%.

Of the more than 4,600 recommendations, 1,864 rank in the high or very high benefit category. The higher-ranking projects are the primary focus of implementation as they are expected to have the largest impact for students. At the start of construction in 2017, the SRTS program focused on easier-to-complete improvements and is now working on more complex but still high or very high benefit projects. The SRTS program's progress is currently exceeding expectations with over 20% of the total 1,864 very high and high benefit projects either under review, under construction, or complete.

INDICATOR E: Condition of Transportation-related Infrastructure

Eight strategic measures are used to signal performance for the Condition of Transportation-Related Infrastructure indicator category. Five measures are on track or near target, two measures are off track, and one measure related to vegetation maintenance is under development. Current trend data shows that five measures are flat or trending positive while two measures are trending negative.

ID	Measure	Targeł	Latest Achieved	Status	Trend
M.E.1	Percent satisfaction with the condition of major City streets (e.g. Anderson Ln, Congress Ave., Lamar Blvd., Slaughter Ln., Martin Luther King Jr.)	42%	42%	On Track	
M.E.2	Percent satisfaction with the overall maintenance of City sidewalks	45%	44.6%	Near Target	\checkmark
M.E.3	Percent of the street inventory maintained by preventive maintenance	10%	4%	Off Track	\mathbf{O}
M.E.4	Estimated percentage of protected bikeways swept annually	100%	136%	On Track	\mathbf{O}
M.E.5	Number and percentage of high-frequency transit routes with fair or better street condition*	80%	50%	Off Track	
M.E.6	Number and percent of customer service requests for vegetation maintenance in the public right-of-way completed within 2 weeks	In Progress			
M.E.7	Number and percentage of major bridges in fair or better condition*	90%	90%	On Track	\checkmark
M.E.8	Number and percentage of street network lane miles in fair to excellent condition*	80%	75%	Near Target	\checkmark

* The data listed reflects the percentage only

The Safety outcome is aimed at ensuring that every Austinite feels safe at home, at work, and in our community. Overall, \$1.1 billion of the FY 2021-22 operating budget supports the Safety outcome. Council established five indicator categories for measuring success in the Safety outcome:

- Success of emergency response
- Community compliance with laws and regulations (actual and perceived)
- Emergency prevention, preparedness, and recovery
- Quality and reliability of critical infrastructure
- Fair administration of justice

As shown on the chart on the next page, three of the four largest cost drivers for the Safety outcome come from the City's three public safety departments: Police, Fire, and Emergency Medical Services. Collectively, these service areas comprise \$628.7 million, or 57% of the total Safety outcome. The City's two utilities, Austin Water and Austin Energy, contribute a combined \$285.9 million in funding to the Safety outcome, primarily related to the maintenance and operations of water and wastewater treatment plants, electric substations, and the electric transmission system. Communications and Technology Management supports public safety with \$38.5 million from the Combined Transportation, Emergency, and Communications Center and Wireless programs, while Watershed Protection helps keep Austin safe through \$38.4 million supporting flood mitigation, watershed management, storm water pond safety, and stream restoration programs. Finally, ten additional departments contribute to the "Other" category for a total \$103.0 million.

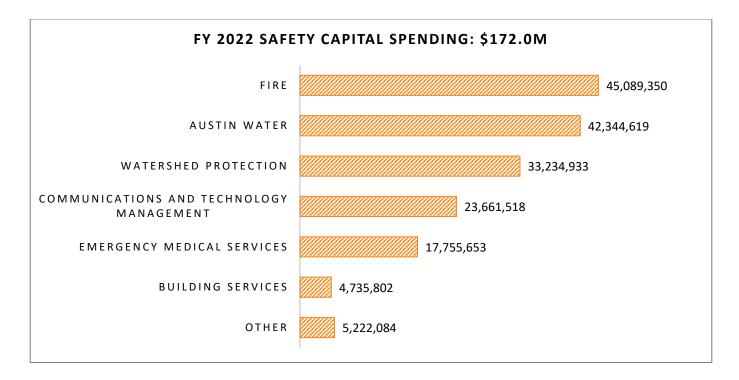

FY 2022 SAFETY OPERATING BUDGETS: \$1.1B				
POLICE	360,863,696			
AUSTIN ENERGY	222,004,118			
FIRE	192,294,258			
EMERGENCY MEDICAL SERVICES	75,502,143			
AUSTIN WATER	63,859,394			
COMMUNICATIONS AND TECHNOLOGY MANAGEMENT	38,508,750			
WATERSHED PROTECTION	38,365,456			
OTHER	103,000,727			

Additionally, the Safety strategic outcome supports planned Capital Improvement Program (CIP) spending of \$172.0 million in FY 2021-22. The Austin Fire Department is the largest component with \$45.1 million in planned spending, focusing on the construction of fire stations, the final phase of renovations to ensure equitable locker and bathroom facilities, urgent repairs to remediate structural failures, and comprehensive renovations to various fire stations to increase their service life.

Austin Water is the second-largest component, representing \$42.3 million in planned CIP spending. Noteworthy projects will provide water upgrades and improvements to the Davis and Ulrich Water Treatment Plants and the North Austin Reservoir and Pump Station. The third-largest component is Watershed Protection Department, with planned spending of \$33.2 million. Most of this spending is for drainage, erosion control, flood control, and water quality protection, also including \$2.6 million for flood risk reduction buyouts.

Next, Communications and Technology Management contributes with \$23.7 million in planned capital spending. Major projects include wireless critical technology replacement and the Greater Austin-Travis County Regional Radio System (GATRRS) upgrade. Finally, the Emergency Medical Services and Building Services conclude the Safety strategic outcome capital spending with \$17.8 million and \$4.7 million, respectively, for various facility renovations

The following chart highlights capital spending by department for the Safety strategic outcome, and the "Other" category includes planned capital spending by the Austin Public Health, Austin Police, and Fleet Mobility Services Departments.

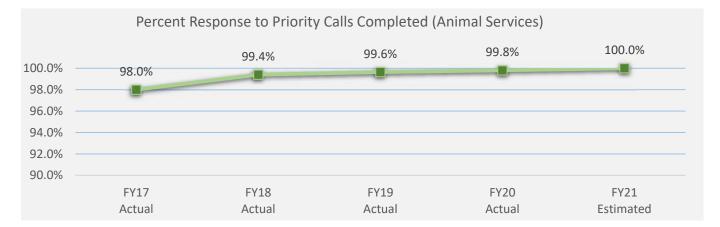

SAFETY OUTCOME - OVERVIEW

ANIMAL SERVICES

Animal Services supports the Safety outcome through \$2.7 million for prevention and protection services in Austin and the unincorporated areas of Travis County, which work in tandem to support Austin's no-kill commitment. Throughout the year, animal protection officers serve the community by protecting threatened animals; working closely with law enforcement to contain or help aggressive animals; assisting other agencies with wildlife, such as coyotes, deer, bats, and rodents; and ensuring the City's animal ordinances are followed. In FY 2019-20, Animal Services administered nearly 14,000 rabies

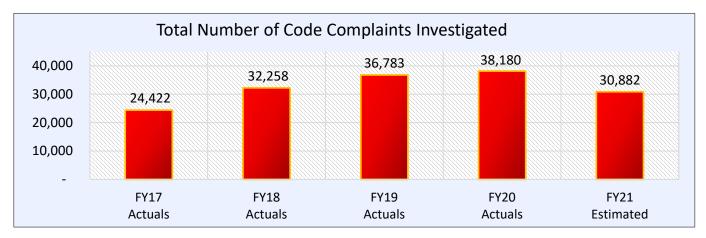

vaccinations to owned animals in the community via shelter reclaims, sponsoring rabies clinics, community outreach, and pet wellness clinics throughout Travis County. Animal Services anticipates completing 100% of priority calls in FY 2020-21.

AUSTIN CODE

Austin Code's budget supports \$21.6 million in the Safety outcome. Services include case investigations, licensing and registration compliance, and public education. The Case Investigations unit responds to and investigated over 38,000 code complaints annually in FY 2019-20 with over one-third of investigations resulting in the issuance of notices of violation.

The Licensing and Registration unit ensures that billboards, hotels, motels, rooming and boarding houses, private waste haulers, mobile home parks, short-term rentals, and "repeat offenders" are properly licensed or registered and in compliance with City code. In FY 2020-21, Austin Code estimates issuing nearly 3,700 licenses and registrations, including 2,000 short-term rental licenses.

Voluntary compliance and education continue to be an area of focus for Austin Code. Austin Code provides education and customer focused services for Austin residents to improve community awareness and basic understanding of local code requirements. The Department also operates the Code Connect phone line to respond to property owners' technical code information requests throughout the life of a case and to build an informed community through community outreach and education, thereby resulting in improved voluntary compliance.

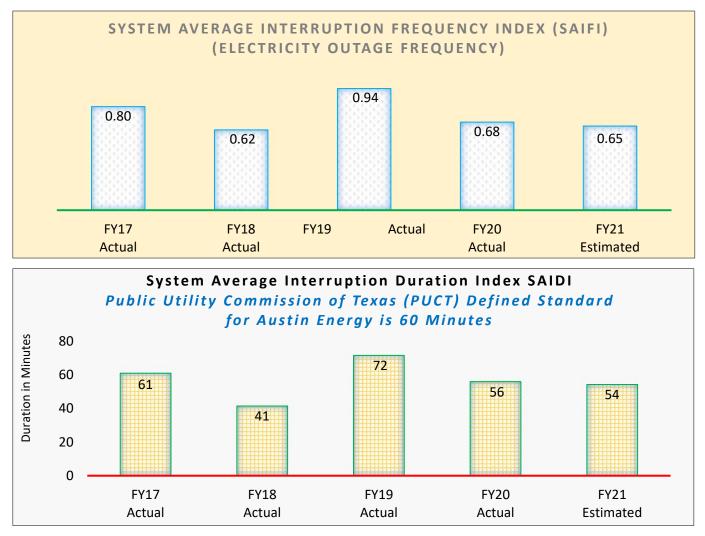

AUSTIN ENERGY

Austin Energy is the municipally owned electric utility serving more than 528,000 customer accounts in the city of Austin and surrounding communities. With operating and maintenance funding of \$222.0 million, Austin Energy is the second largest portion of the City's safety expenditures after the Austin Police Department. AE's business operations of transmission and substation maintenance, transmission system line clearance, and emergency management are essential services that contribute to the safety of the community by keeping power and energy service safe and reliable for everyone. Ensuring the electric service

operates efficiently and with minimal disruption is critical to protecting a community and its economy.

Austin Energy monitors its reliability using two key reliability metrics, the System Average Interruption Duration Index (SAIDI) and the System Average Interruption Frequency Index (SAIFI). Regarding these metrics, Austin Energy continues to perform well in comparison to industry standards. SAIDI defines the average outage duration for each customer served during the fiscal year. It is a direct measure of the reliability of the distribution system. The SAIDI numbers are expected to continue improving in FY2021-22 as a result of continued investment in vegetation management and infrastructure maintenance programs focused on improving system reliability.

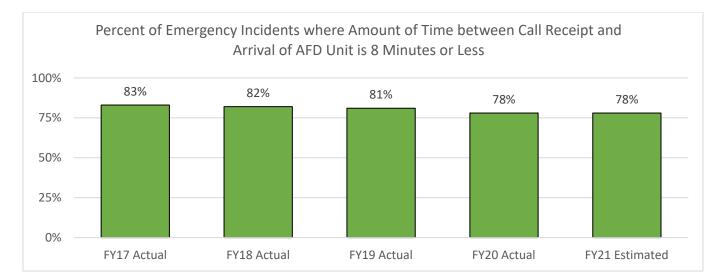

AUSTIN FIRE

The Austin Fire Department (AFD) FY 2021-22 operating budget supports the Safety outcome with \$192.3 million in funding. AFD serves the residents of Austin with 92 frontline fire apparatus and 51 fire stations supporting a service territory of 280 square miles. AFD responds to approximately 90,000 incidents per year and roughly 70% of these responses are medical in nature. AFD's goal is to have the first arriving frontline units reach the emergency location within 8 minutes of call receipt in 90 percent of emergency incidents. This target aligns with the national benchmark for fire departments to meet the 90th percentile for emergency response times. While AFD strives to provide the best service delivery

throughout all areas of the city, challenges to maintain adequate unit response times continue to grow as the city expands geographically. To continue addressing this need, the Travis Country Fire/EMS Station will open in July of 2021 and a new station in the Loop 360 area is scheduled to open August 2022.

AFD tracks the percent of structure fires that are confined to the room of origin; in FY 2019-2020, the percent confined was 81% and the target for FY 2020-21 is 85%. Many factors contribute to the confinement of a fire: response time, organized tactics to approach the fire, having the correct equipment for the fire at hand, and having well trained firefighters who can adapt to a variety of scenarios. Additionally, fires are burning faster and hotter than in years

past because the materials used in construction and the manufacture of furniture have changed to be more flammable. Confining fires to the room of origin is critical to maintaining the safety of persons and property.

AFD's prevention and education programs play a critical role in reducing the likelihood that an Austin resident will perish in a fire. AFD's goal is to achieve zero fire deaths through a coordinated effort of prevention, education, and fire response activities.

As a result of the City's outstanding fire service, AFD has maintained the Insurance Services Office (ISO) Class 1 top rating. The Class 1 designation represents superior fire protection, a classification conferred on only 204 cities throughout the United States.

AUSTIN POLICE

The Austin Police Department (APD) is the largest component of the Safety outcome with \$360.9 million of its operating budget aligned to this outcome. Austin is consistently ranked as one of the safest large cities in the nation to work and live and this standard is strengthened through the dedication of public safety personnel. This budget continues a commitment to safety through funding of 1,809 sworn police personnel, 677.5 civilians, 24 canines, and 16 horses. The Department responds to more than one million incident calls on average every year.

Austin Police Department (Key Performance Indicators)	FY19 Actual	FY21 Estimated
Crimes against Property Rate per 1,000	53.24	53.24
Crimes against Persons Rate per 1,000	20.81	20.81
Crimes against Society Rate per 1,000	7.40	7.40

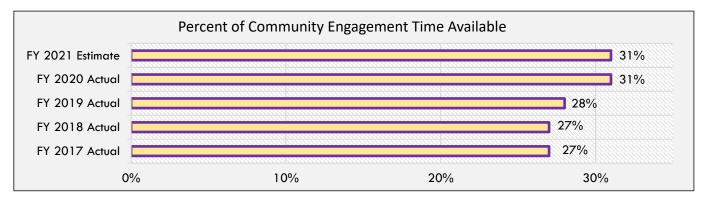

APD provides police services to the residents of Austin, Texas, in a variety of ways. Officers assigned to patrol and field operations respond to calls for service, provide traffic control, and assist citizens in solving neighborhood problems to enhance their quality of life. Highway Enforcement officers conduct investigations of serious injury collisions, special traffic initiatives, abandoned vehicle removal, and driving while intoxicated (DWI) enforcement. APD has a number of specialized units committed to keeping Austin safe, including Auto Theft Interdiction, Child Abuse, Financial Crimes, Digital Forensics, Homicide, Special Events, Training, and Recruiting. The Department also has civilian support units including Crime Analysis, Crime Records, and Emergency Communications, as well as the Forensic Science Office. There are also units that provide community outreach through the Police Activities League and Police Explorer Post, Citizens' Police Academy, Blue Santa, and the National Night-Out Program.

The Neighborhood-Based Policing program—comprised of Patrol, Patrol Support, Community Partnerships, Specialized Patrol and Events Planning, and Traffic Enforcement activities represents nearly one-half of APD's FY 2021-22 budget. The Patrol regions use directed patrols and tactical teams to supplement regular patrols in order to address emerging crime "hot spots" quickly and to prevent ongoing crime issues. Crime analysts use data analysis to link call volume and crime

patterns to identify hot spots and other emerging trends. Patrol Support, which includes district representatives and detectives, is often used in crime reduction and prevention strategies, as well. Ensuring that enforcement practices and justice processes are accountable, fair, equitable, impartial, and transparent is an essential component of building community trust. In support of these efforts, the Police Department is committed to the pilot Reimagined Police Cadet Training Academy blueprint as described in Resolution No. 20210325-037, which calls for an independent monitor to evaluate the pilot class, a revised curriculum, increased community centering and involvement in the Academy, creating a culture of adult learning, and enhancing the diversity, equity, and inclusion lens of the Academy.

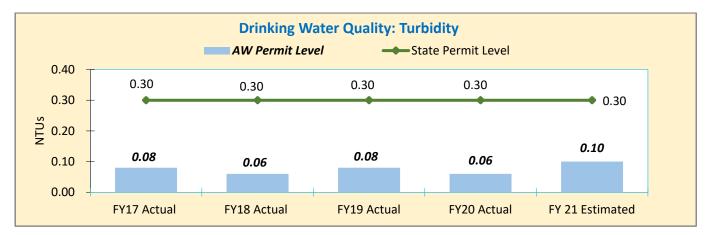

AUSTIN WATER

With \$63.9 million of total operating funding for the Safety outcome, Austin Water (AW) works to ensure a safe and healthy water supply for the community through its water and wastewater treatment processes, as well as efforts to increase operational resiliency for a range of emergent conditions. In addition to investments in infrastructure and system performance, initiatives to enhance emergency preparedness and responsiveness, as well as to identify and address natural hazards resulting from climate change are part of this effort.

AW draws water from the Colorado River into three regional water treatment plants that have a combined maximum capacity of 335 million gallons per day. After water is pumped from the river into the plants it goes through several treatment steps to achieve drinking water quality. AW's approach to treatment involves screening, disinfection, coagulation, flocculation, sedimentation, and filtration to ensure that citizens are provided with clean, safe water. Drinking water is pumped from the plants into Austin's water distribution system, which has a total reservoir

storage capacity of approximately 170 million gallons. Wastewater is treated into high-quality effluent that is either safely returned to the Colorado River to augment environmental flows or recycled into reclaimed water for outdoor irrigation, industrial cooling, manufacturing, and other uses.

One way to assess drinking water quality is to examine its turbidity, or the relative clarity of a liquid. Turbidity is measured in Nephelometric Turbidity Units (NTU) and is an excellent measure of plant optimization to ensure maximum public health protection. NTUs of 1.0 or less generally are not detected by the naked eye. Per the Safe Water Drinking Act, the permit level for drinking water turbidity is less than 0.30 NTUs 95% of the time. The graph above shows the consistency with which AW has produced higher quality water than the national standard.

COMMUNICATIONS AND TECHNOLOGY MANAGEMENT

The Communications and Technology Management (CTM) Department is the City of Austin's information technology (IT) department and focuses on the delivery and operations of vital IT infrastructure network and telecommunications services, continuous service improvement, and solutions to enable customer success. Ever-increasing demands for information drive requirements for technology support, system upgrades, increased data storage and bandwidth, project management, public safety support, web and mobile services, and interoperability of communication services, and CTM works to meet these demands while sustaining and

improving service. With an FY 2021-22 Safety outcome operating budget of \$38.5 million, CTM provides support for the Combined Transportation, Emergency, and Communications Center (CTECC) call center infrastructure, public-safety-related information technology, wireless communication infrastructure, mobile data computing, electronic vehicular equipment, and body cameras.

The budget for the CTECC program supports requirements for the City of Austin, as well as its partner agencies Travis County, Capital Metro and the Texas Department of Transportation, and costs for CTECC are shared among these various agencies. The total FY 2021-22 operating budget for CTECC is \$23.7 million and includes \$2.0 million in additional critical replacement and lifecycle management of public safety infrastructure, including data center and back-up data center infrastructure.

Moreover, the Wireless Communication Services division is responsible for maintaining a high measure of reliability for users of the regional radio system within Austin/Travis County, Williamson County, and other jurisdictions, as well as the installation and repair of voice radios, mobile data computers, data radios, sirens, emergency lighting, and automatic vehicle location devices on public safety vehicles. The total Wireless Communication Services program operating budget for FY 2021-22 is \$14.8 million, which includes replacement of public safety, mobile computing devices, in-car video replacements, and vehicle power cells.

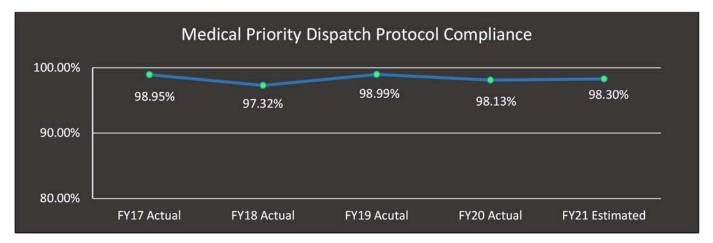

EMERGENCY MEDICAL SERVICES

Emergency Medical Services' (EMS) FY 2021-22 operating budget supports the Safety outcome through funding of \$75.5 million. The Department provides essential health care and public safety services to 1.4 million people across 1,043 square miles of Austin/Travis County. EMS operates 39 fulltime ambulance units and 7 demand units, responding to more than 122,000 incidents per year. EMS services associated with the Safety outcome include emergency ambulance response, standby support for special events, special rescue services, and

plan development for disaster preparedness. In addition, the Department continues to capture response times for all priority calls throughout the system. In FY 2021-22, EMS will continue striving to meet or exceed an on-time rate of 90% for Priority One incidents (potentially life-threatening calls) within the city of Austin.

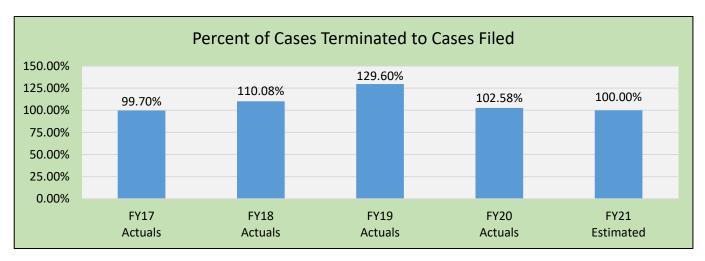

EMS Communications is a critical \$6.8 million component of the Safety outcome that provides effective and efficient call triage for incoming 9-1-1 requests for EMS assistance. Additionally, EMS medics dispatch the appropriate emergency response, offer pre-arrival instructions when needed, and coordinate interagency

response to facilitate rapid access to care. In FY 2019-20, over 137,000 9-1-1 calls were received, of which 96.1% were answered in 10 seconds or less.

MUNICIPAL COURT

The Municipal Court and Downtown Austin Community Court constitute the judicial branch of the City of Austin municipal government. They provide all magistration services for the Travis County jail and handle class 'C' misdemeanor cases filed by a number of City departments and outside agencies, such as Austin Independent School District (AISD), Capital Metro, and the Texas Alcoholic Beverage Commission. Cases filed in these courts include: traffic, City ordinance, State law, and parking violations.

The Municipal Court's FY 2021-22 operating budget includes \$22.4 million in support of protecting the safety of the community. In FY 2020-21, Municipal Court projects filing over 100,000 cases, terminating over 60,000 cases, and preparing 24,000 warrants, all while maintaining a high level of customer satisfaction.

WATERSHED PROTECTION

The Watershed Protection Department (WPD) contributes to the Safety outcome via an operating budget of \$38.4 million in support of programs focused on implementing flood risk reduction projects; constructing stream stabilization and restoration projects; enforcing drainage regulations; promoting flood safety and preparedness; and inspecting, maintaining, and repairing existing drainage infrastructure.

Flood risk reduction is one of WPD's core mission areas, safeguarding lives and reducing the impact of flooding to the Austin community.

Continuing buyouts of properties at risk of catastrophic flooding in the Onion Creek and Williamson Creek watersheds is crucial to achieving this goal, thereby providing the financial means for families to relocate to safer locations and removing these hazardous properties from the City's housing stock. To date, more than 96% of at-risk properties within active project areas in these watersheds have been acquired.

The Infrastructure and Waterway Maintenance program is responsible for maintaining the stormwater conveyance system, which consists of creeks and waterways, drainage channels, storm drainpipes, tunnels, and stormwater ponds. In FY 2019-20, WPD crews cleared four miles of open channels, cleaned over 41,000 linear feet (7.9 miles) of pipeline, and removed over 532 tons of debris from the Waller Creek Tunnel Inlet Facility.

Additionally, Watershed Proection creates a safe and stable stream system that protects the Austin community from erosion and encourages the use and enjoyment of Austin's creeks and lakes. This program responds to community reports of erosion along our waterways; constructs stream stabilization and restoration projects to reduce existing erosion threats and restore health to Austin's waterways; and implements erosion hazard zones and other protective regulations to reduce the cost and damage of future

erosion threats. In FY 2019-20, Watershed Protection restored more than 0.5 miles of stream channel restoration projections with erosion repairs.

Planned capital spending by WPD in support of the Safety outcome for FY 2021-22 is estimated at \$33.2 million. In addition to the projects highlighted later on in this section, other active capital improvement projects include construction of storm drain improvements in the Oak Knoll neighborhood, planning efforts for stream restoration improvements in the Waller Creek District, construction of a stream stabilization project along Country Club Creek to protect parkland assets, and construction of drainage improvements to reduce flood risk in the Oak Park and Oak Acres neighborhoods.

OTHER SAFETY OUTCOME PROGRAMS

Numerous other City offices and departments also contribute to the Safety outcome. These functions include:

- Austin Bergstrom International Airport funding for air/fire rescue, airport security, police operations, and safety at the airport (\$22.7 million);
- Building Services' provision of hazardous materials mitigation, occupational safety training and site visits, and facility security services (\$4.0 million);
- The Office of the Chief Medical Officer provides comprehensive clinical oversight of all out-ofhospital emergency care provided in the Austin-Travis County Emergency Medical Services system (\$2.6 million), and in the coming year, the Office will focus on creating a strategic alignment of clinical services provided by the City of Austin by developing clinical reporting relationships provided by healthcare services across City departments and external service providers; and
- The Office of Homeland Security and Emergency Management (HSEM) provides the critical framework for City and partner response during a disaster and delivers emergency preparedness and recovery services to all of Austin (\$2.0 million), and over the past year, HSEM has managed a fully activated Emergency Operations Center in support of the COVID-19 emergency, the Hurricane Laura coastal evacuation, and Winter Storm Uri.

SAFETY OUTCOME – HIGHLIGHTS

ADDITIONAL POSITIONS IN AUSTIN WATER: In FY 2021-22, Austin Water is adding 36.0 new positions for a total of \$3.5 million included in the Safety Outcome. Of which, seven will support operational resiliency for collection systems and support increased growth in operations of new remote facilities. Also included are two positions that will help coordinate, develop, and implement the various GIS needs coming from the Advanced Metering Infrastructure (AMI) program to include data, mapping, and applications and develop and implement mobile and paperless initiatives for quicker service to all AW program areas.

ADDITIONAL POSITIONS IN WATERSHED PROTECTION: Watershed Protection is adding 34.0 positions and \$1.9 million in FY 2021-22 in response to increasing demand for services relating to infrastructure maintenance, infrastructure development, floodplain and environmental review, homelessness encampment cleanup, technology support, community education, and support services. FY 2021-22 funding for these positions represents six months of funding, and the total annualized cost is \$3.3 million. AUSTIN CODE PERSONNEL EXPANSION: The Austin Code Department's FY 2021-22 budget includes six additional positions for department-wide staff improvements for a total cost of \$577,000 in ongoing personnel costs and \$74,000 in one-time equipment and vehicle costs. These positions will help augment existing program needs, including Code inspection, training, IT systems applications, and additional administrative needs.

AUSTIN ENERGY VEGETATION MANAGEMENT: Austin Energy operates distribution and transmission infrastructure throughout its service area. Austin Energy's Forestry Management group makes sure this equipment has the space it needs to operate reliably and safely. Vegetation management clears electric lines of overgrown tree branches and other greenery to reduce service interruptions, including by reducing damage to power lines and infrastructure during storms. Properly pruned vegetation also reduces wildfire risk. Since 2019, Austin Energy has focused on this maintenance activity, increasing both the frequency of the pruning schedule and the budget for this work. The FY 2021-22 budget includes \$22.8 million to support these activities.

AUSTIN WATER RESILIENCY: Austin Water's approach to managing infrastructure risks includes a strong focus on resiliency in the face of myriad challenges from aging infrastructure to extreme weather to a burgeoning population. Priorities include bringing dual power to pump stations, modernizing substations at the treatment plants, and upgrading power distribution within the plants. These projects will improve safety for operators and maintenance staff and resiliency in the conveyance and treatment systems for a total capital spend plan of \$14.6 million in FY 2021-22:

- Davis Lane Pump Station Restoration of Dual Feed (Austin Energy),
- North Austin Reservoir and Pump Station Improvements,
- Ullrich WTP Low Service Pump Station Electrical Feed Renewal,
- Center Street Pump Station Replacement and Electrical Improvements, and
- Southwest Parkway Southwest B Elevated Reservoir.

CITYWIDE EMERGENCY PREPAREDNESS CAMPAIGN: HSEM will undertake an emergency preparedness campaign to encourage residents to be more prepared for the next emergency or disaster that impacts the community. This includes helping the public stay informed about the different types of emergencies that could occur and their appropriate responses, like making a family emergency plan, building an emergency supply kit, and getting involved in the community to prepare for emergencies. This campaign will include public service announcements, marketing materials, preparedness resources and materials, and other items to encourage the public to take action and know their hazards. HSEM plans to seek regional support from surrounding counties to leverage this program within the larger community. This campaign will include various platforms for distribution in multiple languages, such as digital outlets and physical locations to provide information to the community during an emergency. The FY 2021-22 budget includes one-time funding of \$250,000 for this campaign.

CRISIS RESPONSE AND VICTIM SERVICES: The Austin Police Department allocates \$4.2 million toward Victim Services. This includes responding to the psychological and emotional needs of victims and their families, as well as community members and first responders experiencing trauma. The FY 2021-22 budget includes an additional \$654,000 and eight positions for a total of 44.0 victim services counselors. APD will also continue to address sexual assault through the Sexual Assault Kit Initiative (SAKI) grant in the amount of \$1.0 million.

EMERGENCY COMMUNICATIONS OPERATIONS FLOOR RECONFIGURATION: The FY 2021-22 budget includes \$300,000 in one-time funding to reconfigure the Emergency Communications operations floor to add six new 911 operator consoles and two new dispatch consoles. The additional consoles will provide operational sustainability for the next ten years. The reconfiguration will also allow for the expansion of the Center Crisis Clinician (C3) Program.

EMERGENCY MEDICAL SERVICES (EMS) FACILITY IMPROVEMENTS: In FY 2021-22, EMS plans to spend \$17.9 million on critical facility improvements to expand vehicle bays and station renovations, including upgrading to current American with Disabilities Act (ADA) and fire code requirements, on stations 1, 3, 4, 5, 7, 10, 13, 15, 18, and demand 4 and 6.

FIRE DEPARTMENT LOCKER ROOM PROJECT: These improvements include locker room and restroom additions to address existing gender inequities as well as other upgrades. Over \$20.0 million has been invested to date for all phases. The sixth and final phase will continue in FY 2021-22 with planned spending of \$9.6 million. Total project funding for all phases is \$35.7 million and is expected to be completed by January 2023.

FLOOD RISK REDUCTION: Units within the Watershed Protection Department's operating budget will utilize \$20.7 million in FY 2021-22 to reduce existing flood hazards to protect lives and property, in coordination with environmental and floodplain review and capital project management functions. These units develop, design, and implement flood control solutions to remove or reduce the impact of flooding on properties in the City. Additionally, Watershed Protection plans to

spend \$298.2 million over five years, through FY 2025-26, for all flood control CIP projects aligned to multiple strategic outcomes.

FORESTRY PROGRAM EXPANSION: The Parks and Recreation FY 2021-22 operating budget contains seven new full-time positions, for a total cost of \$469,000, that are funded by repurposing existing resources for forestry operations and maintenance. These expenses are associated with Citywide land acquisition and forestry mitigation needed to ensure proper safety and resiliency of our City's parklands.

GOODNIGHT RANCH AND CANYON CREEK FIRE/EMS STATIONS: As part of Council Resolution 20180524-035, Council's top five sites for new Fire/EMS also included the Goodnight Ranch and Canyon Creek locations. The FY 2021-22 budget includes new appropriation of \$5.8 million to support the design of these last two stations. The City's financial outlook will be considered in the ability to move forward with construction and staffing in future years as part of the annual forecast and budgeting process. At this time, the City's five-year forecast does not indicate sufficient funding will be available to operate these stations unless additional funding sources are identified.

HOUSE BILL 1900: In May 2021, the 87th Texas Legislature passed HB 1900, which prohibits a municipality with a population above 250,000 from decreasing its Police budget amount year-over-year, effective for the adoption of the FY 2021-22 budget. If a municipality that meets the criteria does decrease their Police budget and is determined to be a "defunding municipality" by the State, there are severe financial consequences for the municipality, including, but not limited to, effectively freezing property tax revenue, sequestering and reducing local sales tax revenue by the State, capping local utility rates and fees, and requiring dis-annexation elections for all areas that were annexed into the municipality within the past 30 years. Additionally, for the adoption of the FY 2021-22 budget appropriation of the prior two fiscal years.

In compliance with HB 1900, the City of Austin is proposing a budget that includes \$442.8 million in funding for the Austin Police Department, which represents an increase of \$133.1 million above the FY 2020-21 Police budget and an increase of \$8.3 million above the FY 2019-20 Police budget. This increase is primarily the result of reintegrating various budget units that had been moved out of APD's budget during FY 2020-21, back into APD's budget for FY 2021-22, in addition to increases in base department cost drivers such as wages and retirement costs.

INFRASTRUCTURE AND WATERWAY MAINTENANCE PROGRAM: Managed by the Watershed Protection Department, this operating program provides on-site maintenance services to property owners and other affected residents to save lives, reduce flooding, repair erosion, and improve the quality of stormwater. Using an operating

budget of \$24.4 million, staff work in the field to address these safety-related concerns, and by ensuring exemplary customer service related to routine inspection and maintenance, this program improves the efficiency of larger-scale construction, rehabilitation, and repair activities.

LITTLE WALNUT CREEK – FLOOD RISK REDUCTION FROM METRIC TO RUTLAND: The Watershed Protection Department plans to start construction and spend \$6.4 million in FY 2021-22, with \$18.8 million in total project spending expected through FY 2025-26, to provide flood relief to residents in neighborhoods along Little Walnut Creek from Metric to Rutland by constructing a creek bypass system under Mearns Meadow Blvd. The project will reduce the risk of flooding for over 80 properties in this area and will improve the capacity and safety of roadway crossings over the creek. The project will also incorporate water and wastewater improvements and install a shared use path on Mearns Meadow to optimize the project and cost savings to the City.

MUNICIPAL COURT MARSHAL PROGRAM: The Municipal Court's FY 2021-22 budget includes funding for the new Marshal Program. The budget provides for 14.0 new positions, including one Chief Marshal and 13.0 Marshals for a total of \$1.3 million in ongoing personnel expenses and \$1.4 million in one-time expenses to provide needed equipment, vehicles, computers, and supplies. These Marshals will be dedicated to Municipal Court facilities and will replace the Austin Police Officers who previously provided these services.

ONGOING RESPONSE TO INFECTIOUS DISEASE: The Fire Department's response during the pandemic in 2020 and 2021 changed several policies and protocols associated with handling infectious disease. While the prevalence of COVID my decrease, lessons learned about safety and reducing the transmission of disease must remain in place. FY 2021-22 includes \$300,000 in ongoing funding for additional personal protective equipment and cleaning supplies.

POST-COVID CITYWIDE AFTER-ACTION REPORT & IMPROVEMENT PLAN: The purpose of the COVID-19 Response Mid-Incident Review Report is to identify strengths and areas for improvement for the City of Austin and Travis County's response to COVID-19. HSEM will review information collected in order to improve the effectiveness of emergency response policies, plans, and procedures. The FY 2021-22 budget includes \$200,000 in onetime funding for this initiative.

RADIO TECHNICIAN TEMPORARY EMPLOYEE CONVERSIONS: In FY 2021-22, the Communications and Technology Management Department is adding four Radio Technician positions to support the Greater Austin-Travis County Regional Radio System (GATRRS), at a cost of \$328,000 that is completely offset by funding used for temporary employees.

REIMAGINING PUBLIC SAFETY: In the FY 2021-22 budget, the City renews its commitment advancing progress within to the transformative Reimagining Public Safety (RPS) framework by maintaining \$27.2 million of funding approved in FY 2020-21 for a variety of initiatives that prioritize a holistic approach to providing public safety services and communitycentered crime prevention and

intervention strategies, including the Office of Violence Prevention, mental health first response, a family violence shelter, permanent supportive housing and services, and other alternative public safety strategies.

In addition to the above, the FY 2021-22 budget includes one-time funding of \$1.9 million to fund numerous public safety reform recommendations brought forward by the City-Community RPS Task Force including:

- Funding for the Office of Violence Prevention to: procure the technological infrastructure to assess, monitor, and utilize violence-related data to develop better informed violence intervention policies, and to develop a Community Safety Grant Program to provide seed funding for community-led prevention and intervention efforts (\$825,000 in Austin Public Health),
- Expand the current community health worker career ladder initiative and finalize infrastructure development of the community health worker program (\$500,000 in Austin Public Health)
- Funding to contract providers for specialized therapeutic and trauma healing along with training for victim services counselors who work with violence survivors. (\$250,000 in Police earmarked for Victim Services)
- Funding for study of guaranteed income project (\$250,000 in the Equity Office)
- Multilingual public education campaign to raise awareness regarding appropriate emergency service use (\$105,000 in the Communications and Public Information Office)

City staff will continue to explore innovative strategies for implementing additional task force recommendations beyond the FY 2021-22 budget. For more information on the RPS initiative, please visit the City's RPS website.

REIMAGINED AUSTIN POLICE DEPARTMENT TRAINING ACADEMY: The 144th Police cadet class, which started June 7th, 2021, will be the first to complete training using the Police Academy's new curriculum and expanded community engagement programming. Lessons learned from the pilot class will inform future classes, which will follow the City Manager's blueprint for a collaborative process of transforming the academy that centers diversity and inclusion with an emphasis on adult-learning methods, servant leadership, and building stronger community relationships. This budget includes \$6.2 million to fund the 144th class as well as future classes in FY 2021-22.

STUDY RELATED TO STAFF EVACUATIONS PLAN: HSEM's FY 2021-22 budget includes \$100,000 in one-time funding to hire a consultant to map areas of refuge and to help support drills and exercises as part of the Continuous Operation Plans with departments. Additionally, this initiative will help develop evacuation guidelines for department and job sites to utilize in developing site specific procedures. HSEM plans to conduct one train the trainer event and coordinate simulation and table tops events with Department participation.

TRAVIS COUNTRY AND LOOP 360 FIRE/EMS STATIONS: As part of Council Resolution 20180524-035, Council's top five sites for new Fire/EMS included the Travis Country and Loop 360 locations. With a total project budget of \$17.4 million, the Travis Country station will open July 2021. The Loop 360 station has a projected budget of \$20.6 million and is in the design phase, with an anticipated completion date of July 2022. The FY 2021-22 budget includes \$1.5 million to fully fund the staff for one engine and one ambulance at Travis Country added mid-year during FY 2020-21. Additional funding of \$1.2 million is added in FY 2021-22 to support partial year funding of 16 new sworn Fire personnel and 12 new sworn EMS personnel, as well as operating equipment for the Loop 360 station. This funding aligns with the anticipated opening date of July 2022. Full-year operating and maintenance costs for the Loop 360 station is \$2.9 million.

TRAVIS COUNTY DEMAND UNIT: Per the interlocal agreement with Travis County, EMS Demand 7 unit is stationed in the County to primarily serve the Lakeway area and address increased 9-1-1 medical call volume. The FY 2021-22 budget includes six sworn positions to staff the Travis County Demand 7 unit, which will be fully reimbursed by Travis County for a zero-net impact to the FY 2021-22 budget.

URGENT FIRE/EMS STATION REPAIRS: Construction will continue in FY 2021-22 to remediate an electrical system failure at Fire Station 1/EMS Station 6 and structural impairments at Fire Station 3 and Fire Station 22/EMS Station 12. The FY 2021-22 budget includes planned spending of \$11.3 million as work progresses. This

project is receiving an additional \$4.0 million in FY 2021-22 and the total funding for this project is \$22.0 million and is expected to be completed by January of 2024.

WEST BOULDIN CREEK - DEL CURTO STORM DRAIN IMPROVEMENTS: The Watershed Protection Department plans to spend \$1.2 million in FY 2021-22, with \$6.8 million in total spending expected through FY 2024-25, to help alleviate the flooding of several roadways and buildings through an upgraded storm drain system. This project is scheduled to begin construction in FY 2021-22 and is within the South Lamar Neighborhood Area where City Council has passed multiple resolutions requesting improvements.

WILDFIRE PREVENTION AND WILDLAND URBAN INTERFACE (WUI) CODE: The Wildfire Division continues to collaborate with various organizations, including Fish and Wildlife, Nature Conservancy, Parks and Wildlife, and Austin Water to perform wildfire mitigation throughout the County and surrounding areas. AFD also approaches community education with innovative solutions to promote wildfire mitigation efforts. The introduction of the Wildfire Dashboard provides access to resources, research, and the tracking of wildfire related performance measures. The dashboard provides access to information that can help build community climate resilience, as climate change results in increasingly hot and dry weather conditions conducive to wildfires. Additionally, the FY 2021-22 budget includes \$100,000 in one-time funding to establish and update emergency evacuation routes and procedures for communities prone to extreme flooding and wildfire events.

Proactive wildfire mitigation efforts through community education and the implementation of the International Wildland-Urban Interface Code (WUI) are also functions of the Fire Marshal's Office and AFD's Wildfire Division. Total funding for these two units is \$12.8 million in FY 2021-22. With an effective date of June 3, 2021, AFD began implementing the requirements outlined in the WUI Code, which are intended to make the community safer by requiring that new construction and exterior remodels/additions built within identified Wildland Urban Interface areas meet specific compliance standards. In future years, it is anticipated that the costs of enforcing the WUI code will be fully offset by fee revenue.

SAFETY OUTCOME - STRATEGIC MEASURES BY INDICATOR CATEGORY

The following section highlights the strategic measures for the Safety outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

The Safety outcome focuses on how our City uses evidence-based strategies to create proactive prevention, build relationships regionally, enhance working with diverse and vulnerable community members, and collaboratively assess and mitigate risk across critical infrastructure systems.

INDICATOR A: Success of Emergency Response

The Success of Emergency Response indicator category employs five metrics to gauge resident and visitor feedback, assess City employee training in serving vulnerable and diverse community members, and if emergency responses meet established time standards. Most measures meet their target. One measure is trending negative, two positive, and the remaining two have no available data. Residents who indicated they feel safe anywhere, anytime is near target, but the trend reflects a 5% decrease from the previous year. This measure's data will be reviewed and updated in 2022 after data collection in 2021 since the COVID-19 pandemic postponed the City's annual community survey from being conducted.

ID	Measure	Target	Latest Achieved	Status	Trend
S.A.1	Percentage of residents and visitors who say they feel safe anywhere, anytime in the City (at home, at work, and in my community)	69%	69%	Near Target	\odot
S.A.2	Percentage of residents who say they trust the <u>City's public safety services</u>	85%	84%	Near Target	\checkmark
S.A.3	<u>Percent of residents who say they feel</u> <u>confident that in case of an emergency, their</u> <u>response will be delivered effectively</u>	80%	78%	Near Target	\checkmark
S.A.4	Number and percentage of eligible first responders and front line employees who have completed initial and continuing mental and behavioral health training related to serving vulnerable and diverse community members*	Not Available	93%	Measuring	Not Available
S.A.5	Number and percentage of emergency responses that meet established time standards for that type of response [*]	Not Available	80%	Measuring	Not Available

* The data listed reflects the percentage only

INDICATOR B: Community Compliance with Laws and Regulations (Actual and Perceived)

Seven metrics speak to the measurement of compliance with laws and regulations in the community. Two of the measures with targets are near track and the other two are reflecting off track. Only one measure is trending in the desired direction. The remaining three with targets are tracking flat or without improvement.

ID	Measure	Target	Latest Achieved	Status	Trend
S.B.1.a	Crimes Against Persons rate per 1,000 population and percentage change in that rate*	Not Available	20.42	Measuring	Not Available
S.B.1.b	Crimes Against Property rate per 1,000 population and percentage change in that rate*	Not Available	53.24	Measuring	Not Available
S.B.1.c	Crimes Against Society rate per 1,000 population and percentage change in that rate*	Not Available	7.40	Measuring	Not Available
S.B.3	Percentage of residents who say they have knowledge and understanding of community laws, codes, and ordinances	63%	62%	Near Target	\checkmark
S.B.4	Percentage of residents who say they feel safe within their workplace	84%	80%	Near Target	0
S.B.5	Number of occupational injuries/illnesses per 100 full-time workers	3.73	2.30	Off Track	0
S.B.6	Percentage of actual public safety time spent on community engagement compared to goals for community engagement	35%	29%	Off Track	

* The data listed reflects the rate only

IN-DEPTH: Crimes against persons per 1,000 population and percentage change in that rate

This measure is focused on how many crimes against persons occurred per 1,000 population in Austin.

Austin Police Department tracks offenses by crime types categorized as per the National Incident Based Reporting System. Crimes are categorized into crimes against persons, crimes against property, and crimes against society. These measures calculate a crime rate of offenses per 1,000 of the reported population in Austin for 2019. APD does not set targets for crime rates.

Per the FBI's National Incident Based Reporting System (NIBRS), there are fifteen crime types that fall specifically under this measure. Crimes against persons includes murder and non-negligent manslaughter, justifiable homicide (*not a crime*), negligent manslaughter, kidnapping/abduction, rape, sodomy, sexual assault with an object, fondling, aggravated assault, simple assault, intimidation, incest, statutory rape, human trafficking - commercial sex acts, and human trafficking - involuntary servitude.

There is no comparable data for previous years; however, for the current reporting period we measured Crimes against Persons at 20.42. We calculated this measure using the following formula: total number of crimes divided by the population of Austin in 2019 divided by 1,000. The number of offenses are tracked by APD and validated by the FBI. It should be noted that this measure is on a 2 year lag.

INDICATOR C: Emergency Prevention, Preparedness, and Recovery

The third indicator category within this outcome focuses on emergency prevention, preparedness and recovery. Five measures are used to determine the City's progress in meeting its goals. Three measures met or exceeded their target and are showing a positive trend centered on prior-year performance while one measure is off track. One of the five metrics require further data collection before being publicized.

ID	Measure	Target	Latest Achieved	Status	Trend
S.C.1	Number and percentage of residents living in high-risk areas for top natural disasters who are enrolled to receive regional emergency alerts*	25%	15%	Off track	In Progress
S.C.2	Percentage of residents living in high-risk areas for natural disasters who say they have access to information and education pertaining to disasters and other major emergencies	66%	66%	On track	\checkmark
S.C.3	Percentage of residents who say that they are prepared to help themselves, their families, and their neighbors to respond effectively to disasters and major emergencies	67%	68%	On track	\checkmark
S.C.4	Number and percentage of partner safety agencies and organizations participating in local and regional emergency exercises	67% 91%		On track	\checkmark
S.C.5	Number and percentage of City of Austin employees who have completed emergency management and preparedness response training (if appropriate to their position)	In Progress			

* The data listed reflects the percentage only

INDICATOR D: Fair Administration of Justice

Fair Administration of Justice is one of City Council's top-ten indicator categories. Nine measures were established to follow how the City is performing and evaluate resident's feedback on levels of satisfaction or dissatisfaction. Seven are finalized while four others are in various stages of data collection and development. A majority of measures are either trending positively or in line with prior performance. The remaining are near target and/or trending without improvement. These measures are listed in the table on the following pages.

ID	Measure	Target	Latest Achieved	Status	Trend	
S.D.1.a	Disproportionality analysis of the percentage of citations that result from motor vehicles stops involving individuals of a particular race/ethnicity compared to that specific race/ethnicity's percentage of the population in Austin	In Progress				
S.D.1.b	Disproportionality analysis of the percentage of warnings and field observations that result from motor vehicles stops involving individuals of a particular race/ethnicity compared to that specific race/ethnicity's percentage of the population in Austin	In Progress				
S.D.1.c	Disproportionality analysis of the percentage of arrests that result from motor vehicles stops involving individuals of a particular race/ethnicity compared to that specific race/ethnicity's percentage of the population in Austin	In Progress				
S.D.1.d	Disproportionality analysis of the percentage of overall arrests issued to individuals of a particular race/ethnicity compared to that specific race/ethnicity's percentage of the population in Austin	In Progress				
S.D.2	Percentage of people who agree they were treated fairly during our enforcement and judicial processes	53%	53% 52%		\bigcirc	
S.D.3	Number and percentage of use of force incidents in proportion to the number of arrests made*	53%	12%	Measuring	~	
S.D.4.a	Number and percentage of instances where people access court services other than in person and outside normal business hours (e.g., phone, mobile application, online, expanded hours) – Municipal Court*	Not Available	6.4%		\bigotimes	
S.D.4.b	Number and percentage of instances where people access court services other than in person and outside normal business hours (e.g. phone, mobile application, online, expanded hours) – Downtown Austin Community Court (DACC) Correspondence cases *	20% 23% On Track		\bigotimes		
S.D.4.c	Number and percentage of instances where people access court services other than in person and outside normal business hours (e.g. phone, mobile application, online, expanded hours) – Downtown Austin Community Court (DACC) Clients Contacts Through Outreach*	5,000	11,600	On Track	~	

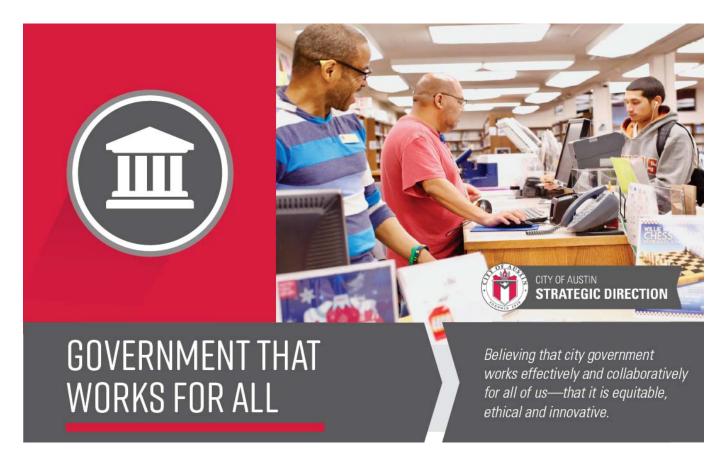

ID	Measure	Target	Latest Achieved	Status	Trend
S.D.5	Number and percentage of court cases that are adjudicated within case processing time standards*	89%	89%	On Track	<
S.D.6	Number and percentage of all cases granted alternative form of adjudication (e.g. community service) in lieu of monetary penalties for those not able to pay*	75%	79%	On Track	~

* The data listed reflects the percentage only

INDICATOR E: Quality and Reliability of Critical Infrastructure

The remaining indicator category within the Safety outcome contains four strategic metrics of success listed on the proceeding table. Each measure is presently under development and data is unavailable. These are measures that require coordination between multiple departments and sponsorship at the executive level. The expectation is these measures will be completed and reported by the end of the year.

ID	Measure	Target	Latest Achieved	Status	Trend
S.E.1	Number and percentage of City departments that have documented critical infrastructure following sector-specific guidance	In Progress			
S.E.2	Number and percentage of City departments that have completed performance and vulnerability audits of documented critical infrastructure following sector-specific guidance	In Progress			
S.E.3	Number and percentage of our critical infrastructure for which vulnerabilities have been assessed and addressed via protective and/or mitigation strategies	In Progress			
S.E.4	Number and percentage of our critical infrastructure assets with current, accredited or non-accredited disaster recovery and Continuity of Operations Plans (COOP). Indicate accreditation details where applicable	In Progress			

The Government that Works for All outcome ensures that our City government works effectively and collaboratively for all of us and that it is equitable, ethical, and innovative. Overall, \$723.5 million of the FY 2021-22 operating budget supports Government That Works for All. Council established seven indicator categories for measuring success in this outcome area:

- Financial cost and sustainability of City government
- Condition/quality of City facilities and infrastructure and effective adoption of technology
- Satisfaction with City services
- Employee engagement
- Stakeholder engagement and participation
- Equity of City programs and resource allocation
- Transparency and ethical practices

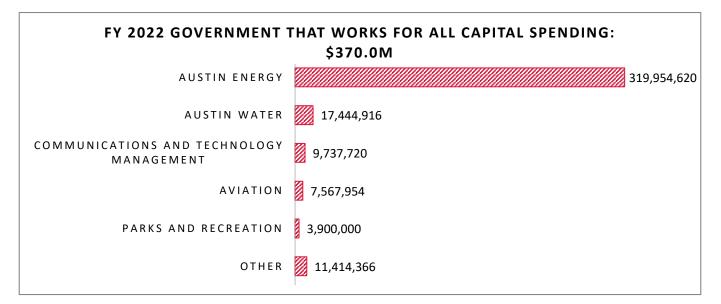

The largest operating expenditures in support of the Government that Works for All outcome come from the City's two utilities, Austin Energy and Austin Water. Collectively, these two comprise \$384.7 million, or 53%, of the total outcome budget due generally to operational, facility, and asset management; utility customer care and the 311 call center; crucial computer operations and data applications; and security services. The next largest component comes from the City's Support Services departments, including Financial Services and Human Resources, with combined spending of \$159.4 million. Additional key contributors to the Government that Works for All outcome include Aviation, Communications and Technology Management, and Public Works, for a combined total of \$135.8 million, or 19%.

FY 2022 GOVERNMENT THAT WORKS FOR ALL OPERATING BUDGETS: \$723.5M						
267,768,079						
159,441,281						
116,883,648						
72,016,519						
34,908,938						
28,908,348						
43,545,844						

The Government that Works for All strategic outcome supports Capital Improvement Program (CIP) planned spending of \$370.0 million for FY 2021-22. Austin Energy is the largest component at \$320.0 million. This planned spending by Austin Energy maintains and upgrades the City's electric infrastructure through numerous programs that are essential for safe and uninterrupted delivery of electric services, including downtown substations and distribution relocation, replacement, growth, and network improvements.

The next departments are Austin Water with \$17.4 million for various replacements of critical information technology and equipment, Communications and Technology Management with \$9.7 million for Citywide critical technology hardware and software replacement, Aviation with \$7.6 million for the upgrade of airport security equipment, and Parks and Recreation with \$3.9 million for facility maintenance.

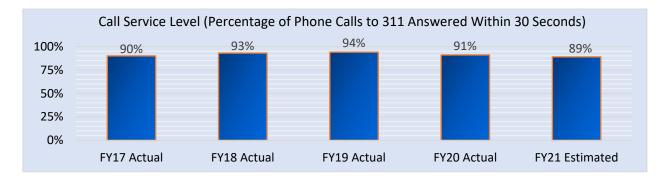

The following chart highlights capital spending by department for the Government that Works for All strategic outcome. The "Other" category includes planned capital spending by the Financial Services, Public Works, Watershed Protection, and Building Services Departments, including facility maintenance, vehicle acquisitions, and IT applications.

GOVERNMENT THAT WORKS FOR ALL OUTCOME - OVERVIEW

AUSTIN ENERGY

Austin Energy supports the Government That Works outcome with a \$267.8 million operating budget to support a variety of functions generally centered on customer care and relations, information technology, and the management of the Utility as a whole. Though these functions touch many of the Government That Works indicators, they are closely tied to the "condition/quality of City facilities and effective adoption of technology" and "satisfaction with City services" indicators.

Many units within Austin Energy support the Government That Works outcome. The Corporate Services unit is responsible for management and oversight, including the recruitment and retention of a high-performing, ethical workforce. Customer Care and Customer Account Management staff provide equitable customer support for all Austin Energy customers and stakeholders. The 3-1-1 call center provides front-line information and support in a transparent manner to all City residents, while the 911 backup center adds a crucial layer of redundancy to the City's emergency response system. These services drive success in the "satisfaction with City services" indicator. The System Control Center is responsible for the management and coordination of Austin Energy's assets, enabling Austin Energy to be a responsible steward of resources and provide reliable energy services to the community. The Distribution System and Network Maintenance unit is responsible for regular maintenance of the Austin Energy system, reducing the frequency and duration of unplanned outages. Finally, the Regulatory, State, and Federal Government Affairs units ensure Austin Energy's compliance with all applicable state, federal, and regulatory laws to provide industry-leading energy services to Austin Energy customers.

Electric Reliability Council of Texas (ERCOT) expenses are allocated to the Government That Works outcome as well, which provides access to the statewide electric grid.

Along with the programs and services provided by Austin Energy, the utility also invests in its system and infrastructure to ensure a Government That Works. Austin Energy's FY 2021-22 CIP includes \$320.0 million in spending allocated to the Government That Works outcome. These planned expenditures include: a new warehouse facility; a new Downtown Substation, which is critical to serve massive redevelopment in the Rainey

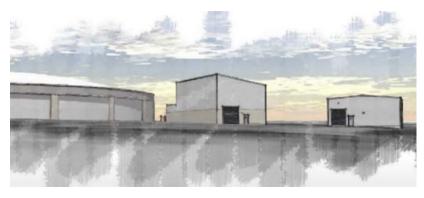

Street and Waller Creek areas; the new Cistern Substation to serve Transmission needs in Bastrop County; and the Mueller Energy Center 2 project.

The large majority of the remainder of this spending plan will fund maintenance and infrastructure upgrades, including meter replacements, residential and commercial additions and upgrades, utility pole replacements, information technology infrastructure upgrades, and various other electrical infrastructure maintenance required throughout the area. These planned expenditures will ensure continued improvement to the condition and quality of a crucial component of the City's infrastructure.

AUSTIN WATER

Consisting of \$116.9 million in funding in FY 2021-22, the Government That Works for All-aligned operating budget of Austin Water (AW) is dedicated to ensuring a reliable and sustainable stream of safe drinking water and the environmentally responsible treatment of wastewater. By striking an appropriate balance between funding timely infrastructure investments, maintaining affordability for all customer classes, managing regulatory requirements, and providing excellent customer service, AW has an important role to play in driving success across the Government that Works for All indicators.

Austin Water's attention to affordability over the years resulted in a \$2.40 rate reduction in FY 2017-18 for the average monthly residential customer bill. The amended rates remained in effect, resulting in the following system-wide rate reduction of 4.8% in FY 2017-18 and no rate increases from FY 2018-19 to FY 2020-21. In FY 2019-20, Austin Water increased support for Customer Assistance Program (CAP) customers by reducing

volumetric water and wastewater rates, which resulted in an additional 8.3% decrease in the combined average monthly CAP bill for the most vulnerable low-income customers. This amounts to a \$4.00 reduction on monthly CAP customer bills, and these CAP rates remained in effect for FY 2020-21 and will continue for FY 2021-22. In response to the economic impact of COVID-19, the Austin City Council approved a 10% rate reduction of tiers 1, 2 and 3 for water volume rates and tiers 1 and 2 for wastewater volume rates on April 9, 2020, for both CAP customer rates and residential Non-CAP rates. The temporary reduction in Non-CAP rates ended effective November 1, 2020. The CAP customer 10% rate reduction will remain in effect throughout FY 2020-21 and will continue for FY 2021-22.

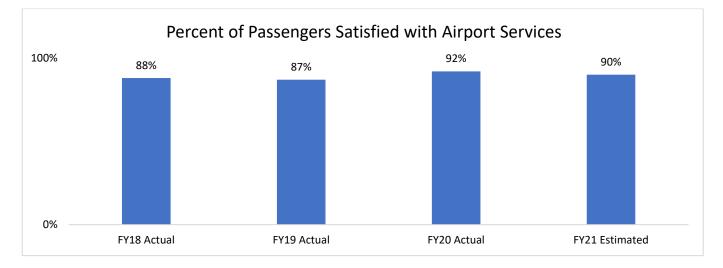

In FY 2020-21 Austin Water implemented a Multifamily CAP program for low-income customers who do not have a dedicated water meter but nevertheless pay for monthly water and wastewater service. This program provides a \$17 monthly credit on their Austin Energy utility bill, shown as Austin Water Multi-Family CAP Program Discount. The Multifamily CAP program offers a safety net to thousands of vulnerable customers who have traditionally been ineligible for Austin Water financial assistance through the residential Customer Assistance Program.

AVIATION

The Aviation Department's operating budget aligns \$28.9 million with the Government That Works outcome by funding the administrative, managerial, and financial support necessary to operate one of the nation's fastest growing and most highly regarded airports. Most notably, these funds support the Department's efforts to acquire and maintain the information technology upgrades necessary to create a positive passenger experience, which contributes to the Government That Works' "satisfaction with City services" metric and to ensure that the airport is in compliance with Transportation Safety Administration's

standards. The Aviation Department monitors customer experience through the Airport Service Quality Survey. In FY 2020-21, the Aviation Department projects 90% of passengers will report their overall satisfaction with airport services, matching the department long-term goal.

COMMUNICATIONS AND TECHNOLOGY MANAGEMENT

With a Government That Works for All-aligned operating budget of \$72.0 million, the Communications and Technology Management Department (CTM) provides and maintains the essential information technology (IT) infrastructure, both hardware and software, that keeps the City of Austin working. CTM also plays an important role in driving innovation that results in increased satisfaction with City services, facilitating employee and stakeholder engagement and participation, and reducing the financial cost of City government while increasing its sustainability. The most visible of CTM's 327 full-time employees are the front-line staff who assist departmental customers with all levels of IT assistance, from straightforward—and sometimes not-so-straightforward—help desk requests to more substantial projects requiring customized, department-specific software applications and

services. This includes negotiating complex software contracts for multiple departments, like the contract for Microsoft software services and the PC refresh program that replaces desktop and laptop computers on a replacement schedule according to industry best practices. CTM also provides consultation and assists with the development of departments' online services and the City's web presence generally, which greatly supports the City's commitment to transparency and open-government initiatives. Undoubtedly, CTM prides itself on its customer-centric approach to City department support, a work philosophy demonstrated by the consistently high rankings it receives from its customers.

Less visibly though not less importantly, the Department maintains the City's IT network and data center, which enable secure access to the City's data through hardwired connections for on-site employees and mobile connections for employees working remotely. Specifically, the team supporting Geospatial Information System (GIS) services ensures the availability and accuracy of location data for all departments, and the project management group helps to implement new Citywide technology initiatives.

CTM has implemented a new Business Relationship Manager team that aligns with all of the Strategic Outcome areas. This team partners with the departments and streamlines departmental requests for IT resources, supporting the City's efforts to promote cost-effective adoption of technology by supplying departments with the IT functionality they need, sometimes through cooperative acquisition arrangements or by connecting them with existing IT assets.

INFORMATION SECURITY OFFICE

Previously housed under CTM as the Office of Cybersecurity, the Information Security Office (ISO) branched out as a standalone Office in FY 2020-21, per recommendation from the Office of the City Auditor's cybersecurity audit. This allowed the Office to bolster the Citywide information security program and architecture by providing leadership, strategic direction, and coordination for information security, privacy, and risk. The Office's FY 2021-22 operating budget includes \$10.2 million aligned to the Government that Works for All outcome and 22 positions, with non-personnel funding including Citywide cybersecurity insurance, IT staffing, and software to ensure the proper governance of associated technologies.

PUBLIC WORKS

The Public Works Department supports the Government that Works for All outcome through operating funding of \$34.9 million. The majority of this budget contributes to the Capital Projects Delivery program, which manages the City's capital projects through all phases of design, construction, and inspection. This includes quality management oversight, design, and permitting for civil engineering projects in the public right-of-way, as well as architectural expertise. While most directly aligned with improving the condition and quality of City facilities and infrastructure, this program is also pivotal in driving efficiencies and innovations across the capital project delivery system that can lead to a lower overall cost of City government.

SUPPORT SERVICES DEPARTMENTS

Building Services

In FY 2021-22, the Building Services Department (BSD) supports the Government that Works for All outcome through aligned operating budget expenditures of \$15.1 million, which represent a majority of its operating budget. One of the front-line drivers of success with respect to the condition of City facilities and infrastructure, BSD delivers a wide spectrum of general maintenance, electrical, plumbing, heating, ventilation, and air conditioning (HVAC) services, as well as provides building management, project management, and maintenance contract management support for many City facilities. BSD is also responsible for many administrative facility costs including electric, water, wastewater, and mail services. As evidenced by the "Percentage of facilities rated as "good" in the Facilities Condition Index" measure, BSD has focused more on addressing deferred and planned maintenance of facilities versus reactionary activities to address equipment failures over the past two years. By establishing comprehensive preventive maintenance schedules and increasing the amount of time spent on preventive maintenance activities, BSD is achieving reduced incidents of equipment failure, increased occupant comfort, and increased efficiency combined with decreased operational costs.

Communications and Public Information Office

With an FY 2021-22 operating budget for Government that Works for All of \$5.9 million, nearly all of the Communications and Public Information Office (CPIO)'s budget aligns with this outcome through its six primary functions, each of which support the City's strategic efforts to increase stakeholder engagement and participation, showcased by CPIO taking the lead communications role for several high-profile initiatives—COVID-19, homelessness, and Reimagining Public Safety—over the past year.

 The community engagement team plays a critical role in driving meaningful dialogue with residents and community stakeholders with a growing emphasis

stakeholders, with a growing emphasis on connecting with minority and non-English-language communities, as well as others who might have limited access to government.

- The strategic marketing staff works with City departments to develop effective marketing and communications campaigns while providing communications project management for Citywide initiatives.
- The media relations staff provides media guidance, support, and training across the City, while also maintaining primary responsibility for many of the City's ever-growing social media channels.
- Core focus areas of ATXN video production services include coverage of meetings and news conferences, in-house production of public service announcements and issues-driven coverage, ondemand streaming access to video, and widespread integration of video into many of the City's communications, social media, and engagement initiatives.
- The web and creative services division is responsible for the City's visual and content brand, which includes the City's web properties, printed collateral, and other communications materials.
- The public safety division coordinates and supports communications and marketing for the Austin Police Department.

Financial Services

With \$52.3 million of its operating budget dedicated to the Government that Works for All outcome, the Financial Services Department (FSD) maintains the financial integrity of the City by providing comprehensive and integrated financial management, administration, and support services to City departments and other customers. FSD works to support Government that Works for All through nine primary operating programs, all of which support the outcome in complementary ways:

- Budget Office provides an annual budget and analysis of financial information to City departments, management and Council so they can make informed decisions.
- Capital Contracting Services administers the procurement of professional and construction services and executes and manages contracts essential for the delivery of efficient capital improvements so that all City of Austin residents can have an improved quality of life.
- Controller's Office provides internal controls, financial oversight and guidance, financial information, and payments to City employees and vendors so that departments may manage their business and meet their financial reporting needs.
- Office of Performance Management champions strategic planning and alignment, performance measurement and data analytics, and continuous improvement for the City to achieve customer-focused operational excellence.

- The Office of Real Estate Services (ORES) continues to manage increased demand for professional real estate services, such as requests for surveys, property valuations, rent studies, reports, and consultations related to City building and land needs. Additionally, they administer the lease of City-owned property to third parties.
- Procurement Office provides procurement related activities and services in a timely and cost-effective manner to City departments so that they have the resources they need to do their jobs.
- Police Finance provides financial support services to the Austin Police Department, which include budget monitoring, grant management, procurement and contract administration, asset management and accounts payable and receivables.
- Telecommunications and Regulatory Affairs advocates for the welfare of citizens by ensuring the City receives fair compensation for the private use of public rights-of-way, by bringing access to the internet and computer technology to all members of the community through digital inclusion programs, and by protecting consumers from utility rate increases and unfair predatory lending practices.
- The Treasury Office effectively manages the City's cash and investments in order to optimize investment income and financial resources, along with managing and servicing the City's debt to minimize costs.

City Council approved the creation of the Police Finance program through a mid-year amendment to the FY 2020-21 budget as part of the broader Reimagining Public Safety initiative. Consolidating the Police Finance unit with the Financial Services department will strengthen oversight, improve efficiency, and allow the Austin Police Department (APD) to focus on its core mission of law enforcement.

The FY 2021-22 budget also includes the integration of the Office of Real Estate Services (ORES) into the Financial Services Department (FSD). This consolidation will strengthen the connection between citywide real estate transactions and their underlying financing mechanisms. Also, Financial Services and Real Estate Services, in addition to Building Services, are key partners in the City's strategic facilities governance process, which includes the public/private partnership facility development model. Consolidating ORES into FSD will improve synergies and streamline implementation of this important initiative.

Perhaps the most holistic measure of FSD's strong support of the Government that Works for All outcome is the City of Austin's general obligation (GO) bond ratings. A bond rating is a measure of an entity's ability to repay its debt, and in assigning a rating to the City of Austin's debt issues, ratings agencies consider the performance of the local economy, strength of the City's financial and administrative management, and various debt-ratio measurements.

	FY17 Actual	FY18 Actual	FY19 Actual	FY20 Actual	FY21 Estimated
Fitch Investors	AAA	AAA	AAA	AAA	AAA
Moody's	Aaa	Aaa	Aaa	Aal	Aal
Standard & Poor's	AAA	AAA	AAA	AAA	AAA

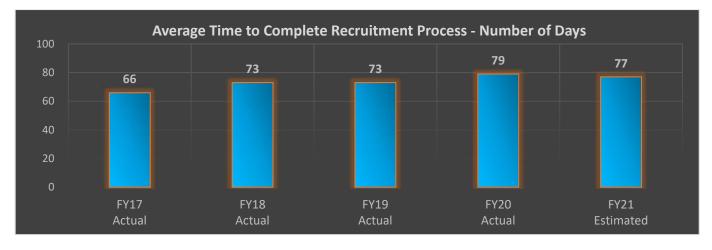

City of Austin GO Bond Ratings

Human Resources

The Human Resources Department (HRD) supports the Government that Works for All outcome through \$32.7 million in operating budget expenditures, which comprise nearly the entirety of its FY 2021-22 operating budget. HRD supports Citywide human resources functions for 15,000 employees by collaborating with and offering guidance to Human Resources professionals in individual departments and serving as business partners to executive leadership. HRD provides competitive benefits and compensation, employee

development opportunities, and initiatives that promote an inclusive and diverse organizational culture. Healthcare represents one of the City's primary cost drivers, and HRD leverages benefit costs by supporting a robust and award-winning wellness program.

HRD utilizes an applicant tracking system to complete the employment recruitment process and support all the City Departments' hiring efforts. The Average Time to Complete Recruitment is one of HRD's Key Performance Indicators.

Law

Law Department's operating budget aligned to Government that Works for All is \$21.5 million. Law Department staff draft and review contracts, ordinances, resolutions, interlocal agreements, and myriad other legal documents. The Department represents the City and its employees in hundreds of litigations and pre-litigation claims and prosecutes all Class C misdemeanors filed in Municipal Court. In addition, the Department provides training across the City on a variety of matters, including ethics, diversity, employment issues, witness preparation, and municipal legal issues.

Management Services

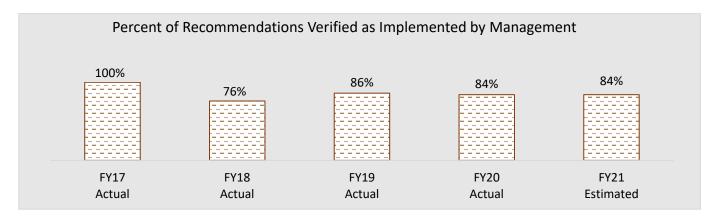

Management Services' FY 2021-22 operating budget aligns \$15.9 million with the Government that Works for All outcome, primarily associated with the Office of the City Manager, Intergovernmental Relations Office, Labor Relations Office, Equity Office, Innovation Office, Office of Civil Rights, and the Office of Police Oversight. The City Manager, Deputy City Manager, and Assistant City Managers oversee ongoing City operations and the implementation of City Council policy directives. The Intergovernmental Relations Office works to ensure that the City's interests are protected and enhanced through active involvement in the legislative process and strong intergovernmental relationships. The Labor Relations Office negotiates and administers labor contracts for the City and provides policy and oversight on labor-management matters. Launched in FY 2016-17, the Equity Office is tasked with building leadership and developing the capacity of the City to advance equity, primarily within the Government that Works for All for All outcome but with impacts across all six outcomes. The Innovation Office helps diverse and inclusive teams examine challenges and opportunities to surface better ideas and solutions that make a lasting, positive impact on City services. The Office of Police Oversight reviews complaints about the Police Department and provides recommendations for resolution when applicable. In FY 2021-22, Management Services is receiving additional resources in the Office of Civil Rights to better investigate and adjudicate civil rights violations citywide.

Mayor and City Council

The Mayor and City Council provide leadership, governance, and policy direction to the entire City by enacting ordinances and resolutions, adopting budgets, and appointing the City Manager. Nearly the entirety of Mayor and Council's FY 2021-22 operating budget is aligned with the Government that Works for All outcome, with \$6.7 million in funding for salaries and office expenses for the Mayor, Councilmembers, and their staff.

Office of the City Auditor

The Office of the City Auditor (OCA) assists the City Council in establishing accountability and continuous improvement in Austin City government and is primary champion of transparency and ethical practices. OCA's FY 2021-22 operating budget aligns almost entirely with Government That Works for All, with a \$4.8 million operating budget dedicated to this outcome. OCA provides independent and objective information and recommendations to City Council and management to improve the performance of City services with respect to results, efficiency, and compliance, and to strengthen accountability for that performance, and OCA strives to help departments improve service delivery by designing practical audit recommendations. To track the value the OCA adds to the city, the percent of recommendations verified as implemented by management measure shows the positive actions taken by responsible parties because of audit recommendations. In FY 2020-21, OCA projects 84% of recommendations will be implemented.

Office of the City Clerk

The Office of the City Clerk's FY 2021-22 operating budget is nearly entirely aligned with Government That Works for All, contributing \$4.6 million in support of this outcome. The Office supports City Council meetings;

coordinates all aspects of the Boards and Commissions system; confirms that ordinances, resolutions, and minutes accurately reflect City Council action; codifies and publishes ordinances; and provides research services for City Council-approved records. The Records and Information Management function within the Office provides comprehensive services that promote efficient, compliant, and transparent governance and administration of the City's information resources. The Office's Elections function supports voters, petitioners, City departments, media, and candidates, so they can effectively participate in the election process, including the petition verification and campaign finance findings.

OTHER GOVERNMENT THAT WORKS FOR ALL OUTCOME PROGRAMS

Numerous other City units also play roles in supporting the Government that Works for All outcome. These functions include:

- Several units of Austin Public Health, including its social services policy planning, contract management, accounts payable, information systems, facilities, and human resources (\$16.1 million);
- The watershed modeling and analysis, infrastructure management, data management, planning, geospatial analysis, and IT support units of the Watershed Protection Department (\$8.7 million);
- The Telecommunications and Regulatory Affairs program within Financial Services monitors and enforces the City of Austin's Credit Access Business Ordinance, which aims to reduce predatory lending practices within city limits (\$197,000); and
- The Community Technology Initiative provides opportunities to ensure underserved residents have access to public digital literacy training, internet connectivity and computer devices that enable them to fully engage in our digital society (\$1.3 million).

GOVERNMENT THAT WORKS FOR ALL OUTCOME – HIGHLIGHTS

ADDITIONAL POSITIONS TO SUPPORT AUSTIN WATER: In FY 2021-22, Austin Water is adding 17 new positions for a total of \$1.9 million included in the Government That Works outcome, including a position that has been added to better meet the expected demand of site plan corrections. Also included are two positions to focus on electrical support at Ullrich Water Treatment Plant, a position to focus on cyber threats, a staff person to support hiring teams for timely position fulfilment, and a position whose primary focus will be on reviewing Service Extension Requests (SER) to reduce the SER back log and review time.

AUSTIN ENERGY New WAREHOUSE: Austin Energy plans to acquire a new warehouse and laydown yard, which will include an approximately 25-acre tract, 130,000 gross square feet building with 15,000 square feet of office space, parking, and related site amenities. The structure will be constructed to meet LEED® certification and Well Building® standards. Construction is anticipated to be complete in the fourth quarter of 2022. In FY 2021-22, \$17.5 million in capital spending is allocated for the construction of the new warehouse. The total projected cost for this new facility is estimated at \$35 million. Completion of the warehouse will allow Austin Energy to vacate its current location on Ryan Drive, allowing for the redevelopment of the property to enhance the local community. The redevelopment project for the Ryan Drive property is in the planning phase and is being conducted by the Economic Development Department.

AUSTIN POLICE RETIREMENT SYSTEM REFORM: In the 87th Texas Legislative Session, following extensive work and collaboration between the City, the Austin Police Retirement System (APRS) Board of Trustees, and the Austin legislative delegation, HB 4368 was passed, which addresses APRS pension liabilities and places APRS on an actuarially sound path. Reforms to the system include a lower benefit tier for members hired on or after January 1, 2022, increased member contributions, increased City contributions phased in over three years, an actuarial determined contribution funding model replacing a fixed contribution model, removal of authority of the APRS Board to provide cost of living adjustments or change member benefits, and reform of the APRS Board of Trustees governance structure by replacing one active member seat with one citizen seat appointed by the City Council. These necessary and fundamental reforms reduce the pension plan's funding period from an infinite funding period to a 30-year period. The FY 2021-22 budget includes an additional \$6.0 million in funding that the City will contribute to APRS, bringing the total budgeted City contributions to \$45.1 million.

AUSTIN WATER INSOURCING SECURITY SERVICES: In FY 2021-22, Austin Water is adding ten new security program positions for \$636,000 to insource some security services. Costs will be partially offset by a reduction in existing security contracts.

CAPITAL DELIVERY STAFFING ENHANCEMENTS: Seven new positions for \$665,000 in Public Works will support the growing workload of capital improvements projects across the City, particularly from Austin Water, Aviation, and departments with funding from the 2016, 2018, and 2020 bond programs. The costs of these positions will be directly charged to capital projects.

CAPITAL REHABILITATION FUNDING: In FY 2021-22, the City is investing \$8.3 million into various City assets to address mission-critical infrastructure and deferred facility maintenance, in keeping with City financial policy.

- \$4.5 million in Building Services for facility renovations for the short- and/or long-term relocation of the Downtown Austin Community Court (\$2.2 million); forensics and public safety facility rehabilitation for roof replacements and mechanical, electrical, and plumbing projects (\$1.4 million); running track replacement at the Public Safety Training Campus utilized by public safety departments (\$750,000); and Austin Animal Center play yard repairs and upgrades (\$200,000);
- \$2.1 million in Parks and Recreation for renovations—such as roof replacement, HVAC, school park equipment, and ball field lighting—at the Millennium Youth Entertainment Complex, Buford Tower, AISD shared sites, Lions Municipal Golf Course, the Zilker Botanical Garden, and the Zilker Hillside Theater, along with other sites;
- \$1.6 million in Austin Public Health for HVAC and roof replacements at various health facilities and security improvements at the Montopolis Neighborhood Center; and

 \$55,000 in Economic Development for artworks identified as priority improvements through the Art in Public Places Program from a study that identified projects in need of repair and/or restoration.

CISTERN SUBSTATION: Includes constructing a new 345 kV switchyard close to the town of Rosanky, which interconnects the proposed, privately developed, 218 MW Big Star Solar farm to the Austin Energy transmission system. It also includes line relaying and communication equipment upgrades at Lytton Springs and Holman substations. This project fulfills Austin Energy's responsibility as a Transmission Service Provider (TSP) in ERCOT (The Electric Reliability Council of Texas) to interconnect the proposed private solar generation facility. At a total project cost of \$9.1 million, the substation is expected to be operational in fall 2022.

CITY BRANDING INITIATIVE: To establish and maintain a consistent and clear City of Austin brand, \$160,000 is being added in FY 2021-22 to CPIO for a temporary marketing position, contracted resources, and supporting software solutions.

COMMUNICATIONS AND PUBLIC INFORMATION OFFICE (CPIO) STAFFING: As Austin continues to grow, communication needs increase as well, and some services historically performed by temporary employees are in need of permanent staffing. In FY 2021-22, CPIO's long-term staffing needs are addressed with an additional \$246,000 for the conversion of three temporary employees into permanent positions, two for ATXN production and one for digital services for the new City website. Additionally, another \$215,000 is included for additional digital services temporary employee costs.

COMMUNITY TECHNOLOGY STUDY: Telecommunications and Regulatory Affairs program within Financial Services aims to bring access to the internet and computer technology to all members of the community through digital inclusion programs. One-time funding of \$250,000 is included in the FY 2021-22 budget to conduct and begin implementation of the Community Technology Study, aimed to assess community needs for technology devices, basic technology skills, training, and internet connectivity.

DOWNTOWN SUBSTATION: Austin Energy plans to establish a new downtown substation to serve the massive redevelopment potential in the Rainey Street area and along Waller Creek. These areas are expected to include new retail, restaurant, and hotel loads east of downtown. At a total project cost of \$24.8 million, the substation, which is already under construction, is expected to be operational in summer or fall 2022.

EQUITY OFFICE FY 2021-22 PRIORITIES: The Equity Office continues to help transform our local city government to better meet the needs of communities of color and other vulnerable populations with an operating budget of \$2.9 million. One of the ways the Equity Office seeks to do this in FY 2021-22 is through the expanded use of equity assessment tools. The Equity Office, in partnership with the Housing and Planning Department, Innovation Office, Economic Development Department, Project Connect Office, Austin Transit Partnership, and Capital Metro will advance the implementation and utilization of the Project Connect Equity tool to prevent displacement and improve equity across the entire scope of the project. The Equity Office will also help inform the City's policy development and priorities for vulnerable populations in the new fiscal year with the upcoming release of two critical reports – the City's first LGBTQ+ Quality of Life Study and Austin's initial Welcoming Cities report, which will establish a baseline for Austin to begin a pathway for becoming a certified Welcoming City for immigrant communities.

GREEN BUILDING POLICY UPDATE: In FY 2021-22, \$100,000 and one new position is added to the Public Works Department to lead and support Green Building initiatives and sustainability goals on City projects in response to Council direction to update the City's Green Building Policy and achieve zero waste, net zero energy, and net positive water buildings on City-owned land.

HUMAN CAPITAL MANAGEMENT SYSTEM: The passage of SB58 in the 87th legislature allows cities to utilize debt to fund the implementation costs of cloud-based solutions. This new law provides a much-needed funding solution for the implementation of the Human Capital Management system, which the City of Austin has been planning for over nine years. The Human Resources Department (HRD), Communication and Technology Management (CTM), and Controller's Office are collaborating to launch and procure a contract for a Human Capital Management System. This project will bring together approximately 20 stand-alone systems and create a single source for employee records. HRD's FY 2021-22 budget includes two positions and \$201,000 in funding to support the initial implementation of the system. The Financial Services Department's FY 2021-22 budget includes \$350,000 in new ongoing funding, for a total of \$3.2 million, to support the annual operating cost of this system. The FY 2021-22 capital budget also includes a \$3.4 million one-time transfer from the Support Services Fund and \$10.0 million backed by the future issuance of debt.

INSOURCING CUSTODIAL SERVICES AT AUSTIN ENERGY SITES: Building Services is adding 8.5 new positions to provide previously contracted custodial services in-house at three Austin Energy sites. These positions and their total costs of \$449,000 are 100% paid for by Austin Energy, for a \$0 cost to the Support Services Fund.

INCREASED STAFFING FOR AUSTIN ENERGY: To meet growing demands, Austin Energy is adding 85 full-time positions in the areas of electric system delivery, customer care, customer account management, corporate services, customer energy solutions and information technology for a total net cost of \$4.6 million. More than half—44—of these positions are replacing temporary or contracted positions that are being converted to full-time. Of the 85 positions added, 62 of them align to the Government the Works for All strategic outcome, 19 align to Safety, three align to Economic Opportunity and Affordability and one aligns to Health and Environment. Austin Energy will

also be transferring one full-time position to the Financial Services Department to assist in financial support to the Utility.

LEGISLATIVE SUPPORT: One new position is included in Management Services' budget to support the Intergovernmental Relations Office (IGRO) in conducting legislative review, assisting work related to anticipated special sessions, and providing briefings to Boards and Commissions and other organizations. This position is being funded by reallocating IGRO's existing contractuals and commodities budget.

MEET AND CONFER FUNDING: One-time funding in the amount of \$600,000 is included in Management Services' budget to support the Labor Relations Office in facilitating labor contract negotiations on behalf of the City of Austin. This amount will fund a contract with a consultant lawyer/firm to help the City navigate the labor negotiation process and a consultant contract for salary compensation study for Police, Fire, and EMS Departments.

MUELLER ENERGY CENTER 2 (MEC2): Austin Energy plans to add more combined heating and power capability at the Dell Children's Medical Center, which will be referred to as Mueller Energy Center 2 (MEC2). Much like Mueller Energy Center 1, which was placed into service in 2007, MEC2 will provide additional power and cooling to the Medical Center and Mueller Development and will export any excess power back to Austin's electric grid. At a total budgeted cost of \$21.5 million, MEC2 is expected to be operational by the end of 2022.

New Communications and Technology Management (CTM) Positions: Five new positions—all funded via contractual savings—are added to CTM for FY 2021-22. These positions will augment the City's existing network infrastructure, while also implementing cybersecurity policies and procedures.

OFFICE OF CIVIL RIGHTS: The newly created Office of Civil Rights (OCR) resides under the City Manager's Office within Management Services and will expand on previous City initiatives, including enforcement of City ordinances and federal statutes prohibiting discrimination in employment, housing, public accommodations, and fair labor standards ordinances. The new Office will also provide education and outreach to the community and feedback and recommendations to City management involving new and expanded initiatives and programs Citywide. This Office includes 16 positions, including six grant positions and three new positions for FY 2021-22, with a total operating budget of \$2.0 million. The three new positions will assist in the development of OCR's community engagement and outreach program; assist in the design and implementation of its regulatory and compliance review programs; and help to establish and improve access to City enforcement services.

OFFICE OF POLICE OVERSIGHT FY 2021-22 PRIORITIES: In FY 2021-22, the Office of Police Oversight has an operating budget of \$3.7 million. In the next fiscal year, OPO will continue the APD General Orders Rewrite effort by researching best practices in policing, gathering community feedback, and making recommendations to improve their policy manual. Additionally, OPO will expand community engagement efforts to build trust with the community, enhance transparency through the complaints process, and increase accountability with reports and research on best practices on APD patterns and practices.

ON-SITE AND MOBILE HEALTH CLINICS: The Human Resources Department (HRD) has partnered with Premise Health to provide onsite and mobile health clinics to City of Austin employees. With funding of \$1.2 million for FY 2021-22 from the Employee Benefits Fund, clinic staff will provide preventive care, manage chronic disease, and close gaps in care that generally result in poor health outcomes and increased healthcare costs. Employees will also be able to utilize the clinics to treat minor injuries and illnesses. The goal is to decrease absenteeism and increase productivity while lowering the cost of healthcare. The fixed contract pricing of the clinics provides an economical alternative to costly ER visits, chronic disease management, and rising healthcare costs.

PUBLIC INFORMATION REQUEST SUPPORT: HRD's FY 2021-22 budget includes one new position and \$66,000 in funding to support processing public information requests received by the Department. The volume of requests has steadily increased in recent years and this additional support will allow the Department to more efficiently and effectively respond to requests from the public.

WILDFIRE/EXTREME WEATHER MITIGATION: Austin Energy plans to install 100 Distribution Fault Analyzers on 100 distribution feeders in 2021 and 2022. This system will provide real-time information about wildfire and extreme weather conditions that can affect the distribution system, giving Austin Energy the opportunity to lessen the risks associated with wildfires. At a total project cost of \$2.5 million, the project is expected to be completed in Paula 2023.

WORKFORCE MANAGEMENT SOLUTION: HRD, CTM, and FSD have worked to develop a digital timesheet system that went into production in January 2021 and will be implemented in departments throughout FY 2021-22. Employees will have access to electronic time entry and leave requests, up-to-date leave balance information, and labor scheduling to assist management with day-to-day operations. Digital timesheets assist in establishing a workplace culture of continuous improvement while embracing new technologies to improve business processes. Financial Services Department's FY 2021-22 operating budget includes \$2.6 million to support the rollout of this system.

GOVERNMENT THAT WORKS FOR ALL OUTCOME - STRATEGIC MEASURES BY INDICATOR CATEGORY

The following section highlights the strategic measures for the Government that Works for All outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

The Government that Works for All outcome envisions a City government that works effectively and collaboratively for all of us; that is equitable, ethical, and innovative. This cannot be accomplished without community collaboration, dedication from our City employees, and strong investments in infrastructure, facilities, and technology.

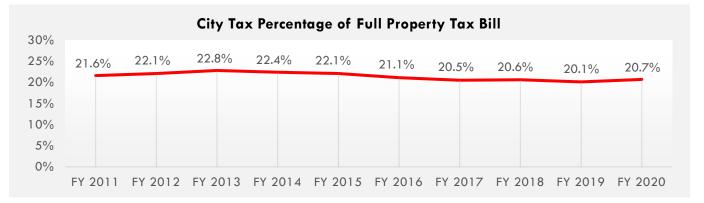

INDICATOR A: Financial Cost and Sustainability of City Government

Eight strategic measures are used to signal performance for the financial cost and sustainability of City government indicator category. The current data indicates one measure is on track, one measures is off track, and the balance are in some stage of measurement or do not have available data. In terms of trend (for measures with targets), one is trending positive and one negative.

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.A.1	Median City property tax as percentage of median family income	Not Available	1.4%	Measuring	Not Available
GTW.A.2	City tax percentage of full property tax bill	Not Available	20.7%	Measuring	Not Available
GTW.A.3	Adopted operations and maintenance (O&M) tax rate as a percentage of the effective O&M tax rate	Not Available	108%	Measuring	Not Available
GTW.A.4	Cost of City services per capita adjusted for inflation (General Fund only)	Not Available	915	Measuring	Not Available
GTW.A.5	Ratio of current reserves to overall annual General Fund budget	14%	16.4%	On Track	\checkmark
GTW.A.6	Financial Stability of the City of Austin Employees' Retirement Systems	80%	69%	Off Track	\bigotimes
GTW.A.7	<u>City Bond Ratings</u>	Informational Purposes Only			
GTW.A.8	Percent variance between actual and budgeted revenue	Not Available	2.6%	Measuring	Not Available

IN-DEPTH: City tax percentage of the full property tax bill

This measure tracks the City's median property tax bill as a percentage of full median property tax bill. We calculated this measure using the formula: median City of Austin property tax bill / median full property tax bill. In Fiscal Year 2020, the City's median tax bill represents 20.7% of the full median property tax bill. The City's tax percentage of full property tax bill has remained consistent (between 20.1% and 22.8%) over the ten year reporting period, illustrated further below.

Annual data on assessed property value can be found on the Travis County Appraisal District's (TCAD) <u>website</u>. Tax rates and homestead exemption amounts are collected from the following local taxing authorities: Travis County, Travis County Healthcare District, Austin Independent School District (AISD), and Austin Community College (ACC).

INDICATOR B: Condition/Quality of City Facilities and Infrastructure and Effective Adoption of Technology

This is one of City Council's top-ten indicator categories. Six strategic measures are used to signal performance for the Condition/Quality of City Facilities and Infrastructure and Effective Adoption of Technology indicator category. One measure is on track, three are off track, and the remainder are in progress and require further development. In terms of trend, three measures are flat or trending positive and two measures do not have enough available data to signal trend.

ID	Measure	Latest Target Achieved Status Tr			Trend
GTW.B.2	Percentage of City facilities rated as "good" in the Facilities Condition Index. (Industry Benchmark with three categories, good, fair, and poor)	30% 21% Off Track		Not Available	
GTW.B.3	<u>Percentage of downtime of critical digital</u> <u>services caused by a computer security</u> <u>vulnerability or threat actor.</u>	In Progress			
GTW.B.4	Percentage of all City buildings eligible for ENERGY STAR scores with scores greater than or equal to 75	50% 33% Off Track			
GTW.B.5	Number of City Services provided online through the City of Austin Web Portal (austintexas.gov)	50 66 On Track		\checkmark	

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.B.6	Percentage of residents and employees who are satisfied with the condition of City-owned facilities (e.g. cleanliness, safety, accessibility)	70%	61%	Off Track	
GTW.B.7	Percentage of infrastructure classified as poor or failing condition in the Comprehensive Infrastructure Assessment	In Progress			

INDICATOR C: Satisfaction with City Services

Five strategic measures are used to signal performance for the Satisfaction with City services indicator category. Concerning measure performance, one is on track, three are near target, and one is under development. In terms of trend, two measures are flat and two are trending downward.

ID	Measure	Target	Latest Achieved	Status	Trend	
GTW.C.1	Percentage of callers who report being satisfied with the services provided when they contacted our Austin 3-1-1 assistance telephone number	72%	73%	On Track		
GTW.C.2	Percentage of Austin residents who report being satisfied or very satisfied with the overall quality of services provided by the City	67%	61%	Near Target	0	
GTW.C.3	Percentage of residents who report being satisfied or very satisfied with the value they receive from the City of Austin for the taxes and fees they paid	33%	32%	Near Target	0	
GTW.C.4	Percentage of departments meeting established service standards	In Progress				
GTW.C.5	Percent operational availability of City Fleet Vehicles	95%	93%	Near Target		

INDICATOR D: Employee Engagement

Six strategic measures are used to monitor performance related to the Employee Engagement indicator category. In terms of status and trend, all six measures are on track and trending positive. These measures were added to the strategic performance dashboard in FY 2021.

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.D.1	Percentage of employees who feel that their ideas and suggestions are valued by department management	52%	55%	On Track	\checkmark

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.D.2.a	Percentage of employees who report overall satisfaction with promotion, career opportunities	44%	47%	On Track	
GTW.D.2.b	Percentage of employees who report competitiveness of salary	39%	41%	On Track	\checkmark
GTW.D.3	Percentage of City employees who believe the City uses results of the Listening to the Workforce survey to make improvements in the workplace	45%	48%	On Track	>
GTW.D.4	Employee attrition rate (categorized by reason for leaving)	8%	6%	On Track	<
GTW.D.5	Percentage of employees who feel that their department values diversity	75%	76%	On Track	

INDICATOR E: Stakeholder Engagement and Participation

Four strategic measures address the indicator related to engagement and participation of stakeholders. Of these, two measures are near target and two measures are under development. In terms of trend, the two developed measures slightly missed their targets and are experiencing a downward historical trend while two measures are in the data development stage.

ID	Measure	Target	Latest Achieved	Status	Trend	
GTW.E.1	Percentage of eligible residents who are registered to vote and who participate in City elections (disaggregated by race and geography)	In Progress				
GTW.E.2	Percentage of residents report being satisfied or very satisfied with their civic engagement experience with the City	40%	38%	Near Target	0	
GTW.E.3	Percentage of residents who believe Austin values dialogue between residents and government	40%	39%	Near Target	\mathbf{O}	
GTW.E.4	Number of engagement/outreach activities by department, Council district, time and type of activity	In Progress				

INDICATOR F: Equity of City Programs and Resource Allocation

Three strategic measures are used to signal performance for the Equity of City programs and resource allocation indicator category. Of these, one measure is on track, one is near target, and one measures is under development. In terms of trend, the two measures with reportable data are trending positive. The table on the subsequent page lists the status for each measure.

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.F.2	Difference between the percentage of community members of a particular race represented on City Boards and Commissions compared to the percentage of that race in the overall community population	In Progress			
GTW.F.3	Percentage of City departments implementing the equity assessment tool	21	19	Near Target	\checkmark
GTW.F.4	<u>Percentage of City employees who have</u> <u>completed diversity / anti-racism / implicit bias</u> <u>training*</u>	150	233	On Track	<

* The data reflects the number of employees completing these trainings from October 1, 2020-December 31, 2020, not percent

INDICATOR G: Transparency and Ethical Practices

Six strategic measures track the City's performance in the transparency and ethical practices indicator category. Of these, four measures are either on track or near target, one measure is being tracked without a set target, and one measure is under development. In terms of trend (for measures with targets), one measure is flat, one measure is trending positive, and two measures are trending negative.

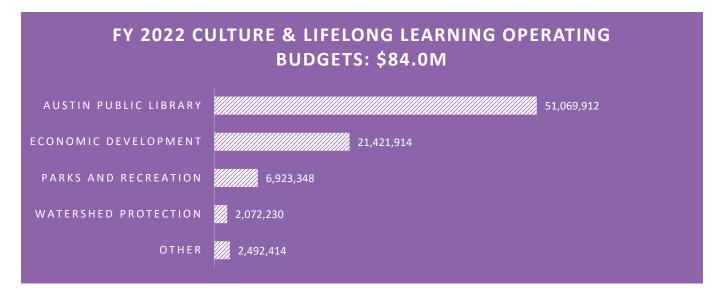

ID	Measure	Target	Latest Achieved	Status	Trend
GTW.G.1	Percentage of residents who report employees of the City of Austin are ethical in the way they conduct City business	57%	53%	Near Target	\mathbf{O}
GTW.G.2	Number of findings of fraud, waste, and abuse by employees, officials, and contractors	In Progress			
GTW.G.3	Percentage of employees who report that those in their work group generally behave ethically in the workplace	74%	76%	On Track	
GTW.G.4	Percentage of datasets published in the Open Data portal that are being utilized frequently (such as through an application programming interface (API) connection)	21%	19%	Near Target	\checkmark
GTW.G.5	Number of findings of unethical behavior as determined by the Ethics Review Commission	Not Available	2	Measuring	Not Available
GTW.G.6	Percentage of residents who report that they are satisfied with their ability to engage the City in a fair and transparent manner	36%	33%	Near Target	\bigcirc

The Culture & Lifelong Learning outcome supports Austin's unique civic, cultural, ethnic, and learning opportunities. In total, \$84.0 million of the FY 2021-22 operating budget supports the Culture & Lifelong Learning outcome. Council established five distinct indicator categories for measuring success in the Culture & Lifelong Learning outcome:

- Quality, accessibility, and diversity of civic and cultural venues, events, programs, and resources
- Vibrancy and sustainability of creative industry ecosystem
- Appreciation, respect, and welcoming of all people and cultures
- Honoring and preservation of historical and ethnic heritage
- Lifelong learning opportunities

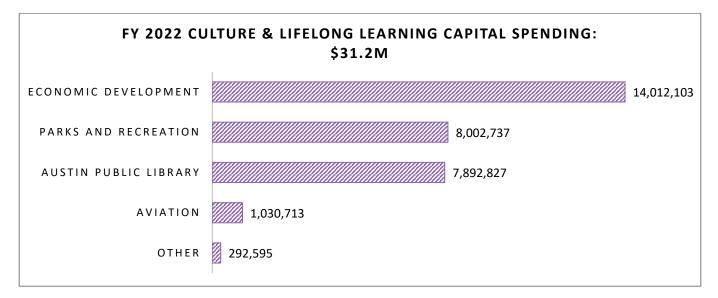

Many essential community facilities and programs are housed within the Culture & Lifelong Learning outcome. The largest cost component is the Austin Public Library at \$51.1 million, or 61%. The Economic Development Department aligns \$21.4 million to Culture & Lifelong Learning, and portions of the Parks and Recreation Department and the Watershed Protection Department also roll up to this outcome for \$6.9 million and \$2.1 million, respectively. The remaining four departments—categorized as "Other"—align for a combined \$2.5 million, or 3% of the overall outcome. The chart on the following page illustrates the total FY 2021-22 operating budget for this outcome.

Culture & Lifelong Learning has planned Capital Improvement Program (CIP) spending of \$31.2 million for FY 2021-22. Almost half of this is for the Economic Development Department with \$14.0 million dedicated toward existing artwork restoration, wayfinding installation, and cultural art facility improvements. Economic Development's capital program oversees the Art in Public Places (AIPP) program, which contracts with professional visual artists for services related to the design, fabrication, and installation of public art from eligible capital projects across the City.

The Parks and Recreation Department (PARD) follows with \$8.0 million in combined spending for museums, cultural, and arts center projects at PARD facilities, including the Dougherty Arts Center replacement, and the expansions and renovations to the Asian American Resource Center, Mexican American Cultural Center, and Carver Museum, Cultural, and Genealogy Center. Next is Austin Public Library with planned spending of \$7.9 million. Major work includes building systems, equipment replacement or retrofits, and the renovation of facility interiors to re-configure space to meet current levels of service and new needs. Finally, the Aviation Department has \$1.0 million in planned capital spending for the AIPP components of its facility renovations and construction.

The following chart highlights capital spending by department for the Culture & Lifelong Learning strategic outcome, and the "Other" category includes planned capital spending by the Austin Fire and Emergency Medical Services Departments for AIPP at fire and EMS stations.

CULTURE & LIFELONG LEARNING OUTCOME - OVERVIEW

AUSTIN PUBLIC LIBRARY

The Austin Public Library has \$51.1 million, or 83%, of its operating budget aligned to the Culture & Lifelong Learning outcome and is dedicated to providing customers access to a wide variety of resources, programs, and services at the Central Library, branch locations, and the Austin History Center. Library staff provide visitors with an array of services, including reference assistance, public internet, computers, online reservations and renewals, free meeting rooms, book clubs, programs for youth and adults, computer training courses, and Talk Time sessions, which are facilitated conversations that allow new English learners to practice speaking in a safe, non-threatening environment.

The centerpiece of the Austin library system is the Central Library. The building has six floors and 200,000 square feet of public space with 589 seats throughout the building. Also included are 140 public use computers, 150 self-check electronic devices, 50 large screens for displaying electronic information, and 14 shared learning rooms that can be used for classes, workshops, meetings, and co-working, among other uses.

FY 2021-22 will see the continual advancement of numerous Library initiatives. These initiatives were established to guide the organization as it moves forward and directly supports the Culture and Lifelong Learning outcome. The six initiatives are Literacy Advancement; Workforce and Economic

Development; Digital Inclusion, STEM, and Computer Training; Outreach and Community Engagement; Equity, Diversity, and Inclusion; and Staff Development.

APL manages 22 branch libraries citywide. The Austin library system would normally have approximately 3.6 million customers visit these locations, the Central Library, and the Austin History Center annually, with over 9.1 million items being circulated at these locations, but COVID-19 forced library closures to public. During these closures, multiple branches provided curbside services. APL+, a virtual programming platform, was launched and recognized by the Urban Libraries Council with a 2020 Innovation Award for customer service. A few Library facilities were used for COVID-19 testing and vaccination sites and many staff were re-assigned for emergency response services. All Library locations, except those under construction and still in use for COVID-19 services, will be re-opened for full access in August 2021.

ECONOMIC DEVELOPMENT

The Economic Development contributes \$21.4 million to the Culture & Lifelong Learning outcome across four funds. Three funds—the Cultural Arts, Historic Preservation, and Live Music Funds—provide \$17.7 million in service contracts to anticipated 120 arts organizations through cultural funding and 19 heritage sites to increase preservation and cultural tourism and professional and artistic development. Additionally, the guidelines for the Live Music Fund are under development. Most of the funds for cultural arts services contracts come from a portion of the revenues from the City's Hotel Occupancy Tax (HOT). The COVID-19 pandemic continues to severely impact the convention, tourism, and lodging industry, which continues to negatively impact HOT collection. The FY 2021-22 budget includes a one-time transfer from the Budget Stabilization Reserve Fund in the amount of \$4.8 million into the Cultural Arts Fund.

The Historic Preservation Fund represents almost half of Economic Development's contribution to Culture & Lifelong Learning with \$11.4 million aimed at promoting the rich histories and cultures of people and places in Austin while supporting the economic vitality of the hospitality industry. This Fund supports potential acquisition of historic property, maintenance and operations of historic city facilities, and heritage preservations grants.

Other programs and activities supporting this outcome include cultural development and contracting services, coordination of the Arts in Public Places Program, the African American Heritage Facility, and music and entertainment activities with a budget of \$3.8 million in the Economic Development Fund. The Peace and

Harmony mural at the Colony Park District Park by Tyson Davis is one of 45 active collection pieces and 10 artwork donations. Additionally, 25 eligible AIPP Bond Projects are an anticipated and 20 artworks are in in need of significant restoration. The AIPP collection totals over 300 works of art, and the FY 2021-22 Capital Budget includes an additional \$90,000 to repair art works from this collection. The design, fabrication and installation of public art is funded from a 2% contribution from eligible capital projects from various funding sources across the City, per City Code Chapter 7-2, the Art in Public Places Ordinance.

PARKS AND RECREATION

The Parks and Recreation Department (PARD), with a \$6.9 million operating budget, is the third largest contributor to the Culture and Lifelong Learning outcome. PARD counts all City museums, the Zilker Hillside Theater, the Umlauf Sculpture Garden, and cultural and arts centers, such as the Emma S. Barrientos Mexican American Cultural Center and the Dougherty Arts Center, under this outcome, which also contains full funding for the Asian American Resource Center, Genealogy Center, Oakwood Cemetery Chapel, the Old Bakery & Emporium, and the Totally Cool Totally Art Program. In FY 2020-21, PARD estimates 50,000 participants will attend a free cultural special event, the

department will provide 10,872 hours of arts and culture programming, with 98% of program participants reporting they increased their knowledge and understanding of cultures, history, and art.

OTHER DEPARTMENTS

Five other departments comprise the remaining \$4.6 million of this outcome.

- The Watershed Protection Department utilizes \$2.1 million to deliver education services concerning water quality, erosion, and flooding issues to adults and youth.
- Financial Services applies \$1.8 million from its Facility Operations unit via the Austin Cable Access Fund.
- Austin Energy's Community Support unit contributes \$414,000 through advertising and publication funding in support of community foundations, citywide events, programs, and chambers of commerce.

- Animal Services with \$227,000 in the Volunteer Services unit also contributes to this outcome.
- The Austin Police Department devotes \$21,000 to this outcome for the Police Honor Guard.

CULTURE & LIFELONG LEARNING OUTCOME – HIGHLIGHTS

AFRICAN AMERICAN CULTURAL HERITAGE FACILITY STAFFING: In response to the 2019 audit of City cultural centers, the African American Cultural Heritage Facility will use the existing program budget in the Economic Development Department to fund \$82,000 for a program coordinator position to expand the hours the facility is staffed.

ASIAN AMERICAN RESOURCE CENTER (AARC) IMPROVEMENTS: City Council approved an updated facility expansion plan for the AARC in Fall 2019, which guides the continued development of the campus. In FY 2021-22, PARD plans to spend \$500,000 toward the design of an initial phase of improvements focused around a new performing arts center on the campus. The design and construction are funded by the 2018 Bond Program, which dedicated \$7.0 million to the AARC.

CARVER MUSEUM IMPROVEMENTS: The Parks and Recreation Department continues to work on near-term renovations and improvements to the George Washington Carver, Museum, Cultural, and Genealogy Center in FY 2021-22 with a \$775,000 capital spend plan. The Carver Museum ATX facility expansion plan which will guide future development in alignment with the community's values, needs, and priorities, was approved by City Council in FY 2020-21.

COMMUNITY CREATIVITY CENTER: A total of \$12.0 million in capital spending from the 2018 Bond Program is expected in FY 2021-22 for cultural facilities for creative activities. On October 1, 2020, Council approved the creation of the Austin Economic Development Corporation (AEDC), and in June, Council approved the negotiation and execution of an agreement with Austin Economic Development Corporation to assist with the acquisition of creative spaces. Economic Development plans to use these funds to contract with the AEDC to acquire one or more creative facilities and contract with operators for the facilities. The procurement and acquisition process will occur in FY 2021-22 through the AEDC.

CREATIVE SPACE ASSISTANCE PROGRAM: A total of \$1.0 million in operating funding included in the FY 2021-22 Budget offers much-needed support to creative organizations facing permanent displacement, those previously displaced, or those facing lease renewals at substantially higher rates. The program is open to arts-focused nonprofits, as well as qualifying for-profit live music venues, performance spaces, and art galleries. **CULTURAL FUND SUPPORT:** In FY 2021-22, a total of \$11.5 million will be transferred to the Cultural Arts Fund, including \$6.7 million from the Hotel Occupancy Tax Fund and \$4.8 million one-time transfer from the Budget Stabilization Reserve Fund. The Cultural Arts Fund will provide \$3.0 million to cultural contractors, \$60,000 for Zach Scott Theater maintenance, and \$620,000 in associated administrative costs. Contractors are selected through a competitive peer review panel scoring process used to select quality arts and cultural programming. The scores from the peer review panel are then used to determine award amounts through a funding matrix which is reviewed and approved by the Arts Commission, with final allocation approval by City Council.

EMMA S. BARRIENTOS MEXICAN AMERICAN CULTURAL **CENTER (ESB-MACC) IMPROVEMENTS: Dedicated to** the preservation, creation, presentation, and promotion of Mexican American cultural arts and heritage, the ESB-MACC opened in 2007. The facility consists of a 30,000 square-foot facility with classrooms, exhibit galleries, and performance space as well as a 22,000 squarefoot outdoor plaza. The 2018 Bond Program provides \$27.0 million to support a second phase of improvements at the ESB-MACC, as identified in the facility expansion plan adopted by City Council on May 24, 2018, a continuation of the efforts of the local Mexican American and Latino community to create a cultural facility that promotes and expands the teaching of Mexican

DOUGHERTY ARTS CENTER REPLACEMENT: Currently housed in a naval reserve facility built in 1947, the Dougherty Arts Center serves as one of Austin's oldest and most cherished community arts centers. The 2018 Bond Program provided \$25.0 million to construct a new facility at Butler Shores to replace the existing building. The Parks and Recreation Department estimates spending \$1.2 million in the design phase for this new facility during FY 2021-22.

American heritage. PARD expects to spend \$1.5 million toward the design phase in FY 2021-22.

FAULK CENTRAL LIBRARY ARCHIVAL REPOSITORY AND HISTORY CENTER RENOVATIONS AND IMPROVEMENTS: The 2018 Bond Program includes \$14.5 million for phase 1 of Faulk Central Library Archival Repository renovations. The project plans include modification of the 2nd and 3rd floors of the facility to meet minimal archival storage standards for the Austin History Center, while upgrading mechanical, electrical, and plumbing components, as well as an elevator retrofit. The FY 2021-22 capital budget includes \$5.7 million in planned spending to continue these improvements.

HISTORIC PRESERVATION FUND: In FY 2021-22, a total of \$8.6 million in hotel occupancy tax revenue will be transferred to the Historic Preservation Fund, including \$6.7 million from the Hotel Occupancy Tax Fund and \$1.9 million from the Convention Center Operating Fund. A total of \$4.4 million will fund Housing and Planning's historic building surveys and citywide building scans, Economic Development's heritage tourism grant program and administrative costs, and Parks and Recreation's facility maintenance and staffing needs at Old Bakery and Emporium, O. Henry, Dickenson, Elisabet Ney Museum, Oakwood Chapel Visitors Center, and the Montopolis Historic School House. A total of \$7.0 million is available for the potential acquisition of

historic property per Council approval. Due to the decline in HOT tax receipts no funds will be dedicated for capital projects.

LIBRARY MATERIALS: The Library's FY 2021-22 budget contains \$6.0 million for library material costs, an increase of \$206,000 from the prior year, to account for increased material needs and population growth. This ensures information and materials in a variety of formats are available to enable residents to continue their lifelong learning experience.

LIBRARY STRATEGIC PLAN: The Library Facilities Maintenance and Improvements Fund has \$500,000 budgeted in FY 2021-22 in consultant fees for a strategic plan for operations and facilities. The updated Facilities Master Plan will assist the Library in determining funding requirements for building renovations including the potential for libraries as Resilience Hubs.

LIVE MUSIC FUND: In FY 2021-22, a total of \$1.9 million will be transferred to the Live Music Fund from the Convention Center Operating Fund. In September 2019, the City Council approved Ordinance 20190919-149 and directed 15% of an additional 2 cents of Hotel Occupancy Tax collected for the expansion of the Austin Convention Center for the local music industry. A total of \$2.6 million is included in the FY 2021-22 budget for local music events that meet the requirements of Texas Tax Code Section 351.101(a)(4), which is used to promote arts, culture, and tourism events to tourists and convention delegates. The Economic Development is developing guidelines in late FY 2020-21 with input from community stakeholders, as well as the Live Music Fund Working Group and the Systemic Racism Working Group, which are both comprised of Music Commissioners and representatives of Austin's music industry.

STREET PERFORMANCE PROGRAM: Council approved resolution No. 20210127-055 to reactivate Downtown Austin and increase the number of people who want to shop, play, eat, drink, and do business Downtown. One creative intervention is to expand the Street Performance Program to other downtown activation sites beyond its current Seaholm District footprint. EDD's FY 2021-22 budget includes \$30,000 for the Music and Entertainment Division for this initiative.

CULTURE & LIFELONG LEARNING OUTCOME - STRATEGIC OUTCOME MEASURES BY INDICATOR

The following section highlights the strategic measures for the Culture and Lifelong Learning outcome by Council indicator category. Listed are the strategic measure name, current target, the latest achievement to date, how the City is tracking to meet the established target, and the trend of the data over time.

The Culture and Lifelong Learning outcome focuses on preserving a comprehensive and accurate history of Austin, supporting our creative ecosystem, and enhancing lifelong learning opportunities, so that we can maintain Austin as a vibrant place to live, work, learn, and thrive.

INDICATOR A: Quality, Accessibility, and Diversity of Civic and Cultural Venues, Events, Programs, and Resources

This indicator category contains five strategic measures assessing the satisfaction levels of the myriad resources available to community members. Of these, two measures are on track with meeting or exceeding their performance target while three more fell short of the goal. All five measures reporting data are trending down in comparison to prior years.

ID	Measure	Target	Latest Achieved	Status	Trend
CLL.A.1	Percentage of residents who report being satisfied or very satisfied with the quality of cultural and learning services and programs	74%	74%	On Track	\mathbf{O}
CLL.A.3	Percentage of residents who report being satisfied or very satisfied with the quality of the City's cultural and learning facilities	74%	78%	Near Target	\bigotimes
CLL.A.4	Percentage of residents who report that they have attended a cultural event or program organized by the City in the past 6 months	25%	25%	On Track	\bigotimes
CLL.A.5	Percentage of recreation program participants reporting an improvement to their quality of life as a result of the program	72%	69%	Near Target	\bigcirc
CLL.A.6	Percentage of available reservations filled at City-owned cultural spaces	50%	46%	Near Target	\bigcirc

INDICATOR B: Vibrancy and Sustainability of Creative Industry Ecosystem

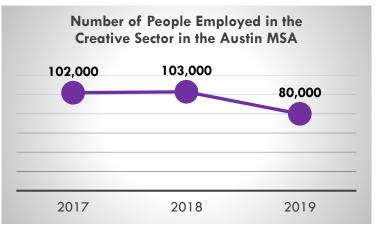

This is one of City Council's top-ten indicator categories. Six strategic measures are used to signal performance for the vibrancy and sustainability of creative industry ecosystem indicator category. Performance to date for the six measures show while four are on track to meet or exceed their target, four of these measures are trending downward. Two of the measures that are trending downward are also not on track to meet or exceed their target. The subsequent table features these measures and performance.

ID	Measure	Target	Latest Achieved	Status	Trend
CLL.B.1	Median Earnings of Metro-Area Creative Sector Occupations	\$21.40	\$19.34	Near Target	\mathbf{O}
CLL.B.2	Number of people employed in the creative sector in the Austin Metropolitan Statistical Area	80,000	80,000	Near Target	\mathbf{O}
CLL.B.3	Austin's Score on the Creative Vitality Index	1.0	1.39	On Track	\checkmark
CLL.B.4	Number and percentage of creative-sector professionals who indicated they benefited from a City-sponsored professional development opportunity*	96%	97%	On Track	\oslash
CLL.B.5	Number of community members who attended performances/events arranged through cultural and music contracts	4,000,000	5,260,000	On Track	\checkmark
CLL.B.6	Number and percentage of creatives who report having access to affordable creative space*	32%	32%	On Track	\mathbf{O}

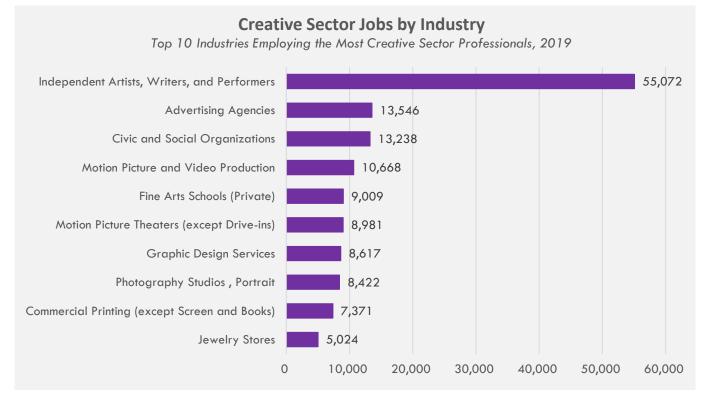

* The data listed reflects the percentage only

IN-DEPTH: Number of people employed in the creative sector in the Austin Metropolitan Statistical Area

This measure demonstrates the amount of people employed in the creative sector by specific industry codes, called the North Industry Classification American System (NAICS). While Austin is considered to have a healthy ecosystem of creative sector professionals, across almost all creative sector industries, the Austin metro area has lost jobs. Only small increases were observed in news syndicates, dance companies, and film production; and those only represent 26 total jobs between 2018 and 2019.

The creative sector includes independent artists, musicians, photographers, filmmakers, game designers, historic tour operators, for a total of 59 unique industries. Creative sector jobs by the top ten industries are shown in the graph below. The City of Austin clusters these industries into one sector we call the "creative sector". This sector drives \$9.7 billion in annual sales and sustains over 80,000 jobs in the Austin Metropolitan Statistical Area. The average wage of \$19.34 per hour is not as high as the wage required to sustain a family in Austin (at \$24.12 per hour, EOA.C.3), which raises concern for the City about retention. The City offers classes for business model development, e-commerce, accessing public art contracts, and other coaching opportunities, however, rising rents for both residential and commercial locations present ongoing challenges to retain Austin's creative community.

In fiscal year 2020, the City of Austin provided \$9.6 million in relief grants for individuals employed in the creative sector, small commercial businesses and non-profits in the creative sector. The City continued to honor its commitment with cultural contractors through the Hotel-Occupancy Tax (HOT) programs: Cultural Arts and Heritage Preservation. At the June 10, 2021 Council meeting, Council approved the American Rescue Plan Act (ARPA) spending framework which included federal funding of \$12.0 million to support the creative sector in its recovery from the impact of the COVID-19 pandemic over the next two years.

INDICATOR C: Appreciation, Respect, and Welcoming of all People and Cultures

Five strategic measures are used to signal performance for the appreciation, respect, and welcoming of all people and cultures indicator category. One measure is on track and in line with its target, one measure is performing near its target, one measure is off track, and the remainder are in measurement and do not have available data. The table on the subsequent page summarizes these measures.

ID	Measure	Target	Latest Achieved	Status	Trend
CLL.C.1	Percentage of residents who report feeling welcome in Austin	75%	71%	Near Target	0
CLL.C.2	Percentage of all Austin ZIP Codes where 70 percent or more of residents are the same race	Not Available	68%	Measuring	Not Available
CLL.C.3	Change in percentage of Austin population that is African American	Not Available	-0.7%	Measuring	Not Available
CLL.C.4	Number of attendees at City-supported multicultural activities	177,000	133,000	Off Track	0
CLL.C.5	Percentage of participants in City-supported events or programs who report that they increased their knowledge and understanding of culture, history, and/or art	98%	98%	On Track	~

INDICATOR D: Honoring and Preservation of Historical and Ethnic Heritage

Four strategic measures are used to signal performance for the honoring and preservation of historical and ethnic heritage indicator category. One measure with reportable results is meeting its target of 41%, though the trend has been declining from prior years. Two other measures are now reporting results but do not have a target, and the last measure remains in development.

ID	Measure	Target	Latest Achieved	Status	Trend	
CLL.D.1	Percentage of residents who feel that Austin is a place that honors and preserves my personal heritage	41%	41%	On Track	igodol	
CLL.D.2	Percentage of buildings, structures, and sites preserved as locally designated historic resources that represent the community heritages of African American, Asian, Hispanic/Latino, Indigenous, Pacific Islander, and/or other people of color	Not Available	12%	Measuring	Not Available	
CLL.D.3	Number and Percentage of Archival Requests Fulfilled	In Progress				
CLL.D.4	Number of potentially significant buildings, structures, or sites recommended for historic landmark designation by the Historic Landmark <u>Commission, but for which a demolition permit</u> was released	Not Available	2	Measuring	Not Available	

INDICATOR E: Lifelong Learning Opportunities

The Lifelong Learning Opportunities indicator category consists of three strategic measures. All measures are reporting results near target but are trending negatively in comparison to prior-year performance.

ID	Measure	Target	Latest Achieved	Status	Trend
CLL.E.1	Percentage of residents who report participating in a lifelong learning activity in the past 3 months	6%	5%	Near Target	0
CLL.E.2	Number of participants in City-offered lifelong learning events, activities and resources	253,000	230,000	Near Target	\mathbf{O}
CLL.E.3	Percentage of participants satisfied with City- offered lifelong learning events, activities, and resources	67%	65%	Near Target	\bigcirc

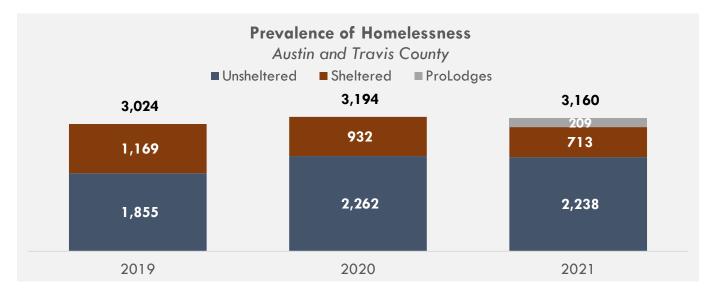

From the outset of the post-Great Recession economic expansion—upended suddenly in 2020 by the devasting COVID-19 pandemic—maybe no other large city in the United States better exhibited modern economic optimism than Austin, Texas: a rapidly growing metropolis surrounded by the arboreal beauty of the Hill Country that boomed under the vast commercial canopies of the technology, service, art, and tourism sectors. Nonetheless, this economic optimism was and still is not shared equitably amongst everyone, and there are many visibly left behind and shut out from this recently bygone economic era of good feelings, absent from the gains and improvements much of the community has benefited from. And this heartbreaking inequity manifests itself in a most upsetting and pernicious way that touches the lives of many: homelessness.

Although Austin has been epitome of municipal success in many ways (especially in the face of a pandemicstricken world), even such a successful community cannot escape the present-day American dichotomy of economic inequality: a monumental gulf between the literally towering real estate in the country's downtowns and the encampments and all-to-often-overflowing shelters on the country's streets. Yet there is hope, hope that despite such a complex and distressing problem, Austin can unite through a community of governments, organizations, and citizenry diligently and passionately working together to functionally end homelessness by making it rare, brief, and nonrecurring. With this communal spirit—harnessing Austin's entrepreneurial, adaptable, and resilient sensibility—the City of Austin proposes an FY 2021-22 homeless services appropriation of \$65.2 million, a significant thread in the collective ending-homelessness tapestry.

This FY 2021-22 homeless services appropriation framework encompasses all six strategic outcomes from Strategic Direction 2023 and involves thirteen City departments with specific funding allocated for homeless services, though other departments indirectly assist with the City's response to the homelessness crisis. The multi-department effort to end homelessness in Austin is detailed in this section, apart from the six strategic outcomes, because this high-priority issue affects so many in the community. Moreover, homeless services performance data—nine metrics that monitor and track the City's progress in assisting persons experiencing homelessness—can be found under the Homelessness indicator in the Strategic Outcome Measures by Indicator section within the Economic Opportunity & Affordability Outcome subsection.

In recent years, Austin has made substantial investments toward its goal of ending the homelessness crisis. However, the most recent Prevalence of Homelessness count from the Ending Community Homelessness Coalition (ECHO) shows that the number of persons experiencing homelessness remained effectively the same from 2020 to 2021. Prominent national trends—of which Austin is not immune—such as rising rent costs, insufficient affordable housing inventory, stagnant wages, lack of health insurance, and economic and racial inequity have regrettably continued to push many into homelessness. In previous years, ECHO estimated the number of persons experiencing homelessness through the annual Point-in-Time (PIT) count, utilizing teams of volunteer surveyors and shelter employees to collect data on the needs of people experiencing homelessness in the community at a specific point in time. Due to the COVID-19 pandemic, ECHO discerned that conducting an in-person unsheltered count in late January 2021 would put staff, volunteers, and persons experiencing homelessness at risk of COVID-19 contraction, so EHCO received approval from the U.S. Department of Housing and Urban Development (HUD) to not conduct an unsheltered PIT count in 2021 and instead used Homeless Management Information System (HMIS) data dating back to 2019 to estimate the extent of unsheltered homelessness in the community. Estimates of unsheltered homelessness based on this alternative methodology used in 2021 are not interchangeable with past in-person PIT count estimates.

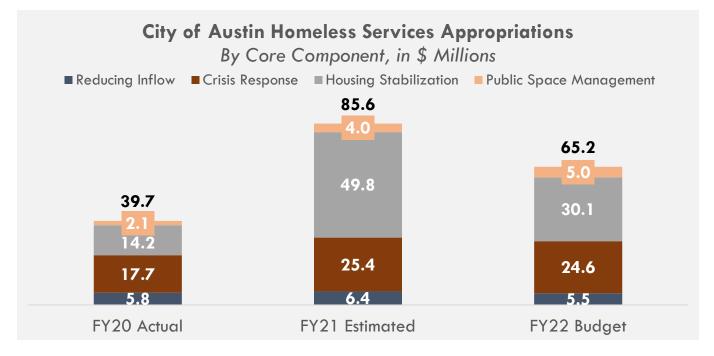

To reduce the prevalence of homelessness numbers and tackle a difficult societal problem like homelessness, an intricate and effective system is needed. A homelessness assistance system that efficiently engages unsheltered persons and supports their transition to necessary services and housing will ensure a system that works for all populations, while also functioning as a guiding structure for addressing the needs of all persons experiencing a housing crisis via four interrelated core components: Reducing Inflow, Crisis Response, Housing Stabilization, and Public Space Management. The figure below illustrates how these four core components interrelate in the homelessness assistance system. (For more information, see the Investing for Results: Priorities and Recommendations for a Systems Approach to End Homelessness report.)

Reducing	Crisis	Housing	Public Space
Inflow	Response	Stabilization	Management
RESPONSIBILITY:		NSIBILITY:	RESPONSIBILITY:
Public Systems		Assistance System	City & County Government
 Justice Anti-Poverty Prevention Health, including behavioral health Child Welfare System Affordable Housing 	 Austin Public Health Continuum of Care au Outreach Emergency shelter & Housing providers First responders Health, including behavior 		 Mayor and City Council City Manager Code enforcement Public Health Law enforcement Parks Outreach Libraries Businesses and business organizations
Use data to identify how people are becoming homeless and target prevention strategies and policies to these areas.	Investment in housing s capacity will make crisis effective and efficient.		To reduce expenditures, increase efforts to reduce inflow and expand homeless assistance system.

For any homelessness assistance system to succeed, it requires funding to help those in need. The graphs below summarize the City's investments in homeless services across the four core components for FY 2019-20 (actual expenses), FY 2020-21 (estimated expenses), and FY 2021-22 (budgeted expenses). FY 2020-21 estimated expenses and FY 2021-22 budgeted expenses do not include funding from the Coronavirus Aid, Relief, and Economic Security (CARES) and the American Rescue Plan (ARP) Acts, respectively, as they were passed by the federal government specifically for the response to the COVID-19 pandemic. On June 4, 2020, Austin City Council approved a COVID-19 spending framework to use federal COVID-19 relief funding (including the CARES Act) and local funding, and even though many of the services were utilized by persons experiencing homelessness, there was no specific allocation for homeless services. On June 10, 2021, Austin City Council passed a spending framework for ARP funds, which includes a \$106.7 million investment in homelessness efforts and infrastructure not detailed here (further information about the American Rescue Plan Act and the Cities spending framework is included in this Budget Document).

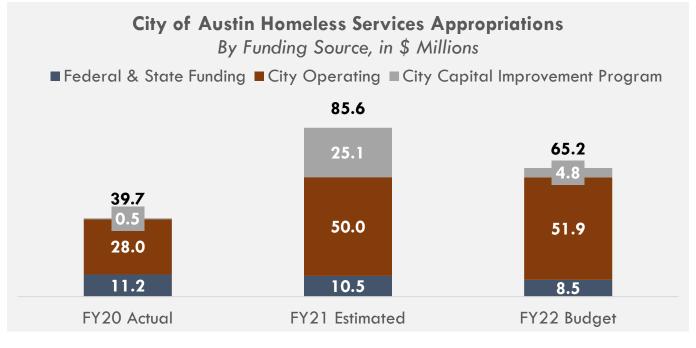

The City's FY 2021-22 homeless services appropriation—along with FY 2019-20 actual and FY 2020-21 estimated spending—aligns to these four core components, as seen below, and details on each core components' specific efforts to end homelessness are detailed in their own sections later in this document. City staff estimates spending \$85.6 million on homeless services in FY 2020-21, and over 1,300 individuals experiencing homelessness are anticipated to move into housing or maintain their housing through long-term housing programs, such as permanent supportive housing or medium-term rapid rehousing, by the end of FY 2020-21. Yet the overall FY 2020-21 estimated spending encompasses much more than Housing Stabilization, as Reducing Inflow and Crisis Response are also important components of the City of Austin's homeless services framework, and Public Space Management is an unfortunately necessary component when unsheltered homelessness is still so prevalent.

Please take note of some significant explanations about the data above:

- For FY 2020-21, higher-than-originally-projected spending is due to the CIP purchase of three hotels—Country Inn (purchased Oct 2020), Texas Bungalows (pending), and Candlewood Suites (pending)—totaling \$24.5 million for Housing Stabilization. These purchases are part of the hotel conversion strategy and were not included in the original FY 2020-21 budget because the timing of these acquisitions was unknown during budget development. Without these hotel purchases, total FY 2020-21 estimated spending would be consistent with the total FY 2020-21 and FY 2021-22 budgets.
- For FY 2021-22, some home repair programs—previously reported in FY 2019-20 and FY 2020-21—are no longer reported in the homeless services appropriation because they do not primarily service those persons experiencing homelessness, and these efforts are also retroactively removed from FY 2019-20 actual and FY 2020-21 estimated spending. However, these items are still included in the FY 2021-22 Housing and Planning proposed budget.
- In FY 2021-22, the Crisis Response core component appropriation is decreasing mostly due to removal of federal grant funding from Austin Public Health for emergency shelter contracts, and the Reducing Inflow core component appropriation is decreasing because displacement mitigation activities in Housing and Planning were budgeted as one-time funding.

Additionally, the homeless services appropriation is broken out by funding source below. This is important because City spending on homelessness can fluctuate each fiscal year depending on the type of funding source because these sources do not always align with the City's fiscal year. Appropriations from federal grants and the City's capital budget are usually multi-year, meaning that although an appropriation is budgeted in one fiscal year, funds are expended over multiple fiscal years, causing deferred spending in later fiscal years. The City's operating budget generally includes efforts and programs on a year-by-year basis, but it can also include one-time or reserve funding meant to be spent down in future years and/or contracts and programs with start dates and spending cycles that do not align with the City's fiscal year.

Reducing Inflow 🋞 🌚 🧐

Reducing Inflow prevents persons from entering homelessness, the most cost-effective and least disruptive solution to ending the homelessness crisis. In FY 2021-22, the City of Austin plans to allocate \$5.5 million to initiatives aimed at preventing individuals and families from experiencing homelessness, including:

- \$5.2 million for homelessness prevention contracts administered by Austin Public Health to provide case management and financial and legal assistance; and
- \$250,000 through the Austin Code Department to temporarily assist tenants who need to be relocated due to necessary enforcement action against property owners of extremely uninhabitable or dangerous residential units.

Crisis Response 🎆 🌚 🕮 🧐

Crisis Response identifies and engages persons experiencing homelessness and connects them to crisis services and temporary shelter options, as their immediate and most basic needs must be addressed before the process of reempowering that individual or family to regain a stable and secure place in the community can begin. In FY 2021-22, the City of Austin plans to allocate \$24.6 million to initiatives aimed at responding to homelessness crises, including:

 \$8.1 million in ongoing funding for City partners providing emergency shelter, including the SAFE Alliance, the ARCH, the Salvation Army, the Austin Shelter for Women and Children, Casa Marianella, Foundation for the Homeless, and others;

- \$4.1 million for contracts with outreach and housing navigation providers and for a pilot program to offer temporary work opportunities;
- \$3.3 million for Integral Care's Expanded Mobile Crisis Outreach Team (EMCOT), which aims to divert individuals from jail bookings and emergency department visits;

- \$2.0 million in Federal and State grant funding administered by Austin Public Health for the provision of emergency and temporary shelter services;
- \$1.7 million in Downtown Austin Community Court (including an Integral Care contract), Emergency Medical Services, and Police for the Homeless Outreach Street Team (HOST), a cross-departmental initiative that offers a proactive approach to addressing an individual's needs by referring them to appropriate resources before they reach a state of crisis, thereby reducing arrests, emergency room visits, and admissions to emergency psychiatric facilities;
- \$1.3 million to Front Steps for staffing, services, and operations of a bridge shelter;
- \$1.2 million to Integral Care's Managed Services Organization and Road to Recovery, which offer integrated mental health and substance use disorder treatment, case management, and employment training;
- \$792,000 in planned capital spending to rehabilitate the ARCH to better serve persons experiencing homelessness, including sewer line repair and increased bed capacity;
- \$783,000 in Downtown Austin Community Court to provide intensive case management services;
- \$469,000 for crisis intervention team and contract management staff in Austin Public Health;
- \$314,000 for a contract with Salvation Army and State grant funding for the provision of services for youths experiencing homelessness;
- \$171,000 for the Austin Resource Center for the Homeless (ARCH) utilities and maintenance expenses;
- \$164,000 for Communities for Recovery to provide recovery support services;
- \$154,000 for two community service coordinators to offers wraparound support services at identified branch libraries; and
- \$43,000 in the Support Services Fund for digital literacy training at the ARCH.

Housing Stabilization 🍈 🌚 🥮

Housing Stabilization connects individuals to permanent housing options with the right level of services to ensure their stability and success. This final step in addressing homelessness provides them with safe and sustainable housing solutions, as well as ongoing access to the social services and other assistance they may need to remain housed. In FY 2021-22, the City of Austin plans to allocate \$30.1 million to initiatives aimed at reempowering persons experiencing homelessness, including:

- \$6.5 million for permanent supportive housing, rapid rehousing, and/or other services;
- \$4.8 million for contracts funded through Austin Public Health with agencies that offer comprehensive wranground and supportive service

- comprehensive wraparound and supportive services for residents of permanent supportive housing;
- \$4.0 million from the Rental Housing Development Assistance (RHDA) funding to build permanent supportive housing units, dependent on the applications received through the RHDA Program and available funding;
- \$3.6 million from the Housing Trust Fund for a local housing voucher program to address operational needs for permanent supportive housing units realized from the City's hotel conversion strategy;
- \$3.4 million for rapid rehousing contracts administered by Austin Public Health, which provide housing location and placement services to vulnerable members of the community;
- \$2.0 million in one-time funding for major repairs and replacements at recently purchased hotels, as part of the hotel conversion strategy;

- \$1.8 million for contracts with providers of permanent supportive housing, funded through Housing Opportunities for Persons with AIDS (HOPWA) and 1115 Waiver Programs;
- \$1.1 million in funding through the Federal HOME Investment Partnerships Program that provides vouchers so that individuals experiencing homelessness can obtain apartment housing;
- \$840,000 for contracts with Front Steps to provide 47 permanent supportive housing units and offer targeted case management support;
- \$625,000 to continue renovating the Rodeway Inn—previously used as a ProLodge to provide a safe facility for individuals who were at increased risk for drastically negative outcomes from COVID-19—to provide 87 rooms for permanent supportive housing as part of the hotel conversion strategy;
- \$306,000 with ECHO to provide consulting and other services related to the City's Strategic Housing Blueprint goals for permanent supportive housing and Continuum of Care units;
- \$285,000 for Foundation Communities to provide permanent supportive housing services for clients of the Intensive Case Management program in Downtown Austin Community Court;
- \$244,000 for contracts with ECHO and the National Alliance to End Homelessness to develop, prioritize, and implement new strategies to end homelessness and for substance use treatment and care through ECHO, which serves as the lead agency for the Austin/Travis County Continuum of Care;
- \$181,000 for staff administration of 1115 Medicaid Waiver and Housing Opportunities for Persons with AIDS (HOPWA) grants;
- \$150,000 received through the Emergency Solutions Grant program to provide case management and financial assistance;
- \$127,000 for Family Eldercare to provide representative payee services—benefit payment management for Social Security or Supplemental Security Income (SSI) payment beneficiaries—and SSI/SSDI Outreach, Access, and Recovery (SOAR) application assistance for persons experiencing homelessness referred by Downtown Austin Community Court; and
- \$93,000 for one position to oversee facility maintenance at hotels owned by the City.

Public Space Management 🍘 🛞

Public Space Management focuses on inclusive practices that support the rights of all persons to use and benefit from public spaces. Although management of public spaces are a necessity in a homelessness assistance system, these policies should be as non-punitive as possible, and reducing unsheltered homelessness limits the needs for these resources. In FY 2021-22, the City of Austin plans to allocate \$5.0 million to initiatives aimed at managing public spaces, including:

• \$3.6 million allocated between the Austin Transportation, Austin Resource Recovery (ARR), Parks and Recreation (PARD), Public Works, and Watershed Protection Departments for expenses and staff time related to the clean-up of homeless encampments around roadways, parks, and other public spaces and infrastructure; funding in PARD for the Workforce First program to employ persons experiencing homelessness to maintain parkland; and funding in

ARR for administration of the Violet Bag trash collection program, which provides bags and drop-off sites close to encampments with a high volume of trash-related complaints.

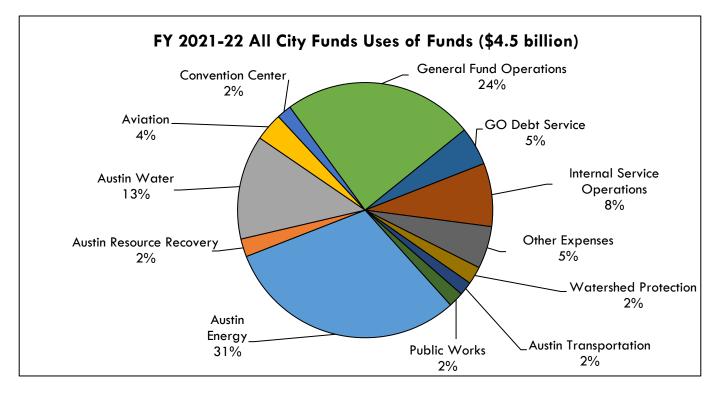

- \$807,000 and five positions in Austin Public Health for the Homeless Policy and Engagement Unit to provide Citywide policy support to address homelessness; and
- \$593,000 reserved for new Austin Public Health projects to assist with homeless services.

BUDGET IN BRIEF

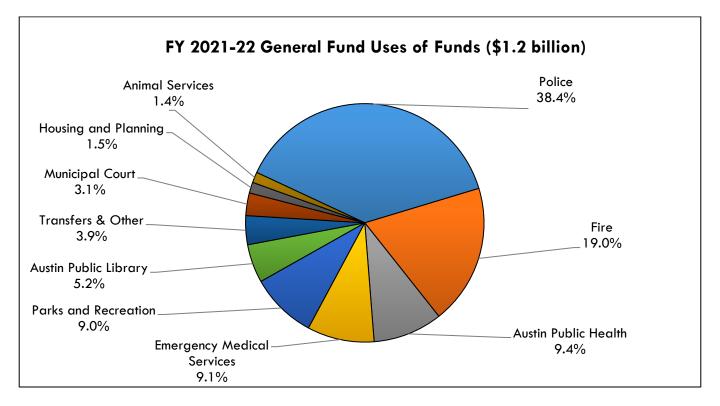

The City of Austin is a large organization with diverse operations ranging from the standard functions generally associated with city government such as police, fire, parks, health services, libraries, and street maintenance to more independent concerns like Austin Energy, Austin Water, and the Austin Bergstrom International Airport. Structurally, these functions are broken into major fund categories with the tax-supported operations housed within the City's General Fund. Departments that generate sufficient revenue to fully fund operations are categorized as enterprise funds. Supporting functions like human resources, financial services, law, information technology, and fleet are accounted for in internal service funds since their primary source of funding comes from other City departments. In addition to the differentiation by department and fund type, the City's budget is further segregated into the Operating Budget, which encompasses daily activities, and the Capital Budget, which includes funding for major capital improvement projects.

Operating Budget

In FY 2021-22 the City plans on spending \$4.5 billion on operations. The Uses of Funds chart below gives a broad overview of the major expenditures for the City's operating budget. As illustrated by the chart, the City's enterprise departments account for the majority of the expenditures, with the largest two departments being Austin Energy and Austin Water at 31% and 13% of the total City's operating budget, respectively. The General Fund, with expenditures of \$1.2 billion, comprises 24% of the citywide operating budget. Reserve, debt retirement, internal services, and other enterprise funds constitute the remaining 32% of the budget.

The General Fund budget for FY 2021-22 totals \$1,153.8 million, reflecting an increase of \$62.9 million from the FY 2020-21 Amended Budget. This increase reflects an additional \$36.9 million for ongoing operations expenses as well as the removal of \$26.0 million in federal expense reimbursements associated with COVID-19 response that were included in the prior year's budget.

General Fund departments' operating expenditures total \$1,108.4 million, representing 96.1% of the total General Fund budget. As shown in the chart, there are nine City departments that make up the General Fund. Public safety functions—the City's police, fire, and emergency medical services—account for 66.5% of the General Fund, or \$767.1 million. Community services ranging from our court services, animal services, and family health services to managing the City's libraries and parks account for 28.1% of the General Fund, or \$324.4 million in FY 2021-22. Neighborhood planning, affordable housing efforts, and zoning functions account for 1.5% of the General Fund, or \$17.0 million in FY 2021-22.

The Transfers and Other Requirements category accounts for 3.9% of the total General Fund requirements or \$45.4 million. Major components include \$13.3 million for economic development activities including property tax rebates associated with incentive agreements and other transfers to the Economic Development Department; a \$9.8 million transfer to Development Services to cover the cost of development fees waived by Council, the Urban Forestry program, and expedited review of telecom permitting; \$8.3 million for facility maintenance and renovations; \$9.6 million for the Housing Trust Fund to preserve and create reasonably priced housing in the city of Austin; and a combined \$2.3 million in transfers to other funds such as the Golf Enterprise Fund, the Transportation Fund, and the Austin Cable Access Fund to cover a variety of general governmental services. In the prior year, funding associated with supplemental retirement contributions and for leased space was budgeted at the fund level and therefore was included in the Transfers and Other Requirements category. These expenses have been allocated directly to departments in FY 2021-22.

The net total expenditures of all the City's budgeted funds is \$4.5 billion. The amount of budgeted gross expenditures is reduced by transfers made from one budgeted operating fund to another to avoid double counting of funds. Transfers are used to pay for such items as debt requirements and services performed by one department for another. The City-owned utilities, Austin Energy and Austin Water, also transfer funding to the General Fund. This transfer reflects payments that private utilities would otherwise have made in the

form of property taxes, franchise fees and dividend payments to shareholders. This transfer amount in FY 2021-22 is \$114.0 million from Austin Energy and \$46.4 million from Austin Water.

Fund Category	FY 2020-21 Amended	FY 2021-22 Proposed	Percent Change
General Fund	\$1,090,944	\$1,153,802	5.80%
General Fund and Enterprise Reserve Funds	\$140,847	\$80,575	(42.80%)
Enterprise Funds (i.e. Austin Energy, Austin Water Utility, Aviation)	\$2,796,334	\$2,959,529	5.80%
Internal Service Funds (i.e. Support Services, CTM, Employee Benefits)	\$716,833	\$738,238	3.00%
Special Revenue Funds (i.e. Hotel/Motel Occupancy Tax, Econ. Dev.)	\$488,379	\$250,013	(48.80%)
Debt Retirement Funds (i.e. GO Debt, Utility debt service)	\$691,820	\$721,895	4.30%
Less transfers made between budgeted city operating funds	(\$1,488,672)	(\$1,412,732)	(5.10%)
NET TOTAL REQUIREMENTS	\$4,436,485	\$4,491,322	1.20%

Expenditures by Fund Category – Citywide Operating Budget in Thousands

The tables above and on the next page show total spending by fund category and expense type. Total expenditures citywide are increasing by \$54.8 million, or 1.2%, from the FY 2020-21 Budget. Departmental expenditure increases across the City's General, Internal Service, and Enterprise Funds are primarily a function of base cost drivers such as increased wages and, particularly with respect to enterprise departments, of the additional staff needed to address population- and service-driven demand, especially as activity levels rebound in the wake of the COVID pandemic. One notable exception is the Austin Convention Center, which is reducing budgeted operating expenditures by over 11% in comparison with the prior year, as a rebound in the convention sector is expected to lag improvements in the wider economy.

Expenditures from Reserve Funds are declining primarily because the prior year included large anticipated reimbursements from the federal government for COVID-related expenditures that were routed through the General Fund Budget Stabilization Reserve and Emergency Reserve. As the City emerges from this crisis, no expenditures are budgeted from the Emergency Reserve in FY 2021-22, while the Budget Stabilization Reserve will provide \$30.3 million in funding for one-time items. The combined ending balance of these two funds equals the targeted 14% of annual General Fund requirements mandated by City financial policy.

With respect to Special Revenue Funds, the large decrease in budgeted expenditures in this category is primarily due to three factors. First, the City is engaged in ongoing negotiations with the Austin Transportation Partnership (ATP) over the details and timing of the transfer of property tax revenue associated with November 2020's Project Connect ballot initiative. Upon ratification of this agreement, the budget will be amended in order to authorize a large transfer of property tax revenue from the City to ATP. Secondly, in response to the threat of severe penalties authorized by recently enacted State legislation, this Budget unwinds the Decouple and Reimagining Public Safety Funds established in the prior year and has returned the \$76.3 million in expenditures that had been moved to these funds to the Police Department. Finally, this

category reflects an \$11.8 million reduction in Convention Center transfers stemming from projections of continued weakness in Hotel Occupancy Tax receipts.

Expense Type	FY 2020-21 Amended	FY 2021-22 Proposed	Percent Change
Personnel (i.e. wages, health insurance, overtime, retirement, taxes)	\$1,674,988	\$1,739,151	3.80%
Contractuals (i.e. rent, electricity, contracted services)	\$2,098,391	\$1,884,107	(10.20%)
Commodities (i.e. office supplies, fuel, asphalt, library books)	\$1,207,964	\$1,301,543	7.70%
Non-CIP Capital (i.e vehicles, equipment)	\$25,444	\$22,731	(10.70%)
Expense Refunds (reimbursements of work performed for other depts.)	(\$387,792)	(\$241,879)	(37.60%)
Indirect Costs/Transfers Out to operating, non-budgeted, & CIP city funds	\$1,306,164	\$1,198,400	(8.30%)
Less transfers made between budgeted city operating funds*	(\$1,488,672)	(\$1,412,732)	(5.10%)
NET TOTAL REQUIREMENTS	\$4,436,485	\$4,491,322	1.20%

Expenditures by Expense Type – Citywide Operating Budget in Thousands

Salaries and Benefits

The FY 2021-22 budget includes base wage increases for all employees at a cost of \$25.1 million Citywide. The cost for the General Fund is \$11.5 million, which includes the \$8.0 million for Sworn employees agreed to through the labor negotiation process. In addition to a 2% base wage increase, our Civilian workforce will receive a pro-rated one-time \$500 stipend. EMS Sworn employees will receive increases in Education Incentive Pay per the labor agreement.

Employee Wage Increase: 5-Year History

	FY18	FY19	FY20	FY21	FY22
Civilian	2.5%	2.5%	2.5%	2.0%	2.0%^
Police	0.0%	1.0%	2.0%	2.0%	2.0%
Fire	0.25%	0.5%	1.0%	2.0%	2.5%
Emergency Medical Services	1.25%*	2.0%	2.0%	2.0%	1.0%**

^AAdditional one-time \$500; *One-time bonus; no increase to base wages; **Effective the first full pay period after April 1, 2022.

Since 2016, the City has maintained the cost of premiums at \$10 a month for employees enrolled in the Preferred Provider Organization (PPO) employee-only coverage, at \$20 per month for employees enrolled in the Health Maintenance Organization (HMO) employee-only coverage, and at no cost for employees enrolled in the Consumer Driven Health Plan (CDHP). These premium levels will again remain unchanged for

fiscal year 2021-22. For the fourth-straight year there will also be no premium increases for active employees with spouse, children, or family coverage or for pre-age-65 retirees. For post-age-65 retirees, it will be the fifth-straight year without a premium increase. The City is committed to meeting the challenge of maintaining cost-effective and sustainable benefits and therefore continues to expand its wide-ranging wellness programs encouraging healthy behaviors and early disease detection.

Employee and Retiree Monthly Premiums (PPO)	2019 Premium	2020 Premium	2021 Premium	2022 Premium
Employee Only	\$10.00	\$10.00	\$10.00	\$10.00

Retirement Systems

The City of Austin supports three distinct employee retirement systems: the City of Austin Employees' Retirement System (COAERS), the Austin Police Retirement System (APRS), and the Austin Firefighters' Retirement System (AFRS). The City's contribution rates to these systems are currently 19%, 21.737%, and 22.05% of employees' salaries, respectively. Contributions from sworn EMS and all civilian employees to the COAERS remain fixed, at 8% of salary; police officers contribute 13% to the APRS; and Firefighters contribute 18.7% to the AFRS. In FY 2021-22, the Budget includes total contributions of \$235.7 million to the three retirement systems.

Retirement System	Employee Contributions	City Contributions	Total Contributions
City of Austin	8%	19%	27%
Police	13%	21.737%*	34.737%
Fire	18.7%	22.05%	40.75%

Contribution Rates to City of Austin Retirement Systems

* City Contribution to APRS increasing by 4.0% from 21.737% to 25.737% in January 2022

The City of Austin Employees' Retirement System provides civilian and EMS sworn employees with a monthly pension payment derived from a predetermined formula based on length of service, salary history, and payout options. There are two groups in this plan with a vesting period of five years for both plans. Employees hired prior to January 1, 2012 are eligible to retire at any age after 23 years of service, at age 55 with 20 years of service, or at 62 with five years of service. The annual retirement benefit is calculated by multiplying the number of years of service by the average of the three highest earning years out of the last ten years worked. This amount is then multiplied by three percent. Employees hired on or after January 1, 2012 follow a similar structure with modified factors: retirement eligibility occurs at age 62 with 30 years of service or at 65 with five years, and the multiplier is 2.5 percent. The plan changes creating the second group were implemented in order to address long-term structural imbalances in the plan.

The members of the Austin Police Retirement System include all cadets upon enrollment in the Austin Police Academy, commissioned law enforcement officers employed by the City of Austin Police Department, and full-time employees of the System. The System provides retirement, death, and disability benefits to plan members and their beneficiaries. Benefits are vested after ten years. Retirement benefits are paid in the form of a monthly life annuity and are based on the years of service times the highest 36 months of salary in the last ten contributing years of service. A multiplier of 3.2 percent is applied to the years of service. Eligibility occurs with 23 years of creditable service, at age 55 with 20 years of service, or at age 62.

The Austin Firefighters Pension Fund is structured similarly to the Police system with a few differences. Members—meaning commissioned and Texas state-certified employees of the Fire Department—are eligible to retire at 50 years of age with at least ten years of service credit or with at least 25 years of service credit at any age. Retirement benefits are paid in the form of a monthly life annuity based on years of service times the highest 36 months of salary during the member's contributing years of service. The multiplier for the Fire system is 3.3 percent. The Fire system also provides early retirement options.

Retirement System	FY18 Actual	FY19 Actual	FY20 Actual	FY21 Amended	FY22 Proposed
City of Austin	\$114.2	\$120.8	\$128.0	\$146.9	\$166.1
Police	\$35.0	\$35.6	\$36.3	\$37.9	\$45.1
Fire	\$19.8	\$20.9	\$21.1	\$23.6	\$24.5
TOTAL	\$169.0	\$177.3	\$185.4	\$208.4	\$235.7

Pension System Reform

Recently reported actuarial funding data for COAERS and APRS details that both pension systems are currently significantly underfunded. There are several reasons surrounding the underfunded status of the systems including:

- Long-term investment returns having failed to meet system expectations;
- The adoption of more conservative actuarial assumptions; and,
- Fixed-rate pension contributions that have not kept pace with actuarially determined levels.

In addition, although there has been no recent benefit enhancements or cost of living adjustments (COLAs) for either pension system, both COAERS and APRS provided generous benefit increases and COLAs in the late 1990s and early 2000s. These past benefit enhancements are another significant factor underlying the current funding shortfalls.

Retirement System	Unfunded Actuarial Liability (millions)	Funding Ratio	Amortization Period
City of Austin	\$1,632.0	65.3%	32 years
Police*	\$601.7	58.8%	Infinite
Fire*	\$152.4	86.8%	22 years

Funding Status of City of Austin Retirement Systems

*As of the December 31, 2019 actuarial report for each respective system.

Amortization periods are an important benchmark used in determining the funding status of pension systems. COAERS currently has an amortization period of over 30 years, which is in excess of the State of Texas Pension Review Board's (PRB) recommended guidelines. Additionally, recently adopted actuarial assumptions by COAERS are anticipated to adversely impact the system's unfunded accrued liability, funded ratio, and amortization period. Similarly, the APRS board adopted new actuarial assumptions that increased the system's amortization period to infinite; meaning there is no length of time in which the pension system anticipates being fully funded given current benefit and contribution levels.

Over the previous two years, the City has worked with both pension systems to expeditiously resolve the funding shortfalls at hand. The PRB identified APRS as a system at risk due to the infinite amortization period on their 2019 report. If APRS has three consecutive annual reports that reflect an amortization period of over 40 years, then the PRB will take action by requiring the system to develop and implement a funding soundness restoration plan. In addition, all major credit rating agencies consider pension funding as a significant component of the City's overall credit worthiness. In 2019, Moody's revised its outlook on the City's credit rating from "AAA stable" to "AAA negative" based upon the growth in pension liabilities. The City's credit ratings are extremely important as they affect the interest rate at which the City issues debt. The interest rate in turn affects the cost to taxpayers of repaying the debt. The City's AAA rating by all three major credit agencies is the highest possible rating, thereby ensuring that our taxpayers benefit from the lowest possible debt costs.

To put necessary reforms in place, the City and APRS were successful in passing House Bill 4368 during the 2021 legislative session which made critical changes to improve the benefits and financing structure of the Austin Police Retirement System and will reduce the projected funding period to 30 years. The FY 2021-22 budget includes \$6.0 million in initial funding for APRS pension reforms. The reforms all take effect on January 1, 2022 and include:

- Establishing a new benefit tier (Group B) for new sworn police employees with the following benefit parameters:
 - o a 2.5% multiplier;
 - o retirement eligibility at age 50 and 25 years of service; and,
 - o average salary calculated on the highest 60 months;
- Increasing police employee contributions from 13% to 15%;
- An initial 4% increase in City contributions to APRS. Additional City contribution increases relating to initial risk sharing valuation and legacy liability will be phased in over 3 years;
- An actuarial determined contributions funding model to replace the fixed contributions model;
- Removal of authority of the APRS Board to provide cost of living adjustments or change member benefits; and
- Reform of the APRS Board of Trustees governance structure by replacing one active member seat with one citizen seat appointed by the City Council.

The City remains in communication with COAERS and are working collaboratively toward the 2023 legislative session. The legislative reforms the City will pursue in collaboration with COAERS include:

- Phased increases to City and employee contributions while maintaining an equitable City-toemployee cost sharing ratio;
- Implementation of a more adaptable, actuarially determined, funding model that will allow funding and benefits to adjust to changing financial conditions of the systems; and
- Reforms to the governance structure to ensure a balanced partnership between the City and the system exists moving forward.

Governance reforms will focus on the Board of Trustees composition as well as the roles of the Board of Trustees and the City Council relating to cost of living adjustments, benefit enhancements, and various policy parameters. Reforms of this nature are of critical importance to the City and the pension system because in transitioning to an actuarially determined funding model, the City will become statutorily required to increase contributions when benefits are increased, COLAs are granted, actuarial assumptions are lowered, or investments under-perform. In short, while transitioning to an actuarially determined funding to an actuarially determined funding to an actuarial transfer of financial risk to the City that must be prudently managed.

Personnel Changes

The FY 2021-22 operating and grant budgets include funding for 15,355 full-time equivalent positions (FTEs). Overall, the net change citywide is an increase of 409 positions, or 2.7%.

Within the General Fund, 66 new positions are being added for:

- Staffing the Loop 360 Fire/EMS station;
- Staffing the Travis County Demand Unit 7;
- Creating the Marshal Program at Municipal Court; and
- Resources for enhanced administrative support at Fire, maintenance at Health facilities, and expanding forestry operations.

The most notable change in the General Fund is a reorganization to comply with HB 1900, passed by the 87th Texas Legislature. Beginning in FY 2021-22, the Emergency Communications and Forensic Science Departments are incorporated back within the Austin Police Department. These had been stand-alone departments, outside of the Austin Police Department budget, in FY 2020-21.

The creation and expansion of the Project Connect Office represents a majority of the FTE increase in Special Revenue Funds and Grant Funds. Eighteen positions are being added to the Project Connect Office Fund to support the implementation of the newly voter-approved light rail lines that are part of the overall Project Connect system plan.

The remaining new positions are being added to the enterprise and internal service funds for:

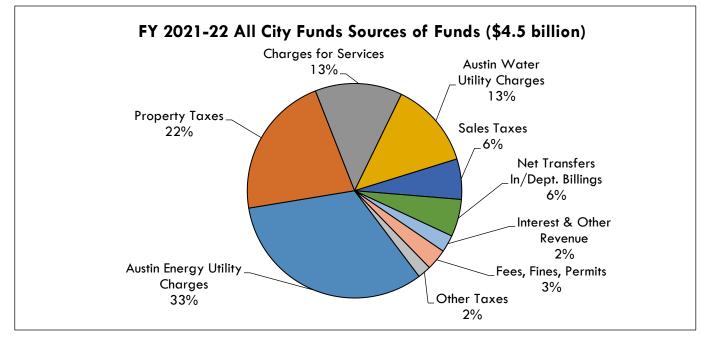

- Responding to customer growth within Austin Energy and Austin Water;
- Implementing the 2016, 2018, and 2020 bond programs;
- Security, fleet management, and information technology support services;
- Resources to handle the growth in the City's drainage infrastructure; and
- Austin Resource Recovery's expansion of hazardous waste and curbside collection programs and improve department support functions.

Personnel by Fund Type	FY 2020-21 Amended	FY 2021-22 Proposed	Percent Change
General Fund (e.g. Police, Fire, EMS, Library, Parks and Recreation)	6,558	6,628	1.1%
Enterprise Funds (e.g. Austin Energy, Austin Water, Aviation)	6,153	6,419	4.3%
Internal Service Funds (e.g. Financial Services, Info. Technology)	1,864	1,917	2.8%
Special Revenue Funds (e.g. Economic Development, Child Safety)	93.25	114	22.5%
Grant Funds (e.g. Health and Human Services, Police)	278	277	(0.4%)
TOTAL CITYWIDE FULL-TIME EQUIVALENT POSITIONS	14,946	15,355	2.7%

Personnel Summary (Full-Time Equivalent Positions)

Revenue

The City of Austin is a multi-faceted municipal organization, and its revenue sources reflect the many businesses that make up City operations. Roughly speaking, charges for services from the City's two utilities account for half of the revenue generated; taxes account for approximately a quarter; and the remaining quarter is a mix of fines, fees, permits, other charges for service, interest, and various other revenue streams. The chart on the following page shows the percentage of each major revenue source for the City as a whole.

Total citywide revenue for FY 2021-22 is budgeted at \$4.5 billion. Austin Energy's utility charges total \$1.5 billion, which includes base revenue of \$629.5 million, \$482.5 million in fuel revenue, \$316.2 million in transmission and regulatory revenue, and \$62.1 million in community benefit and other revenue. Austin Water's utility sales for water, wastewater, and reclaimed water are projected at \$583.3 million, including the Community Benefits Charge. With a property tax rate of \$0.5431 per \$100 dollars of valuation, total property tax revenue for operations, maintenance, and debt service is anticipated at \$967.9 million. Additional tax revenue includes \$273.3 million from city sales tax, \$69.8 million from hotel/motel occupancy tax, and \$20.3 million from taxes assessed on alcoholic beverages, vehicle rentals, and bingo. Charges for services and goods at \$589.5 million include revenue collected from garbage and recycling collection cart rates; clean community, drainage, and transportation user fees; emergency medical services charges; and airport rents and fees. Other significant revenue collected by Development Services' One Stop Shop; \$29.3 million in franchise fees for cable, gas, and telecommunications usage; and \$7.9 million for parking, traffic, and other fines.

Revenue Type	FY 2020-21 Amended	FY 2021-22 Proposed	Percent Change
Utility Charges (electric, water, wastewater, reclaimed water sales)	\$1,951,457	\$2,048,792	5.0%
Taxes (property, sales, Hotel/Motel Occupancy Tax, vehicle rental)	\$1,257,153	\$1,334,471	6.2%
Charges for Goods & Services	\$533,892	\$589,549	10.4%
Net Transfers in and Billings to Depts. (includes GO bond proceeds)	\$267,407	\$252,182	(5.7%)
Fees, Fines, Permits, Licenses, & Inspections	\$130,299	\$142,416	9.3%
Interest & Other (parking, airport bond proceeds, rental income)	\$140,845	\$116,741	(17.1%)
NET TOTAL AVAILABLE FUNDING	\$4,281,053	\$4,484,151	4.7%

Major Operations & Maintenance Funding Sources by Revenue Type (in Thousands)

Total citywide revenue is projected to increase by 4.7% from FY 2020-21 budgeted levels, with many revenue sources expected to reach new all-time highs as economic activity recovers in the wake of the COVID-19 pandemic. One notable exception to this general trend is Hotel Occupancy Tax, which funds the Austin Convention Center, the Cultural Arts Fund, Historic Preservation Fund, Live Music Fund, and Visit Austin, which is projected at \$69.8 million in FY 2021-22, or 15% less than its prior-year budget. Even here, however, there is reason for optimism, as this figure represents a \$24.8 million, or 55%, increase from estimated FY 2020-21 collections. Total revenue in the Taxes category is still displaying moderate overall growth as a result of a proposed increase in the property tax rate and a strong rebound in taxable sales activity.

Neither Austin Energy nor Austin Water are instituting rate increases in FY 2021-22, but Utility Charges will increase moderately as a result of customer growth, rising demand, and increases in pass-through fuel costs associated with power generation. Revenue from Charges for Services will rise more steeply as a result of a sharp recovery in Airport revenue, as well as proposed increases in the Public Works and Austin Transportation Departments' Transportation User Fee, in Austin Resource Recovery cart rates, and in the Austin Code portion of the Clean Community Fee. In FY 2021-22 the Austin Bergstrom International Airport forecasts an 86% increase in passengers and anticipates a full recovery from the unprecedented decline in passenger volume attributable to the COVID-19 pandemic by FY 2023-24. Year-over-year, budgeted revenue at the Airport is anticipated to rise by more than \$35 million, or 28%.

Revenue from Fees, Fines, Permits, Licenses, and Inspections is growing strongly in FY 2021-22 due to elevated development activity driving fee revenue growth in the Development Services and Austin Transportation Departments (ATD). ATD is also increasing its right-of-way permitting fees to keep pace with the pressures this activity places on its cost of providing services. Public health inspection revenue is also rebounding as businesses re-open and increase capacity in the aftermath of the COVID-19-related shutdowns. One tradeoff—from a City revenue perspective—to the large fiscal stimulus that has facilitated the nation's emergence from the economic disruptions caused by the pandemic is that it has led to an environment of extremely low interest rates. As a result, the Interest and Other revenue category is experiencing a sharp decline in FY 2021-22, and interest revenue is expected to remain depressed over the medium term.

Major Revenue Sources

Utility Charges

Austin Energy's rates are composed of base rates and pass-through rates. Base rates cover basic utility infrastructure such as power plants, distribution lines, customer service, and related operation and maintenance expenditures. Pass-through rates generally recover costs that are more variable and are generally adjusted annually. Both base and pass-through rates differ based on whether a customer is located within or outside the city of Austin. Total revenue from Austin Energy utility charges is budgeted at \$1.5 billion for FY 2021-22, an increase of \$74.2 million, or 5.2%, over the FY 2020-21 Amended Budget.

Austin Energy's (AE) base rates, which consist of a fixed charge (Customer Charge), consumption-based charges (Energy Charges or $\frac{e}{kWh}$), and demand charges ("electric delivery" and "demand," both $\frac{kW}{kW}$), will not change in FY 2021-22. Base rates only change as a result of a rate review process, which includes a cost of service study.

AE's pass-through rates include the Power Supply Adjustment (PSA), Regulatory Charge, and Community Benefit Charges. These rates are reviewed and adjusted each year through the budgetary process to reflect the actual costs to be recovered. The PSA and Community Benefit Charges are assessed on a customer's energy consumption (kWh). The Regulatory Charge is assessed on a demand (kW) basis for demand-

metered customers and on an energy (kWh) basis for non-demand metered customers. The PSA recovers dollar-for-dollar net power supply costs and is reflected as a line item on the electric portion of the bill. The PSA update is effective with November bills. The PSA rates are set based on actual costs from the most recent twelve-month period. This historical data is used to set the Power Supply Adjustment for the next twelve-month period. However, historical data will never perfectly match future costs that Austin Energy incurs, so a true-up is included in the calculation. A true-up is an adjustment to rates by which under-recovered costs are surcharged by Austin Energy or over-recovered costs are returned to customers. The Power Supply Adjustment is currently unchanged for FY 2021-22 from the FY 2020-21 rates. However, it may be adjusted prior to or after budget adoption pending additional data. The Regulatory Charge recovers, dollar for dollar, AE's share of the total annual costs to own and operate the statewide transmission grid, as well as its expansion and upkeep. It includes Electric Reliability Council of Texas (ERCOT) charges and fees that are assessed based on AE's summer peak demand on the transmission grid, which is about four percent of the statewide total peak demand. Statewide transmission costs and rates are reviewed and approved by the Public Utility Commission of Texas (PUCT). Other non-discretionary regulatory costs and congestion revenue rights may also be included in the Regulatory Charge. Changes to the Regulatory Charge continue to be driven primarily by increases to the overall costs of the ERCOT transmission grid. Those costs have increased significantly in recent years due to the completion of the multi-year effort to expand the grid to allow greater access to wind and solar resources throughout Texas. The Regulatory Charge is reviewed at the same time as the PSA charge. Any update to the Regulatory Charge will be effective November 1, 2021.

The Community Benefit Charge (CBC) recovers certain costs incurred by AE as a benefit to customers across its entire service territory. There are three components of the Community Benefit Charge: (1) funding to provide utility bill assistance, weatherization, and discounts to qualifying customers through the Customer Assistance Program (CAP); (2) the costs of AE's distributed solar and Energy Efficiency Services (EES); and (3) the costs to provide Service Area Lighting (SAL) throughout the city of Austin. For customers outside the city of Austin, the CBC excludes the SAL component and the CAP charge is reduced for residential customers. The Community Benefit Charges are billed on an energy (kWh) basis to all customer classes and may be adjusted as costs change. The Community Benefits Charges will be reviewed at the same time as the PSA and Regulatory Charges and any updates to the Community Benefits Charges will be effective November 1, 2021.

The following table reflects the average residential customer bill impact for FY 2021-22. The bill comparison is based on a typical residential customer using 860 kWh per month.

Average Monthly Bill	Energy kWh	FY 2020-21	FY 2021-22 (Budget)	% Change from FY 2020-21
Customer Charge		\$ 10.00	\$ 10.00	0.0%
Base Electricity Charge	860	\$ 35.01	\$ 35.01	0.0%
Power Supply Adjustment (PSA)*	860	\$ 26.47	TBD	
Community Benefit Charge (CBC)	860	\$ 4.44	TBD	
Regulatory Charge	860	\$ 8.68	TBD	
Total Monthly Bill	860	\$ 84.60	TBD	TBD%
Total CAP Customer Discounted Bill	860	\$ 62.29	TBD	TBD%

Average Residential Customer Bill Impact

Austin Water's rates are based on cost allocations among customer classes in order to ensure that water and wastewater services are both self-sustaining and result in equitable cost recovery. In FY 2017-18, Austin Water completed an 18-month cost-of-service process, which included significant stakeholder participation in the review of Austin Water's cost-of-service methodologies. At the culmination of this review, City Council approved a mid-year 4.8% system-wide retail customer rate reduction. Austin Water will continue to maintain the rates established during this process in FY 2021-22, with the exception of certain changes adopted in response to the COVID-19 pandemic.

In FY 2019-20, Austin Water increased support for residential Customer Assistance Program (CAP) customers by reducing volumetric water and wastewater rates, which resulted in an additional 8.3% decrease in the combined average monthly residential CAP bill for the most vulnerable low-income customers. This amounts to a \$4.00 reduction on monthly residential CAP customer bills, and these CAP rates remained in effect for FY 2020-21 and will continue for FY 21-2022. In response to the economic impact of COVID-19, the Austin City Council approved a 10% rate reduction of tiers 1, 2 and 3 for water volume rates and tiers 1 and 2 for wastewater volume rates on April 9, 2020, for both CAP customer 1, 2020. The CAP customer 10% rate reduction will remain in effect throughout FY 2020-21 and will continue for FY 2021-22. This reduction led to residential customers seeing immediate savings on their water bills. Total Austin Water FY 2021-22 revenue is projected to increase by \$15.4 million, or 2.7%, from FY 2020-21 budgeted levels.

In FY 2020-21 Austin Water implemented a Multifamily CAP program for low-income customers who do not have a dedicated water meter, but nevertheless, pay for monthly water and wastewater service. This program provides a \$17 monthly credit on their Austin Energy utility bill, shown as Austin Water Multi-Family CAP Program Discount. The Multifamily CAP program offers a safety net to thousands of vulnerable customers who have traditionally been ineligible for Austin Water financial assistance through the residential Customer Assistance Program.

Charges for Goods & Services

Austin Resource Recovery (ARR) utilizes base rates and cart rates, in addition to the Clean Community Fee to fund its operations. In FY 2021-22, the base customer fee will increase by \$1.50 monthly. Cart fees will remain unchanged for all customers from the prior year. The increase of \$6.3 million in residential revenue from FY 2020-21 to FY 2021-22 is attributed largely to the base customer fee increase and growth in the number of customers.

The **Clean Community Fee (CCF)** is a fixed fee charged to residential and commercial utility customers to fund Austin Code and services such as litter abatement, street cleaning, and dead animal pickup within Austin Resource Recovery (ARR). This fee is increasing by \$.50 in FY 2021-22: residential customers will now pay \$9.45 per month, and commercial customers, \$21.25 per month.

The **Transportation User Fee (TUF)** is a fixed fee assessed to residents and a variable fee assessed to businesses based on the traffic levels they generate. The TUF funds street maintenance and repair, annual street overlay and striping, and traffic management activities within the Public Works and Austin Transportation Departments. TUF rates are increasing in FY 2021-22, with the rate for single-family homes rising by \$1.92 to \$14.96 per month. These increases in the TUF, coupled with the effects of population growth, lead to projected FY 2021-22 revenue growth of \$14.6 million over the prior year's budget.

Aviation is expecting a robust recovery in FY 2021-22 from the unprecedented decline in passenger volume due to the COVID-19 pandemic and is projecting a 27% increase in revenue compared with the FY 2020-21 estimate.

The **Emergency Medical Services** Department assesses charges for its services and projects total revenue of \$38.3 million in FY 2021-22, remaining flat from the budgeted level in the prior year. The zero net change is a result of an increase of approximately \$825,000 in Travis County's payment for services and a combined decrease of \$859,000 in Emergency Medical Services fee revenue and EMS standby service revenue.

Taxes

Total property tax revenue for FY 2021-22 is projected at \$967.9 million, a \$59.6 million increase from the FY 2020-21 budgeted level, which includes revenue associated with the Project Connect transportation initiative, approved by voters at the November 3, 2020 general election. The City's General Fund receives 50.6% of its total revenue, \$584 million, from **property tax**, its largest and most stable source of revenue. \$203.1 million of property tax revenue is allocated to the City's GO Debt Service Fund. An additional \$26.1 million is dedicated to the City's various tax increment funds which use this revenue to service debt associated with capital projects within the tax increment zones. Property tax revenue derives from the interplay between growth in taxable property valuations and the property tax rate, which is established annually during the City's budget process.

This budget is based on a projected overall property tax rate of \$0.5431 per \$100 of assessed property valuation, an increase of 0.96 cents from the fiscal year 2020-21 tax rate of \$0.5335. The property tax rate consists of two parts, the operating rate and the debt service rate. For FY 2020-21, the proposed operating rate is \$0.4292 per \$100 of assessed valuation, which will fund Project Connect as well as be collected and deposited into the City's General Fund to pay for the ongoing costs of City services and for maintenance expenses. The remaining \$0.1139 is the debt rate, which will be deposited into the Debt Service Fund to make payments related to general obligation bonds. General obligation bonds provide funds for infrastructure projects such as major street improvements and purchasing or improving parks.

The proposed tax rate is based on projected growth in citywide property values. The official certified estimate of the tax rolls from the Travis Central Appraisal District, the Williamson Central Appraisal District, and the Hays Central Appraisal District are anticipated to be received in late July. The proposed budget reflects a projected taxable valuation of \$180.7 billion, which represents an increase of 3.8% over last year's certified estimated values. This growth rate is net of a projected \$8 billion reduction in taxable value associated with increases in the general homestead property tax exemption from 10% to 20% of assessed valuation and in the property tax exemption for senior and disabled homeowners from \$88,000 to \$113,000, which were approved in June. New property valuation is projected at \$3.9 billion and is primarily driven by the construction of residential, multi-family, and commercial properties.

The table starting below provides a twenty-year history of the City's property tax rates, culminating in the proposed tax rate for fiscal year 2021-22. This is the tax rate needed to maintain a balanced budget in an environment of increasing cost drivers—such as the increased demand for services that accompanies population growth, employee bargaining agreements, and pension costs. For comparison purposes, this table also shows the no-new-revenue maintenance and operations property tax rate, which is the rate that would generate the same amount of maintenance and operations tax revenue as in the prior fiscal year from properties taxed in both years.

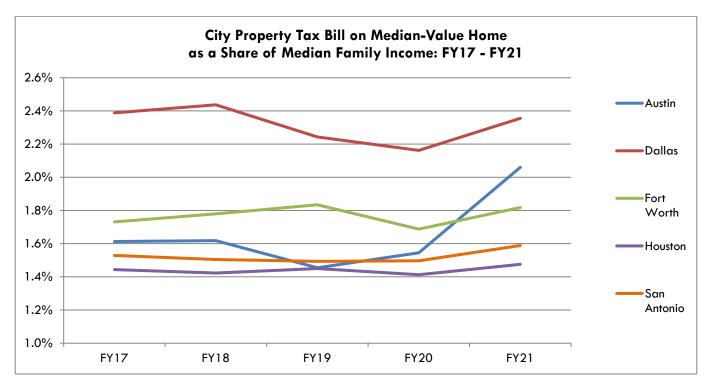

Fiscal Year	No-New-Revenue Maintenance & Operations	Maintenance & Operations	Percentage Increase Above the No-New-Revenue Maintenance & Operations Rate	Debt	Total
2003	0.2992	0.2969	(0.8%)	0.1628	0.4597
2004	0.3183	0.3236	1.7%	0.1692	0.4928
2005	0.2692	0.2747	2.0%	0.1683	0.4430
2006	0.2678	0.2841	6.1%	0.1589	0.4430
2007	0.2556	0.2760	8.0%	0.1366	0.4126
2008	0.2528	0.2730	8.0%	0.1304	0.4034
2009	0.2546	0.2749	8.0%	0.1263	0.4012
2010	0.2732	0.2950	8.0%	0.1259	0.4209
2011	0.3134	0.3262	4.1%	0.1309	0.4571
2012	0.3308	0.3551	7.3%	0.1260	0.4811
2013	0.3558	0.3821	7.4%	0.1208	0.5029
2014	0.3668	0.3856	5.1%	0.1171	0.5027
2015	0.3523	0.3691	4.8%	0.1118	0.4809
2016	0.3285	0.3527	7.4%	0.1062	0.4589
2017	0.3148	0.3399	8.0%	0.1019	0.4418
2018	0.3145	0.3393	7.9%	0.1055	0.4448

2020	0.3090	0.3337	8.0%	0.1094	0.4431
2021	0.3222	0.4209	30.6%	0.1126	0.5335
2022 Proposed	0.4147	0.4292	3.5%	0.1139	0.5431

Historical Property Tax Rates, Per \$100 of Taxable Value

The projected median assessed value in Austin of an owner-occupied home, or homestead, not receiving the property tax exemption for seniors or the disabled is \$400,068 in fiscal year 2021-22. After incorporating the effect of the City's recently increased general homestead exemption of 20% of assessed value, applying the proposed property tax rate to this median home value yields an annual property tax bill of \$1,738.22. This represents a net decrease of \$9.06 from FY 2020-21, when the median assessed homestead value of

\$363,902, 10% homestead exemption, and property tax rate of \$0.5335 yielded a property tax bill of \$1,747.28.

One way to track residents' ability to pay their tax bills over time is by calculating the percentage of median family income that a resident who owns a median-value home pays in property taxes and comparing it to that of other major cities in Texas. With the lowest tax rate and the highest median family income, Austin has historically ranked very competitively with its peers in Texas when it comes to the value received for a resident's tax dollar, even before factoring in the quality of the City of Austin's services, which consistently rank above national norms. Voter's approval of an FY 2020-21 increase in the property tax rate to fund the Project Connect transportation initiative, however, resulted in a significant one-time uptick in the share of median income represented by the City of Austin property tax bill.

Each year, the property tax payment due date is January 31. All taxes paid after this date are subject to delinquent penalty and interest charges. Delinquent tax bills are assessed a 6% penalty with additional penalties accruing each month until July, when the total penalty reaches 12%. Interest accrues at 1% per month until the taxes are paid. Property taxes remain due for each tax year they are billed until they are paid. Delinquent taxes are remitted to the City when payment is received by the tax collector. The FY 2021-22 budget for delinquent taxes and for penalty and interest due is \$0.7 million. A history of prior year property tax collections and delinquent taxes due is shown in the following table.

Fiscal Year	Taxable Valuation	Tax Levy	Collected Within the Fiscal Year	% of Levy Collected Within the Fiscal Year	Delinquent Taxes Due ¹	Delinquent Taxes Outstanding As a % of Tax Levy
2010-11	\$77,619,349,384	\$354,798,046	\$351,742,824	99.1%	\$498,799	0.1%
2011-12	\$79,219,780,879	\$381,126,366	\$378,721,688	99.3%	\$482,176	0.1%
2012-13	\$83,294,536,493	\$418,888,224	\$415,311,666	99.4%	\$525,354	0.1%
2013-14	\$88,766,098,160	\$446,227,175	\$442,973,562	99.3%	\$561,760	0.1%
2014-15	\$98,652,179,430	\$474,418,331	\$471,100,533	99.3%	\$622,707	0.1%
2015-16	\$110,526,026,399	\$507,203,935	\$505,053,147	99.5%	\$596,252	0.1%
2016-17	\$125,371,654,656	\$553,891,970	\$551,445,394	99.5%	\$773,135	0.1%

Property Tax Summary

¹Delinquent taxes due as of May 31, 2021 for tax years 2010 – 2019; delinquent taxes estimated for tax year 2020. ²Estimated taxable property value, tax levy, collections, and delinquencies for tax year 2020.

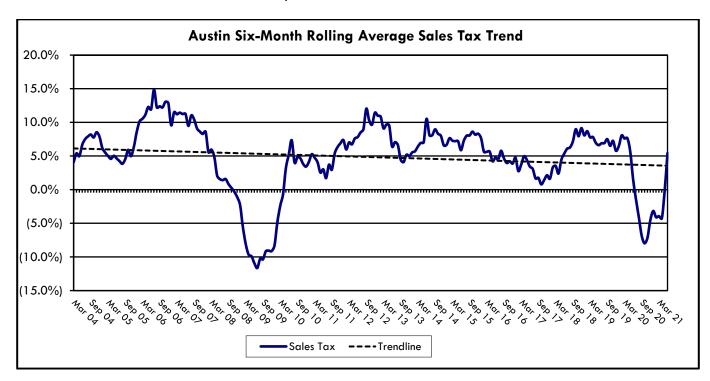

³Projected taxable property value, tax levy, and collections for tax year 2021.

Total Delinquent Taxes FY 2011-2021	\$22,565,246
Total Delinquent Taxes FY 1980-2010	\$8,261,545
TOTAL DELINQUENT TAXES DUE*	\$30,826,790

*As of May 31, 2021.

Sales tax is levied on the sale, lease, or rental of all taxable goods and services within the Austin city limits. Certain foods and drugs as well as governmental purchases are exempted from the sales tax. Sales tax is collected by businesses at the time of the sale and paid periodically to the Texas Comptroller of Public Accounts. The Comptroller then remits the portion due to the locality where the business is located. In the city of Austin, the State collects $8\frac{1}{4}$ cents for every dollar spent on retail sales. Of this amount, the State keeps $6\frac{1}{4}$ cents, 1 cent is paid to the City and 1 cent is paid to the Capital Metropolitan Transportation Authority.

Sales tax revenue is experiencing a high level of volatility as a result of the economic disruptions associated with the COVID-19 pandemic. FY 2020-21 collections are estimated at \$260 million, which is \$14.8 million above the budgeted level and represents a 5.4% increase from the prior year. Informed by national and regional economic forecasts, and in consultation with outside experts, financial staff project that sales tax revenue will continue its recovery to a projected \$273.3 million in FY 2021-22, and return to a less volatile

and more sustainable growth trajectory over the medium term as the global, national, and regional economies recover from the effects of the pandemic.

The City receives eleven cents on each dollar of qualified room occupancy rents through the **Hotel Occupancy Tax.** Per City Code, the tax is distributed as follows:

- 4.50 cents to the Convention Center Tax Fund to pay debt service and operating requirements related to the Austin Convention Center;
- 2.00 cents to the Venue Project Fund to pay debt service for bonds issued for the expansion of the Austin Convention Center in 2002, and a small portion of the Waller Creek Tunnel Project;
- 2.00 cents to the Austin Convention Center expansion project;
- 1.05 cents to the Cultural Arts Fund to fund contracts to artists and cultural agencies as a way to encourage, promote, and improve the arts in Austin. Cultural Arts contracts are allocated through a predetermined process involving review and recommendation by the Arts Commission and approval by the City Council;
- 1.05 cents to the Historic Preservation Fund to promote arts, culture, and heritage-based tourism and events; and
- 0.40 cents to the Tourism and Promotion Fund, primarily for contract payment to Visit Austin to promote conventions and tourism for Austin.

Hotel Occupancy Tax collections are projected to be \$69.8 million in FY 2021-22, a decline of 14% versus FY 2020-21 budgeted levels, due primarily to the ongoing pandemic crisis and its severe impact on the hotel industry.

Other taxes include a 5% vehicle rental tax approved by voters in 1998 to fund the \$40-million Palmer Events Center, and a parking garage; a mixed drink tax; and a bingo tax. Total revenue from these taxes is projected to total \$20.3 million in FY 2021-22. This represents a \$4.3 million decrease from the prior year's budget, as continued weakness in the travel sector is expected to outweigh the recovery in drink sales as local restrictions on bars and restaurants are lifted.

Change in Fund Balances

The change in fund summary balances for all funds in the aggregate for FY 2021-22 is an increase of \$301.5 million, or 16.6%, from the FY 2020-21 Amended Budget. The largest fund balance increase, \$302.4 million, is in the Project Connect Fund and is the result of ongoing negotiations with the Austin Transportation Partnership (ATP) over the details and timing of the transfer of property tax revenue associated with November 2020's Project Connect ballot initiative. Upon ratification of this agreement, the budget will be amended in order to authorize a large transfer of property tax revenue from the City to ATP.

The combined balances of the General Fund Budget Stabilization Reserve and Emergency Reserve are increasing by \$37.8 million from the prior year's budgeted level due to higher-than-anticipated General Fund revenue collections and expenditure savings in FY 2020-21, as well as the timing and magnitude of reimbursements from the federal government for certain expenses associated with responding to the COVID-19 pandemic.

The combined ending balances of Austin Water's operating funds are increasing by \$29 million in comaparison with the prior year budget primarily due to lower-than-anticipated actual operating and debt service requirements in FY 2019-20. Projected growth in service revenues in FY 2021-22 also contributes to the increase in ending balances.

The Convention Center Capital Fund's ending balance is declining by \$28 million from its FY 2020-21 budgeted level, primarily as the result of \$27.3 million in transfers to the Convention Center's main operating funds, including a \$16.5 million estimated transfer in FY 2020-21 and a budgeted \$10.8 million transfer in FY 2021-22. These transfers help to offset the department's dramatic loss of Hotel Occupancy Tax revenue stemming from the COVID-19 pandemic and associated restrictions on travel and the convention industry.

The Employee Benefits Fund's ending balance is falling by \$25.8 million to \$72.9 million in FY 2021-22 as part of a plan to draw down its accumulated ending balance. This plan includes a 15% reduction in the City's contribution rate, which generates total Citywide departmental savings of \$31.8 million. Over the course of the subsequent four fiscal years, the City intends to smooth future growth in contribution rates and currently anticipates 5% annual increases over this timeframe. By FY 2025-26, the Fund's ending balance is projected to be in alignment with the financial policy that states the fund shall have reserves equal to 10% of the cost of employee and retiree medical requirements.

Combined, Austin Energy's operating and reserve funds are projected to grow by \$24.0 million in FY 2021-22. While this represents only a 5% increase year-over-year, the absolute dollar amount makes it a significant component in an overall analysis of citywide fund balance levels. While Austin Energy is well above the overall minimum target for cash and reserves of 150 days, it is forecast to be out of compliance for Contingency and Capital reserves.

The Worker's Compensation Fund ending balance is growing by \$23 million in FY 2021-22, primarily as the result of a \$22.3 million acounting adjustment to FY 2019-20's ending balance to reflect funding of annual expenditures. Ending balance in excess of the reserve requirement will be used to smooth the growth in departmental transfers into the fund over time and is expected to reach reserve policy within the next five years.

The Austin Water Debt Serice Fund's balance is increasing by \$18.7 million primarily due to the deferral of the \$35.0 million defeasance planned for FY 2020-21 into FY 2021-22. This deferral is based on an expectation of an increase in interest rates, which in turn would reduce bond prices and allow Austin Water to defease debt more economically.

Due to a robust recovery in passenger enplanements, the Airport is budgeting a year-over-year increase of \$17.2 million in the ending balance of the Airport Capital Fund. As specified in the ordinance, the Airport Operating Fund is required to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, to the Airport Capital Fund on an annual basis.

In both FY 2019-20 and FY 2020-21, the Development Services Department implemented cost saving measures in response to the pandemic, yet overall, the decline in revenues was not as substantial as anticipated due to the historic strength of the Austin housing market. In FY 2021-22, the Development Services Fund's ending balance is projected to grow by \$12.9 million as the combined result of these cost-saving strategies and higher than anticipated revenue collections.

The changes in the funds below are smaller in nature but represent an increase or decrease in balances in excess of 10% of budgeted revenue or requirements.

The <u>HUD Section 108 Family Business Loan Program Fund</u> is experiencing a \$4.9-million decline in its FY 2021-22 ending balance due to lower-than-anticipated utilization of the Austin Economic Injury Bridge Loan Program in FY 2020-21.

The FY 2021-22 ending balance of the <u>Cultural Arts Fund</u> is increasing by \$4.8 million as the result of a one-time transfer from the Budget Stabilization Reserve Fund. This transfer is intended to restore funding lost due to shortfalls in Hotel Occupancy Tax revenue caused by the pandemic.

The <u>Palmer Events Center Fund</u>'s FY 2021-22 ending balance is decreasing by \$4.3 million primarily due to receipts of vehicle rental tax in FY 2019-20 and FY 2020-21 falling short of budgeted expectations as a result of the pandemic's affect on travel and tourism.

Due primarily to the timing of land acquisitions originally planned for FY 2020-21, the ending balance of the <u>Historic Preservation Fund</u> is increasing by \$3.3 million in FY 2021-22.

The ending balance for the <u>Liability Reserve Fund</u>, which pays the City's settled claims and losses related to third-party liability for bodily injury and property damage, is increasing by \$2.4 million. Transfers into the fund are based on the three-year rolling average of the department's lawsuit claims history plus an amount based on the number of employees in each department. The increase reflects lower-than-anticipated claims from FY 2019-20. Planned expenditures remain consistent with historical trends.

The <u>Austin Cable Access Fund</u> has a FY 2021-22 projected ending balance \$1.0 million lower than the previous year, a reduction of 16%, due to an increase in capital expenditures in both FY 2020-21 and FY 2021-22.

For more detailed information on City funds and fund balances, a summary of citywide revenue and expenditures by type and fund category for FY 2021-22 can be found in the Funds section. This is immediately followed by a summary of all City funds, which shows the balances, the total revenue, and total requirements of each budgeted fund, including two years of prior year actuals, FY 2020-21 budget and current year-end estimate, and the FY 2021-22 projected amounts.

Capital Budget

The City of Austin regularly undertakes projects to improve public facilities and infrastructure assets for the benefit of its citizens. These projects, collectively referred to as the Capital Improvement Program (CIP), may include—but is not limited to—construction and renovation of recreation centers and libraries, acquisition of parkland, repaving of streets, replacement of water and wastewater lines, electric infrastructure for

residents, and the purchase of new fleet vehicles and information technology equipment. CIP projects vary in scope, meaning that some may require years of planning and construction while others may be completed in a shorter timeframe.

Each year, the City of Austin produces a Five-Year CIP Plan that outlines the various projects, with associated funding and spending plans that will take place over the upcoming five-year period. The CIP Plan is not intended to be an all-inclusive inventory of the City's capital needs for the upcoming five years. Instead, it outlines the planned projects with available funding sources and serves as the basis for new appropriations included in the annual Capital Budget. The FY 2021-22 Five-Year CIP Plan can be found in its own section of this Budget Document.

Unlike the Operating Budget, which appopriates funding annually, Capital Budget funds are available until expended, typically over multiple years. The Capital Budget funds major improvements and expansions of City facilities and infrastructure, while the Operating Budget primarily funds the ongoing operations of each department, including personnel and programmatic costs. Essentially, the Capital Budget funds the total cost of acquiring or constructing a City asset, including design, bidding, and construction, and the annual Capital Budget provides the additional appropriations necessary to begin new, or continue existing, projects.

Funding CIP

CIP is supported by a number of different funding sources, including debt, operating transfers, grants, and various other smaller revenue sources. The type of funding utilized for a project can vary according to the type of project as well as the department. Debt sources include voter-approved general obligation (GO) bond programs (public improvement bonds), non-voter-approved GO bonds (certificates of obligation and contractual obligations), and utility debt (commercial paper and Texas Water Development Board loans). The use of debt is suitable in capital projects because it promotes intergenerational equity, in which multiple generations not only bear the costs of the projects but also enjoy the benefits.

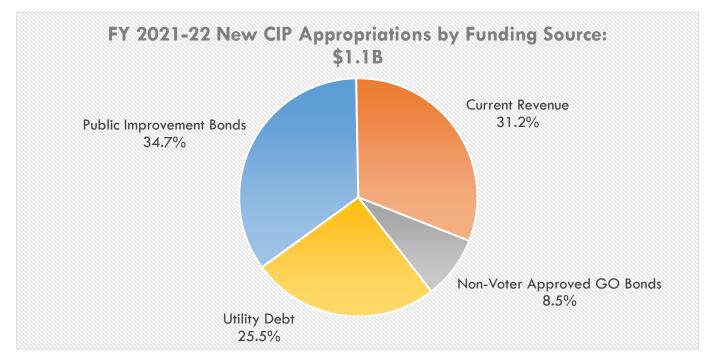

Public improvement bonds (PIBs), certificates of obligation (COs), and contractual obligations (KOs) are all general obligation bonds that are secured by the full faith and credit of the City of Austin and its ad valorem taxing power. While PIBs require voter approval through a bond election, COs and KOs do not.

- PIBs are a long-term debt instrument that allows the cost of capital investments to be repaid over a specified timeframe, typically 20 years.
- COs are used for real property purchase and construction, and similar to PIBs, are typically paid for over a 20-year period.
- KOs are a short-term debt instrument, typically 5 to 7 years, used to finance equipment or vehicles.

To avoid incurring debt and borrowing costs until cash is actually needed, cities can begin the preliminary phases of a project and reimburse the costs incurred with the sale of bonds at a later date through the use of a reimbursement resolution. To save issuance costs, the City of Austin's debt issuance is normally sold once each year. In FY 2021-22, \$468.7 million of new appropriations are supported by a reimbursement resolution for general obligation debt. New appropriations related to utility debt are \$112.0 million in commercial paper and \$29.0 million in Texas Water Development Board loans for Austin Water and \$135.5 million in commercial paper for Austin Energy.

The City's priority is to seek voter approval for most tax-supported debt. However, adopted financial policies allow for the use of COs and KOs if the capital expenditure is urgent, unanticipated, necessary to prevent an economic loss to the City, revenue generating, or is the most cost-effective financing option. Additionally, commercial paper is utilized by Austin Energy and Austin Water only and is very short-term debt, usually due within 30 to 45 days, that is utilized as an interim financing mechanism for capital expenditures to provide lower interest costs and flexibility and is then periodically converted or refunded into long-term bonds.

The financial policies adopted by City Council ensure that the City's financial resources are managed in a prudent manner. These policies are reviewed annually for compliance, and changes and additions to the policies are submitted for Council consideration from time to time. Several of the policies have a direct relation to the financing of capital projects. A complete listing of the City's financial policies is available in the Supporting Documents section of this Budget Document.

Bond Program Update

The City currently has four active major general obligation bond programs: 2012, 2016, 2018, and 2020. When a bond program is approved by the voters, the full authorized amount may not be appropriated all at once, and instead, appropriations are made in installments in accordance with the prioritization, coordination, and timing of projects over the life of the bond program. Active bond programs are those with more than 5% of authorized funding to be obligated and with more than 10% to be spent.

The 2012 Bond Program was approved by voters on November 6, 2012, and includes six propositions for a total of \$306.6 million in authorization:

- Proposition 12 authorized \$143.3 million in funding for transportation and mobility;
- Proposition 13 authorized \$30.0 million for open space and watershed protection acquisition;
- Proposition 14 authorized \$77.7 million for parks and recreation;
- Proposition 16 authorized \$31.1 million in funding for public safety;
- Proposition 17 authorized \$11.1 million for health and human services; and
- Proposition 18 authorized \$13.4 million in funding for libraries, museums and cultural centers.

The 2016 Bond Program was approved by voters on November 8, 2016, and includes one proposition for a total of \$720.0 million in authorization for local, corridor, and regional transportation and mobility improvements.

The 2018 Bond Program was approved by voters on Novmeber 6, 2018, and included seven propositions for a total of \$925.0 million in authorization:

- Proposition A authorized \$250.0 million in funding for affordable housing;
- Proposition B authorized \$128.0 million for libraries, museums and cultural centers;

- Proposition C authorized \$149.0 million for parks and recreation;
- Proposition D authorized \$184.0 million in funding for flood mitigation, open space, and water quality protection;
- Proposition E authorized \$16.0 million for health and human services;
- Proposition F authorized \$38.0 million in funding for public safety; and
- Proposition G authorized \$160.0 million in funding for transportation infrastructure.

The 2020 Bond Program was approved by voters on November 3, 2020, and includes one proposition for a total of \$460.0 million in authorization for sidewalks, transportation-related bikeways, urban trails, transportation safety projects (Vision Zero), safe routes to school, and substandard streets.

The table below provides an overview of the various active major bond program authorizations and activity as of May 31, 2021.

Public Improvement Bond Program	Voter Approved	Obligated	% Obl
2012 – Prop 12: Transportation and Mobility	\$143,295,000	\$124,349,478	86.8%
2012 – Prop 13: Open Space and Watershed Protection	\$30,000,000	\$29,979,376	99.9%
2012 – Prop 14: Parks and Recreation	\$77,680,000	\$71,236,474	91.7%
2012 – Prop 16: Public Safety	\$31,075,000	\$27,257,406	87.7%
2012 – Prop 17: Health and Human Services	\$11,145,000	\$11,068,697	99.3%
2012 – Prop 18: Library, Museums, and Cultural Arts Facilities	\$13,440,000	\$12,687,617	94.4%
2012 Bond Total	\$306,635,000	\$276,579,048	90.2%
2016 – Prop 1: Transportation and Mobility	\$720,000,000	\$244,511,703	34.0%
2016 Bond Total	\$720,000,000	\$244,511,703	34.0%
2018 – Prop. A: Affordable Housing	\$250,000,000	\$126,650,609	50.7%
2018 – Prop. B: Libraries, Museums and Cultural Arts Facilities	\$128,000,000	\$4,764,748	3.7%
2018 – Prop. C: Parks and Recreation	\$149,000,000	\$24,586,360	16.5%
2018 – Prop. D: Flood Mitigation, Open Space, and Water Quality	\$184,000,000	\$72,890,725	39.6%
Protection			
2018 – Prop. E: Health and Human Services	\$16,000,000	\$1,115,702	7.0%
2018 – Prop. F: Public Safety	\$38,000,000	\$6,188,585	16.3%
2018 – Prop. G: Transportation Infrastructure	\$160,000,000	\$29,804,926	18.6%
2018 Bond Total	\$925,000,000	\$266,001,655	28.8%
2020 – Prop B: Transportation and Mobility	\$460,000,000	\$3,063,264	0.7%
2020 Bond Total	\$460,000,000	\$3,063,264	0.7%
Total	\$2,411,635,000	\$790,155,670	32.8%

Capital Budget Appropriations and Spending

The Capital Budget is a multi-year spending authorization, and as a result, there is a distinction between what the City plans to spend in the next fiscal year and the new appropriations required to be approved in the Budget. In addition, full appropriations for capital projects are required for contract awards to ensure adequate funding, even though that appropriation will generally not be fully spent in the same fiscal year. The new FY 2021-22 CIP appropriations total \$1.1 billion, while the total CIP spending plan for FY 2021-22 is \$1.3 billion.

The table on the following page illustrates FY 2021-22 new CIP appropriations and planned spending by department, along with operating budget requirements. For more detail about the planned spending for each department, please see the associated department budget pages and five-year CIP plans in this Budget Document.

Capital Operations and Maintenance (O&M) Impact

While the Capital Budget covers improvements and expansions of City facilities and infrastructure, there can be an associated impact to operating requirements once the projects are in service. This impact in O&M is evaluated every year during budget development and influences the total operating requirements needed by each department. The O&M costs for facility projects with completion dates beyond FY 2021-22 will be evaluated annually during the budget development cycle in the year in which the capital projects are completed.

The following are departmental O&M highlights for FY 2021-22:

- \$2.9 million (\$1.6 million in Fire and \$1.3 million in Emergency Medical Services) for personnel and contractual/commodity costs for the Loop 360 joint EMS/fire station.
- \$669,000 in Fleet Mobility Services for license and software fees for GPS, as part of phase 3 of the telematics program, and operations and maintenance fees for electric vehicle charging ports.
- \$665,000 for seven new positions in Public Works to support the growing workload of capital improvements projects across the City, particularly from Austin Water, Aviation, and departments with funding from the 2016, 2018, and 2020 bond programs. The costs of these positions will be directly charged to capital projects.
- \$659,000 in Parks and Recreation for various capital project contractual/commodity costs to support facility services, grounds maintenance, and general park improvements.
- \$246,000 in Economic Development for the planning, real estate, design, engineering, community engagement efforts, and site maintenance obligations in the current and future fiscal years for Colony Park.

FY 2021-22 Appropriations and Spending Plan Summary					
	Operating	Capital	Capital		
Department	Appropriation	Appropriation	Spending Plan		
Animal Services	\$16,450,591	\$0	\$0		
Austin Code	\$28,121,137	\$0	\$0		
Austin Convention Center	\$125,472,635	\$0	\$34,880,952

Total	\$5,036,933,603	\$1,083,696,671	\$1,286,534,744		

FIVE-YEAR FINANCIAL FORECASTING

The City of Austin prepares a five-year financial forecast annually as a tool to guide policy and programmatic decisions. By surveying and evaluating current economic and fiscal conditions, staff can identify important trends that may impact future revenue or expenditure levels, and thus, provide necessary information for policy and decision makers to strategically adjust to changing conditions. Metrics monitored range from national indicators, such as gross domestic product (GDP), to department-specific indicators, like the number of residential building permits issued. This extensive, all-encompassing analysis provides a robust picture of the financial climate which the City and its enterprises are operating in today and are likely to experience in the near-future.

Economic Indicators – National, State, and Local

Following a decade of economic expansion from 2009 to early 2020, the national, state, and local economies were totally upended over the past year as the pandemic wrought myriad negative financial consequences. With that, over the first half of 2021, the economies have started to recover with dwindling COVID-19 case counts as a result of mass vaccine adoption, which has allowed businesses across all industries to fully re-open, stimulating consumer activity and job growth.

At the national level, extraordinary monetary and fiscal policies have been enacted over the past year to mitigate the economic fallout, including multiple stimulus bills that provided economic relief to individuals, businesses, and state and local governments. This infusion of resources, in many ways, kept the structure of the economy intact and disseminated much-needed relief. Now, with COVID-19 vaccination programs widely adopted and still ongoing, a new economic normal is beginning to take shape with the national economy on a projected road to recovery.

At the state level, the Texas economy was doubly impacted by the pandemic due to its negative effect on oil demand, which led to a notable contraction in the energy sector. Despite that, the state has also begun recovering from the negative economic effects of the pandemic. Recent Texas jobs reports have been encouraging, even though the pace of recovery has been uneven. Initially, large numbers of jobs were added reflecting the fact that as businesses began to reopen, what was essentially a sound economy before the pandemic began responded. More recently, hiring has continued, but at a slower rate, and some continued unevenness is to be expected.

At the local level, the Austin economy was tremendously impacted with its entertainment and event industry completely stifled throughout the past year, along with severe impacts on other industries, as well. With those industries in the early stages of their recovery, Austin's large and stable base of state government, higher education, and health care are expanding and will contribute to future growth. Technology-related industries continue to enhance current and future economic performance, and the area is expected to be among the growth leaders in the state over the next five years.

Overall, all signs point to robust future expansion in an economy which was basically sound before the health crisis began. As the pandemic recedes, growth potential increases. While the recovery will no doubt be somewhat uneven and many challenges lie ahead, 2021 is shaping up to be a year of positive economic transition and adjustment. The following charts and tables detail the current economic environment at varying levels, including forecasts of future-year economic performance.

Economic Indicators – The Underlying Data

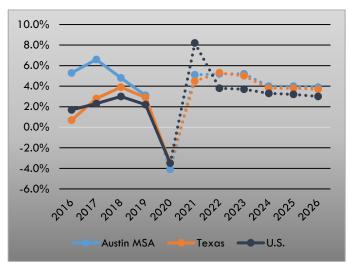

Figure 1. Annual Real GDP Growth

Source: Bureau of Economic Analysis and The Perryman Group

In 2020, as reflected in Figure 1, the national economy saw real GDP growth sharply fall to -3.5% due to the economic fallout of COVID-19. Growth is expected to rise dramatically in 2021 to 8.2% before projections revert to the mean and stabilize in years thereafter. Texas recorded a similar retraction in GDP growth in 2020 as the U.S., also at -3.5%. This placed Texas 23rd of the 50 states in GDP growth in 2020. The state is expected to rebound in 2021, as well, with projected growth of 4.5%. While local GDP numbers are not yet finalized for 2020, it is estimated that the Austin economy retracted at a slightly higher rate than the national and state economy, with Austin MSA GDP growth estimated at -4.1%. Austin is expected to see a similar rebound of 5.1% GDP growth in 2021 while also looking forward to continued strength in 2022 and 2023 with growth expected above 5% in both years.

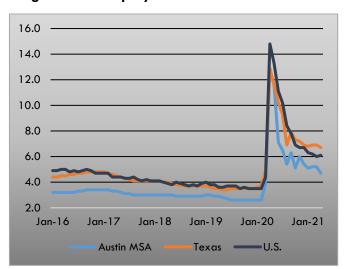

Figure 2. Unemployment Rate

Source: Bureau of Labor Statistics and Texas Workforce Commission

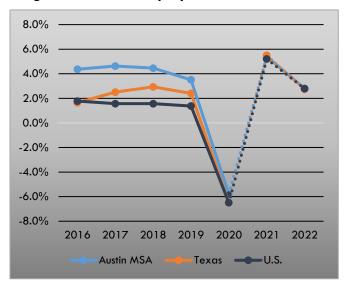

Figure 3. Annual Employment Growth

The unemployment rate, in Figure 2, consistently dropped over the past five years, leading to full employment before the economic effects of the pandemic struck. While employment has rebounded substantially since the bottom in April 2020, a full recovery to pre-pandemic levels will take a longer period of time. The U.S. unemployment rate, as of April 2021, is 6.1%, while the rates for Texas and Austin are 6.7% and 4.7%, respectively, with Austin significantly outperforming national and state rates. As reflected in Figure 3, employment growth was also relatively strong, but the national, state, and local economy alike all lost around 6% of jobs in 2020. The Austin MSA is expected to register employment growth of 5.4% in 2021.

	Nonfarm Payroll	Job	%	
Metro Area	Jobs	Growth	Change	Rank
Salt Lake City	768,200	(4,200)	-0.5%	1
Indianapolis	1,083,300	(10,000)	-0.9%	2
Austin	1,130,500	(11,500)	-1.0%	3
Dallas	2,712,400	(50,000)	-1.8%	4
Phoenix	2,198,800	(50,700)	-2.3%	5
Atlanta	2,831,500	(72,500)	-2.5%	6
Oklahoma City	651,300	(17,800)	-2.7%	7
Kansas City	1,078,200	(30,900)	-2.8%	8
Fort Worth	1,081,600	(31,600)	-2.8%	9
San Antonio	1,063,000	(37,200)	-3.4%	10

Table 1. 2020 Top Job Growth Rankings by MSA

Source: Austin Chamber of Commerce

Looking at forecasted job growth by industry, Table 2 shows that Austin is expected to gain 3.3%, or about 35,000 jobs, in 2021 followed by gaining about 31,000 jobs, or 2.8% growth, in 2022. With these projections, Austin is expected to fully gain back the number of jobs lost throughout the pandemic at some point in 2022. Jobs related to mining, the service industry, and agriculture are expected to grow significantly in 2021, while positive growth is projected among all major industries. After 2022, Austin job growth is expected to remain stable and grow at around 2% to 3% annually through 2026.

After multiple years of a minimal unemployment rate and strong employment growth at the national, state, and local level, along with a steady, low inflation rate, it is unsurprising that consumer confidence in the economy remained at high levels through the beginning of 2020 before the pandemic disrupted individuals' lives, and thus, their confidence in the economy. Since the depths of the pandemic, consumer confidence has recovered, although, it has not yet reached pre-pandemic levels. Figures 4 and 5, on the following page, reflect the consumer confidence index and consumer price index growth (inflation), respectively, at the national and

Further evidence of Austin's resilient labor market is reflected in Table 1, which ranks the top 10 major metro areas by employment growth in 2020. While all major metros lost jobs in 2020, Austin's growth rate of -1.0% placed the MSA third in the rankings, while other Texas metro areas also performed well, including Dallas in fourth place at -1.8%, Fort Worth in ninth place at -2.8%, and San Antonio ranking tenth at -3.4% growth. These data points give promise to a potentially strong, localized rebound in the nearfuture after combating the pandemic. The table reflects employment growth at a snapshot in time from December 2019 to December 2020.

Table 2. Forecasted Austin MSA Wage/Salary Job Growth, 2021-2022

Industry Sector	2021 Growth	2022 Growth
Mining	11.7%	8.0%
All Services	5.0%	4.3%
Agriculture	4.3%	0.7%
Transportation & Warehousing	3.7%	2.5%
Wholesale & Retail Trade	3.5%	2.0%
Construction	2.4%	2.0%
Finance, Insurance, & Real Estate	1.9%	1.7%
Utilities	1.8%	1.2%
Information	1.6%	1.1%
Manufacturing	1.1%	1.5%
Government	0.1%	0.8%
Total Job Growth	3.3%	2.8 %

Source: The Perryman Group

state level. As of May 2021, consumer confidence for both the U.S. and Texas are comfortably above the threshold score of 90 that is considered indicative of a healthy economy. U.S. consumer confidence bottomed out at 85.7 in April 2020 before slowly rebounding to 117.2 in May 2021. Texas consumer confidence bottomed out at 86.9 in December 2020 and now stands at 124.9 as of May 2021.

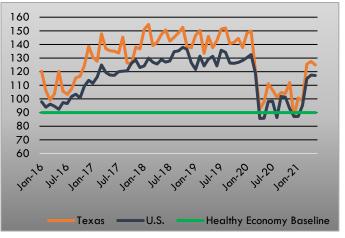

Figure 4. Consumer Confidence Index

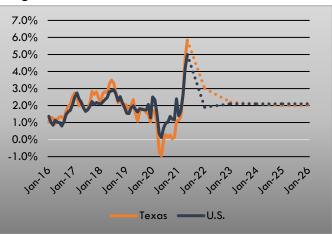

Source: Texas Comptroller and The Conference Board

Figure 6. Austin Airport Passengers and Hotel Revenue (in millions)

Source: City of Austin Aviation and Financial Services Departments

Figure 5. Consumer Price Index Growth

Source: Texas Comptroller, Bureau of Labor Statistics, and the Perryman Group

Inflation remained relatively low at the national and state level prior to and during much of the pandemic, but has increased sharply over the past few months primarily due to base effects (with certain portions of the economy shuttered in Spring 2020 which this year is compared to), strengthening demand as the economy fully reopens, and supply constraints caused both by strong demand and global supply chain issues due to the pandemic. In May 2021, the U.S. 5.0% recorded year-over-year inflation, reflecting the largest increase since August 2008, while Texas registered even higher inflation that month at 5.8%. This inflation jump is currently expected to be short-lived, with the U.S. expected to see a stable inflation rate of 1.9% and Texas 3.0% in 2022. From 2023 to 2026, the consumer price index is expected to increase, for the both the U.S. and Texas, at around 2%.

At the local level, the event and tourism economy have taken a strong blow from COVID-19, following continually strong growth for many years. While the data on Figure 6, reflecting Austin-Bergstrom International Airport (AUS) passengers and Austin hotel revenue, only shows through the end of quarter two in FY 2020-21 (March), with quarter three data not yet fully available as of print, the indicators are expected

to continue to recover at a much stronger pace than they have the past couple quarters with flights and hotel stays significantly picking up. In May 2021, AUS recorded more than one-million passengers come through its gates for the first time since February 2020. Local hotel receipts are also increasing quickly, as of late, with more travel taking place.

With increased employment and population growth over the past few years, heightened by significant population inflows to Austin throughout the pandemic, the Austin housing market is the strongest it's ever been on record with incredibly tight inventory that is pressuring prices upward. Figure 7 reflects some of these dynamics, depicting year-over-year change in home sales along with months of inventory in the Austin MSA. Over the past year, annual home sales have risen dramatically. The available housing inventory, as of May 2021, is 0.5 months – an indicator calculated by dividing the number of active listings by the average number of sales per month during the prior 12 months. A balanced housing market is generally considered to have six months of inventory, with more than six months of

Figure 7. Home Sales and Months of Inventory

inventory considered a buyer's market and fewer months considered a seller's market. Using this statistic, Austin has been a seller's market since July 2011. Prior to the past year's surge, Austin's months of inventory hovered around two to three months the past five years. The U.S., as a whole, has a much more balanced housing market at 5.1 months of inventory as of May 2021, although there are various locales around the country experiencing high demand and tight inventories similar to the Austin market.

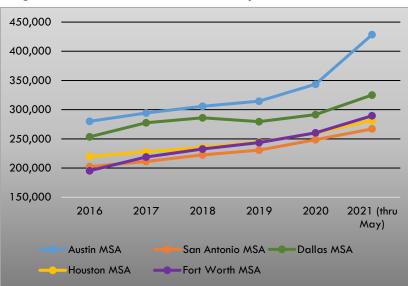

Figure 8. Median Home Sale Price by Metro Area

Source: Texas A&M Real Estate Center

Austin, along with the other major metros in Texas, has seen steadily increasing home values over recent years, as reflected in Figure 8, with Austin seeing a momentous rise over the past year. In 2016, the median home sale price in the Austin MSA was approximately \$280,000. Thus far, in 2021, it has reached nearly \$430,000 - a 53% increase. Just over the past two years, the median home sale price has risen \$114,000, reflecting an astounding 36% increase. Other major metro areas in Texas are seeing significant increases, although Austin remains, by far, the highest. While this metric tracks MSAs, the Austin Board of Realtors reported that in May 2021, the median home sale price within the Austin city limits was \$566,500, largely spurred by

incredibly strong demand and inventory shortage. While this trend indicates strong underlying fundamentals within Austin's economic environment, despite the pandemic, it also leads to increasing cost pressures for homeowners, potential homebuyers, and renters as well, especially with wage growth that has not kept pace with home valuation and sales price growth.

With the high demand present in the Austin housing market, the city is seeing continual investment in residential development leading to a large number of new and renovated housing units. As shown on Figure 9, the City issued residential building permits for approximately 13,000 units in FY 2015-16 and issued a similar number annually from FY 2016-17 through FY 2017-18. In FY 2019-20, the City issued permits for over 21,000 units, reflecting the highest on record. Through six months of FY 2020-21, Austin is trending toward a similar number of residential units permitted for the year.

On the commercial real estate side, the market has remained relatively tight for industrial and retail real estate, while office-related real estate has recorded an increasing vacancy rate over the past year, as shown in Figure 10. In comparing Austin to the national average, the City's vacancy rates are much lower. As reported by real estate research firm Reis, lnc., the national retail vacancy rate in the second quarter of FY 2020-21 was 10.6% compared to Austin's retail vacancy rate at 4.4%. The national office vacancy rate was about 18.2% compared to Austin's 13.3%, while Austin's industrial vacancy rate of 6.6% compares favorably to the national rate of

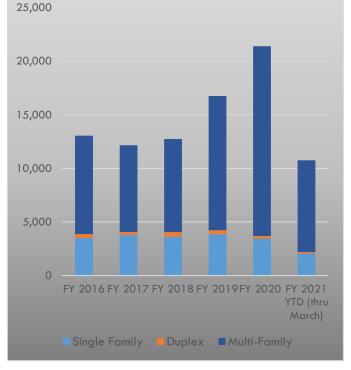

Figure 9. Residential Building Permit Units

Source: City of Austin Development Services Department

10.4%, as well. Vacancy rates in the office sector are forecasted to increase nationally throughout 2021.

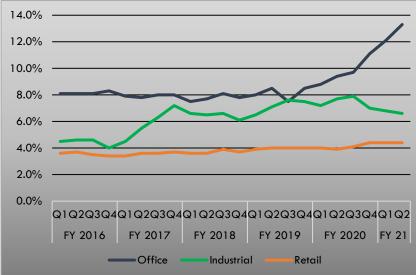

Figure 10. Commercial Real Estate Vacancy Rates

Source: Austin Chamber of Commerce

forward, policymakers and decision makers will have to remain mindful of the myriad economic and financial uncertainties surrounding the recovery and how differing scenarios will affect their respective economic and financial positions.

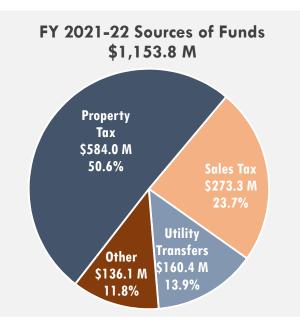

Conclusions

As evidenced by the foregoing charts and data, the economy is beginning to recover from the economic consequences of the pandemic, still although there are various uncertainties surrounding the recovery moving forward. Prior to the pandemic, economic fundamentals the and structure, especially at the local level, were strong and will likely provide a springboard throughout the financial recovery. The pace and strength of the recovery will largely be determined by a variety of uncertain factors, as the country and economy rise out of an unprecedented situation. Looking

General Fund Forecast

General Fund Revenue

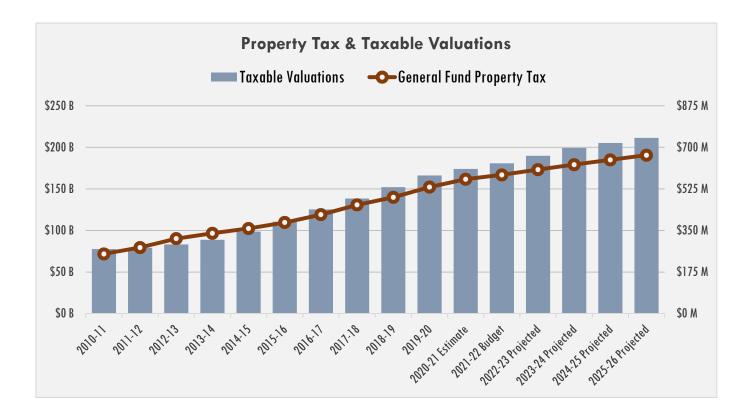

FY 2021-22 revenue for the General Fund totals \$1,153.8 million, which balances to budgeted expenditures and is generated from four major sources: property tax, sales tax, transfer payments from the City's two utilities, and other revenue consisting of fees, fines, permits, licenses, charges for services, and interest income. Total General Fund revenue is increasing by approximately \$62.9 million in comparison with the FY 2020-21 Amended Budget, primarily as a result of growth in taxable property valuations and an effective increase in the property tax rate in combination with strong growth in sales tax revenue receipts. The nearby graph displays the total amount of budgeted revenue attributable to each major revenue category as well as each category's relative share of total budgeted General Fund revenue in FY 2021-22.

Property Tax

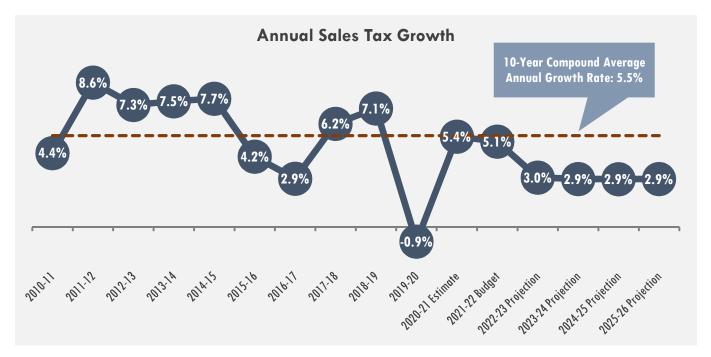

Property tax revenue is derived through a complex interplay between properties' taxable valuation—based on the certified estimated tax rolls from the Travis Central Appraisal District (TCAD), the Williamson Central Appraisal District, and the Hays Central Appraisal District; new development; City requirements; and a State-imposed revenue cap. The Budget reflects a taxable valuation of \$180.7 billion, which represents an increase of 3.8% over last year's certified estimated valuation. This growth rate is lower than would otherwise have been experienced due to a projected \$8 billion loss in taxable value resulting from the City Council's actions in June to increase the general homestead property tax exemption from 10% to 20% of assessed valuation and the property tax exemption for senior and disabled homeowners from \$88,000 to \$113,000. New property value is projected at \$3.9 billion and is primarily driven by the construction of residential, multi-family, and commercial properties.

Looking ahead, City financial staff expect the continuation of consistent, if moderating, increases in property values, with total taxable valuation growth currently projected at 5% in fiscal years 2022-23 and 2023-24 before leveling off to a 3% annual growth rate in fiscal years 2024-25 and 2025-26. The value of new property added to the tax roll is expected to decline over the medium-term from today's elevated levels, with a forecasted drop to \$3.5 billion in FY 2022-23 and a further reduction to \$3.0 billion by FY 2025-26.

Sales Tax

Sales tax collections are volatile since they are related to the well-being of the local and national economy, employment and real income levels, and the impact of tourism and business travel. The chart below tracks the growth in Austin's sales tax collections over the past decade. After many years of strong growth, the chart shows the impact of the COVID-19 pandemic on fiscal year 2019-20 collections, as well as the anticipation of a swift rebound from this economic disruption.

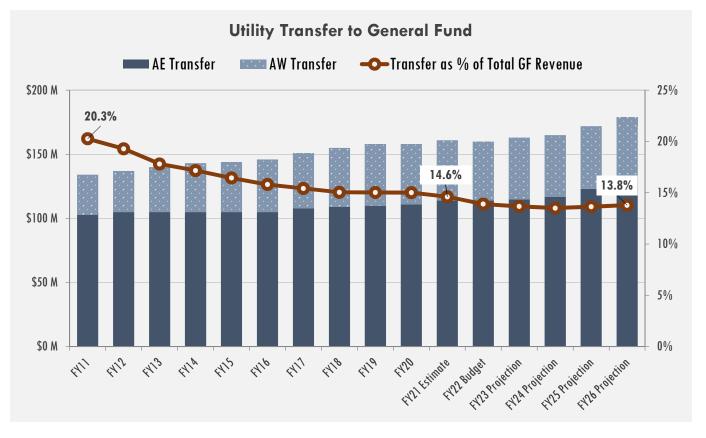

In fiscal years 2010-11 and 2011-12, as the local economy strengthened in the aftermath of the Great Recession, sales tax collections recovered. Year-over-year growth persisted in the intervening years, with a peak in FY 2011-12 of 8.6% annual growth, and a ten-year compound annual growth rate of 5.5%. As a result of the economic disruptions associated with the COVID-19 pandemic, however, taxable sales declined sharply in the second half of fiscal year 2019-20 and total collections ended the year almost 1% below fiscal year 2018-19 levels. Sales tax revenue is displaying evidence of a strong rebound in fiscal year 2020-21, which is expected to continue in 2021-22 as the economy fully emerges from the shadow of the pandemic.

City financial staff have long advocated thoughtfulness and restraint in projecting sales tax revenues, in the knowledge that periodic economic disruptions and resulting contractions of sales tax revenue—such as has been witnessed during the COVID-19 pandemic—are inevitable. From the perspective of sound fiscal management, it is far more important to ensure that ongoing services and costs are not added to the Budget on the basis of a cyclical peak or an ephemeral upturn in a variable revenue source than it is to attempt to predict the exact rate of growth in sales tax payments in any given fiscal year. Projections for sales tax revenue must remain cautious as a result of the asymmetrical consequences of actual growth failing to align with projections. In other words, while actual sales tax receipts falling short of budgeted levels can have severe repercussions with respect to maintaining a balanced General Fund budget, there are no corollary consequences should this revenue exceed projections. Informed by national and regional economic forecasts, financial staff anticipate that as the economy continues to rebound in the aftermath of COVID-19, sales tax revenue will post strong returns in fiscal year 2021-22, while a more conservative and sustainable long-term growth rate is projected for the remainder of the forecast period.

Utility Transfer to the General Fund

The City of Austin owns both its electric and water utilities and transfers from these utilities to the General Fund reflect expenses—such as property taxes, franchise fees, and owners' return on equity—that private utilities would otherwise have to incur. The transfer policy was revisited by Council in fiscal year 2012-13 at which time rates were set at 12% of average gross non-fuel revenue for Austin Energy (AE), with a minimum transfer of \$105 million, and at 8.2% of average gross revenue for Austin Water (AW). In accordance with these average revenue calculations, the transfers for FY 2021-22 are calculated based on a rolling average of actual revenue from fiscal years 2018-19 and 2019-20 and estimated revenue in FY 2020-21. Bond ratings agencies have taken a favorable view of the City's transfer policy with respect to both its methodology and to the fact that as General Fund revenue has increased over time, the relative amount of the transfer has steadily declined. Over the next five years, total utility transfer revenue is projected to grow at a compound annual growth rate of 2.2% as the effects of continued population growth and an associated increase in customer accounts are tempered by intensifying conservation efforts. The chart on the following page displays the actual or projected combined utility transfer as a percentage of actual or projected General Fund revenue.

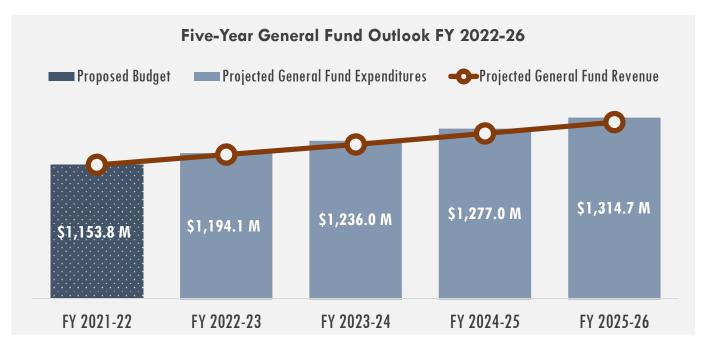

Other General Fund Revenue

Remaining General Fund revenue consists of fees, fines, charges, interest and other taxes and is budgeted at \$136.1 million for FY 2021-22, an increase of \$0.8 million from fiscal year 2020-21 budgeted levels. This increase is primarily the net effect of continued strength in development activity, a recovery in public health license and inspection revenue, and the anticipation of mixed-beverage tax receipts returning to prepandemic levels, which together serve to offset a reduction in interest revenue as a result of Federal Reserve action to reduce rates and long-term weakness in Municipal Court fine collections. Overall growth in Other Revenue is forecasted at a 1.9% compound annual rate through fiscal year 2025-26 as the economy recovers from the pandemic and population growth continues to drive increased demand for City services.

General Fund Expenditures & Outlook

In crafting the City's budget, financial staff endeavor not only to ensure that the budget is balanced in the current fiscal year but, equally importantly, that it is structurally sound and sustainable into the future. The graphic below compares projected expenditure growth in the General Fund over the next five fiscal years to projected growth in revenue. Expenditure projections reflect all known and anticipated cost increases including: wages, health insurance, fuel, utilities, annexations, and new facilities. The revenue forecast is informed by economic and demographic analysis and conservatively estimated.

A recently enacted law that reduced the property tax revenue growth factor in the State-mandated voterapproval tax rate calculation from 8% to 3.5% took effect in fiscal year 2020-21. As a result of the legislative change, the City Council and City management have begun instituting measures aimed at flattening the organization's cost curve as well as identifying potential new revenue streams. These measures have helped to allow the City to propose a balanced budget in fiscal year 2021-22. However, projected requirements begin to exceed project revenue in fiscal year 2022-23, widening to a gap of \$15.6 million by fiscal year 2025-26. The City Council and City management will continue to work to ensure long-term structural stability in pursuit of compliance with the City Charter's requirement of a balanced budget each year.

Austin Code

The Austin Code Department (ACD) provides community education and fair and equitable enforcement of local property maintenance, land use, and nuisance codes so that Austin will be safe and livable. ACD's services include case investigations, licensing and registration compliance, involuntary code enforcement, and public education. ACD strives for voluntary compliance with city codes when possible. When legal action is required to gain compliance, ACD is committed to enforcement practices that reflect reasonable and fair administration of justice.

Operating Budget

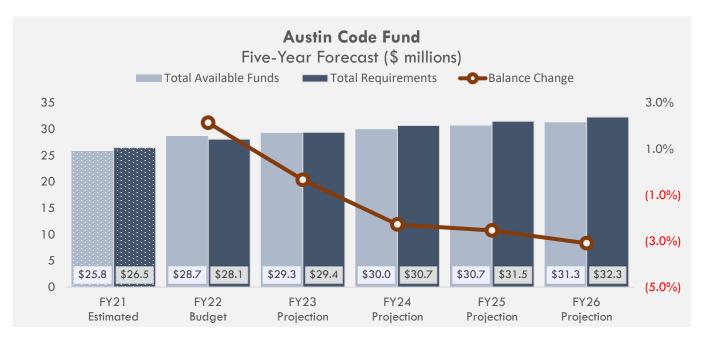

The Austin Code Department (ACD) over the five-year forecast period anticipates receiving approximately 90% of its revenue from the Clean Community Fee (CCF), a level of funding consistent with prior years. Another 8% of revenue is projected to be derived from Licensing and Registration fees including those from Short-Term Rental, Hotel/Motel, Waste Hauler, and others. The remaining 2% of revenue is expected to be generated through other code compliance penalties.

Over the next five years, total revenues for Austin Code are projected to increase by \$5.5 million, a 22% increase compared to FY 2020-21. The major driver of this increase is the Clean Community Fee, accounting for \$5.1 million of this projected revenue growth. Licensing and Registration revenues are anticipated to climb 12% over the same five-year period, accounting for 5% of the new revenue growth for the department expected over the five-year forecast period.

In FY 2021-22, total License and Registration fee revenue is estimated to remain largely unchanged. Short-Term Rental revenues are expected to decline by \$65,000 in FY 2021-22, but this shortfall is projected to be largely offset by Hotel/Motel Licenses revenue, which is anticipated to increase by \$48,000.

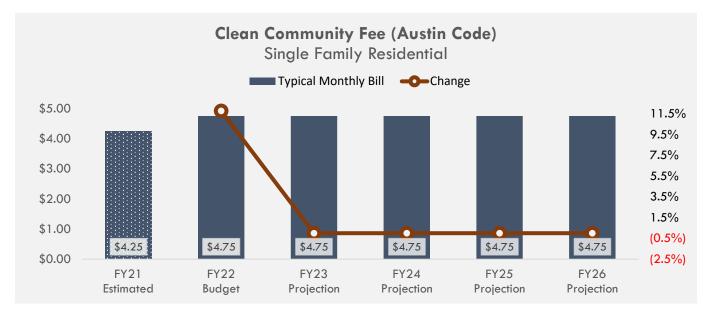

ACD forecasts average annual budget increases of 3.2% across the five-year forecast period. Projected cost drivers include:

- \$222,000 for acquisition of F-150 trucks for operation staff pool vehicles over the forecast period
- \$250,000 in one-time tenant relocation assistance programming.
- \$1.6 million for additional personnel to fulfill the operational duties of Austin Code.
 - This includes personnel cost for 13 new FTEs and 4 Temporary Positions.
 - \$0.8 million for an on-call Austin Code response program and additional Overtime to cover the extended hours.
- \$0.7 million in increase rental costs for the Ben White Office.
- \$2.7 million in increases in City cost drivers.
 - o \$1.2 million in wage and benefit increases (cost of living, insurance, etc.)
 - o \$0.6 million in Austin Code's contribution to support CTM.
 - \$0.3 million for administrative services.

Typical Ratepayer

The majority of ACD revenue is derived from the Clean Community Fee (CCF), which is shared with Austin Resource Recovery. ACD's portion of the CCF is forecast to increase by \$0.50 in FY 2021-22 to \$4.75 per single family residence and remain at that level through FY 2025-26.

Austin Convention Center

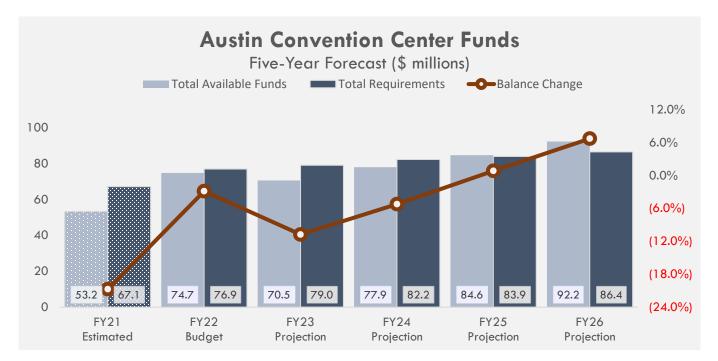

The Austin Convention Center is a multipurpose facility providing innovative meeting space and customized services to attract visitors to the City of Austin, contributing to the local economy through supporting a prosperous tourism and travel industry.

Operating Budget

Due to the continuing economic impact of COVID-19, the Convention Center is projecting a current year revenue estimate that is \$29.1 million or 35% below the FY 2020-21 budget and an FY 2021-22 revenue budget that is projected to decrease by \$7.6 million, or 9% from the FY 2020-21 Budget. Convention Center revenue sources include facility, parking, contractor, Hotel Occupancy Tax (HOT) collections and Vehicle Rental Tax collections. For contractor revenue, the FY 2020-21 current year estimate (CYE) is a 93% decrease from the amended budget, reflecting the continued closure of the Convention Center to most events. Contractor revenue in FY 2021-22 is projected to decrease 43% from the FY 2020-21 budget, while future year projections show a steady increase through the five-year forecast period. Total HOT collection projections for the current year are \$36.6 million below the FY 2020-21 budget, \$21.6 million of which is the loss to the Convention Center's Operating Budget. The FY 2021-22 total HOT collection is projected to decrease \$11.8 million or 15% from the FY 2020-21 Budget. However, this is an increase of \$24.8 million, or 55%, above the FY 2020-21 CYE. The future year projections show a slow growth as the economy recovers over the next five years. Vehicle Rental Tax revenue is the largest single revenue source for Town Lake Park Venue funds, which includes the Palmer Event Center (PEC); Town Lake Park Vehicle Rental Tax collections show a decline of 50% for the FY 2020-21 CYE, with steady growth projected for the future years of the forecast period.

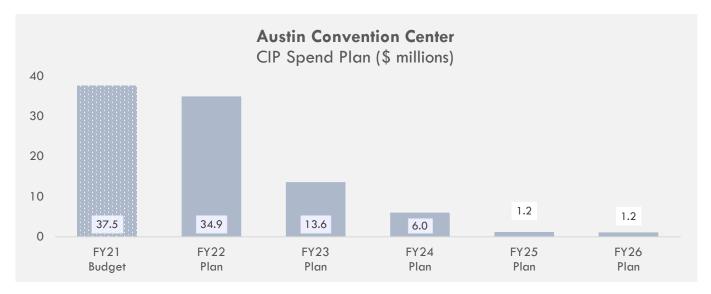

The Convention Center plans to mitigate the financial impact of these revenue shortfalls through cost containment measures and a planned transfer of funds, totaling \$16.5 million in the current year and \$10.8 million in FY 2021-22, from the Austin Convention Center Capital fund to the Convention Center's main operating funds. As a result of this action, the Convention Center will meet all debt service and operating requirements, while maintaining the operating reserve requirements as stipulated in the Department's Council-approved financial policies. However, because of this action, the Convention Center expansion as the transferred Austin Convention Center Capital funds were originally intended to be used towards expansion of the Convention Center. If expansion plans are halted, the City will no longer be able to collect the additional 2% Hotel Occupancy Tax for the expansion authorized by the voters in 2019, and the City will lose its revenue source for the Live Music Fund and the supplemental Historic Preservation Fund transfers.

The Austin Convention Center's major expenditure categories are operating and maintenance costs, debt service payments, and transfers to other City funds, including the Historical Preservation Fund, and Live Music Fund. The FY 2020-21 Operating Budget CYE represents an \$18.8 million, or 22%, decrease from the FY 2020-21 Budget, and is reflective of the necessity of continuing the cost containment measures put into place at the start of the pandemic. The FY 2021-22 budget requirements are projected to decrease by \$9.0 million, or 10%, from the F Y2020-21 budget. Expenditures assumptions for the later years of the forecast period include a modest increase in expenditures, including adding three new positions in FY 2022-23 to support the Marshalling Yard/Warehouse capital improvement project.

Capital Improvement Program (CIP)

Austin Convention Center's 5-year CIP spend plan focuses on improving and renovating the Austin Convention Center facilities. Total planned spending from FY 2021-22 through FY 2025-26 is \$56.7 million. In November 2018, Council approved construction of a marshalling yard to function as a staging area for service trucks going to the Austin Convention Center, to prevent truck traffic back-up in the downtown area, as well as construct a warehouse and office space. Most of the planned expenditures relate to this project, with other building improvement projects accounting for the remainder.

Austin Energy

Austin Energy is a municipally owned electric utility that delivers energy to over 500,000 residential, commercial, and industrial customers, with over 12,000 miles of distribution and transmission lines serving a 437 square-mile area. Austin Energy is committed to safely deliver clean, affordable, reliable energy along with excellent customer service.

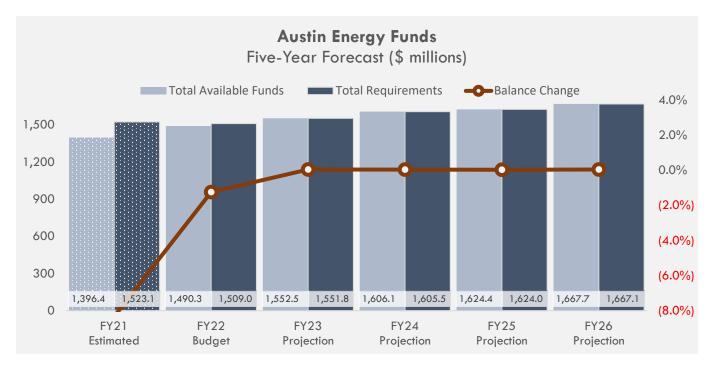

Operating Budget

Austin Energy revenue includes base revenue, pass-through revenue, and other revenue sources. Base revenue and pass-through revenue are received from the sales of electric service to retail customers and comprises approximately 90% of total revenue. Base revenue supplies Austin Energy with its operating revenue and is derived from the number of customers served, their usage levels, and base rates. Pass-through revenue recovers actual costs incurred for providing services with no return component; examples of pass-through charges include the Power Supply Adjustment and Regulatory Charge. Other revenue includes transmission revenue, infrastructure rental, chilled water services, customer fees, and interest income.

Throughout the forecast horizon, Austin Energy's energy sales in kilowatt-hours (kWh) and base revenue are projected to remain relatively flat until a forecasted base rate change in FY 2023-24. However, the timing and scope of this assumption is subject to change in light of recent Electric Reliablity Council of Texas (ERCOT) events. Other changes in pass-through revenue are driven by rising power supply costs and wholesale transmission costs. The increases are attributed to a change in power supply sources and rising wholesale transmission costs in the ERCOT market. Pass-through revenue is forecasted to increase from approximately \$708 million in FY 2021-22 to \$751 million in FY 2025-26. Over the five-year forecast, other revenue sources will increase from approximately \$153 million in FY 2021-22 to \$184 million in FY 2025-26 due to increases in transmission revenue, interest income, chiller revenue, revenue for infrastructure attachments from private corporations, and revenue associated with divested interests in power plants.

Austin Energy's major expenditures are power supply costs, wholesale transmission costs, operating and maintenance expense, debt service, investment in capital improvements, and transfers to the City and the General Fund. For the period of FY 2022-26:

- Power supply costs increase from \$422 million in FY 2021-22 to \$497 million in FY 2025-26. These costs increase as generation units are currently planned to be retired or no longer available at the Decker Power Plant and Fayette Power Plant (FPP) in FY 2022-23, coupled with the acquisition of additional renewable power supply and modest growth in energy sales. Austin Energy recovers these costs through the Power Supply Adjustment charge.
- Wholesale transmission costs, recovered through the regulatory charge, increase an average of \$6 million per year rising to \$181 million in FY 2025-26. These costs are the result of investment and on-going maintenance by transmission service providers of the wholesale transmission grid that is coordinated by ERCOT.
- Operating and maintenance expenses, excluding power supply and regulatory pass-through costs, are forecasted to average \$527 million per year during the five-year period. Expenses fall to approximately \$513 million in FY 2022-23, reflecting the forecasted exit from FPP.
- Annual debt service increases from \$162 million in FY 2021-22 to \$199 million in FY 2025-26. The net increase is attributed to planned debt issuances to finance the Capital Improvement Plan.
- The General Fund transfer is \$114 million for FY 2021-22 and increases to \$129 million by FY 2025-26.
- Other City transfers and payments average \$62 million per year over the time period, increasing from \$56 million in FY 2021-22 to \$68 million in FY 2025-26.

Capital Improvement Program (CIP)

The Capital Improvement Program (CIP) includes the acquisition of Austin Energy's new warehouse facility, construction of a major district cooling plant, a new substation to serve the downtown load, and continued investments in the distribution and transmission systems to remain in compliance with all state and federal requirements. The five-year spending plan is projected at approximately \$1.1 billion, with cash transfers to CIP averaging \$54 million per year and totaling \$269 million from FY 2021-22 to FY 2025-26. In general, approximately 49% of the five-year spending plan is cash-funded, including the proceeds from the sale or transfer of Austin Energy's Town Lake Center.

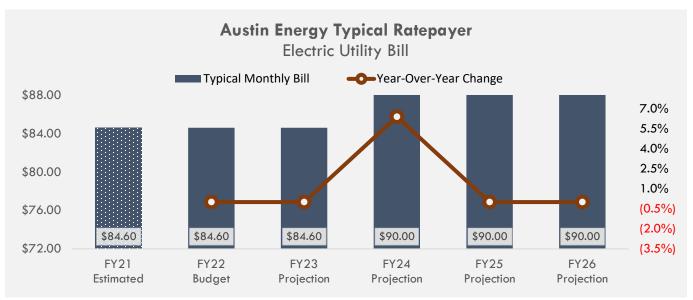

Typical Ratepayer

Austin Energy's rates are composed of base rates and pass-through rates. Base rates cover basic utility infrastructure such as power plants, distribution lines, customer service and the related operation and maintenance, which only change following a cost of service study. Pass-through rates cover power supply

costs, wholesale transmission costs, and certain costs incurred by the Utility on behalf of Austin Energy's service area customers and the greater community. These charges are determined through the City budget process on an annual basis to reflect the forecasted cost.

In FY 2021-22, the typical customer, who is defined as a non-CAP residential customer within the City of Austin using 860 kWh per month, is projected to have a monthly bill of \$84.60, prior to the update of any pass-through rates. The forecasted base rate change in FY 2023-24 will increase the typical monthly bill by \$5.40 to \$90.00 or 6.4%.

The Typical Residential Monthly Bill reflects expected changes to the base rates only from FY 2020-21 through FY 2025-26. The numbers do not reflect changes to the PSA, Regulatory Charge, or Community Benefit Charge since those are currently unknown.

Austin Resource Recovery

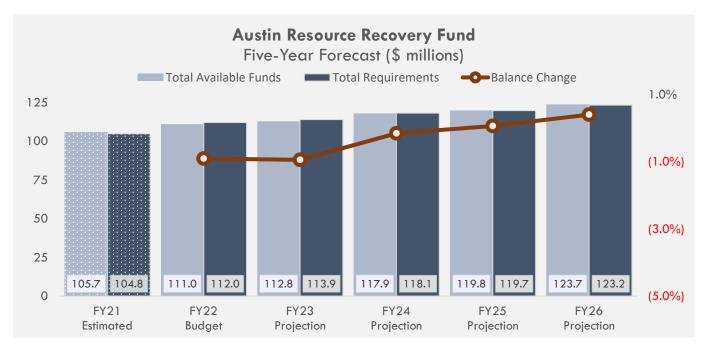

Austin Resource Recovery (ARR) provides innovative and reliable waste management, recycling, and outreach services to residential and commercial customers to help the City achieve its Zero Waste goal. The Department funds these programs and services through three major user fees consisting of the Clean Community Fee, Base Customer Fee, and Trash Cart Fee, which account for 97% of ARR's revenue.

Operating Budget

There are no rate increases to ARR's component of the Clean Community Fee over the five-year forecast period, however, the Clean Community Fee produces an additional \$3.0 million in revenue by FY 2025-26 due to projected customer growth. Revenue derived from the Base Customer Fee and Trash Cart Fee grows \$15.8 million over the forecast period due to a combination of projected customer growth and rate increases. The Base Customer Fee increases by \$1.50 per month in FY 2021-22 to fund regular departmental growth. Over the final three years, two additional Base Customer Fee increases raise the monthly rate an additional \$1.35. The Trash Cart Fee varies by cart size. The rate for the 96-gallon trash cart increases by \$0.02/gallon in both FY 2023-24 and FY 2025-26 to incentivize the use of smaller trash carts and increase diversion. The rate for all other trash cart sizes increases by \$0.01/gallon in both FY 2023-24 and FY 2025-26.

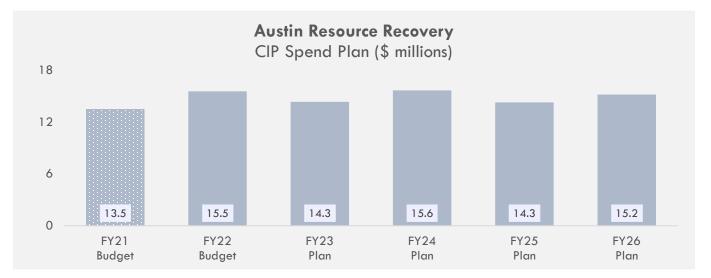

Major expenditure categories within ARR's operating costs are staffing, fuel purchases, vehicle maintenance, debt service payments, landfill and recycling processing contracts, capital fund contributions, and support services transfers. Major expenditure changes include:

- Addition of 13 new positions in FY 2021-22 at a cost of \$1.2 million, with 32 more new positions over the following four years, driven by customer growth, at a cost of \$2.8 million.
- Cash contributions for capital increase \$2.5 million in FY 2021-22 with increases in subsequent years to meet essential capital needs.
- Increase of \$705,000 in fleet fuel and maintenance expenses for a total of \$13.5 million in FY 2021-22, with further increases of \$3.4 million over the following four years.
- General Obligation Debt Service payments decrease by \$620,000 in FY 2021-22 to \$4.2 million. Further reductions totaling \$1.5 million occur over the remaining four-year term as short-term debt is reduced.

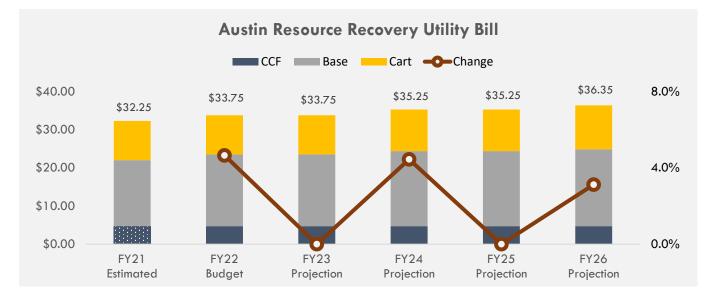

Capital Improvement Program (CIP)

ARR's five-year CIP plan is largely devoted to the ongoing purchase of necessary vehicles and equipment. Safety improvements and security enhancements at a cost of \$300,000 are underway at two existing facilities, the Kenneth Gardner Service Center and the Recycle and Reuse Drop-Off Center. Total CIP spending from FY 2021-22 through FY 2025-26 is planned at \$88.3 million.

Typical ARR Utility Bill

In FY 2021-22, the monthly bill of the typical ARR utility bill customer, who is defined as a residential curbside collection customer with a 64-gallon trash cart, increases by 4.7%, or \$1.50, to a total of \$33.75. By FY 2025-26, the last year of the forecast, this grows to \$36.35.

Austin Transportation

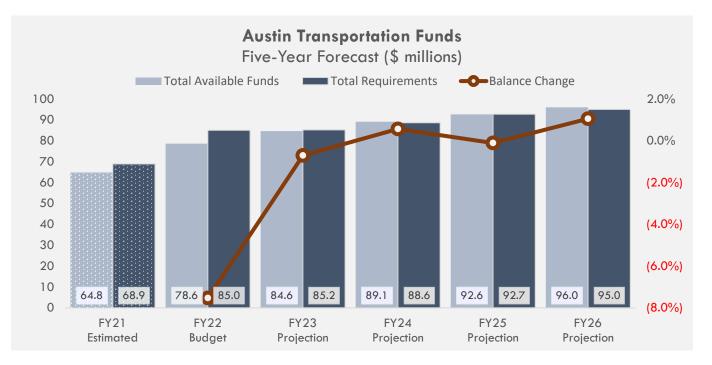

The Austin Transportation Department (ATD) delivers a safe, reliable, and sustainable multi-modal transportation system that enhances the environment and economic strength of the region for our residents, businesses, and visitors while conducting business in a customer-focused and transparent manner.

Operating Budget

Primary sources of revenue for ATD include a portion of the Transportation User Fee (TUF), which is shared with the Public Works Department, permitting and review services for Traffic Impact Analysis (TIA), Right-of-Way (ROW) and special event permits, parking meter revenue, and permits for mobility services (i.e. taxis, chauffeurs, car-share, bike-share, and scooters). The ATD portion of the Transportation User Fee has a planned increase of \$0.85 in FY 2021-22. Additionally, as a result of a recent cost of service study, permit revenues will increase from \$15 million to \$17.0 million in FY 2021-22. Parking revenue is projected to return to pre-pandemic levels in FY 2021-22, with projections of 11% above current revenue levels at the end of the forecast period.

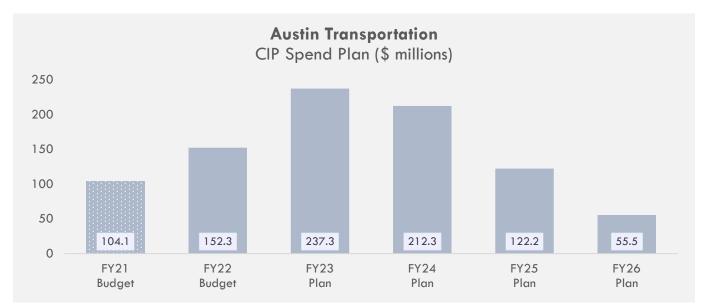

To support growing demand for mobility improvements and the implementation of voter-approved bond projects, the FY 2021-22 operating budget of \$85.0 million represents an increase in total requirements of \$12.8 million, or 18.6%, compared to \$68.8 million in FY 2020-21. The financial forecast includes an aggressive staffing plan to build the capacity to meet ambitious timelines set for the 2016, 2018 and 2020 bond programs, as well as to keep pace with growing expectations for improved service delivery with regard to street, sign and signal maintenance, the ROW permitting program, and the Parking program.

Expenditure assumptions for the FY 2021-22 through FY 2025-26 financial forecast include the addition of 130.5 positions: 96 positions in the Mobility Fund and 35.5 positions in the Parking Fund. 44.5 of these positions will be added in FY 2021-22 to address immediate needs related to implementing the three bond programs, increase the capacity of ROW permitting team, and provide additional parking enforcement officers to improve compliance in paid parking areas.

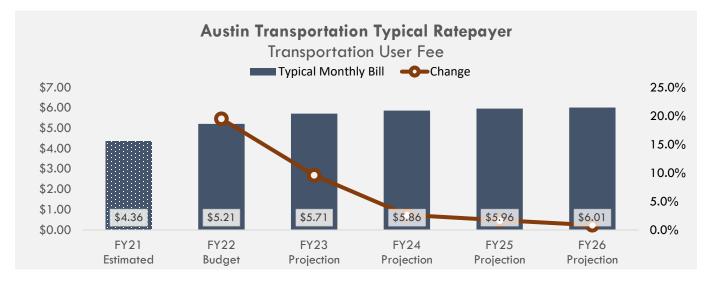

Capital Improvement Program (CIP)

The five-year spending plan for capital improvements is projected at \$779.6 million. This includes significant spending on the nine corridors in the Corridor Construction Program, projects for the 2018 Bond, Regional Mobility partnerships with TxDOT, and various bikeway and intersection safety improvement projects as part of the 2016 Mobility Bond as well as planning and design efforts for the 2020 Bond.

Typical Ratepayer

Revenue from the ATD portion of the Transportation User Fee is expected to increase in FY2021-22, and throughout the forecast period, due to the combined effect of fee increases and anticipated growth in the utility customer base. ATD's typical residential TUF customer will pay \$5.21 in FY 2021-22, an increase of \$0.85 per month from FY 2020-21, as TUF revenue is projected to increase by \$6.4 million in comparison with FY 2020-21 estimated levels. ATD forecasts further increases in its component of the TUF of \$0.50 per month in 2022-23, \$0.15 per month in FY 2023-24, \$0.10 per month in FY 2024-25, and \$0.05 per month in FY 2025-26.

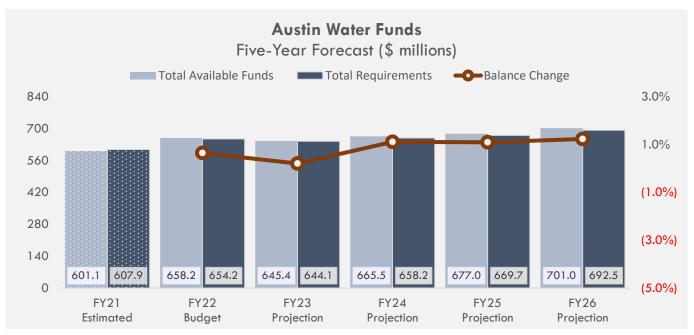

Austin Water

Austin Water utilizes water and wastewater rate revenue through its operating budget and capital improvement program to ensure a reliable, affordable, and sustainable stream of safe drinking water and the environmentally responsible treatment of wastewater.

Operating Budget

The FY 2020-21 total revenue current-year estimate includes a higher than normal first quarter due to hotter and dryer weather. Austin Water's estimated FY 2020-21 non-transfer revenue is projected to meet the adopted revenue budget. Total revenues for the forecast period are expected to increase by 1% to 3% annually due to customer growth and forecasted rate increases.

The FY 2021-22 operating budget of \$654.2 million represents an increase in total requirements of \$32.8 million, or 5.0%, compared to \$621.3 million in FY 2020-21. This increase is primarily due to the deferral of the \$35-million defeasance planned for FY 2020-21 into FY 2021-22 due to the expected raising of interest rates, which in turn would reduce bond prices and allow Austin Water to defease debt more economically. Austin Water's major expenditure categories include operating and maintenance costs, debt service payments, and transfers to other City funds, including the General Fund, Utility Billing Support, and Administrative Support. Expenditure assumptions for the FY 2021-22 through FY 2025-26 forecast period include modest projected increases in staffing, with the anticipated addition of 101 new positions over the next five years to keep pace with customer growth and to support implementation of Austin Water's advanced meter infrastructure. Sixty-two of these positions are planned to be added in FY 2021-22.

Capital Improvement Program (CIP)

Austin Water's five-year CIP spend plan balances renewal and replacement of critical infrastructure and investments in new technology, including smart meter technology and system expansion, and is focused on capital investments to build and improve water and wastewater treatment facilities and wastewater collection facilities. Total planned spending from FY 2021-22 through FY 2025-26 is \$1,087.8 billion.

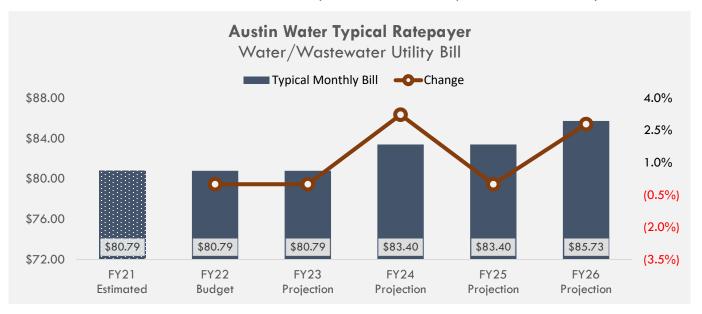

In November 2018, Austin City Council adopted Water Forward, an integrated water resource plan that includes a suite of demand- and supply-side strategies to address Austin's water needs over the next 100 years and ensure long-term water availability through a variety of climate conditions. Water Forward recommended strategies include both major water supply projects and incremental solutions such as demand management or reuse.

One of the projects recommended by Water Forward is the development of an Aquifer Storage and Recovery Full Scale Facility, which will store available drinking water underground for future use, especially during drought periods.

Typical Ratepayer

Austin Water receives approximately 98% of its non-transfer revenue from sales of water and wastewater services to retail and wholesale customers. Water service revenue generally accounts for about 51% of total non-transfer revenue, wastewater service revenue accounts for 47%, and reclaimed service and other revenue accounts for the remaining 2%. Austin Water projects that water and wastewater rates will remain flat in FY 2021-22, FY 2022-23, and FY 2024-25, but rate increases are projected for FY 2023-24 and FY 2025-26. Austin Water forecast projects minimal combined utility rate increases in FY2023-24 of 3.2% and in FY2025-26 of 2.8% that will be necessary to fund the total requirements of the Utility.

Aviation

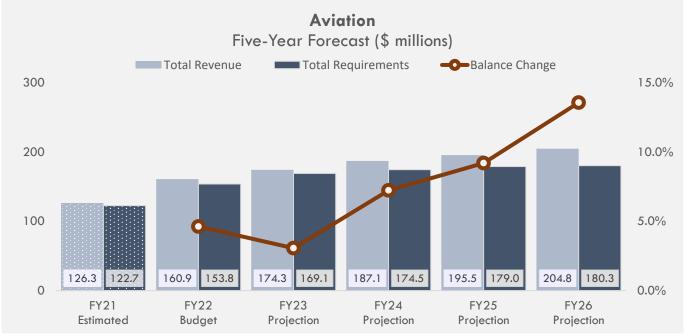

As one of the fastest growing airports in the country, Austin Bergstrom International Airport (AUS) is the airport of choice for Austin and the surrounding communities, providing a connection to the world with exceptional facilities and services while representing the character and culture of its community.

Austin-Bergstrom International Airport operates as an enterprise fund of the City of Austin and is selfsustaining; therefore, the Department of Aviation does not receive tax revenue and functions without relying on the City budget or taxpayer. Austin's airport has operated in this fashion since 1982; funding to finance operating expenses and development is generated by fees and rent paid by airlines, concessions, and passengers. In addition, AUS receives grants, including federal Airport Improvement Program (AIP) grants. In order to comply with federal regulations and to ensure AUS is eligible to receive AIP funds, all airport revenue is retained to fund the capital and operating costs of the airport.

Operating Budget

The projected FY 2021-22 operating budget of \$153.8 million represents an increase in total requirements of \$25.9 million over the FY 2020-21 approved budget. Aviation's major expenditure categories include operating and maintenance costs, debt service payments, and transfers to other City funds. Expenditure assumptions for the FY 2022-26 proposed budget includes projected total staffing increases of 74 positions from FY 2023-24 to FY 2025-26.

The Department of Aviation receives the majority of its revenues from partnering airlines and from nonairline fees which include parking, concessions, rentals and miscellaneous fees. Over the FY 2021-22 to FY 2025-26 budgeting period, landing fees and terminal lease revenue are projected to increase at an average rate of 8.7% annually, while non-airline revenue is also expected to increase at an average rate of 11.8% annually. Enplanement traffic is projected to increase at a compounded annual growth rate of 20% over the FY 2021-22 to FY 2025-26 budget period from depressed COVID-19 pandemic levels. The Department expects FY 2020-21 to be the low point in enplanements due to the pandemic.

* Both total revenue and total requirements are shown without the Airport Capital Fund transfer.

Capital Improvement Program (CIP)

Aviation's 5-year CIP spend plan complements the Department's mission and vision by ensuring that campus facilities are improved, repaired, and expanded to achieve an exceptional level of safety, security and efficiency in cost-effective and socially responsible ways. Total planned spending from FY 2021-22 through FY 2025-26 is \$1.1 billion.

Revenue per Enplanement

Passenger traffic in the United States has historically been correlated with the health of the nation's economy. During economic contractions, there is a notable decline in passenger volumes while during the subsequent economic expansions there is significant growth in passenger volumes. Therefore, the revenue per enplaned passenger is one of the Aviation Department's key indicators and a measurement of air service revenue trends. Over the three years, prior to the COVID-19 pandemic, the Department had an average of \$21.20 in revenue per enplanement. Due to the challenges brought about by the COVID-19 pandemic, this key performance indicator's current year estimate for FY 2020-21 increased significantly due to enplaned passenger numbers declining at a faster rate than revenue. While passenger-based revenue did decline significantly, fixed revenue such as rents and contractual obligations caused overall revenue to decline at a slower rate. The Department anticipates this key metric will average \$22.91 over the next five fiscal years.

Passenger Recovery

The Aviation Department is expecting a full recovery from the unprecedented decline in passenger volume due to the COVID-19 pandemic by FY 2023-24. In anticipation of the COVID-19 vaccine and the increase in its availability to the public, the Department is projecting 6.8 million enplanements in FY 2021-22 compared to the current year estimate of 3.7 million enplanements in FY 2020-21, which translates into an 86% growth rate. Due to these projected increases in enplanements, the Department is expected to reach 81% of our pre-pandemic FY 2018-19 enplanements of 8.5 million. This recovery in passenger traffic will have a direct correlation to regaining revenues throughout the Department such as landing fees, parking, ground transportation, rental cars, and concessions.

Development Services

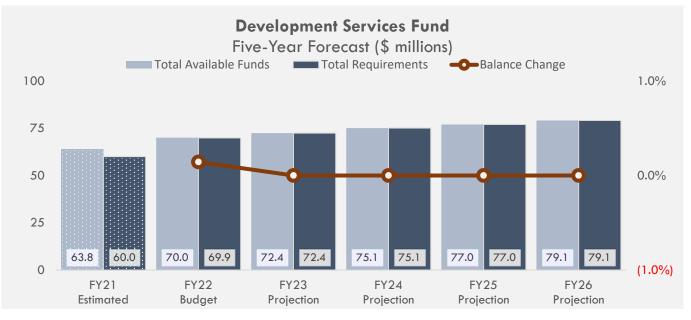

The Development Services Department (DSD) provides assistance to home and business owners, contractors, and enterprises to build, demolish, remodel or perform any type of construction by ensuring compliance with both City and building code standards. The Department strives to support a vibrant community through responsible development while providing high-quality and timely development review and inspection services. Ensuring the safety of the public is the primary reason why the Department works so diligently to protect and to serve the residents of the City of Austin.

Operating Budget

Development Services receives 90% of its revenue from the development review, inspection, and permitting process, covering 85% of the FY 2021-22 expense budget. On an annual basis, DSD reviews the full cost-of-service for the department's operations. As a result, fees are adjusted to reflect the true cost of service delivery. Incorporated into the annual fee updates are economic factors, staffing and resource needs, and volume projections. DSD fees are set at full cost recovery; therefore, as DSD expenses increase due to city-wide and departmental cost drivers, revenue will need to adjust to meet the new obligations.

Approximately 15% of DSD's budget is funded through a General Fund transfer and other expense refunds. The General Fund transfer funds programs that cannot be paid for via cost-of-service fees, including telecom permitting, fee waivers, and the Urban Forestry program. The Watershed Protection Department's Drainage Utility Fund provides 3% in funding for environmental inspection services that fall outside of the typical development processes.

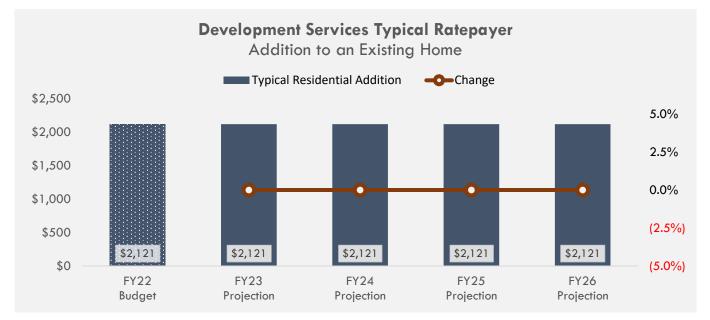

According to Capital Market Research, "the negative impact to the Austin economy that has occurred as a result of the Shelter at Home orders, and the subsequent limits on business occupancy due to the COVID-19 virus, have been substantial. While the loss of employment, and slowdown in the local economy had some impact on the permit requests at Development Services Department, overall the decline was not as substantial as anticipated last year. Given the historical strength of the Austin market, and tempered by forecasts of slower growth in the national economy, the demand for the review of applications in the Development Services Department is expected to increase substantially in 2021, followed by a slower recovery over the next few years." The report shows optimistic growth in permitting from 2021 through 2025 with commercial permits increasing by 9.5%, residential permits increasing by 26.6%, and overall activity increasing by 20.6%.

DSD's primary budget cost driver is personnel, which totals 75% of the \$70 million expense budget for FY 2021-22. DSD projects similar distribution trends for the out-years through FY 2025-26. Since Citywide cost drivers have increased by 3% year-over-year, the Department's expense budget is projected to grow by the same amount through FY 2025-26.

Typical Ratepayer

Development Services receives 89% of its non-transfer revenue from building safety (49%) and development fees (40%), with other revenue accounting for the remaining 11%. Fees will remain unchanged in FY 2021-22 with an expected increase in volume that will allow the Department to keep pace with City cost drivers and to recover full cost of service.

*A Typical Residential Addition consists of an addition to an existing home. The addition in this exercise is 1,000 square feet or smaller with no heritage tree reviews involved. Fees assessed in this example include the Combined Building Plan Review, Building Permit, Electrical Permit, Mechanical Permit, Plumbing Permit, and Energy Permit. All fees include the 4% Development Surcharge. This example assumes that the home addition is located within Austin City Limits, where building plan review authority exists.

Public Works

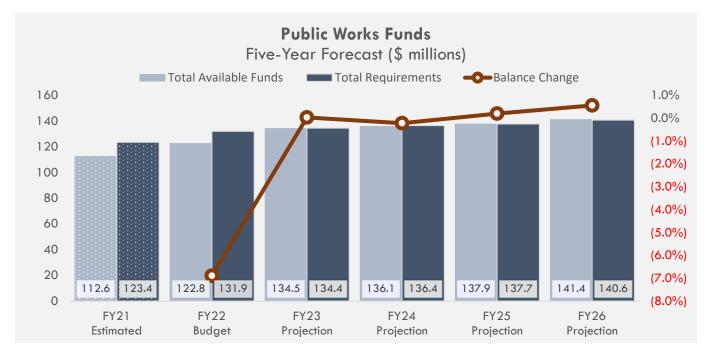

The Public Works Department (PWD) connects people with safe and reliable infrastructure, by building and maintaining our streets, bridges, sidewalks, and urban trails, as well as managing the delivery of City capital improvement projects.

Operating Budget

PWD revenue is derived from a portion of the Transportation User Fee (TUF), which is shared with the Austin Transportation Department (ATD), direct charges to capital projects, a cost-recovery allocation to sponsor departments, and collections from a child safety trust fund defined by Local Government Code, Section 106.002.

The FY 2021-22 forecasted operating budget of \$131.9 million represents an increase in total requirements of \$1.3 million, or 1.0%, compared to \$130.6 million budgeted in FY 2020-21. The forecast includes 27 new positions and the transfer out of 1 position to Management Services, for a net increase of 26 positions in FY 2021-22, to support sidewalk repair, bridge maintenance, utility cut repairs, support services, and to improve delivery of capital improvement projects. The costs associated with 8 of the forecasted new positions will be covered by direct charges to capital projects to address the growing capital delivery workload from other City departments, including Austin Water, Aviation, and ATD, as a result of recent Mobility Bonds.

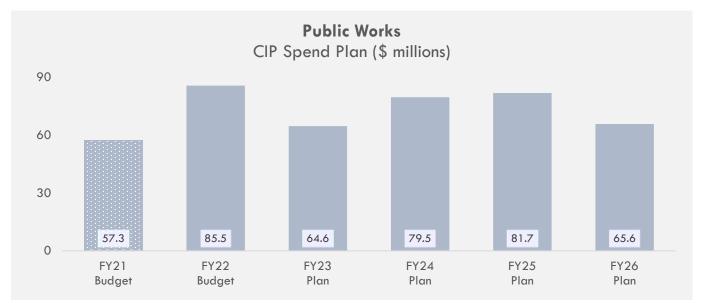

Public Works' major expenditure categories include street preventive maintenance and repair, bridge maintenance, right-of-way maintenance, sidewalks, urban trails, infrastructure management, capital delivery, safety education, and school crossing guards. Expenditure assumptions for the FY 2021-22 through FY 2025-26 financial forecast include additional investments to improve PWD's key performance indicators for condition of the street network (80% satisfactory or better) and functionally acceptable sidewalks (95%).

Capital Improvement Program (CIP)

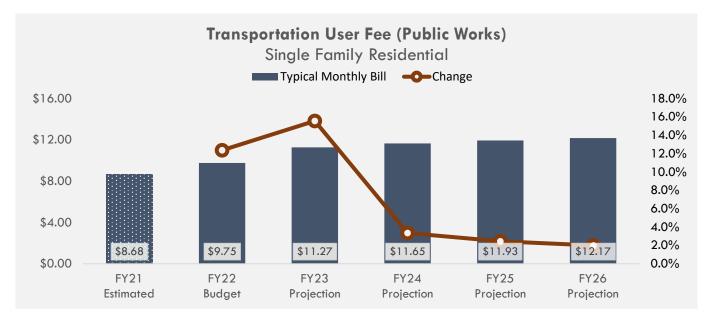

The FY 2022-26 five-year spending on capital improvements is projected at \$377.0 million, which includes spending on street rehabilitation, projects associated with the Capital Metro Quarter Cent program and

Neighborhood Partnering Program, and various projects as a part of the 2016, 2018, and 2020 Bond Programs, including bridges and structures, sidewalks, urban trails, and Safe Routes to Schools.

Typical Ratepayer

Revenue from the PWD portion of the Transportation User Fee is forecasted to increase by 13.4% or \$7.8 million in FY 2021-22 above the estimated amount in FY 2020-21 and another 26.5% over the remaining forecast period. PWD is projecting an increase to the residential portion of the TUF of \$1.07 per month in FY 2021-22, along with increases of \$1.52 per month in 2022-23, \$0.38 in FY 2023-24, \$0.28 in FY 2024-25, and \$0.24 in FY 2025-26.

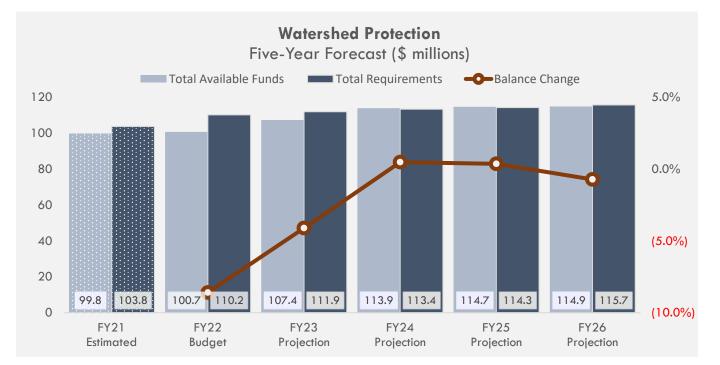

Watershed Protection

The Watershed Protection Department's (WPD) operating budget and Capital Improvement Program (CIP) support programs and projects that serve its mission to protect the lives, property, and the environment of the community by reducing the impact of flooding, erosion, and water pollution.

Operating Budget

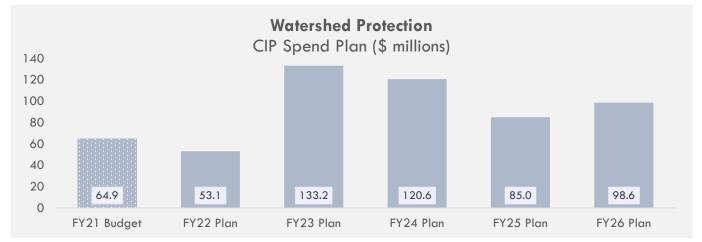

The primary source of revenue for WPD's operating budget is the drainage utility charge assessed on residential and commercial customers' utility bills. The charge is based upon the amount and the percentage of impervious cover on the property. The current-year estimate reflects the drainage fee revenue expected from existing accounts and a moderate anticipated increase in impervious cover due to new development. The drainage fee revenue accounts for 98% of total WPD revenue, with other revenue sources such as development review fees and interest income generating the remaining amount. For FY 2021-22, WPD is not forecasting any increase in rates, so anticipated revenue growth derives from new development. However, in response to rising costs, WPD projects modest rate increases each year between FY 2022-23 and FY 2024-25.

Overall, WPD projects moderate program requirement and transfer budget increases between FY 2021-22 and FY 2025-26. Program requirements constitute about half of WPD's operating budget, and the remainder of the budget is for transfers and other requirements. Under the City's financial policies, WPD is required to keep a 30-day reserve in its fund balance, which partially determines WPD's total requirements for the next fiscal year. For FY 2021-22, WPD has total requirements of \$110.2 million in its operating budget, which represents an increase of \$2.9 million, or 2.7%, compared to \$107.3 million in FY 2020-21, and although there is an addition of 34.0 positions in FY 2021-22, costs for the new positions are offset by funding for only six months in the first year. These positions are needed in response to increasing demand for services relating to infrastructure maintenance, infrastructure development, floodplain and environmental review, homeless encampment cleanup, technology support, community education, and support services.

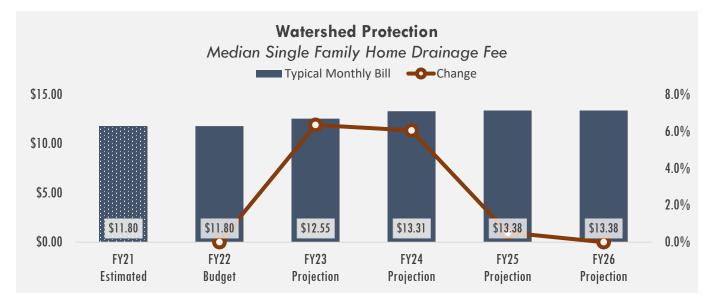

Capital Improvement Program (CIP)

WPD will continue to transfer \$35 million per year for CIP appropriations. The Department's five-year CIP spend plan focuses on projects that help with flood risk reduction by improving the existing infrastructure and implementing flood buyouts, stabilization of eroded streambanks, design and infrastructure to improve water quality, undertaking studies for Atlas 14, and open space acquisition. WPD will utilize the annual transfers, approved funds from 2018 Bond Program, and development fees in its Regional Stormwater Projects (RSMP) and Urban Watershed Structural Control Fund (UCSF). Total planned spending from FY 2021-22 through FY 2025-26 is \$490.5 million.

Typical Ratepayer

The drainage utility charge for both residential and commercial properties is calculated using the same formula based on the annual rate set by City Council and the amount and percentage of impervious cover on the property. For a representative single-family home with 37% and 3,100 sq. ft. impervious cover, the current median rate is \$11.80 per month, and WPD does not expect this median rate to change in FY 2021-22. However, although drainage utility charge revenue and interest income have been flattening in recent years, WPD projects modest rate increase in future years in order to keep pace with expected rising departmental costs related to the operations and maintenance of drainage infrastructure and system demands, including potential climate change impacts on flooding, erosion, and pressures on water quality.

City of Austin 2021-2022 Proposed Budget

Departments

READER'S GUIDE TO DEPARTMENT BUDGET PAGES

This reader's guide is designed to provide an explanatory introduction to the department budget pages. In these pages you will find program descriptions, detailed budget information, and key performance indicators for each City department. The following provides a starting point for understanding these pages.

Department Overview and Program Descriptions

Each department begins with a brief department overview, written to provide a high-level summary of core services provided by the department. This is followed by more detailed descriptions of a department's Operating Programs, which represent the department's organizational structure. These descriptions are in most instances unique to each department. Finally, for departments with capital programs, a Capital Programs section is included that describes the infrastructure categories that comprise the department's capital program. Capital Program descriptions are standardized across departments.

Operating Budget

The Operating Budget page presents a department's operating budget, revenues, and the number of positions authorized within the department, broken out among civilian, grant, and sworn positions. Two years of actual results are provided, along with estimates for the current fiscal year (CYE), the budget for the current fiscal year, and the budget for the upcoming fiscal year. Please note that for departments comprised of multiple funds with numerous interfund transfers, the expenditure and revenue amounts will be inflated due to amounts being reflected in more than one fund. This is effect is notable for Convention Center and Aviation.

- Expenditures by Strategic Outcome presents how a department's budget aligns to the City's strategic plan, Strategic Direction 2023 (SD23). SD23 has six strategic outcomes; however, due to the way interfund transfers and debt service are budgeted, a seventh category, Transfers and Debt Service, is included in this section to prevent double-counting of these amounts and overstating the amount aligned to any given outcome. In FY 2019-20, a change in how budgets are aligned to the strategic outcomes resulted in a shift in reporting from prior years. In some cases, this shift is significant.
- **Expenditures by Program** presents department expenditure budgets aligned to their operating programs, which are described in the Department Overview section.
- Funding Source shows the breakdown of revenue collected by fund. This section will only appear for departments that collect revenue. To learn more about each fund listed under Funding Source, reference the Fund Summary section of this Budget document. Please note that for the General Fund and Support Services funds, the amount shown only represents the revenue collected through fees assessed by that department.
- **Grant Awards** shows the amount of financial assistance in the form of money, property in lieu of money or a full-time equivalent, by an agency (federal, state or private entity). The grantee is required to account for spending the money in the manner specified by grantor. To learn more about grants reference the Grants section of this Budget document.

Capital Budget

The Capital Budget page includes information on the appropriation and spending plan for a department's capital improvement program. Appropriation represents the funds that a department is authorized by Council to spend. The spending plan represents the timeline under which the department anticipates spending those authorized capital funds. Due to the multi-year nature of most capital projects, spending and appropriations will not typically align in any given year and may vary significantly. Please note that not every department has a capital program, so some department sections will not include this information. The Capital Budget page is organized as follows:

- **Strategic Outcome**: This section shows how a department's capital budget is aligned to the six SD23 strategic outcomes. In FY 2019-20, a change in how budgets are aligned to the Strategic Outcomes resulted in a shift in reporting from prior years. In some cases, this shift is significant.
- **Category**: The capital budget by Category shows a department's capital budget by infrastructure category. These categories are described on the Department Overview page and have been standardized across departments. A total of 44 infrastructure categories are used.
- **Funding Source**: The Capital Budget page includes a third category showing the appropriation and spending plan by Funding Source. This section shows the types of funding utilized within a department's capital program. There are eight types of funding sources:
 - **Commercial Paper** is a short-term, unsecured promissory note. Generally, these notes are backed by a line of credit with a bank.
 - **Current Revenue** is from operating fund transfers, fees, insurance proceeds, donations, and contributions from partner organizations.
 - Grants reflects funding provided by federal, state, and local agencies.
 - **Multiple Funding Groups** denotes a blend of funding sources. For example: funding may be split between current revenue and commercial paper.
 - Non-Voter Approved Debt is specific to loans from the Texas Water Development Board (TWDB) made to Austin Water. These low-interest-rate loans are for specific TWDBapproved water, wastewater, and reclaimed water infrastructure projects.
 - **Non-Voter Approved General Obligation Bonds** denotes funding from contractual obligations (KOs) and certificates of obligation (COs).
 - **Public Improvement Bonds** are voter-approved bonds issued by the City that are secured by and payable from property taxes.

ANIMAL SERVICES

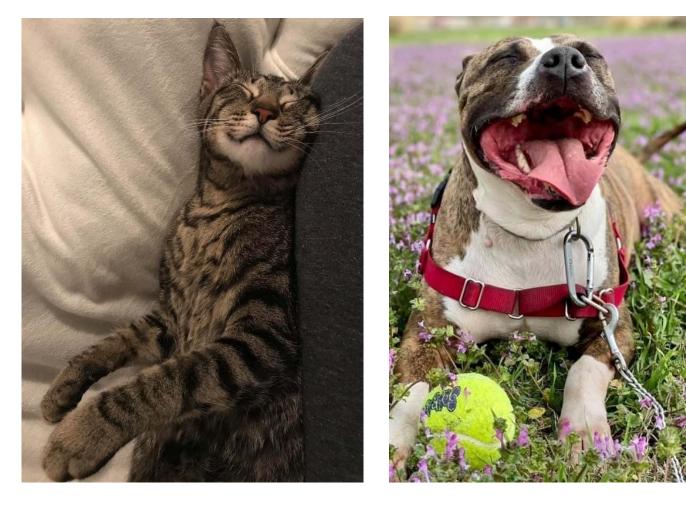

Animal Services operates the Austin Animal Center, the largest municipal no-kill animal shelter in the nation, with a live-outcome rate exceeding 95 percent. Throughout the year, the Austin Animal Center is a temporary home for thousands of pets, working to place all adoptable pets in homes. Animal Services emphasizes a prevention-based, educational approach by enforcing animal-related ordinances and by connecting residents with resources to care for animals in the community.

Operating Programs

<u>Animal Services Office</u> provides an array of animal protection, animal sheltering, rabies prevention, and pet owner services to the public to protect the bond between humans and animals and to promote the humane treatment of animals.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

ANIMAL SERVICES

Operating Budget	2018-19 Actual	2019-20 Actual	2020-21 Estimated	2020-21 Amended	2021-22 Proposed

AUSTIN CODE

The Austin Code Department (ACD) provides community education and fair and equitable enforcement of local property maintenance, land use, and nuisance codes so that Austin will be safe and livable. ACD's services include case investigations, licensing and registration compliance, involuntary code enforcement, and public education. ACD strives for voluntary compliance with city codes when possible. When legal action is required to gain compliance, ACD is committed to enforcement practices that reflect reasonable and fair administration of justice.

Operating Programs

<u>Investigations and Compliance</u> gains and maintains compliance with local property maintenance, land use, and nuisance codes through fair and equitable inspections and investigations.

<u>Involuntary Code Enforcement</u> facilitates code compliance through the Administrative hearing, Building & Standards Commission, and/or court processes.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises citywide administrative and information technology support.

AUSTIN CONVENTION CENTER

The Austin Convention Center facilities and services attract events that bring out-of-town visitors to Austin, which has a positive impact on the local economy. A continued focus on improving the customer experience is demonstrated through strategic facility improvements and efforts to improve customer satisfaction with strategic contracting and coordination of events.

Operating Programs

Event Operations provides event services, such as sales and contracting, planning and coordination, security and safety, facility and event set-up and operations, parking management, and utility and technology services to users of the facility to ensure their event is successful.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

Capital Programs

<u>Buildings</u> and <u>Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Convention Center includes improvements, renovations, and the expansion of the Austin Convention Center.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

Palmer Events Center improves and renovates Palmer Events Center facilities.

AUSTIN ENERGY

Austin Energy is a municipally owned electric utility that delivers energy to over 500,000 residential, commercial, and industrial customers, with over 12,000 miles of distribution and transmission lines serving a 437 square-mile area. Austin Energy is committed to safely deliver clean, affordable, reliable energy along with excellent customer service.

Operating Programs

<u>Customer Care</u> provides excellent customer service and information to all City of Austin Utility customers pertaining to billing, service, and City code.

<u>Customer Energy Solutions</u> develops, implements, maintains, and promotes the Austin Energy renewable energy and conservation programs in accordance with the Austin Climate Protection Plan in order for Austin Energy to become a leader in the campaign to address global climate change.

<u>Electric System Delivery</u> builds, operates, and maintains Austin Energy's transmission and distribution systems in the Austin Energy service territory in order to provide clean, reliable, and affordable electric service to our customers.

<u>Power Generation, Market Operations, and Resource Planning</u> provides operations, maintenance, and engineering services of Utility-owned power generation plants in order to produce clean, affordable, and reliable energy for sale into the Electric Reliability Council of Texas (ERCOT) wholesale market. The program also provides for the operation of chiller plants. Market Operations ensures that adequate power supply is available to meet customer demand through scheduling and analysis, while ensuring that Austin Energy is in compliance with federal, state, and local laws pertaining to system generation, sale, and purchase of power. Resource planning ensures compliance with Austin Energy's resource generation plan through 2025.

<u>Power Supply Adjustment (PSA)</u> provides for the recovery of expenditures for ERCOT settlements, which consist of charges and credits from ERCOT, other than administrative fees. PSA also provides for the recovery of costs for distributed generation production and fuel costs, including fuel transportation and managing gains, losses, and net purchased power agreement costs associated with short-term and long-term purchased power agreements.

Support Services provides administrative and managerial support to the Utility.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

Capital Programs

<u>Buildings</u> and <u>Improvements</u> include improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Distribution and Distribution Substations include the infrastructure that moves electricity from the generating facilities to industrial, commercial, and residential customers.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

<u>Other</u> includes capital improvement projects that do not fit into other categories, and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

Power Production builds and maintains power-generating facilities.

<u>**Transmission**</u> includes construction and maintenance of higher-voltage line infrastructure that carries energy from power plants to Austin Energy's service territory for distribution at lower voltage to retail customers.

<u>Vehicles and Equipment</u> accounts for the acquisition of new and replacement vehicles and equipment to support operations.

AUSTIN PUBLIC HEALTH

Austin Public Health strives to prevent disease, promote health, and protect the well-being of the community. The role of public health is to promote community welfare and self-sufficiency and to protect the community from infectious diseases, epidemics, and environmental or social hazards. To achieve these goals, Austin Public Health provides a range of programs and services that support healthy behaviors, prevent diseases, provide food protection, offer lifesaving immunizations, prepare and respond to public health emergencies, and help people navigate through crises.

Operating Programs

<u>Community Services</u> builds strong communities by enriching quality of life for individuals and families.

Disease Prevention & Health Promotion provides disease monitoring and preventive health services for the public in order to optimize their health and well-being.

Environmental Health Services provides protection and enforcement services to the public in order to minimize environmental and consumer health hazards.

<u>Epidemiology and Public Health Preparedness</u> minimizes the public's exposure to infectious and foodborne illnesses and provides emergency response actions to prevent, respond to, and rapidly recover from public health threats, both natural and manmade.

Health Equity and Community Engagement reduces disparate health outcomes.

Homeless Services Division provides citywide policy support to address homelessness.

<u>One Stop Shop</u> consolidated the process of land development permitting and assistance into a single location in order to create a more efficient development process for the community.

<u>Social Service Contracts</u> provides an array of social services that promote self-sufficiency for eligible individuals and households and improve their quality of life.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

Capital Programs

Buildings and Improvements includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

<u>Homelessness</u> Capital Improvements includes capital improvements to provide housing options and support for people experiencing homelessness.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

AUSTIN PUBLIC LIBRARY

The Austin Public Library (APL) provides easy access to books and information for all ages, through responsive professionals, engaging programs, and state-of-the-art technology in a safe and friendly environment. APL operates the Central Library, the Austin History Center, and 20 branch libraries. The library receives more than 3.6 million visitors annually and has a book circulation of 7.4 million.

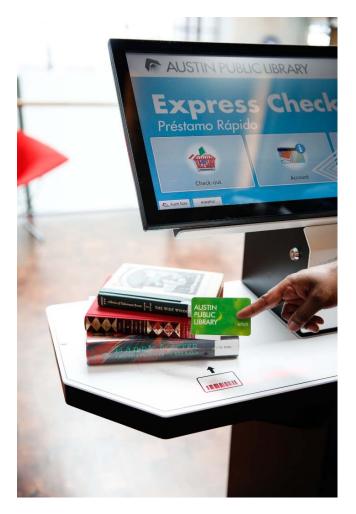

Operating Programs

<u>Public Services</u> provides materials, reference services, and programs to the Austin area community to meet their information and reading needs.

<u>Materials Management Services</u> provides quality Library collections to Library customers so they can access and borrow material to meet their informational and recreational needs.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

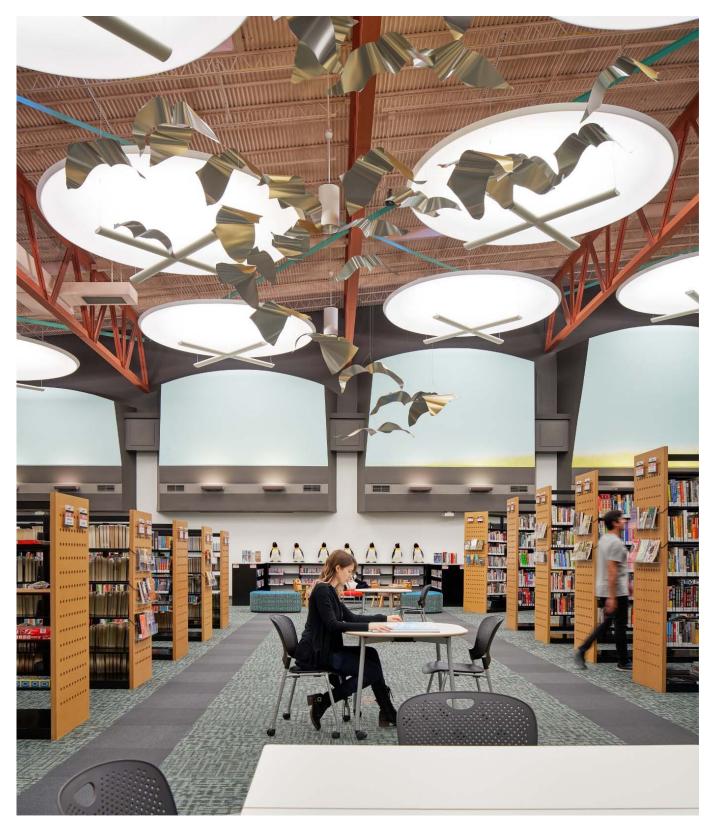

Capital Programs

Building and Improvements includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

AUSTIN RESOURCE RECOVERY

Austin Resource Recovery provides curbside trash, recycling, and organics collection to approximately 209,000 customers, and citywide litter abatement, remediation, and waste diversion opportunities to approximately 443,000 customers in Austin. Austin Resource Recovery aims to achieve Zero Waste by providing excellent customer services that promote waste reduction, increase resource recovery, and support the City of Austin's sustainability efforts.

Operating Programs

<u>Collection Services</u> provides diversion opportunities and waste collection services to ARR customers. This service includes brush and bulk collection, trash collection, compost collection, and recycling collection services.

<u>Litter Abatement</u> removes litter from Austin streets and thoroughfares, collects garbage and recyclable materials from public receptacles, helps with homelessness-related cleanup, removes dead animals from public rights of way, and provides street cleaning to prevent contaminants from polluting Austin's creeks and waterways.

<u>**Remediation**</u> provides services for closure and post-closure maintenance of the former City landfills, as well as brownfields remediation and redevelopment community wide.

<u>Waste Diversion</u> educates, regulates, and encourages the Austin community to divert materials to their highest and best use, and provides specialized waste diversion and disposal services to ensure that materials are managed in a way that protects the environment and conserves resources.

<u>Operations</u> <u>Support</u> provides technical assistance to ARR employees to improve efficiency and service quality, supporting safety, training, cart/container maintenance, collection contracts, routing, and customer service.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

Capital Programs

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Landfills includes projects for site assessment, remediation, design, and redevelopment of landfill sites.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

AUSTIN TRANSPORTATION

The Austin Transportation Department delivers a safe, reliable, and sustainable multi-modal transportation system that enhances the environment and economic strength of the region for our residents, businesses, and visitors while conducting business in a customer focused and transparent manner.

Operating Programs

<u>Corridor Program Office</u> prioritizes, designs, and constructs corridors that support mobility, livability, and other outcomes as outlined by the Austin City Council for the 2016 Mobility Bond Program.

<u>Emerging Mobility</u> enables multi-modal transportation choices using policy, day-to-day operations and data frameworks for micro-mobility options that are more affordable and accessible than single-occupancy vehicles.

<u>Mobility Systems Management</u> aligns city policies with shared-use mobility transportation services to provide safe alternatives to single-occupancy vehicles. The program defines an overall vision to guide parking management citywide for use by policymakers, city staff, and all interested stakeholders while providing direction for day-to-day parking decisions.

<u>**Traffic Management**</u> utilizes predictive analytics to manage traffic flow, operates and maintains the transportation management center, and designs and implements signal infrastructure to improve connectivity. The program provides multi-modal transportation control devices for the safe and efficient travel of goods and people.

<u>Transportation Development and Permits</u> consolidates the process of land development permitting and assistance into a single location in order to create a more efficient development process for the community.

<u>Transportation Planning and Design</u> plans and designs multi-modal transportation options for the community. The program uses strategic planning and design to maximize the use of existing transportation infrastructure in the most effective and efficient way to provide for the safe and efficient movement of people and goods.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises citywide administrative and information technology support.

<u>Bikeways</u> builds improvements to the City's bicycle and pedestrian network, including separated and/or protected bicycle facilities, bicycle detection and signal equipment, and other on-street bicycle facilities, such as bike lanes.

<u>Bridges, Culverts, and Structures</u> includes the replacement or rehabilitation of existing structures that address any deficiencies within the structures or safety barrier features, and either create new or enhance existing multi-modal connections.

Buildings and Improvements includes improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

Parking improves parking lots, parking meters, and infrastructure immediately adjacent to the parking areas.

<u>Plans and Studies</u> supports work on departmental and Citywide planning initiatives that results in capital assets.

<u>Streets – Capacity</u> designs and implements future projects intended to improve mobility, including partnership with other agencies on major corridors, and may be used for connectivity projects, reconstruction, intersection improvements, signage, striping, streetscape, and pedestrian accessibility.

<u>Streets – Renewal</u> includes street reconstruction, street rehabilitation, streetscape improvements, utility participation projects, and conversions from asphalt to concrete.

<u>Streets – Safety</u> supports traffic flow and safety with a variety of infrastructure improvements, including traffic calming and intersection safety improvements.

<u>**Traffic Signals and Systems**</u> includes computerized signal systems, signal modifications and upgrades, new signals and pedestrian hybrid beacons, warrant studies, and other infrastructure to support traffic signals.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

AUSTIN WATER

Austin Water provides water, wastewater, reclaimed water, conservation, and environmental protection services to over one million residential customers spanning more than 540 square miles of service area. Austin Water is dedicated to delivering safe, reliable, high-quality water and wastewater services that exceed federal and state standards at affordable rates.

Operating Programs

<u>Customer Experience</u> includes customer services, data analytics, public information office, and water meter operations divisions. Each division ensures that customers receive efficient, reliable, prompt service, up-to-date communication, and real-time data while safely delivering the highest quality water in the nation.

Engineering Services provides engineering, project delivery, management, and technical support services for Austin Water's treatment facilities, water distribution, and wastewater collection infrastructure systems.

<u>Operations</u> provides reliable and sustainable operations, maintenance, and regulatory support for drinking water, wastewater, reclaimed water, and biosolids infrastructure.

<u>Other Utility Program Requirements</u> properly accounts for the Utility's department-wide expenditures, such as debt administrative and commission charges, general liability, property insurance, legal services, and bad debt to ensure the appropriate level of financial reporting.

<u>Reclaimed Water Services</u> provides effective planning, engineering, project delivery, management, administrative, regulatory, and technical support services for Austin Water's reclaimed water program.

Environmental, Planning & Development provides responsible and effective resource and infrastructure planning and environmental leadership to support Austin Water's goals of ensuring safe, affordable, sustainable and reliable water and wastewater utility services to the community.

Support Services provides administrative and managerial support to the Utility.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or Utility-wide level.

<u>Buildings and Improvements</u> includes improvements related to an expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

<u>Lift Stations</u> improves or constructs lift stations, which pump wastewater from a low to a high elevation.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

Pump Stations improves or constructs pump stations, which pump water from one place to another.

<u>Reclaimed Water Network</u> develops facilities to reclaim treated wastewater and distributes the reclaimed water for appropriate uses.

<u>Reservoirs</u> improve and construct reservoirs, which are used for water storage.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

<u>Wastewater Pipe Network</u> improves and constructs the pipe network that transports wastewater to and from wastewater treatment facilities.

Wastewater Treatment Plants improves and constructs wastewater treatment facilities.

<u>Water Pipe Network</u> improves and constructs the pipe network that transports water to and from water treatment facilities.

Water Treatment Plants improves and constructs water treatment facilities.

<u>Water/Wastewater/Reclaimed</u> includes temporary accounts that hold appropriations prior to allocation of funds to capital projects.

AVIATION

The Austin-Bergstrom International Airport (AUS) strives to be the airport of choice for Central Texas by continually working to ensure passenger safety and a convenient, friendly travel experience. The Aviation Department aims to connect our community to the world with an Austin-style experience through operational excellence and community value.

Operating Programs

Facilities Management, Operations and Airport Security maintains and operates a clean, safe and secure airport environment for the traveling public, business partners and other patrons of the airport.

<u>Airport Planning & Development</u> plans, designs and constructs facilities for users of the airport to ensure a safe and secure environment. This program also manages the environmental activities aimed at providing a sustainable airport and overseeing air quality, waste diversion, aircraft noise and water quality issues.

<u>Business Services</u> manages concession contracts, leases and parking services for the Department of Aviation in order to maximize the airport's concession revenue.

<u>Support Services</u> provides administrative, managerial and financial support to the Department so that it may operate in an effective and efficient manner.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises of transfers and other departmental requirements at the fund or agency level.

<u>Airport</u> includes improvements and renovations to facilities and equipment at the Austin-Bergstrom International Airport.

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

<u>**Plans and Studies**</u> supports work on departmental and Citywide planning initiatives that results in capital assets.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

BUILDING SERVICES

The Building Services Department provides building planning, management, maintenance, custodial, and security services that support reliable, efficient, and sustainable City facilities.

Operating Programs

<u>Building Services</u> manages building operations and maintenance activities, including Plumbing, Electrical, Heating, Ventilation, Air Conditioning, Custodial Services, and Security for the City of Austin to maintain and improve the City's infrastructure.

Support Services provides administrative, planning, and managerial support to the Department.

<u>Transfers, Debt, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

<u>Buildings and Improvements</u> includes improvements related to an expansion or renovation of existing facilities and all activities related to the construction of new facilities.

<u>Homelessness</u> Capital Improvements includes capital improvements to provide housing options and support for people experiencing homelessness.

COMMUNICATIONS AND PUBLIC INFORMATION

The Communications and Public Information Office facilitates strategic communication and collaboration between City Council, City departments, and community members to enhance transparency, trust, and shared decision making, with the aim of improving resident satisfaction with City communications through continued focus on providing accessible, timely, and accurate information.

Operating Programs

<u>Communications</u> provided timely and meaningful opportunities to know about, engage with, and participate in City of Austin programs and services.

<u>Community Engagement</u> plays a critical role in driving meaningful dialogue with residents and other stakeholders, with a growing emphasis on extending connections with minority and foreign-language populations and those who might have limited access to government.

<u>Media Relations</u> provides media guidance, support, and training across the City and maintains primary responsibility for many of the City's social media channels.

<u>Public Safety Communications</u> informs the community and members of the news media of events that are handled by or involve public safety departments.

<u>Strategic Marketing</u> coordinates with City departments to develop effective marketing and communication campaigns while providing communication project management for Citywide initiatives.

<u>Video Production Services</u> ensures transparency by making the City's public meetings and community events accessible to the public via cable television broadcast and streaming video, and by providing electronic media production services for internal customers and intergovernmental partners.

<u>Web Services and Graphic Design</u> guarantees that information about the City's programs and services are available, accessible, user centric, and easy to find across both traditional and digital platforms.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises citywide administrative and information technology support.

COMMUNICATIONS AND TECHNOLOGY MANAGEMENT

The Communications and Technology Management Department (CTM) provides information technology (IT) services to City of Austin departments and regional partners, including application delivery, web and mobile technologies, data center computing, reliable infrastructure, storage, technical support, project management, and secure, interoperable communication systems.

Operating Programs

<u>Communications and Technology Management</u> provides core IT infrastructure, applications, information security, and enterprise-wide solution and project management services to other City departments so that they can deliver services to residents of the community and the region.

<u>Combined Transportation, Emergency, and Communication Center (CTECC) and Public Safety IT Support</u> supports the operations of shared critical emergency communications and transportation management for City departments and regional partners so that they can improve emergency response coordination and cooperation.

<u>Office of Cybersecurity</u> provided proactive information security management services to City of Austin departments and now resides in the standalone Information Security Office.

<u>Wireless Communication Services</u> provides cost-effective communication infrastructure and maintenance services to City departments and regional partners in support of voice radio communication, mobile data communication, and electronic vehicular equipment.

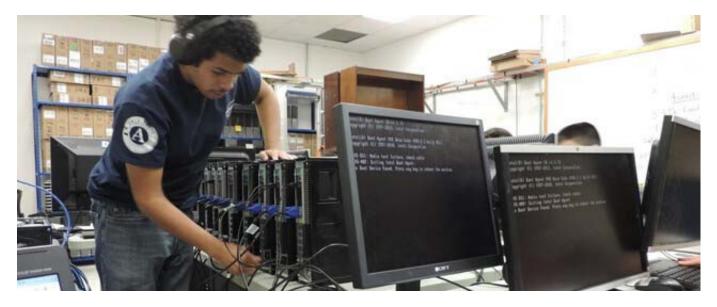

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

DEVELOPMENT SERVICES

The mission of the Development Services Department is to support a vibrant community through responsible development.

Operating Programs

Building Plan Review and Inspections safeguards the public's health, safety, and welfare during the various stages of plan review. This program provides comprehensive review services to citizens and developers to ensure that structures are in compliance with zoning and other development regulations and meet minimum health and safety standards.

<u>Construction and Environmental Inspections</u> ensures that all public infrastructure, such as water, wastewater, drainage facilities, streets, and sidewalks are built according to approved plans, City rules, regulations, and specifications to meet the minimum health and safety requirements. Environmental Inspections performs inspections on permitted sites for temporary and permanent erosion controls, storm water controls, critical environmental features, protection of trees and natural areas and landscape installation in compliance with site plan requirements.

<u>Customer and Employee Experience</u> establishes the framework for strategic planning, performance, and continuous improvement for the Department to maximize operational efficiency and improve customer satisfaction by providing stakeholder and community engagement as well as administrative, managerial, financial, and technological support to the Department. It also provides plan review intake for residential, commercial, expedited and land development reviews along with permitting and licensing assistance.

<u>Land Development Review</u> provides comprehensive review services for citizens and developers to ensure that applications are in compliance with the Land Development Code. It also serves to provide a relationship between Austin residents and their trees by fostering a resilient community forest that complies with local regulations through a mix of outreach, planning, and community partnerships.

<u>Technology</u> <u>Surcharge</u> implements new departmental technology initiatives funded by a development surcharge that is used explicitly for technology projects to improve Department operations.

<u>Transfers and Other Requirements</u> accounts for transfers and other departmental requirements at the fund or agency level.

ECONOMIC DEVELOPMENT

Economic Development influences revenue generation through its programs and investments in order to secure economic mobility for Austin residents and promote a competitive, sustainable, vibrant, and equitable economy for all.

Operating Programs

<u>Cultural Arts and Contracts</u> provide preservation and promotional services to Austin's arts and creative industries to strengthen the role of the arts.

<u>Global Business Expansion</u> implements and facilitates sustainable and equitable growth and opportunity in Austin through programmatic support of the City's economic development policies.

<u>Heritage Tourism</u> provides leadership and management for the City's heritage tourism programs aimed to attract tourists and convention delegates and to derive economic, business, and community benefits associated with honoring and preserving Austin as a place of personal heritage.

<u>Music and Entertainment</u> provides services to develop and execute initiatives that help accelerate the growth of the entertainment industry to encourage job creation, talent export, trade development, and industry revenue growth.

<u>Redevelopment</u> provides project management, implementation, and information services that foster vibrant places of commerce, culture, and residences for Austin's diverse community.

<u>Small Business</u> fosters job creation and supports the growth of new and existing businesses by providing capacity building information, resources and tools.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

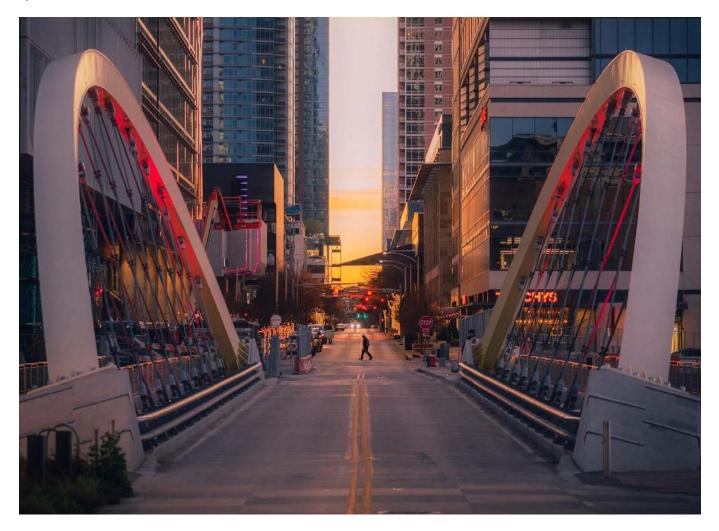

Buildings and Improvements includes improvements related to an expansion or renovation to an already existing facility or facilities and all activities related to the construction of a new facility or facilities.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

<u>Streetscapes</u> improves the Downtown Austin streetscape built according to the adopted Great Streets Standards which include wider sidewalks, street furnishings, shade trees, public art, and new streetlight systems.

EMERGENCY MEDICAL SERVICES

Emergency Medical Services provides emergency ground ambulance response, specialized rescues, standby, and emergency communication services to all individuals within the City of Austin and Travis County. Emergency Medical Services strives to provide excellent patient care to decrease suffering, improve the health of the community, and save lives.

Operating Programs

<u>Billing Services</u> facilitates patient billing and insurance reimbursement and offers payment plans to extend patient care and reduce the cost of EMS operations.

<u>Community Relations and Injury Prevention</u> improves health, prevents injuries, reduces illness through public education, and provides coordination of EMS participation in community events.

Emergency Communications provides for effective and efficient call triage for incoming 9-1-1 requests for EMS assistance, dispatches the appropriate emergency response, provides pre-arrival instructions when necessary, and coordinates interagency response to facilitate rapid access to care.

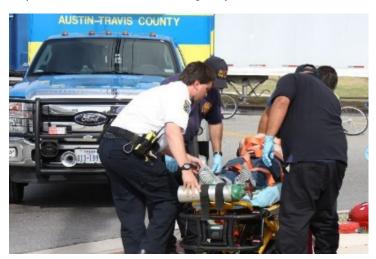

Employee Development and Wellness exists to prevent and reduce the impact from personal injury and exposure to infectious diseases and to provide new employee training, continuing education, and staff development for the EMS Department in order to produce and maintain competent field and communications personnel.

Operations provides emergency ground ambulance response throughout the community, specialized rescues, and standby emergency services. This program also manages the Community Health Paramedic (CHP) and Homeless Outreach Street Team (HOST) activities.

<u>Safety and Performance Improvement</u> oversees the daily clinical performance of the Department, thoroughly and objectively investigates any concern or inquiry about EMS's clinical practice, and works with all areas of the Department to continually improve knowledge, performance, and safety.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

FINANCIAL SERVICES

The mission of the Financial Services Department is to maintain the financial and economic integrity of the City; provide comprehensive and integrated financial management, administration, and support services to City departments and other customers; and develop and lead innovative programs that increase the prosperity of Austinites, businesses, and diverse neighborhoods, creating a cultural and economic environment that enhances the vitality of the community.

Operating Programs

<u>Budget Office</u> provides an annual budget and analysis of financial information to City departments, management and Council so they can make informed decisions.

<u>Capital Contracting Services</u> administers the procurement of professional and construction services and to execute and manage contracts essential for the delivery of efficient capital improvements so that all City of Austin residents can have an improved quality of life.

<u>Controller's Office</u> provides internal controls, financial oversight and guidance, financial information, and payments to City employees and vendors so that departments may manage their business and meet their financial reporting needs.

<u>Office of Performance Management</u> champions strategic planning and alignment, performance measurement and data analytics, and continuous improvement for the City to achieve customer-focused operational excellence.

<u>Office of Real Estate Services</u> provides timely acquisition, leasing, and property management services to City departments and external customers.

<u>Police Finance</u> provides financial support services to the Austin Police Department, which include budget monitoring, grant management, procurement and contract administration, asset management and accounts payable and receivables.

<u>Procurement Office</u> provides procurement related activities and services in a timely and cost-effective manner to City departments so that they have the resources they need to do their jobs.

Support Services provides human resources, finance and budget, strategic planning, business process consulting, data analytic, managerial, and financial information systems support to the Department.

<u>Telecommunications and Regulatory Affairs</u> advocates for the welfare of citizens by ensuring the City receives fair compensation for the private use of public rights-of-way, by bringing access to the internet and computer technology to all members of the community through digital inclusion programs, and by protecting consumers from utility rate increases and unfair predatory lending practices.

Transfers and Other Requirements accounts for transfers and other departmental requirements.

<u>Treasury Office</u> provides cash, debt, and investment services to City departments by overseeing the City's comprehensive cash management program, coordinating debt issuances, ensuring compliance with bond ordinances and disclosure requirements, and managing the investment portfolios in compliance with the Texas Public Funds Investment Act and City of Austin Investment Policy.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

FIRE

The Austin Fire Department serves the residents of Austin through fire prevention, emergency preparedness, and responding to over 87,000 incidents annually. The Department aims to create a safe and resilient community with a continued focus on confining structure fires to the room of origin, effectively preparing residents through outreach efforts, and participating in fire risk mitigation activities.

Operating Programs

Emergency Prevention works to prevent and investigate loss of property and life due to fire by conducting community outreach in fire prevention and wildfire fuel mitigation, ensuring fire code compliance in buildings and venues, providing site plan review and inspection of new construction, and investigating arson cases.

<u>Fire/Emergency Response</u> aims to control and extinguish fires in the shortest amount of time with minimal loss of life or property, as well as provide first-in medical response, rescue services and hazardous materials response.

Operations Support exists to prevent and reduce the occurrence of personal injury through maintenance and testing of rescue tools and to provide new employee training, continuing education, and staff development for the Austin Fire Department in order to produce and maintain competent field and communications personnel.

Support Services provides administrative and managerial support to the Department.

<u>Transfers & Other Requirements</u> accounts for transfers and other departmental requirements at the fund or agency level.

Capital Programs

<u>Buildings</u> and <u>Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

FLEET MOBILITY SERVICES

The Fleet Mobility Services Department provides safe and reliable mobile solutions to ensure the continuity of City services to our citizens. Fleet directs and manages the complete lifecycle process for over 7,100 city vehicles and pieces of equipment with a goal of 95% availability and over 40 fuel and fuel infrastructure sites with a goal of 80% alternative fuel issued. From incorporating advanced automotive and emerging technologies to the adoption of flexible and sustainable multi-modal solutions, our goal is to optimize the fleet and support the City in providing first class services.

Operating Programs

<u>Fleet Service Centers</u> provides preventive maintenance, repair, and other services to the City Fleet so that we maintain the continuity of services to our citizens. This program is comprised of the Fleet Maintenance and Repair and Materials Control activities.

Operational Services provides responsive records and system administration, Fleet facility management, and city-wide fuel support services at a reasonable cost. This program contains the Fuel Management and Facility and System Management activities.

Vehicle Services and Emerging Technologies is responsible for providing responsive and quality vehicle

life cycle management and programs such as auction, rental, and shuttle at reasonable costs while identifying emerging technology and flexible mobility solutions to improve service and become more efficient. This program includes Vehicle Life Cycle Management and Fleet Programs activities.

<u>Support Services</u> provides operational and administrative support to Fleet employees so they have the necessary tools to perform their jobs.

Capital Programs

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

<u>Vehicles and Equipment</u> includes acquisitions of new and replacement vehicles and equipment to support operations.

HOUSING AND PLANNING

The Housing & Planning Department partners with the community to shape a more equitable Austin and to prevent the displacement of people and services, using planning disciplines and affordable housing resources.

Operating Programs

<u>Community Development</u> provides financial and technical assistance to eligible organizations to stabilize people's financial lives and reduce displacement of low- and moderate-income households. Activities include Community Housing Development Organization operating expense grants and other displacement prevention activities.

<u>Current Planning</u> manages the zoning process and interprets the Land Development Code, manages the annexation process, and protects neighborhoods, buildings, and sites that reflect the elements of Austin's cultural, social, economic, political and architectural history.

Housing provides financial assistance and information to low- and moderate-income community members and affordable housing developers so that the City can achieve its affordable housing goals. It includes Homebuyer Assistance, Housing Developer Assistance, Homeowner Assistance, Renter Assistance, and Homeless Assistance activities.

Long Range Planning provides a comprehensive planning program to guide and manage future development. The purpose of the program is to maintain and monitor the status of the Imagine Austin Comprehensive Plan and to develop and implement a variety of plans, including small area plans, corridor plans, and others in order to create complete communities.

<u>Urban Design</u> shapes and enhances public spaces that are functional, sustainable, safe, and attractive, and manages the Land Development Code in-order to implement the City's Comprehensive Plan.

Support Services provides administrative and managerial support to the Department.

Capital Programs

<u>Affordable Housing</u> includes activities related to neighborhood and/or community housing and development, such as rental housing, homeownership, and home repair.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

<u>Plans and Studies</u> supports work on departmental and Citywide planning initiatives that results in capital assets.

<u>Streetscapes</u> improves the Downtown Austin streetscape built according to the adopted Great Streets Standards which include wider sidewalks, street furnishings, shade trees, public art, and new streetlight systems.

HUMAN RESOURCES

The Human Resources Department positions the City of Austin as an employer of choice through balanced, efficient, and collaborative strategic partnerships. The Department oversees executive recruitment, compensation, employee benefits, workers compensation, organizational development, employee relations, and employee safety for the City of Austin. The Department also ensures compliance with state and federal mandates such as Chapter 143 Civil Service and the Americans with Disability Act (ADA). The Department supports and develops a high-performing and diverse workforce that fosters a healthy, safe, respectful, and productive work environment for employees and their families, City departments, and the community.

Operating Programs

<u>Human Resources Management Services</u> maximize organizational and individual potential to be the Human Resources leaders and partners throughout the workplace, the community, and the nation.

<u>Support Services</u> provides operational support to the Department so they have the necessary tools to perform their jobs.

<u>Transfers, Debt Service, and Other Requirements</u> for the Human Resources Department primarily comprise Citywide administrative and information technology support, Liability Reserve, and Accrued Payroll.

MANAGEMENT SERVICES

Management Services guides the organization in connecting people to their government and building civic trust through equitable, responsive, and professional service delivery.

Operating Programs

<u>City Manager's Office</u> oversees daily and ongoing City operations and implementation of City Council policy directives.

Equity Office provides leadership, guidance, and insight on equity to improve the quality of life for Austin communities.

<u>Homeland Security and Emergency Management</u> better prepares our community for special events and coordinates the citywide response to, and recovery from, large-scale emergencies and disasters in order to protect life and property.

Innovation Office helps diverse and inclusive teams examine challenges and opportunities to surface better ideas and solutions that make a lasting, positive impact on City services.

Intergovernmental Relations Office ensures that the City's interests are protected and enhanced through active involvement in the legislative process and strong intergovernmental relationships.

Labor Relations Office negotiates and administers labor contracts for the City with its various public safety employee unions.

<u>Office of Civil Rights</u> enforces City ordinances and federal statues prohibiting discrimination in employment, housing, public accommodations, and fair labor standards ordinances; provides education and outreach to the community; and provides feedback and recommendations to City Management involving initiatives and programs.

<u>Office of the Chief Medical Director</u> provides comprehensive medical oversight, credentialing standards, infection control programs, training and quality assurance coordination, and program development for Austin/Travis County EMS system providers in order to assure the public's health and safety.

<u>Office of Police Oversight</u> reviews complaints about the Police Department and provides recommendations for resolution when applicable.

<u>Sustainability Office</u> provides leadership, technical assistance, engagement, and innovative projects to City departments and the Austin community in order to measure progress towards Austin as a net-zero carbon, food-secure, and resilient community.

Support Services provides administrative and managerial support to the Department.

MAYOR AND COUNCIL

The City of Austin has a council-manager form of government established through the City Charter. The Mayor and Council Department was created in Article II of the Austin City Charter. On November 6, 2012, citizens voted to change when and how the City Council is elected. The approved propositions moved the Council elections from May to November in even numbered years and increased the number of Council members from six, elected at-large, to 10, elected within districts. The Mayor continues to be elected at-large. Finally, the Council terms were lengthened from three years to four.

Operating Programs

Mayor / Council comprises the Mayor's Office and 10 City Council Member Offices.

MAYOR AND COUNCIL

MUNICIPAL COURT

The Municipal Court Department impartially administers justice in a fair and efficient manner so that trust and accountability is exemplified to the public we serve.

Operating Programs

Court Judiciary administers effective and impartial justice of all persons with business before the court.

Downtown Austin Community Court provides creative and individualized sentencing options to offenders so that they are held accountable for their actions, reduce their recidivism rate, restore the debt they owe to the community as a result of their offenses, and to provide supportive services to assist them with modifying their offending behavior.

<u>Municipal Court Operations</u> processes citations for the public in order to facilitate the swift administration of justice.

<u>Municipal Court Special Programs</u> administers the use of the Court Building Security Fund, Court Technology Fund, and the Juvenile Case Manager Fund.

<u>Support Services</u> provides operational support to the Department so they have the necessary tools to perform their jobs.

OFFICE OF REAL ESTATE SERVICES

Beginning in FY 2021-22, Office of Real Estate Services will be incorporated into the Financial Services Department. More information can be found in that Department's pages of this Budget. Prior year actuals, estimates, and budget information follow on the next page.

Operating Programs

<u>Real Estate Services</u> comprised two activities: the Leasing and Property Management activity facilitated strategic leasing and property management services to City departments and the public; and the Real Property Acquisition activity provided comprehensive real estate services to City departments, so they could complete their projects on time and within budget.

Support Services provided administrative and managerial support to the Department.

OFFICE OF THE CITY AUDITOR

The Office of the City Auditor strives to foster transparency, accountability, and continuous improvement in Austin City government by conducting audits and providing investigative services. As a result, independent and objective recommendations are provided to City Council and City management to improve the performance of City services.

Operating Programs

<u>Corporate Risk Services</u> provides independent and objective information, recommendations, and assistance to Council and Management to improve City services and strengthen accountability to the public.

Support Services provides administrative and managerial support to the Department.

OFFICE OF THE CITY CLERK

The Office of the City Clerk (OCC) is responsible for managing the City of Austin elections, providing records and information management to all departments, serving as a liaison to the boards and commissions, managing Council-approved records, updating the Municipal Code and technical manuals, administrating lobbyist registrations, supporting Council meetings, and maintaining the Council Meeting Information Center and the Board and Commission Meeting Information Center including minutes of Council and board and commission meetings.

Operating Programs

<u>Austin Records and Information Management</u> provides comprehensive services that promote the efficient, compliant, and transparent governance and administration of the City's information resources.

<u>Elections</u> provides election services to voters, petitioners, City departments, media, and candidates so they can participate in the election process.

<u>Support Services</u> provides administrative and managerial support to the Office by producing effective and efficient services to support Council meetings; coordinating all aspects of the boards and commissions system; confirming that ordinances, resolutions and minutes accurately reflect Council action; codifying and publishing the ordinances; and providing research services for Council approved records.

<u>Transfers and Other Requirements</u> accounts for transfers and other departmental requirements at the fund or agency level.

PARKS AND RECREATION

Parks and Recreation provides a diverse array of programs and experiences to the public by creating sustainable natural spaces and public places that inspire Austin to learn, play, protect, and connect. Parks and Recreation proudly operates an extensive park system that provides public access to leisure and recreational opportunities for thousands of community members and visitors daily. Creating community is central to Parks and Recreation, and this sentiment is reflected in the Department's vision of being an innovative leader in parks and recreation experiences.

Operating Programs

<u>Community Services</u> offers residents and visitors safe aquatic, athletic, environmental, recreation, and cultural facilities, as well as educational programming for lifelong experiences, all at affordable price structures.

<u>Parks, Planning, Development, and Operations</u> maintains facilities and grounds landscaping for Austin parks, trails, cemeteries, playgrounds, and facilities, along with existing and developing capital improvement projects.

Support Services provides administrative and managerial support to the Department.

Capital Programs

<u>Aquatics</u> builds, improves, and maintains the City's aquatic facilities, such as municipal pools, neighborhood pools, wading pools, and splash pads.

<u>Athletics</u> builds, improves, and maintains the City's athletic facilities to provide youth and adult recreation.

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities. Facility renovations and improvements are organized under two general categories: buildings and recreation facilities.

<u>Cemeteries</u> preserves and enhances historical and cultural cemetery facilities.

<u>Golf</u> improves and maintains public golf courses and associated facilities.

<u>Land Acquisition</u> includes activities related to the purchase or acquisition of land, including land on which to build new facilities. Capital improvements may include park land or open spaces, with an emphasis on decreasing the percentage of Austin classified as parkland deficient.

<u>**Parks</u>** develops and improves metropolitan parks, district parks, neighborhood parks, pocket parks, greenbelts and preserves, and special parks.</u>

<u>**Plans and Studies**</u> supports work on departmental and Citywide planning initiatives that results in capital assets.

<u>**Playscapes**</u> builds, renovates, and replaces playscapes and play equipment in public parks to provide safe, accessible, and high-quality recreational opportunities for children.

<u>**Trails**</u> constructs and rehabilitates non-motorized, multi-use trails and connections to those trails, which provide important accessible routes for transportation and recreation needs.

POLICE

The Austin Police Department serves the residents of Austin through neighborhood-based patrol, investigating crimes, providing traffic control, and answering in excess of 1.15 million emergency and non-emergency calls for service annually. Patrol officers are dispatched to over 350,000 of these calls and work an additional 162,000 self-initiated calls. The Austin Police Department adopted the National Incident Based Report System in 2019, allowing for the opportunity to report crime in a more comprehensive framework. This includes 52 different crime types reported categorically by crimes against persons, property, and society. The Austin Police Department continues to keep Austin one of the safest large cities in the nation with a violent crime rate among the lowest for peer cities.

Operating Programs

Forensic Science Office is an accredited forensic testing laboratory that seeks to provide accurate and impartial scientific analysis and forensic support services that objectively supports the criminal justice system and the citizens of Austin. The Office collects and processes evidence at crime scenes, conducts examinations and analyses of evidence within state-of-the-art laboratory facilities, and reports and testifies to the results in court.

<u>Investigations</u> provides an impartial and complete investigation of cases that require a particularly high level of expertise to Area Commands, victims, suspects, external members of criminal justice agencies, and the public in order to protect victims and the public and deter criminal activity.

Neighborhood-Based Policing provides immediate police service, criminal investigations, and collaborative problem-solving initiatives to the community so the community can feel safe and be safe.

<u>Operations Support</u> provides intake and processing of police calls for service, victim services, fleet services, and strategic support units to APD employees and the public so that police service can be delivered effectively.

<u>Professional Standards</u> provides ethical and professional direction and training to APD employees so that employees perform according to the guiding principles of policing and the community has trust and confidence in the department.

Support Services provides administrative and managerial support to the department.

Capital Programs

<u>Buildings and Improvements</u> includes improvements related to an expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

PUBLIC WORKS

The Public Works Department works for all of Austin by building and maintaining our streets, bridges, sidewalks, and urban trails; delivering City Capital and Neighborhood Partnering Improvement Projects; and providing safe routes to school.

Operating Programs

<u>Asset and Facility Management</u> provides a rational, reliable, innovative and integrated approach to the repair, maintenance, operation, and management of the City's street, bridge, and sidewalk infrastructure systems, and to planning and coordinating capital improvements and maintenance work.

<u>Bridge Maintenance</u> provides safe and efficient use of the City's bridges and structures to all citizens of Austin, ensuring the movement of people, goods, and services throughout the City.

<u>Capital Projects Delivery</u> implements infrastructure projects for City departments so they can deliver programs and services to the public.

<u>Child Safety</u> provides a safe pedestrian and bicycle environment for Austin's students to and from school.

<u>Community Services</u> provides opportunities for community and neighborhood organizations to affect public improvements by sharing in the costs of those efforts with the City of Austin government. This program also is responsible for maintenance and program management of non-motorized, multi-use trails and connections to those trails that provide important accessible routes for transportation and recreation needs.

Neighborhood Partnering Program provides cost-sharing opportunities for community and neighborhood organizations so they may affect public improvements.

<u>Off-Street Right-of-Way Maintenance</u> maintains items within the right-of-way other than pavement and bridges.

<u>Sidewalk Infrastructure Program</u> plans and constructs bicycle, pedestrian, and road projects where appropriate and work with TxDOT, Travis County, and CAMPO on multi-modal facilities.

<u>Street Preventive Maintenance</u> applies preventive maintenance strategies in order to extend the useful life of the street inventory.

<u>Street Repair</u> maintains streets and bridges for the traveling public in order to keep the infrastructure in a safe and drivable condition.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

Capital Programs

<u>Bridges, Culverts and Structures</u> includes the replacement or rehabilitation of existing structures that address any deficiencies within the structures or safety barrier features, and either create new or enhance existing multi-modal connections.

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

<u>Other</u> includes capital improvement projects that do not fit into specific categories and may also include temporary accounts that hold appropriations prior to allocation of funds to capital projects.

<u>Sidewalks</u> includes the construction of new sidewalks and curb ramps, as well as rehabilitation and replacement of existing sidewalks and curb ramps.

<u>Streets – Capacity</u> designs and implements future projects intended to improve mobility, including partnership with other agencies on major corridors, and may be used for connectivity projects, reconstruction, intersection improvements, signage, striping, streetscape, and pedestrian accessibility.

<u>Streets – Renewal</u> includes street reconstruction, street rehabilitation, streetscape improvements, utility participation projects, and conversions from asphalt to concrete.

<u>Streets – Safety</u> supports traffic flow and safety with a variety of infrastructure improvements, including traffic calming and intersection safety improvements.

<u>**Trails**</u> constructs and rehabilitates non-motorized, multi-use trails and connections to those trails, which provide important accessible routes for transportation and recreation needs.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

SMALL AND MINORITY BUSINESS RESOURCES

The Small & Minority Business Resources Department promotes and encourages minority, women, and disadvantaged business owners to participate in and compete for contracting opportunities with the City of Austin. The Department is responsible for administering the Minority-Owned Business Enterprise (MBE), Women-Owned Business Enterprise (WBE), and Disadvantaged Business Enterprise (DBE).

Operating Programs

<u>MBE/WBE and DBE Procurement Programs</u> provides information to the City of Austin necessary to provide development opportunities to small, minority and women-owned businesses participating in City contracting.

Support Services provides administrative and managerial support to the Department.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

WATERSHED PROTECTION

The Watershed Protection Department (WPD) protects the lives, property, and environment of our community by reducing the impact of floods, erosion, and water pollution. WPD helps protect our community by implementing flood risk reduction projects; constructing stream stabilization and restoration projects; enforcing drainage regulations; promoting flood safety and preparedness; and inspecting, maintaining, and repairing existing drainage infrastructure. WPD also protects the environment by constructing pollution removal projects; restoring riparian areas; promoting education and outreach activities; implementing water quality regulations; remediating spills; and permanently protecting open space.

Operating Programs

<u>Capital Projects Delivery</u> facilitates the implementation of the Department's capital improvement program portfolio, including the development of standards and process improvements to increase the effectiveness and efficiency of project delivery.

Data Management provided geospatial and IT services for the Department.

<u>Flood Risk Reduction</u> reduced existing flood hazards to protect lives and property and maintained regulatory code and design criteria for new development.

<u>Infrastructure & Waterway Maintenance</u> maintains the stormwater conveyance system, which includes the city's creeks, channels, storm drainpipes, inlets, and stormwater controls.

<u>Planning, Monitoring, & Compliance</u> oversees information gathering, including monitoring, research, modeling, and technical analysis; the development and implementation of the Department's strategic plan; intergovernmental coordination; and compliance with environmental and drainage regulations, including coordinating revisions to code and criteria, inspecting ponds, investigating contamination, and reviewing development permit applications.

<u>Stream Restoration</u> reduced safety hazards, protected structures and public infrastructure from eroding streambanks, improved stream ecological health, and encouraged the use and enjoyment of Austin's creeks.

<u>Support Services</u> provides administrative services, managerial oversight of the Department's mission, and education and communication to the residents of Austin.

<u>Transfers, Debt Service, and Other Requirements</u> primarily comprises transfers and other departmental requirements at the fund or agency level.

<u>Water Quality Protection</u> protected and improved water quality in Austin's creeks, lakes, and aquifers for our community by preventing, detecting, and reducing water pollution.

Capital Programs

<u>Buildings and Improvements</u> includes improvements related to the expansion or renovation of existing facilities and all activities related to the construction of new facilities.

Drainage improves stormwater conveyance and constructs or repairs related infrastructure.

Erosion Control stabilizes creek banks and prevents damage resulting from creek erosion.

Flood Control reduces flood risk to properties, roadways, and public safety.

Information Technology includes desktop computers, servers, networks, IT security, radio and telephone systems, and software applications.

Land Acquisition includes activities related to the purchase or acquisition of land, including land on which to build new facilities.

<u>Plans and Studies</u> supports work on departmental and Citywide planning initiatives that enhance the ability to move forward with focused project direction that results in capital assets.

Vehicles and Equipment acquires new and replacement vehicles and equipment to support operations.

Water Quality Protection reduces water quality pollution in creeks, lakes, rivers, and aquifers.

City of Austin 2021-2022 Proposed Budget

Funds

FUNDS SUBJECT TO APPROPRIATION

The City of Austin has established a series of funds to track the expenditures of separate activities. A fund is a fiscal and accounting entity that records cash, revenue, expenditures, and balances relating to specific activities. The City of Austin uses funds that are divided into the following categories: General, Enterprise, Internal Service, Special Revenue, Debt Retirement, and Capital Projects. Below is a list of the funds that are budgeted for the upcoming fiscal year. Fund summaries for each fund can be found by clicking on the fund name that acts as a link.

General Fund and General Fund Reserves

- The **General Fund** is the general operating fund for the City of Austin. This fund accounts for revenue and expenditures for general government services. The General Fund is supported by taxes, fees, fines, permits, licenses, charges for services, and interest income. The General Fund also includes transfers from other funds including Austin Water and Austin Energy.
- The **General Fund Budget Stabilization Reserve Fund** was established by financial policy and is funded primarily through the capture of any excess revenue and unspent appropriations at the end of each fiscal year. It is designed to provide financial stability to the General Fund during economic downturns. Up to one-third of the total amount of the reserve may be appropriated to fund capital or other one-time costs each year. The goal of the two General Fund reserve accounts, Budget Stabilization and Emergency, is 14% of General Fund requirements.
- The General Fund Emergency Reserve Fund was established by financial policy to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature. Examples include, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action. The Emergency Reserve Fund shall maintain a balance of 8% of total General Fund requirements. Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. This analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs, and will address the nature of the approved expenditure and the revenue requirement in subsequent fiscal years.
- The General Fund Property Tax Reserve Fund was established to provide for the payment of refunded property taxes resulting from the outcome of District Court cases involving property tax valuation. Property owners who protest their valuations are required to pay property taxes for any given fiscal year based on the value determined by the Appraisal Review Board for the county in which the property is located. Property owners may then dispute this value in District Court. If the litigation is resolved in favor of the property taxes associated with the reduction in value. Each year, financial staff calculate the projected total liability to which the City is exposed as a result of pending District Court cases related to the valuation of properties within the city. The Fund's purpose is to maintain a balance sufficient to offset this projected liability. This fund is being closed in FY 2021-22.

Enterprise Funds and Enterprise Reserves

Enterprise funds account for the acquisition, operations, and maintenance of the City's facilities and services that are entirely or predominantly supported by user charges. They may also be funds for which the City has decided that the revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. All activities necessary to provide services are accounted for in these funds including, but not limited to, administration, operations, and maintenance. The two largest enterprise funds are the Austin Energy and Austin Water Operating Funds. Enterprise funds are divided into two categories: Enterprise Operating and Enterprise Reserves.

Enterprise Operating

- The **Airport Operating Fund** is the operating and maintenance fund for the Austin-Bergstrom International Airport. Revenue sources include airline fees and non-airline revenue such as parking and concession fees.
- The **Austin Code Fund** accounts for expenditures of the City's code compliance efforts, including property abatement, zoning, and dangerous housing and buildings code compliance. Revenue sources include the Clean Community Fee and license and registration fees.
- The Austin Energy Fund is the operating fund for the electric Utility. The primary source of revenue is the sale of electricity to customers. Revenue supports operations and maintenance of the electrical distribution system.
- The Austin Resource Recovery Fund accounts for activities of the Austin Resource Recovery department, including garbage, recycling, and hazardous waste collection and zero waste initiatives.
- The Austin Water Community Benefit Charge Fund was created to account for community benefit volumetric surcharge revenue that is used to fund Austin Water's Customer Assistance Program. The Customer Assistance Program provides assistance, including discounted utility service rates, to qualifying low-income and disadvantaged residential customers in the Austin Water service territory.
- The Austin Water Operating Funds account for the operating requirements for the water, reclaimed water, and wastewater systems of Austin Water, which are supported primarily by water, reclaimed water, and wastewater sales.
- The **Convention Center Operating Fund** is one of the operating funds for the Austin Convention Center and accounts for convention center activities. Primary sources of funding are the Hotel Occupancy Tax, contractor and facility revenue, and parking fees.
- The **Convention Center Tax Fund** is part of the operating budget for the Austin Convention Center Department. The primary source of revenue is the collection of 4.5 cents of the 11.0 cents of Hotel Occupancy Tax collected by the City of Austin.
- The **Convention Center Venue Project Fund** is part of the operating budget for the Austin Convention Center Department. The primary source of revenue is the collection of the 2.0 cents of the 11.0 cents of Hotel Occupancy Tax collected by the City of Austin.
- The **Development Services Fund** accounts for activities of the Development Services Department, which includes facilitating development review and inspection services. The primary sources of revenue are building safety and development fees.

- The **Drainage Utility Fund** accounts for drainage and watershed protection activities and is the operating fund for the Watershed Protection Department. Revenue is primarily comprised of the monthly Drainage Utility Fee.
- The **Golf Fund** accounts for golf activities as part of the Parks and Recreation Department. The City of Austin owns six golf courses that provide affordable golf for Austin's citizens and visitors through green fees, athletic sales, and cart fees.
- The **Golf Surcharge Fund** was established to account for the collection of surcharges for rounds of golf played at Jimmy Clay, Roy Kizer, Morris Williams, Lions, and Hancock golf courses. Proceeds are used for capital improvements and infrastructure repairs at these City golf courses.
- The **Mobility Fund** accounts for transportation planning, right-of-way management, and traffic management activities and is one of two operating funds for the Austin Transportation Department. The main revenue sources for the Fund are the residential and commercial Transportation User Fees and Right-of-Way fees.
- The **Palmer Events Center Garage Fund** is part of the operating budget for the Austin Convention Center Department. Its primary source of funding is parking fees.
- The **Palmer Events Center Operating Fund** is one of the Austin Convention Center's operating funds and account for public events activities. Primary source of funding is the short-term motor Vehicle Rental Tax.
- The **Palmer Events Center Revenue Fund** is part of the operating budget for the Austin Convention Center Department. Primary sources of funding are Palmer Events Center facility revenue and contractor revenue generated from catering and concession services.
- The **Parking Management Fund** accounts for parking and transportation permitting activities and is one of two operating funds for the Austin Transportation Department. The Fund realizes all its revenue from pay stations, parking meters, and transportation permitting from taxicabs, chauffeurs, and limousines. Revenue realized by the Fund is reinvested back into the parking system and into various system improvements in the downtown area.
- The **Transportation Fund** accounts for the development, design, construction, and maintenance of the City's transportation infrastructure and is one of three operating funds for the Public Works Department. The Fund derives its revenue from the Transportation User Fee (TUF), utility excavation repair charges, and miscellaneous other revenue sources.

Enterprise Reserves

- The Airport Capital Fund was established in September 1989 by an ordinance authorizing the issuance of \$30 million of Airport System Prior Lien Revenue Bonds for new airport development. As specified in the ordinance, the Airport Operating Fund is required to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, to the Airport Capital Fund on an annual basis. These funds may be used only for lawful purposes related to the airport system, including expenditures associated with the Airport Capital Improvements Program.
- The Austin Energy Capital Reserve Fund is used for providing extensions, additions, replacements, and improvements to the electric system. Per financial policy, the fund shall maintain a minimum cash equivalent of 50% of the previous fiscal year's electric Utility depreciation expense. Revenue is generated through transfers from the Austin Energy Operating Fund and Contingency Reserve Fund.
- The Austin Energy Contingency Reserve Fund is used for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned

plant outages, insurance deductibles, or costs created by federal or state legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the target funding level within two fiscal years.

- The Austin Energy Power Supply Stabilization Reserve Fund is used for mitigating power supply cost volatility, which causes frequent variation in the Power Supply Adjustment. The fund shall maintain a cash equivalent of 90 days of net power supply costs, defined as costs eligible for inclusion in the Power Supply Adjustment. Funding comes from the Utility's net revenues after meeting other obligations and consistent with the flow of funds schedule.
- The Austin Water Revenue Stability Reserve Fund was created for the purpose of offsetting currentyear water service revenue shortfalls below budgeted revenue levels. The target funding level for the Water Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water, which includes operations and maintenance and other operating transfers. In the event that any portion of the Water Reserve Fund is used, the balance will be replenished to the target level within five years.
- The Convention Center Capital Fund was created to transfer the excess of available funds over total requirements, less a reserve for future operating expenses, from the operating funds of the Convention Center on an annual basis. These funds may be used only for lawful purposes, as laid out in Hotel Occupancy Tax statutes, related to the Convention Center, including expenditures associated with the Convention Center Capital Improvement Program.
- The **Convention Center Marketing and Promotion Fund** was created to fund expenditures related to the promotion of catering and concession products and services. An agreement exists between the City of Austin and an independent contractor to provide food and beverage catering and concession services for the Austin Convention Center Department. Two-and-one-half percent of the food and beverage contractor's revenue is budgeted in the Fund.
- The **Convention Center Repair and Replacement Fund** was created to fund the acquisition, maintenance and repair of catering and concession equipment and furnishings. Four percent of the food and beverage contractor's revenue is budgeted in this fund.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department to other City departments and other agencies on a cost-reimbursement basis.

- The **Capital Projects Management Fund** accounts for the project delivery costs of project management, design engineering, construction inspection, and quality management for the City of Austin's Capital Improvement Program and is one of three operating funds for the Public Works Department. It is funded through a combination of project charges and a cost allocation plan.
- The **Combined Transportation, Emergency, and Communication Center (CTECC) Fund** accounts for the operation of shared emergency communications and transportation management for the region and serves as one of three operating funds for the Communications and Technology Management Department. Fund revenue primarily comprises interlocal agreements and allocations to City departments of costs associated with the Emergency Operations Center, the use of Computer Aided Dispatch, and other Public Safety information technology systems.

- The **Employee Benefits Fund** was established to finance the City's benefits program, which includes a self-funded medical and dental program, a retiree medical and dental program, a supplemental life insurance program, and many other benefits to employees and retirees.
- The **Fleet Services Fund** includes vehicle and equipment services and serves as the operating fund for the Fleet Services Department. Revenue is primarily derived from a departmental allocation that is based on the fuel and fleet maintenance usage by each department.
- The **Information and Technology Fund** supports the City's information technology (IT) efforts and serves as one of three operating funds for the Communications and Technology Management Department, while also funding the Information Security Office. Fund revenue primarily relies on a cost allocation model related to delivery and operations of vital IT infrastructure network and telecommunications services.
- The Liability Reserve Fund was established in 1985 in response to nationwide problems associated with obtaining liability insurance. The Liability Reserve Fund pays the City's settled claims and losses related to third-party liability for bodily injury and property damage, including contractual and professional liability. Transfers from each fund are based on the three-year rolling average of the department's lawsuit claims history plus an amount based on the number of employees in each department. Austin Energy, Austin Water, and Aviation do not contribute to the fund, opting instead to cover claims independently.
- The **Support Services Fund** includes the operating activities of the various support services departments that provide assistance to the City of Austin and its citizens. These services include providing objective analysis of the adequacy of the City's management systems, maintaining the financial integrity of the entire City government, providing a liaison between the City and other governmental entities and legislative bodies, managing the City's human resources, and overseeing the implementation of all programs and services. The Support Services Fund receives revenue from the General Fund and enterprise funds based on an annually updated cost allocation plan.
- The Wireless Communication Services Fund provides services to users of the Regional Radio System within Austin/Travis County, Williamson County, and other jurisdictions and serves as one of three operating funds for the Communications and Technology Management Department. Fund revenue primarily relies on a departmental cost allocation model that is based on the radio network transfer and wireless maintenance usage of each department.
- The **Workers' Compensation Fund** provides payments mandated by State law for City employees' medical expenses associated with job-related injuries and illnesses. The fund also compensates eligible individuals with indemnity payments as required by the State of Texas.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

• The Airport Subordinate Obligation Fund restores deficiencies in the Austin-Bergstrom Landhost Enterprises, Inc. (ABLE) Debt Service Reserve Fund (DSRF) pursuant to the Series 2017 Hotel Grant Agreement. In accordance with the terms of the Series 2017 Hotel Grant Agreement and the Revenue Bond Ordinances, the City's obligation to fund certain reserve fund deficiencies relating to the Series 2017 Hotel Bonds from "Surplus Airport System Revenues" constitutes a Subordinate Obligation. This fund was created in accordance with Section 5.05, Flow of Funds of the Airport Bond Ordinance (Series 2019A), after the City received a DSRF Deficiency Notice due to the significant impact of COVID-19 and the Department of Aviation made a Grant Funding Determination that "Surplus Airport System Revenues" were sufficient to fund the deficiency.

- The **APD Decouple Fund** was created by City Council for the FY 2020-21 budget as part of the Reimagining Public Safety initiative aimed at addressing institutional policing concerns. This fund is no longer active for the FY 2021-22 budget.
- The APD Re-imagine Safety Fund was created by City Council for the FY 2020-21 budget as part of the Reimagining Public Safety initiative aimed at addressing institutional policing concerns. This fund is no longer active for the FY 2021-22 budget.
- The Austin Cable Access Fund is a special revenue fund used to support public, educational, and governmental (PEG) channel capital expenditures. The funding is provided by AT&T, Grande Communications, Spectrum (formerly known as Time Warner Cable), and Google Fiber as required by the Texas Cable Franchising Statute.
- The Austin Water Wildland Conservation Fund contributes to the management of the Balcones Canyonlands Preserve (BCP), which preserves over 13,000 acres of City-owned property. The BCP provides management and administration for a regional preserve system for endangered species and also allows these areas to act as a sponge and filter by absorbing rainfall; filtering it through plant communities, layers of soil, and roots; and releasing it into watershed areas. The Wildland Conservation Fund is funded by payments of permit fees that provide a voluntary, streamlined alternative for agencies and landowners seeking to comply with the Endangered Species Act. The fees are based on a schedule established by the Balcones Canyonlands Conservations Plan Coordinating Committee, City Council, Travis County Commissioners Court, and U.S. Fish and Wildlife Service.
- The **Barton Springs Conservation Fund** was established as a requirement by the U.S. Fish and Wildlife Service for the City to obtain an Endangered Species Incidental Take permit necessary to operate the Barton Springs Pool. The Fund promotes conservation and research that benefit the federally endangered Barton Springs Salamander, Barton Springs, and the Barton Springs watershed. Requirements may fund the study of Eurycea salamander biology, captive breeding and refugium populations, watershed dynamics, potential maintenance techniques for Barton Springs Pool, development of educational tools, and land acquisition.
- The **Child Safety Fund** receives revenue from vehicle registrations and from traffic violations that occur in school zones. It is used to provide crossing guards and school-zone safety improvements and fund related safety education activities for school-aged children. It is one of three operating funds for the Public Works Department.
- The **City Hall Fund** accounts for the revenue and operating expenses related to Austin City Hall's underground parking garage, retail leases, and facility needs. In addition to offices for the Mayor, Council Members, and City staff, City Hall houses retail and restaurant spaces and a multilevel underground parking garage.
- The **Community Development Incentives Fund** was established by the City Council during adoption proceedings for the FY 2015-16 Budget. The Fund provides short-term funding to certain new initiatives that the City Council identifies as promising. Providing this short-term funding allows the effectiveness of these initiatives to be evaluated under real-world operational conditions and facilitates the City Council's ability to make more informed decisions about whether the initiatives should be granted recurring funding in the future. This fund is being closed in FY 2021-22.

- The **Cultural Arts Fund** provides funding for cultural contracts through a predetermined peer panel process, review and recommendation by the Arts Commission, and allocation approval by City Council. The primary source of revenue is the collection of the 1.05 cents of the 9.0 cents of Hotel Occupancy Tax collected by the City of Austin. The Texas Tax Code allows Hotel Occupancy Tax revenue to be used to encourage, promote, and improve the arts, including expenditures for administrative costs incurred directly in the promotion and servicing of the arts.
- The Downtown Public Improvement District Fund was established on April 15, 1993 for the purpose
 of operating the Austin Downtown Public Improvement District (PID), funded by an additional tax
 assessment for properties in the District. The PID is a means for the Downtown Austin community to provide
 adequate and constant funds for quality of life improvements and planning and marketing of Downtown
 Austin.
- The **East 6th Street Public Improvement District Fund** was established on August 26, 2004 for the purpose of operating the East 6th Street Public Improvement District (PID). The East 6th Street PID was created by the Austin City Council at the request of property owners within the District to provide additional services that supplement existing services provided by the City of Austin. Properties in the District are assessed an additional property tax assessment, up to a maximum value of \$500,000, to pay for the District's programs.
- The **Economic Development Fund** provides funding for the Economic Development Department so that it can leverage Austin's cultural, economic, and business assets to create economic prosperity for all residents while preserving our culture and environment. The primary revenue sources are transfers from the General Fund, Austin Energy, Austin Water, and Austin Resource Recovery.
- The **Economic Incentives Reserve Fund** provides incentive grants and other economic incentive agreements established on the grounds that they provide higher levels of employment, economic activity, and stability. Funding comes from a transfer from the General Fund. The City is currently servicing agreements with Samsung, Apple, Visa, HID Global, Hanger, and the Domain.
- The Estancia Hill Country Public Improvement District Fund provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Estancia Hill Country Public Improvement District (PID). The Estancia Hill Country PID is a nearly 600-acre development project located in southern Travis County west of IH 35 South, about eight-tenths of a mile south of the intersection of IH-35 South and Onion Creek Parkway.
- The **Historic Preservation Fund** was established to promote tourism through preservation, restoration, and rehabilitation of historic properties. The Historic Preservation Fund receives 1.05 cents of the 9.0 cents of Hotel Occupancy Tax collected by the City of Austin, which is used to promote arts, culture, and heritage-based tourism and events. In addition, the Fund receives 15% of an additional 2 cents from the Hotel Occupancy Tax collected by the City of Austin for the Austin Convention Center expansion.
- The Homestead Preservation Tax Increment Financing Fund was established in December 2015 to account for property tax revenue that is collected in the City of Austin Homestead Preservation Reinvestment Zone No. 1, generally located north of the Colorado River, east of Interstate 35, west of Airport Boulevard and Springdale Road, and south of 38 ½ Street. The purpose of the fund is to promote the ability of the City to increase home ownership, provide affordable housing, prevent the involuntary loss of homesteads by existing low-income and moderate-income homeowners living in disadvantaged neighborhoods, and provide the City with a means to expand and protect the homestead interests of low-income and moderate-income families living within the Reinvestment Zone.
- The Hotel Occupancy Tax Fund accounts for the receipt and distribution of hotel occupancy tax revenue. The City receives eleven cents on each dollar of qualified room occupancy rents. Per City Code, the tax

is distributed as follows: 4.50 cents to the Convention Center Tax Fund, 2.00 cents to the Convention Center expansion project, 2.00 cents to the Convention Center Venue Project, 1.05 cents to the Cultural Arts Funds, 1.05 cents to the Historic Preservation Fund, and 0.40 cents to the Tourism and Promotion Fund.

- The **Housing and Planning Technology Fund** accounts for a portion of the revenue generated by the Development Services Surcharge that is used by the Housing and Planning Department for departmental technology upgrades.
- The **Housing Trust Fund** is dedicated to preserving and creating reasonably priced housing in the city of Austin by leveraging federal funds to plan and develop affordable housing projects. The Fund is managed by the Austin Housing Finance Corporation (AHFC), a part of the Housing and Planning Department. Revenue is generated through a transfer from the City's General Fund.
- The HUD Section 108 Family Business Loan Program Fund creates jobs and revitalizes communities by providing low-interest loans to qualified Austin small business owners that are ready to expand and create jobs for low- and moderate-income citizens. FBLP is a public-private partnership between the City, private banks, and community lenders. Each partner finances a portion of an expansion project, with the City's portion provided by a U.S. Department of Housing and Urban Development (HUD) Section 108 loan guarantee. In March 2020, the City Council passed Ordinance 20200326-089, which allowed for modifications to the program guidelines and EDD provided \$645,000 in Economic Injury Disaster loans to small businesses impacted by COVID-19. The Economic Injury Disaster loans are made in accordance with HUD Section 108 and Small Business Administration guidelines. This program ended in FY 2019-20.
- The I-35 Parking Program Fund accounts for revenue, operations, and maintenance requirements for two parking lots located under the I-35 overpass between East 6th and 8th Streets. The City collects parking fees from these lots on certain evenings and during special events. Under the terms of its agreement with the state, the City must spend any and all revenue collected from these lots specifically on operating and maintaining these lots.
- The **Iconic Venue Fund** supports venue and other local tourist destinations lost or displaced due to Austin's changing economy and real estate boom, which has resulted in the loss of some of Austin's most significant cultural incubators and tourist destinations. In April 2021, the City Council passed Ordinance 20210408-005 transferring in and appropriating \$2.4 million from the Austin Convention Center Capital Fund to stabilize Austin's tourist economy and address the loss of iconic venues and businesses that promote tourism at the hotel and convention industry.
- The Indian Hills Public Improvement District Fund provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Indian Hills Public Improvement District (PID). The Indian Hills PID is a mixed-use planned community of about 240 acres located west of SH 130 and south of US-290 East in east central Travis County.
- The Library Facilities Maintenance and Improvements Fund was established for on-going maintenance and operations of all facilities of the Austin Public Library. The fund accounts for revenue generated by the Central Library.
- The Live Music Fund was established on September 19, 2019 to support the live music economy in Austin. The Live Music Fund receives 15% of an additional 2 cents from the Hotel Occupancy Tax collected by the City of Austin for the Austin Convention Center expansion. The Economic Development Department is currently developing program guidelines using community feedback and input from the Live Music Fund Working Group and the Systemic Racism Working Group, which are both comprised of Music Commissioners and representatives of Austin's music industry.

- The Long Center Capital Improvements Fund was established to preserve and protect the City's longterm investment in the Long Center facility. Recognizing that short-term maintenance and long-term repairs, replacements, and improvements to the Long Center facility are essential to its present and future condition, the City Council approved an amendment to the Restated Lease Agreement with Greater Austin Performing Arts Center on February 27, 2014, that provides an additional \$300,000 annually through a transfer from the General Fund for capital improvements.
- The **Mueller Tax Incrementing Financing Fund** was established to account for property tax revenue collected in Mueller Tax Increment Financing (TIF) Reinvestment Zone No. 16, which was created by the City Council in December 2004. This revenue is transferred to the Mueller Local Government Corporation to be used for debt service and associated costs for bonds issued to finance the redevelopment of the former site of Robert Mueller Municipal Airport. The redevelopment project includes single- and multi-family housing as well as commercial, retail, and medical buildings. This TIF Reinvestment Zone is set to end on December 31, 2045, or whenever all debt is retired.
- The **Municipal Court Building Security Fund** provides funding for courthouse security personnel, security enhancements, and training. Revenue is primarily derived from a \$4.90 share of the Local Consolidated Fee that is collected on all non-jailable misdemeanor offenses, including criminal violation of a municipal ordinance, that occur after January 1, 2020. The Fund is supplemented by the General Fund as needed to provide adequate security.
- The **Municipal Court Juvenile Case Manager Fund** was established to provide for the administration of juvenile dockets and to assist with the provision of alternative sentencing for youth. The case manager program is designed to hold youth offenders accountable for their actions and enhance public safety. Revenue is primarily derived from a \$5.00 share of the Local Consolidated Fee that is collected on all non-jailable misdemeanor offenses, including criminal violation of a municipal ordinance, that occur after January 1, 2020. Funds retained by the City are used to operate the juvenile case manager program.
- The Municipal Court Local Consolidated Court Fund was established to account for the Local Consolidated Fee to be used for costs associated with courthouse security, truancy prevention, technological enhancements at the court, and juror reimbursements. Revenue is derived from a \$14 fee that is collected on all non-jailable misdemeanor offenses, including criminal violation of a municipal ordinance, that occur after January 1, 2020. Per Section 134.103 of the Local Government Code, the fee is allocated as follows: \$4.90 to Municipal Court Building Security, \$5.00 to Local Truancy Prevention and Diversion, \$4.00 to Municipal Court Technology, and \$0.10 to Municipal Jury.
- The **Municipal Court Technology Fund** was created to finance the purchase and maintenance of technological enhancements for municipal courts. Revenue is primarily derived from a \$4.00 share of the Local Consolidated Fee that is collected on all non-jailable misdemeanor offenses, including criminal violation of a municipal ordinance, that occur after January 1, 2020.
- The **Music Venue Assistance Program Fund** provides low-interest loans to qualifying music venues to assist with implementing sound mitigation technologies and reduce the number of sound-related complaints. The goal of the program is to use sound mitigation technologies to reduce sound levels that impact nearby residents, significantly improving the acoustics inside music venues and reducing the number of sound-related complaints. Per Council resolution, the General Fund will transfer \$100,000 annually into the fund until a funding level of \$750,000 has been reached. In FY 2019-20, the final transfer of \$50,000 occurred and the remaining fund balance will be transferred to the Economic lncentives Reserve Fund. This fund is being closed in FY 2021-22.
- The **Neighborhood Housing University Neighborhood Overlay Fund** is managed by the Austin Housing Finance Corporation (AHFC), a part of the Housing and Planning Department. The UNO District was established by Council on September 2, 2004 to increase the amount of rental housing available to

households at or below 50% of the median family income in the area generally west of the University of Texas campus. Revenue is generated from a fee-in-lieu from developers who choose not to participate in the UNO district density bonus program.

- The **One Texas Center Fund** accounts for revenue, operating expenses, and debt service requirements for One Texas Center, a City-owned office tower located on Barton Springs Road. The Fund receives rental income from the building's tenants.
- The Parks and Recreation Parking and Gate Entry Fund accounts for revenue collected through parking
 meters and gate entries at Parks and Recreation sites. This Fund reimburses the Austin Transportation
 Department for expenses associated with maintaining and servicing the parking meters, provides for the
 purchase of new parking meters, and transfers out funding for capital improvements to the areas where
 the revenue is collected.
- The **Pay for Success Reserve Fund** was established by the City Council during adoption proceedings for the FY 2017-18 Budget to provide a reserve that supports services and program costs for a Pay for Success initiative. Pay for Success is a financing model that pays for positive social impact, which is measured through agreed-upon metrics between the entity paying for the achievement of the outcome and the organizations responsible for implementing a given intervention. Through this model, the City plans to provide additional supportive housing that can create positive outcomes for a particular target population, such as persons who are experiencing homelessness and are consistent utilizers of crisis systems of care.
- The **Permitting and Development Center Fund** accounts for a portion of the debt service requirements for the Permitting and Development Center, a City-owned office building where City development functions collocate and manage by Building Services Department. This Fund receives income from the Development Services Department, which is transferred to the General Obligation Debt Service Fund. (Previously known as the Planning and Development Center Fund).
- The **Police Asset Forfeiture Funds** account for the collection of contraband awarded to the agency by the courts. Funds may only be used to increase law enforcement resources. Both state and federal laws dictate that once awarded, forfeited funds may be used to increase the local budget and not to supplant existing law enforcement resources; nor may the existence of an award be used to offset or decrease total salaries, expenses, or allowances that are appropriated to an agency.
- The **Project Connect Fund** was established for the collection of property tax revenue dedicated to Austin Transit Partnership, a regional transportation entity formed as a partnership between the City of Austin and Capital Metro. Revenue for this fund is generated from a dedicated portion of the City's property tax rate and disbursements to Austin Transit Partnership are made in accordance with the terms of the City's inter-local agreement with Capital Metro.
- The **Project Connect Office Fund** accounts for the revenue received from Austin Transit Partnership to support the operating expenses related to the City's Project Connect Office.
- The **Rainey Street Historic District Fund** was established by ordinance No. 20191114-050 to enhance placemaking, promote cultural vibrancy, and celebrate the Mexican American identity, heritage, and history of the Rainey Street Historic District in a manner that engages a citywide audience.
- The **Rutherford Lane Facility Fund** accounts for revenue, operating expenses, and debt service requirements for the Rutherford Lane Facility, a City-owned site including four buildings on 33 acres of land located on Rutherford Lane. Rent received from City departments housed at the Facility covers the operating and debt service costs.

- The **Seaholm Parking Garage Revenue Fund** was established to account for the City's share of the parking revenue related to the Seaholm parking garage, part of the Seaholm Projects. This revenue pays for debt service and associated costs for bonds issued to finance public improvements associated with the garage. The Seaholm Projects include the repurposed historic generator building and property into a multi-use space, including a mix of office space, condos, retail shops and restaurants, green space, and the parking garage.
- The **Seaholm Tax Increment Financing Fund** was established to account for property and sales tax revenue collected in Seaholm Tax Increment Financing (TIF) Reinvestment Zone No. 18, which was created by the City Council in December 2008. This revenue funds the debt service and associated costs for bonds issued to finance public improvements associated with redevelopment of the former Seaholm Power Plant. The TIF Project Plan includes repurposing the historic generator building, construction of a public plaza, and the addition of bike, pedestrian, street, and utility infrastructure. This TIF Reinvestment Zone is scheduled to end September 30, 2043 or when all project costs including debt repayments have been paid.
- The Second Street Tax Increment Financing Fund was established in October 2000 to account for a portion of property tax revenue that is collected in a contiguous geographic area that includes Blocks 2, 3, 4, and 21 of the Original City Subdivision and which is generally bounded by San Antonio Street, West Cesar Chavez Street, Colorado Street, and West Third Street. The purpose of the fund is to maintain the plazas, streetscapes, and other public improvements constructed and installed by the City within the Reinvestment Zone. Under the terms of TIF Reinvestment Zone No. 15, the General Fund will contribute \$100,000 annually to the Fund until it is scheduled to end in 2029.
- The **South Congress Public Improvement District Fund** was established for the purpose of operating the South Congress Public Improvement District (PID). In 2014, property owners on South Congress Avenue petitioned the City Council to establish the South Congress PID and incorporated as a nonprofit 501(c)(6) organization as the South Congress Improvement Association (SCIA) to contract with the City to manage the PID. The SCIA is funded by the South Congress PID, where properties within the District are assessed additional property tax.
- The **Tourism and Promotion Fund** receives 0.40 cents of the 11.0 cent Hotel Occupancy Tax, per City Code, to promote conventions and tourism for Austin through a contract with the Austin Convention and Visitors Bureau. Hotel Occupancy Tax is governed by state statutes, bond covenants, and local ordinances and must be utilized accordingly.
- The Town Lake Park Vehicle Rental Tax Fund accounts for the levy of a short-term motor vehicle rental tax.
- The **Urban Forest Replenishment Fund** was established to assist with satisfying specific mitigation requirements in instances where tree removal has been approved, but on-site mitigation requirements have not been met. Revenue is generated from fees paid by developers for these mitigation services. Expenditures from the fund are limited to off-site tree planting, tree maintenance, promotion of tree care and preservation, urban forest conservation, and enforcement of the City of Austin's tree protection and mitigation regulations.
- The **Waller Creek Reserve Fund** was established to provide reserve funding for the Waller Creek Tunnel project, the purpose of which is to provide flood mitigation for the lower Waller Creek watershed, and for related surface-level improvements known as Waller Creek and the Chain of Parks. Funding comes from property tax via the Waller Creek Tunnel Tax Increment Financing Fund, a Build America Bond interest subsidy, and a payment from Austin Convention Enterprise, Inc. for revenue earned by the Hilton Austin Convention Center Hotel. Expenditures include principal and interest payments, bond issuance costs, and tunnel operations and maintenance during the term of the tax increment financing fund.

- The Waller Creek Tax Increment Financing Fund was established to account for property tax revenue collected in Waller Creek Tax Increment Financing (TIF) Reinvestment Zone No. 17, which was created by the Austin City Council in June 2007. The City and County tax increments, 100% and 50%, respectively, provide funds to pay the costs of the project over 20 years. The funds are transferred into the Waller Creek Reserve Fund for principal and interest payments and associated costs for bonds issued to develop the Waller Creek Tunnel, as well as for tunnel operations and maintenance during the term of the TIF. In May 2018, City Council approved amendments to the TIF's project and financing plan to include surface-level improvements known as Waller Creek and the Chain of Parks, increase the duration of the TIF to end in September 2041, and provide updated cost estimates for new projects and revenue growth.
- The Whisper Valley Public Improvement District Fund provides a financing mechanism, through the issuance and sale of special assessment revenue bonds, for basic infrastructure to support the Whisper Valley Public Improvement District (PID). The Whisper Valley PID is a mixed-use planned community of about 2,065 acres located east of SH 130, at FM 973, and south of US-290 East in east central Travis County.

Debt Retirement

Debt retirement funds are used to account for the accumulation of resources for, and the payment of, general long-term debt.

- The Airport Bond Interest Holding Fund holds a portion of revenue bond proceeds, called capitalized interest, to offset a portion of upcoming debt service payments on capital projects until those projects are completed and revenue-generating. The fund receives proceeds from the Airport System Revenue Bond sale and will make monthly transfers to the Airport Revenue Bond Redemption Fund until the funds are exhausted.
- The Airport Revenue Bond Redemption Fund pays the principal and interest payments on debt issued for the City's Airport System. The ordinance authorizing the bonds requires that revenue of the Airport System, after operation and maintenance expenses, be pledged to repay the debt before revenue is used for any other purpose. The Fund receives transfers from the Airport Fund, the Passenger Facility Charge Fund, and the Airport Bond Interest Holding Fund.
- The Austin Energy Utility Revenue Bond ECC Proceeds Reserve Fund was created per City Council Resolution 20080214-054 to provide funding to help pay the principal and interest used to finance the purchase and remodel of the current Austin Energy System Control Center, necessitated by the selling of the Austin Energy Control Center in the amount of \$14.4 million. This sale was a component of the Seaholm District redevelopment project.
- The **Combined Utility Revenue Bond Redemption Fund** is used to make the principal and interest payments for debt issued for the City's electric, water, and wastewater utilities. The ordinance authorizing these bonds requires that net revenue, after meeting operations and maintenance requirements, be pledged to repay the debt before it is used for any other purpose. The utilities transfer the funds needed to make annual debt service payments to the Combined Utility Revenue Bond Redemption Fund.
- The **Convention Center Hotel Occupancy Tax Revenue Bond Redemption Fund** pays the principal and interest payments on bonds issued for the City's Convention Center. The Hotel Occupancy Tax Revenue Bonds are special obligations of the City and are payable and secured by the Pledged Hotel Occupancy Tax Revenue. The Fund receives transfers from the Convention Center Tax Fund and the Venue Tax Fund.

- The Convention Center Town Lake Park Venue Project Bond Redemption Fund pays the principal and interest payments on bonds issued for the construction and development of the Town Lake Park Community Events Center Project, which includes parkland development and the construction of facilities. The Town Lake Park Venue Project Bonds are a special obligation of the City and are payable and secured by a 5% tax on short-term motor vehicle rentals. The Fund receives a transfer from the Town Lake Park Venue Project Fund.
- The **General Obligation Debt Service Fund** pays the principal and interest associated with general obligation (GO) bonds that the City sells to finance capital improvements projects. The full faith and credit of the City is pledged to secure GO debt. The main source of revenue for the GO Debt Service Fund is property taxes paid by property owners. The amount of debt issued by the City, the City's assessed property valuation, interest rates, and the tax collection rate determine the tax rate necessary to raise the required amount of revenue.
- The HUD Section 108 Loan Debt Service Fund pays the principal and interest payments on debt related to the East 11th and 12th Street Redevelopment Program, the Neighborhood Commercial Management Program, and the Family Business Loan Program. The sources of revenue to the HUD Section 108 Loan Debt Service Fund are Community Development Block Grant funding and loan repayments from the Section 108 Family Business Loan Program.

Capital Projects Funds

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds and trust funds. Below are the groups of funds that include additional budget for the upcoming fiscal year related to the capital improvement program:

- 2020 Funds authorized November 3, 2020, for transportation infrastructure including sidewalks, transportation-related bikeways, urban trails, transportation safety projects (Vision Zero), safe routes to school, and substandard streets.
- **2018** Funds authorized November 6, 2018, for affordable housing; libraries, museums and cultural centers; parks and recreation; flood mitigation, open space, and water quality protection; health and human services; public safety; and transportation infrastructure.
- **2016** Funds authorized November 8, 2016, for local, corridor, and regional transportation and mobility improvements.
- Other Funds established for various purposes that use funding sources other than authorized bonds.

GRANTS

Overview

The City of Austin's operating budget, staffing and services provided to the community are significantly supplemented each year by funds granted to the City by federal, state and county governments, other local entities, and private organizations. In FY 2021-22, the City expects to be awarded \$129.4 million in grants. These funds support 277 full-time equivalent positions (FTEs) and provide an array of services, such as health services including tuberculosis outreach and control; special nutritional services for women, infants, and children; refugee health services; and public safety services, including juvenile justice, delinquency prevention, and services to assist victims of violent crimes.

Grants also provide additional resources to the City for alternative energy programs, community development activities that benefit low- and moderate-income families, programs to assist the airport with legally mandated passenger screenings,

and cultural contracts. Because of the broad and substantial impact on the City that grant funds have, departments will continue to be actively engaged in identifying new grant opportunities in FY 2021-22 and dedicate the resources necessary to manage existing grants.

New Grants

In FY 2021-22, the City expects to receive \$77.4 million in funding from the following new grants:

Austin Resource Recovery

Brownfields Community-Wide Assessment (CWA) Coalition: The purpose of this grant is to assist with
redevelopment and revitalization projects, environmental site assessments identifying potential
contamination that needs to be addressed, limiting potential environmental liability issues, and assisting
with cleanup planning. This funding will primarily focus on developments that provide a benefit to the
community such as nonprofit services, parks, affordable housing, or addressing environmental
contamination in Austin

Economic Development

 ATX+EGYPT III and ATX+SINGAPORE Grants: The goal of these programs is to generate economic returns for the Austin film sector, create cultural opportunities for Austinites, and to promote Austin internationally by deploying an entrepreneurial exchange program focused on further developing the film sector in Austin, Egypt, and Singapore.

Housing and Planning

• Austin Transit Partnership Grant: This grant award provides funding for transit-supportive antidisplacement housing strategies that will be guided by the Austin Strategic Housing Blueprint, the Federal Transit Administration, and the needs of the communities for housing along the Project Connect System Plan.

HOME Rescue Act: The goal of this program is to assist individuals or households who are homeless, at
risk of homelessness, and other vulnerable populations, by providing housing, rental assistance, supportive
services, and non-congregate shelter, to reduce homelessness and increase housing stability across the
country.

Homeland Security and Emergency Management Grants

Homeland security and emergency management grants need this notice due to Federal and the State of Texas Office of the Governor's requirements:

The Director of Homeland Security and Emergency Management, the City Manager, the Mayor, or his designee, is hereby authorized to execute any and all necessary documents to effectuate homeland security and emergency management grant awards, to include accepting, rejecting, altering, or terminating the grant on behalf of the City of Austin.

Whereas, the Austin City Council finds it in the best interest of the citizens of Austin that the following projects be funded for the 2021-2022 Fiscal Year; and

Whereas, the Austin City Council agrees to provide applicable matching funds for the following projects as required, with the understanding that the following projects require \$0 in matching funds for 2021-2022; and

Whereas, the Austin City Council agrees that in the event of loss or misuse of the Office of the Governor funds, the lost or misused funds will be returned to the Office of the Governor in full.

Now therefore, be it resolved that the Austin City Council approves submission of the grant application for the following projects to the Office of the Governor, Homeland Security Grants Division (HSGD):

Homeland Security Projects

ARIC/Regional Fusion Center
AFD 1 - Analytical Equipment/Sustainment
AFD 2 - UAS
AFD 3 - Suit Communications
AFD 4 - Radiological Survey Backpacks
AFD 5 - Mobile Tactical Operations Center (MTOC)
AFD 6 - Structural Collapse
APD - EOD 1 - Novo Digital Imaging
APD - EOD 2 - ICOR Mini-caliber Robot
APD - EOD 3 - Frag Bags
APD - SWAT 1 - ROOK
APD - SWAT 2 - Camero Xaver 100
APD - SWAT 3 - Rappel and Rescue Team Equipment
APD - SWAT 4 - Camero Xaver 400
APD - SWAT 5 - Command-Communications Vehicle 1 (CV1)
EMS 1 - RMC1 Tech Refresh
EMS 2 - Ballistic Shields
EMS 3 - Stop the Bleed
ISO 1 - Threat Monitoring for Municipal lot Services

Grants Summary and Detail Page

The following pages summarize each grant award by department for the FY 2021-22 Budget. The "2021-22 Proposed Authorization" column consists of existing multi-year grants and new grants departments have a high expectation of receiving in FY 2021-22. The list includes the grant name, the total amount to be authorized, and the number of positions associated with each grant.

UNBUDGETED SPECIAL REVENUE FUNDS

Overview

According to Statement No. 54 of the Governmental Accounting Standards Board, "Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects." City financial policies allow for unbudgeted funds whose revenue source is primarily donations or contributions from the public. The City has identified 13 funds that qualify as unbudgeted special revenue funds and the intention of this section of the Budget is to highlight these funds and specify how they are used throughout the City. The source of revenue for the majority of these funds are donations or contributions from the public and these funds are limited to very specific uses.

The City had \$13.0 million in unbudgeted special revenue funds available at the beginning of FY 2020-21. Throughout this year, City departments are expected to collect a total of \$13.4 million and expend \$16.6 million on fund-specific items and initiatives. The City therefore expects to have a total ending balance across all unbudgeted special revenue funds of \$9.8 million, which will be available for use in FY 2021-22. The following sections include details about the various unbudgeted special revenue funds throughout the City.

Stand-alone Funds

- The Volunteer Utility Assistance Fund receives a transfer from the Austin Energy Fund as well as taxdeductible donations made by City of Austin utility customers to the Customer Assistance Program. Each month, some customers need help paying their utility bills. The Customer Assistance Program is designed to assist those City of Austin utility customers who are unable to pay their utility bills due to unexpected emergencies. The City of Austin has partnered with local churches and non-profits to help identify assistance recipients.
- The **Mueller Development Fund** is a special revenue fund established to account for the Project Administrative Fee payable to the City in accordance with the Mueller Master Development Agreement with Catellus Corporation. This fee will be used by the City to cover the costs of overseeing the project. In addition, the agreement provides that other costs, such as legal costs, may be reimbursed by Catellus.
- The Auto Theft Interdiction Seizure Fund collects program income generated as a result of utilizing Automobile Burglary and Theft Prevention Authority (ABTPA) grant-funded equipment or personnel. ABTPA is an annual grant funded through the Texas Department of Motor Vehicles. Program income

refers to money generated through the program by utilizing ABTPA-funded equipment or personnel. Some examples of this revenue include proceeds from forfeited assets that are sold, interest income on funds in the account, and proceeds from the sale of grant-funded equipment. This revenue can only be used for specific ABTPA program initiatives related to the source of the revenue and must be reported on quarterly financial expenditure reports.

• The Austin Regional Intelligence Center (ARIC) is an all-crimes information analysis center that uses a collaborative approach to identify, prevent, disrupt, and respond to criminal threats to the safety and security of the Austin-Round Rock metropolitan area. The **ARIC Sustainability Fund** accounts for funding provided by participating local area law enforcement partnering agencies which is used for hardware and software maintenance and also for various services and memberships to access data that will help the center detect suspicious and/or terroristic activity.

Departmental Funds

- The **Animal Services Fund** is used to assist current Animal Services programs in fulfilling their missions. It provides animal enrichment items such as training equipment, medical treatments, emergency response, and fencing assistance and pet supplies for low-income pet owners.
- Austin Energy has two Special Revenue Funds, the Science Fest Fund and the Public School Energy
 Assistance Fund. The Science Fest Fund is used by Austin Energy and the Austin Science Education
 Foundation to fund the Austin Energy Regional Science Fest. The primary sources of revenue for this fund
 are generated through sponsorship awards as well as staff and facility support. The Public School
 Energy Assistance Fund helps reduce electric utility bills of Independent School Districts served by Austin
 Energy, making more funds available for educating Austin's youth. The primary source of revenue for this
 fund is generated through donations from Austin Energy customers that can be designated when a
 customer pays their bill.
- Austin Public Library's Special Revenue Funds include the **Special Library**, **Austin History Center**, and **Friends of APL Funds**. These funds are used for materials and equipment for children's programming, supporting the Austin History Center, and for dispersing the revenue generated from the Recycled Reads bookstore for various Library needs. The primary revenue source for these funds are generated through donations, estate gifts, and sales from the Recycled Reads bookstore.
- The **Planting for the Future Fund** was founded by the Austin City Council in 1991 and is used to fund tree planting, materials, and education by Development Services. Contributions to the Planting for the Future Fund include voluntary utility bill contributions, public tree mitigation fees, and donations.
- The **Fire Miscellaneous Fund** is used primarily for public education purposes, including providing smoke alarms and pet air masks, fire safety education, and building wildlife habitats at the Fire Department Headquarters. The primary source of revenue for this fund is donations from the public.
- The **PARD Donations Fund** is used for materials and equipment for programming and events administered by the Parks and Recreation Department. The primary sources of revenue for this fund are donations from patrons and partnerships with non-profits and other organizations.

Unbudgeted Special Revenue Funds Summary Page

The following pages summarize each unbudgeted revenue fund by department. The "2020-21 Beginning Balance" column shows the available cash in the fund as of the beginning of FY 2020-21. The "2020-21 Collections Estimate" column displays the amount expected to be collected through donations, gifts, and other sources during the fiscal year, while the "2020-21 Expenditures Estimate" column displays the amount expected to be spent from the fund over the same time period. The "2020-21Ending Balance Estimate" shows the expected balance of the fund at the end of FY 2020-21 after all collections and expenditures. This amount also represents the estimated beginning balance for these funds for FY 2021-22.

City of Austin 2021-2022 Proposed Budget

5-Year CIP Spend Plan

5-YEAR CAPITAL IMPROVEMENT PROGRAM (CIP) PLAN

The City of Austin regularly undertakes projects to improve public facilities and infrastructure assets for the benefit of its citizens. Projects include the construction of City facilities such as recreation centers and libraries as well as the reconstruction of streets, replacement of water/wastewater lines, and provision of power for City of Austin residents. Collectively, these projects are referred to as the City of Austin Capital Improvement Program (CIP) and are an investment into the future of Austin.

How to Read the CIP Plan

The document focuses on category-specific CIP information by department. The financial information in the tables includes open and active or anticipated projects with known funding sources that have planned spending within the five-year planning horizon.

The spending plan reflects estimated cash flow for capital projects and strongly corresponds to the project schedule.

- The spending plans included in this CIP Plan document are estimates for planning purposes, and as with any projection, the confidence level for estimates decreases in the later years of the five-year planning horizon. These project spending plans are updated to develop new appropriations in the Capital Budget.
- The spending is listed by subproject, a standalone capital activity. Some projects may have scope of work that is ongoing such as sidewalks, whereas some subprojects are standalone, named projects such as a new facility. A subproject can fall under multiple categories and/or departments and is represented by an identification number.
- The category describes the common characteristics of the project and is determined by departments who fund the project.

Please note that Austin Energy does not have any projects listed. Austin Energy's funding strategy is tied to energy industry regulations and market dynamics; therefore, much of this information is considered proprietary.

FINANCIAL POLICIES

Overview

The Government Finance Officers Association considers the adoption of financial policies to be a best practice in that they "are central to a strategic, long-term approach to financial management." Specifically, well written policies can institutionalize good financial management practices, help the organization avoid unnecessary risk, support favorable bond ratings which in turn reduce the cost of borrowing, and clearly communicate the policy framework within which staff is working.

In June 1989, the City Council approved its first set of financial policies, ensuring that the City's financial resources would be managed in a prudent manner. Today, the City has more than 110 policies and historically has maintained a compliance rate of 95% or greater. These policies are reviewed annually for compliance. The FY 2021-22 Budget is not in compliance with the following Austin Energy financial policies:

- The Capital Reserve shall be created and established for providing extensions, additions, replacements and improvements to the Electric System. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.
- The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two fiscal years.

Note: Austin Energy is not in compliance with its Contingency and Capital Reserve balances which are currently below the minimums established individually, but Austin Energy's total cash position is maintained well above the minimum of \$457 million in total.

The General Topics financial policy change for FY2021-22 pertains to the Letters of Credit section. This change adds language stipulating the nature in which letters of credit supporting an Energy Market Agreement should be governed and by whom.

Additionally, there are four Austin Water financial policies that will be amended in FY 2021-22. These changes include updates to the debt service coverage, equity contribution ratio, operating cash reserves, and the submission of projects located in the Drinking Water Protection Zone.

Lastly, the Airport financial policies regarding cash reserves are proposed to be modified in FY 2021-22. These adjustments will require the Airport to maintain a minimum amount of cash based on budgeted operations and maintenance costs.

General Topics

Accounting, Auditing, Budget Basis, and Financial Planning

1. Governmental funds, which include the General Fund, are budgeted on a modified accrual basis. Revenue is recognized as soon as it is measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. Encumbrances are recognized by governmental funds in the year of commitment since they represent a commitment of funding for goods or services.

Proprietary funds, which include enterprise, internal service, and fiduciary funds, are budgeted on a full accrual basis, with the exception of compensated absences, debt service payments, and other accounting related transactions, such as depreciation, unbilled revenue, and accounting for regulated operations. For these items, the City budgets for the payments that are expected to be paid during the fiscal year and for the revenues once billed. Encumbrances are recognized by enterprise and internal service funds in the year of commitment since they represent a commitment of funding for goods or services.

Except for the differences noted above in debt service payments and compensated absences, the bases of accounting and budgeting in the City of Austin are the same: modified accrual for governmental funds and full accrual for proprietary funds. However, the fund structure of the budget differs from the Comprehensive Annual Financial Report of the City. As an example, the Austin Energy fund in the budget reflects only the operating activities of the electric utility, while the Austin Energy fund in the Comprehensive Annual Financial Report reflects the operating activities, capital project activities, debt service activities and reserve account activities. Therefore, these amounts are not comparable between the two documents.

- 2. The City will establish accounting practices that conform to generally accepted accounting principles as set forth by the authoritative standard-setting body for units of local government.
- 3. An annual audit will be performed by an independent certified public accounting firm and an official Comprehensive Annual Financial Report shall be issued no later than six months following fiscal year-end.
- 4. The independent certified public accounting firm shall present to the Audit and Finance Committee of the City Council the results of the annual audit no later than 60 days from the issuance of the City's Comprehensive Annual Financial Report.
- 5. A five-year financial forecast shall be prepared annually projecting revenues and expenditures for all major operating funds. This forecast shall be used as a planning tool in developing the following year's operating budget.
- 6. The Office of the City Auditor shall be responsible for conducting financial and performance audits as set forth in the annual work plan. This work plan will be submitted to the Audit and Finance Committee for approval. The City Manager shall be responsible for establishing a process to ensure timely resolution of audit recommendations.
- 7. The City shall provide its share of contributions to the City's three retirement systems in accordance with the State statutes establishing each system.

- 8. At the direction of the City Council and City Manager, City operations will be performed at the most economical cost while maintaining desired service levels. As one alternative to meet this goal, the City will initiate a competitive process that will allow for periodic analysis of proposals from City departments and from the private sector for purposes of evaluating the cost of performing selected municipal services. All such proposals will be evaluated through an orderly process that will include verification and appropriate classification of all costs.
- 9. Investments shall be made in conformance with the City's investment policy, with the primary objectives of:
 - Preservation of capital and protection of principal;
 - Maintenance of sufficient liquidity to meet operating needs;
 - Security of City funds and investments;
 - Diversification of investments to avoid unreasonable or avoidable risks;
 - and Maximization of return on the portfolio.
- 10. All grants and other Federal and State funds shall be managed to comply with the laws, regulations, and guidance of the grantor, and all gifts and donations shall be managed and expended according to the wishes and instructions of the donor.
- 11. The City shall establish and maintain a Capital Rehabilitation Fund to support major rehabilitation and betterment of non-enterprise department facilities. The City shall target a budgeted annual transfer into the Capital Rehabilitation Fund equal to 25% of the annual depreciation expense for building and improvements related to governmental activities as reported in the prior year Comprehensive Annual Financial Report in Footnote 5 Capital Assets and Infrastructure.

Uses of this fund may include non-bond funded projects including facility rehabilitation and betterment related to:

- Safety and security;
- Significant large maintenance projects that extend the asset's useful life;
- Energy efficiency improvements;
- Renovations to improve space utilization;
- Temporary closure of facilities due to unforeseen conditions;
- Technology innovations; or
- Other projects that result in the betterment of the asset.

This fund will not be available for expenditures of a general or routine maintenance nature.

- 12. Maintenance and replacement funding will be prioritized each year to ensure that capital facilities and equipment are sufficiently maintained to avoid service disruptions.
- 13. The City shall require adequate financial controls to be included in the City's standard contract terms so as to provide assurance of minimum risk of and access to review compliance. Among these controls are the right to audit all provisions of contracts, the right to require appropriate levels of insurance, the right to review any financial/escrow accounts, bank letters of credit or other credit instruments, and the right to require complete financial reports if appropriate for the solicitation.

Reserves

14. The City shall maintain a Liability Reserve Fund with a balance sufficient to fund 75% of anticipated claims expense and resulting liabilities, other than those for health benefits and workers' compensation.

The Fund will be used to pay and account for such claims expense and liability, which will be identified in accordance with guidelines established by the Governmental Accounting Standards Board. Contributions from each operating fund shall be made in accordance with the fund's pro-rata share of claims expense, determined in accordance with the above mentioned guidelines.

Payments in excess of departmental spending authority must be approved by the City Council. Payments for accrued claims will be paid from the Fund's reserve balance, which will have been appropriated by the City Council. Payments for unaccrued claims will be made against the Fund's current year appropriations. Payments in excess of current year appropriations for any unaccrued claims must be appropriated by the City Council at the time the payment is approved.

- 15. The Workers' Compensation Fund shall maintain a budgeted claims reserve equal to 25% of budgeted claims and settlement expenses.
- 16. An individual-specific stop-loss policy shall be maintained for the City Health Plan. In addition, the Employee Benefits Fund will maintain a cash balance sufficient to cover anticipated end-of-year claims incurred but not paid and other current liabilities plus a reserve equal to 10% of the cost of employee and retiree medical benefits.

Debt Refinancing

17. An advance refunding of outstanding debt shall only be considered when present value savings of at least 4.25% of the principal amount of the refunded bonds are produced, unless (1) a debt restructuring is necessary or (2) bond covenant revisions are necessary to facilitate the ability to provide services or to issue additional debt. The same requirements will normally apply to municipal utility district tax and revenue refunding bond issues approved by the City of Austin. Savings from general obligation and district bond refundings will be distributed to lessen the impact of debt service requirements in future years.

Refundings will be done in accordance with City debt management practices, including the interest rate exchange policy approved through Resolution 20050623-014.

City's Investment Pool

- 18. Funds having negative balances in the centralized cash pool will not be charged interest.
- 19. Operating and capital funds incurring a sustained negative cash balance exceeding \$1 million over the course of one year, for which City management has not identified a repayment plan, will be brought to Council for direction on implementing a repayment plan.
- 20. Funds on a repayment plan will be expected to repay their debt to the pool through revenue and/or assistance from other funds.

Unbudgeted Funds

- 21. The following types of funds will not be included in the City's annual budget:
 - a. Funds whose revenue source is primarily donations or contributions from the public. Examples:
 - Animal Services Donation Fund accounts for donations and expenditures for Animal Center operations and animal services programs.

- b. Funds used to account for escrow or performance deposits. Examples:
 - Fiscal Surety Land Development Fund escrow funds received from contractors for improvements for environmental, health, safety controls, and public infrastructure.
- c. Funds controlled by another legal entity. Examples:
 - Waller Creek Local Government Corporation Fund accounts for the administrative costs related to the Waller Creek Local Government Corporation.
- d. Funds used to account for the repayment of certain loans. Examples:
 - Housing Loan Fund accounts for affordable housing loan activities.

Any fund not included in the annual budget will have a stated purpose and will be assigned to a responsible department that will ensure that accounts in the fund are used in accordance with the fund's stated purpose.

Letters of Credit

22. A City department may accept letters of credit for less than \$10,000 from any bank or savings and loan if the total Citywide exposure for that institution is less than \$250,000.

A City department may accept any letter of credit that is 110% collateralized by an acceptable investment instrument registered in the City's name. The Treasurer's Office must receive safekeeping receipts for all collateral before the letter of credit is accepted. If the value of the collateral falls below 105% of the letter of credit value, the Treasurer's Office will make a margin call.

Letters of credit that are not collateralized, and are \$10,000 or more, which are issued by an institution whose total Citywide exposure is \$250,000 or more, may be accepted only if the issuer meets the following criteria:

<u>Banks</u>

- Equity capital of at least \$5 million;
- Capital Evaluation Rating of Well Capitalized according to Federal Deposit Insurance Corporation capitalization thresholds for depository institutions;
- Veribanc rating of "Green"; and
- Total letters of credit held by the City at each bank totaling no more than 50% of the bank's equity capital.

Credit Unions

- Equity capital of at least \$5 million;
- Core capital as a percent of total assets of at least 7%;
- Veribanc rating of "Green"; and,
- Total letters of credit held by the City at each credit union totaling no more than 50% of the credit union's equity capital.

Foreign banks do not report financial data to the Federal Deposit Insurance Corporation, which prevents financial analysis. Therefore, foreign banks are not acceptable institutions to issue letters of credit to the City of Austin, unless approved by the City Treasurer.

The City of Austin will draw on any letter of credit if a bank or credit union no longer meets the criteria. The City will not accept new letters of credit issued by institutions that do not meet these criteria.

Each department will provide the Treasurer's Office with a quarterly report listing dollar values, by institution, of that department's letter of credit. The Treasurer's Office will prepare a quarterly report indicating total City-wide exposure at each financial institution.

Letters of credit that support an Energy Market Agreement (Power Purchase Agreement, ISDA, EEI, or NAESB) with Austin Energy are governed by Austin Energy's Letter of Credit Policies for Energy Market Agreements, as enacted and overseen by Austin Energy's Risk Oversight Committee.

General Fund Financial Policies

- Current revenue, which does not include the General Fund beginning balance, will be sufficient to support current expenditures (defined as "structural balance"). Unreserved fund balances in excess of required shall normally be used to fund capital items in the operating and capital budget. However, if projected revenue in future years is not sufficient to support projected requirements, an unreserved ending balance may be budgeted to achieve structural balance.
- 2. Fiscal notes provided to Council shall include initial costs of a program/project and the operations costs for a minimum of five years. Unbudgeted items would require identification of savings necessary to fund needs. Fiscal notes for reimbursement resolutions shall require the fiscal impact to debt service both in real dollars and tax rate for a minimum of five years.
- 3. To improve financial planning and control, budget amendments should be infrequent and limited to cases where:
 - a. Funding is required to address extraordinary circumstances resulting from a natural disaster, a public health emergency, or other similar critical need that could not have been reasonably anticipated when the budget was adopted;
 - b. There is verifiable evidence of significant costs or risks associated with delaying funding until the next budget cycle; or
 - c. Errors or omissions in the Council-approved budget require correction.

Prior to City Council consideration of any budget amendment, the Budget Office will review all department and fund budgets to first determine if the new funding requirements can be met within existing appropriation limits or other appropriate revenue sources. Reserves should only be used when no other funding sources can be identified. Budget amendments resulting in recurring expenses should generally not be funded with one-time sources or revenue.

- 4. A tax abatement ordinance and policy will be established, as necessary, according to State law and in accordance with Council guidelines and criteria for economic development. There is currently no tax abatement ordinance in effect.
- 5. Debt will not be used to fund current expenditures.
- 6. Each year, the City Manager's budget shall reflect an ad valorem tax rate that helps sustain existing core service levels. The year-to-year increase of actual revenue from the levy of the ad valorem tax shall generally not exceed the voter approval rate as defined in State law.
- 7. As part of the annual budget process, the City Council shall adopt by resolution a maximum approved ad valorem tax rate that the Council may consider for the upcoming fiscal year consistent with State law.

The resolution will establish the date(s) the Council will adopt and levy the ad valorem tax rate. The actual tax rate adopted by the City Council after its budget deliberations may be lower than the approved rate, but it will not be higher.

- 8. Property values shall be appraised, at a minimum, every two years.
- 9. The City shall encourage the Tax Assessor-Collector to follow an aggressive policy of collecting property tax revenues. An average collection rate of at least 98% of current levy shall be maintained
- 10. Charges for services and other revenues shall be examined at a minimum of once every five years and adjusted as deemed necessary to respond to changes in cost of service.

Reserves

11. A General Fund Emergency Reserve Fund of 8% of total fund requirements shall be budgeted annually. The Emergency Reserve Fund shall be used to provide for temporary financing for unanticipated or unforeseen extraordinary needs of an emergency nature; for example, costs related to a natural disaster or calamity or an unexpected liability created by Federal or State legislative action.

Funds shall be allocated from the Emergency Reserve Fund only after an analysis has been prepared by the City Manager and presented to City Council. The analysis shall provide sufficient evidence to establish that the remaining balance is adequate to offset potential downturns in revenue sources and provide a sufficient cash balance for daily financial needs. The analysis shall address the nature of the approved expenditure and the revenue requirement in subsequent budget years. Prior to allocating funds from the Emergency Reserve Fund, the City Council shall find that an emergency or extraordinary need exists to justify the use of these funds.

Funds shall be allocated each year in the budget process to replace any use of the Emergency Reserve Fund during the preceding fiscal year to maintain the balance of the Emergency Reserve Fund at the level set above.

12. A General Fund Reserve for Budget Stabilization shall be maintained to provide financial stability for the General Fund during economic downturns through the capture at each fiscal year end of any excess revenue and unspent appropriations. If this reserve exceeds 6% of total fund requirements, then it may also be used to fund capital items or other one-time costs each year. No more than one-third of the total amount of this reserve may be appropriated in any fiscal year.

Tax Increment Financing (TIF)

- 1. TIFs may be established only when it is determined that:
 - a. Revenues derived from the TIF, when combined with other available source(s) of funds, will be sufficient to recover the public cost of debt with adequate safety margin;
 - b. Improvements in the TIF will provide a special benefit to the City; and
 - c. The project/finance plan includes participation by the private sector and/or other taxing entities.
- 2. The aggregate of all TIF zones will not exceed 10% of the City's total tax base.
- 3. Prior to the creation of a TIF zone, the City will conduct a rigorous "but-for" analysis demonstrating that development or redevelopment within the zone would not occur solely through private investment in the reasonably foreseeable future and that improvements in the zone will significantly enhance the value of

all taxable real property in the zone above that which could reasonably be expected to occur without the investment of public funds.

- 4. Any housing development that is part of a TIF project plan must provide for at least 20% of the units to be affordable to households earning at or below 60% of median family income for rental housing and 80% of the median family income for ownership housing for at least the duration of the TIF project plan.
- 5. Bonds issued to fund TIF development are subject to the following criteria:
 - a. Coverage Tests The project should provide for estimated annual proforma revenues that will achieve adequate coverage for the related debt service, as determined by City staff and the City's Financial Advisor.
 - b. Additional Bonds Test The project should include an additional bonds test parallel to the coverage test.
 - c. Reserve Fund The project should include a debt service reserve fund equal to the maximum annual debt service requirements.
 - d. TIF bonds should be limited to those projects which can demonstrate the ability to support the debt either through its own revenues or another pledge source other than ad valorem taxes. TIF bond authorizations should remain in effect for no more than five years from the date of City Council approval.
 - e. All approved TIF debt issuances must mature on or before the termination date of the respective TIF district, and, further, all bonds must also conform to the district's Financial Plan by maturing on or before the Plan's projected date by which all district expenses would be paid, including repayment of bonds.
- 6. All TIF proposals, even "pay-as-you-go" projects, will be evaluated for service impact. A five-year fiscal note must accompany any request to establish a TIF, including repayment of any interfund borrowing.
- 7. The total amount combined PID and TIF debt outstanding should not exceed 20% of the City's total outstanding general obligation indebtedness.
- 8. All TIF projects must be carefully evaluated for credit worthiness, potential risk, and must meet the criteria above whether or not a credit rating is obtained. The City is under no obligation to issue any TIF bonds even if the above criteria has been met.
- 9. The City should use TIF bonds only after other options have been considered.

General Debt Management Policies

- The City shall use several methods of debt issuance, including selling bonds competitively, by negotiated sale, or through private placement. The City may issue bonds by negotiated sale when appropriate, based on prevailing market conditions, size or structure of the planned issuance, or other factors. The City shall use the competitive sale method when issuing general obligation bonds, unless a negotiated sale or private placement would be more advantageous.
- 2. The City shall use competitive procurement methods to select professional firms used in the bond issuance process.
- 3. The City's financial advisor must be a firm that is independent of banking, underwriting, or other interests to assure `that the selected financial advisor can effectively represent the City in negotiations with bankers, underwriters, and other service providers needed for the issuance of debt.

General Obligation Debt Financial Policies

- 1. A fund balance for the General Obligation Debt Service Fund of at least 10% of total general obligation debt service requirements shall be maintained to ensure the City's ability to meet debt service payments in spite of tax revenue shortfalls or fluctuations in interest rates.
- 2. The term of long-term debt generally shall not exceed the expected useful life of the capital asset being financed and in no case shall it exceed 20 years.
- 3. The ratio of net debt (total outstanding tax supported general obligation debt less G.O. Debt Service Fund balance) to Total Assessed Valuation shall not exceed 2%. This excludes debt of overlapping jurisdictions. The City shall structure its bond issuance to achieve and maintain a debt-to-assessed-value of 2% or less.
- 4. The ratio of Debt Service to Total Expenditures (operating expenditures and debt service combined) shall not exceed approximately 20%.
- 5. Bond sales shall be structured to achieve level debt service payments.
- 6. Interest earnings from bond proceeds for general government projects (excluding projects for enterprise funds) shall be deposited in and retained by the debt service fund (preferred practice) unless otherwise required by bond ordinance or used to fund future CIP projects.
- 7. Timing of general obligation bond elections shall be determined by the inventory of current authorized unissued bonds remaining to be sold. An estimated two years of authorized unissued bonds shall remain before an election will be held.
- 8. The total dollar amount of bond election propositions recommended to the voters shall not exceed the City's estimated ability to issue said bonds within a normal six-year period.
- 9. The use of reimbursement resolutions shall be encouraged as a cash management tool for general obligation debt funded projects. Reimbursement resolutions may be used for any project which is on the bond sale schedule or is revenue supported.
- 10. It is the City's priority to fund capital expenditures with cash or voter-approved debt. However, nonvoter-approved debt may be used for capital expenditures as an alternative to lease/purchase or other financing options if the capital expenditure is:
 - Urgent;
 - Unanticipated;
 - Necessary to prevent an economic loss to the City;
 - Expected to results in an economic gain to the City within a reasonable time; or
 - Most effectively financed through non-voter approved debt.
- 11. The average maturity of non-voter approved debt shall not exceed the average life of the capital items financed.
- 12. Capital items financed with non-voter approved debt shall have a value of at least \$10,000 and a life of at least four years.

Austin Energy Financial Policies

- 1. The term of debt generally shall not exceed the useful life of the asset, and in no case shall the term exceed 30 years.
- 2. Capitalized interest shall only be considered during the construction phase of a new facility if the construction period exceeds seven years. The time frame for capitalizing interest may be three years but not more than five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.

Note: Austin Energy does not use capitalized interest.

- 3. Principal repayment delays shall be one to three years, but shall not exceed five years.
- 4. Austin Energy shall maintain either bond insurance policies or surety bonds issued by highly rated (AAA) bond insurance companies, a funded debt service reserve, or a combination of both for its existing revenue bond issues, in accordance with the Combined Utility Systems Revenue Bond Covenant.
- 5. A debt service reserve fund shall not be required to be established or maintained for the Parity Electric System Obligations so long as the "Pledged Net Revenues" of the System remaining after deducting the amounts expended for the Annual Debt Service Requirements for Prior First Lien and Prior Subordinate Lien Obligations is equal to or exceeds 150% of the Annual Debt Service Requirements of the Parity Electric Utility Obligations. If the "Pledged Net Revenues" do not equal or exceed 150% of the Annual Debt Service Requirements of the Parity Electric Utility Obligations, then a debt service reserve fund shall be established and maintained in accordance with the Supplemental Ordinance for such Parity Electric System Obligations.
- 6. Debt service coverage of a minimum of 2.0x shall be targeted for the Electric Utility Bonds. All shortterm debt, including commercial paper, and non-revenue obligations will be included at 1.0x.

Note: Debt service coverage for the FY 2017-18 Budget is 4.1x.

- 7. Short-term debt, including commercial paper, shall be used when authorized for interim financing of capital projects and fuel and materials inventories. The term of short-term debt will not exceed five years. Both tax-exempt and taxable commercial paper may be issued in order to comply with the Internal Revenue Service rules and regulations applicable to Austin Energy. Total short-term debt shall generally not exceed 20% of outstanding long-term debt.
- 8. Commercial paper may be used to finance capital improvements required for normal business operation for electric system additions, extensions, and improvements or improvements to comply with local, State and Federal mandates or regulations. However, this shall not apply to new nuclear generation units or conventional coal generation units.

Commercial paper will be converted to refunding bonds when dictated by economic and business conditions. Both tax-exempt and taxable refunding bonds may be issued in order to comply with the Internal Revenue Service rules and regulations applicable to Austin Energy.

Commercial paper may be used to finance voter approved revenue bond projects before the commercial paper is converted to refunding bonds.

9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis.

- 10. Austin Energy shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). The source of this information should be the Comprehensive Annual Financial Report.
- 11. Austin Energy shall maintain a minimum operating cash equivalent (also known as Working Capital) of 60 days of budgeted operations and maintenance expense, less power supply costs, plus the amount of additional monies required to bring the sum of all Austin Energy's reserves to no less than 150 days of operating and maintenance expense.
- 12. Net revenue generated by Austin Energy shall be used for General Fund transfers, capital investment, repair and replacement, debt management, competitive strategies, and other Austin Energy requirements. Once these obligations have been met, any remaining net revenues will be deposited in the following order into Austin Energy's reserve funds until each reserve reaches its minimum funding level: Working Capital, Contingency Reserve, Power Supply Stabilization Reserve, and then Capital Reserve. The sum of the four reserves shall be the cash equivalent of no less than 150 days of operating and maintenance expense.
- 13. The General Fund transfer shall not exceed 12% of Austin Energy three-year average revenues less power supply costs and on-site energy resource revenue, calculated using the current year estimate and the previous two years' actual revenues less power supply costs and on-site energy resource revenue from the City's Comprehensive Annual Financial Report.
- 14. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio between 35% and 60% is desirable.
- 15. The Capital Reserve shall be created and established for providing extensions, additions, replacements, and improvements to the electric system. The Capital Reserve shall maintain a minimum cash equivalent of 50% of the previous year's electric utility depreciation expense.
- 16. The Contingency Reserve shall be created and established for unanticipated or unforeseen events that reduce revenue or increase obligations, such as costs related to a natural disaster, extended unplanned plant outages, insurance deductibles, or unexpected costs created by Federal or State legislation. The Contingency Reserve may be used to fund unanticipated power supply expenses only after the Power Supply Stabilization Reserve has been fully depleted. The Contingency Reserve shall maintain an operating cash equivalent of 60 days of budgeted operations and maintenance expense, less power supply costs. In the event any portion of the Contingency Reserve is used, the balance will be replenished to the targeted funding level within two fiscal years.
- 17. Electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to support (1) the full cost (direct and indirect) of operations including depreciation, (2) debt service, (3) General Fund transfer, (4) equity funding of capital investments, (5) requisite deposits of all reserve accounts, (6) sufficient annual debt service requirements of the Parity Electric Utility Obligations and other bond covenant requirements, if applicable, and (7) any other current obligations. In addition, Austin Energy may recommend to Council in the budget directing excess net revenues for General Fund transfers, capital investment, repair and replacement, debt management, competitive strategies and other Austin Energy requirements such as working capital.

In addition to these requirements, electric rates shall be designed to generate sufficient revenue, after consideration of interest income and miscellaneous revenue, to ensure a minimum debt service coverage of 2.0x on electric utility revenue bonds.

A rate adequacy review shall be completed every five years, at a minimum, through performing a cost of service study.

- 18. A decommissioning trust shall be established external to the City to hold the proceeds for monies collected for the purpose of decommissioning the South Texas Nuclear Project. An external investment manager may be hired to administer the trust investments.
- 19. The master ordinance of the Parity Electric System Obligations does not require a debt service reserve fund. Austin Energy will maintain a minimum of unrestricted cash on hand equal to six months debt service for the then outstanding Parity Electric System Obligations.
- 20. Current revenue, which does not include the beginning balance, will be sufficient to support current expenditures (defined as "structural balance"). However, if projected revenue in future years is not sufficient to support projected requirements, ending balance may be budgeted to achieve structural balance.
- 21. A Non-Nuclear Plant Decommissioning Fund shall be established to fund plant retirement. The amount set aside will be based on a decommissioning study of the plant site. Funding will be set aside over a minimum of four years prior to the expected plant closure.
- 22. The Power Supply Stabilization Reserve shall be created and established for mitigating power supply cost volatility which causes frequent variation in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall maintain a cash equivalent of 90 days of net power supply costs. Net power supply costs shall be defined as costs eligible for inclusion in the Power Supply Adjustment. The Power Supply Stabilization Reserve shall be funded using net revenues after meeting other obligations and consistent with the flow of funds schedule.

Austin Water Financial Policies

- 1. The term of debt generally shall not exceed the useful life of the asset, and shall not generally exceed 30 years.
- 2. Capitalized interest shall only be considered during the construction phase of a new facility if the construction period exceeds seven years. The time frame for capitalizing interest may be three years but not more than five years. Council approval shall be obtained before proceeding with a financing that includes capitalized interest.
- 3. Principal repayment delays on revenue bonds shall be one to three years, but shall not exceed five years.
- 4. Each utility shall maintain a fully funded debt service reserve for its existing revenue bond issues and future issues, in accordance with the Combined Utility Systems Revenue Bond Covenant.
- 5. Debt service coverage of at least 1.75x shall be targeted.
- 6. Short-term debt, including tax-exempt commercial paper, shall be used when authorized for interim financing of capital projects. The term of short-term debt shall not exceed five years. Commercial paper will be converted to refunding bonds when appropriate under economic and business conditions. Total short-term debt shall generally not exceed 20% of outstanding long-term debt.
- 7. Commercial paper may be used to finance new water and wastewater plants, capital expansions, and growth-related projects as well as to finance routine capital improvements required for normal business operation. Commercial paper for the necessary amount may also be used to finance improvements to comply with local, State and Federal mandates or regulations.

8. Capital improvement projects for new water and wastewater treatment plants, capital expansions, and growth-related projects that are located in the Drinking Water Protection Zone (DWPZ) will be identified and submitted, as part of the annual budget process, to the following Boards and Commissions: Water and Wastewater Commission, Resource Management Commission, and the Environmental Board.

These Boards and Commissions will review growth-related DWPZ capital projects spending plans, obtain Board and Commission and citizen input, review consistency with Imagine Austin Comprehensive Plan, review effect on growth within the DWPZ, and make recommendations on project approval for inclusion in Austin Water's five-year capital spending plan.

- 9. Ongoing routine, preventive maintenance should be funded on a pay-as-you-go basis.
- 10. Capital projects should be financed through a combination of cash, referred to as pay-as-you-go financing (equity contributions from current revenues), and debt. An equity contribution ratio of at least 35% to 50% is desirable.
- 11. Austin Water shall maintain a minimum quick ratio of 1.50 (current assets less inventory divided by current liabilities). Source of information shall be the Comprehensive Annual Financial Report.
- 12. Austin Water shall maintain operating cash reserves equivalent to a minimum of 180 days of budgeted operations and maintenance expense.
- 13. Revenue generated by Austin Water from debt service coverage requirements shall be used for General Fund transfers, capital investment, or other Austin Water requirements such as working capital reserve or non-CIP capital.
- 14. Austin Water rates shall be designed to generate sufficient revenues to support the full cost (direct and indirect) of operations and debt, provide debt service coverage and meet other revenue bond covenants, if applicable, and ensure adequate and appropriate levels of working capital.
- 15. The General Fund Transfer shall not exceed 8.2% of the Austin Water three-year average revenues, calculated using the current year estimate at March 31 and the previous two years' actual revenues.

Revenue collected from the Reserve Fund Surcharge will be included in the General Fund Transfer calculation; however, any use or transfer of the reserve fund back into the operating fund in the future due to revenue loss will not be included in the total revenues to calculate the General Fund Transfer.

16. A Water Revenue Stability Reserve Fund shall be created and established for the purpose of offsetting current year water service revenue shortfalls below budgeted revenue levels.

The target funding level for the Reserve Fund is 120 days of the budgeted water operating requirements of Austin Water, which includes operations and maintenance and other operating transfers, but excludes debt service and other transfers. In the event that any portion of the Reserve Fund is used, the balance will be replenished to the target level within five years.

Upon creation of the Reserve Fund, the goal to reach the target funding level of 120 days of budgeted water operating requirements will be no later than five years. If the fund is drawn down prior to reaching the 120 day target during the first five-year development period, the reserve fund surcharge shall not be lower than it was during the year in which the draw down occurred until such time as the fund reaches its 120 days of operating costs.

Sources of funding for the Reserve Fund may include a Reserve Fund volumetric surcharge charged to all customer classes, operating reserves in excess of 60 days of operating requirements, and any available net water service revenue after meeting all obligations of Austin Water.

The City Council must approve all Reserve Fund utilization of funds through a separate action during the year. The Reserve Fund shall only be used to offset a current year water service revenue shortfall where actual water service revenue is less than the budgeted level by 10% or more. The maximum use of the Reserve Fund in any fiscal year is 50% of the existing balance at the time of request for Council action.

When the target levels of the Reserve Fund are reached, any Reserve Fund Surcharge shall be reduced to levels sufficient to only maintain the goal of 120 days of operating requirements as may be necessitated by changes in budgeted operating costs over time.

All interest earned by the Reserve Fund account shall remain in the Reserve Fund in order to offset funding and replenishment requirements and to minimize rate impacts for water customers.

Airport Financial Policies

- 1. Debt service coverage shall be targeted at a minimum of 1.25x.
- 2. The Debt Service Reserve shall be funded at the same time long-term debt is issued (typically equal to one year's average debt service requirement).
- 3. The term of long-term debt shall not exceed the expected useful life of the capital asset being financed, and in no case shall the life of the debt exceed 30 years.
- 4. Capitalized interest during construction shall generally not exceed five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.
- 5. The Airport shall maintain a minimum of 400 days cash on hand based on the budgeted operating and maintenance costs for a given year
- 6. Aviation shall maintain operating cash reserves equivalent to a minimum of 60 days of budgeted operations and maintenance expense.

Drainage Utility Financial Policies

- 1. A Drainage Utility Fund will be established to account for all revenues and all operational expenses related to this activity.
- 2. The department that manages the Drainage Utility Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service and to maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance.

Austin Resource Recovery Financial Policies

1. The Austin Resource Recovery Fund shall provide for the closure, monitoring, and all post-closure care of the City's landfills in compliance with Federal and State regulations.

2. The department that manages the Austin Resource Recovery Fund shall recommend to Council in the budget setting rates sufficient to pay all requirements including debt service. The department shall also maintain a fund balance which is equivalent to 30 days of budgeted operations and maintenance. In the event that operating reserves drop below the policy requirement, and to the extent that funds allow, the balance will be replenished to the target level within five years. In the event that operating reserves exceed the reserve requirement, the department may temporarily set rates below the level sufficient to pay all requirements including debt service, until such time as the fund balance meets the reserve requirement within five years.

Fleet Services Financial Policies

1. The Fleet Services Department shall maintain, in a separate Fleet Fuel Reserve Fund (Reserve Fund), an amount that may be drawn upon in the event significant fuel losses occur in a given fiscal period. The ending balance of the fund shall not exceed 20% of total budgeted fuel costs or \$3 million, whichever amount is greater.

Funding shall consist of a fixed price per gallon to be charged to each user department as determined each budget year. The Fleet Services Department is responsible for calculating the annual per gallon fixed price during the City's annual budget process. The amount collected each fiscal year is to be deposited in the Reserve Fund in the same year as collected.

Upon determination that fuel costs exceeded fuel revenues in any given year in an amount greater than \$500,000, the Reserve Fund may be utilized to fund the deficiency.

Austin Convention Center Financial Policies

- Debt service reserves shall be funded in accordance with the respective bond covenants for Austin Convention Center's Hotel Occupancy Tax Revenue bonds and Palmer Events Center's Town Lake Community Events Center Venue Project bonds.
- 2. The term of long-term debt generally shall not exceed the expected useful life of the asset and shall not generally exceed 30 years.
- 3. Capitalized interest during construction shall not exceed five years. Council approval shall be obtained before proceeding with financing that includes capitalized interest.
- 4. The Austin Convention Center shall maintain an operating reserve that is equivalent to 180 days of operating and maintenance expenses for both the Austin Convention Center and the Palmer Events Center operating funds (as required by its Town Lake Community Events Venue bond covenants).

In the event that operating reserves drop below the policy, and to the extent that respective facility funds allow (i.e., Austin Convention Center facility revenue and Hotel Occupancy Tax pledged toward the related bonds, and Palmer Events Center revenues pledged toward Town Lake Community Events Venue bonds), the balance will be replenished to the target level within five years. The operating reserve fund will only be used to offset a current year revenue shortfall where actual revenue is less than the budgeted level by 10% or more.

5. A capital reserve shall be maintained that is equivalent to 50% of the annual depreciation expense as reported in the prior year Comprehensive Annual Financial Report. The reserve may be used for capital projects that provide additions, replacements, and improvements to Austin Convention Center facilities.

6. Ongoing routine, preventative maintenance should be funded on a pay-as-you-go basis.

DEBT POSITION

Types of Debt

The City sells bonds to finance a major portion of its Capital Improvement Program. General obligation (GO) bonds fund improvements such as streets, police and fire stations, health clinics, parks, and libraries, and are repaid by property taxes. Revenue bonds fund improvements for the City's enterprise activities, are used to finance capital projects for the utilities and have been used to build the Austin Convention Center and to fund construction of the Austin-Bergstrom International Airport. They are repaid from revenue of the enterprise and not from property taxes.

The City's outstanding debt from all sources as of September 30, 2021, is as follows:

Debt Position

Current Bond Ratings

A bond rating is a measure of a city's ability to repay its debt. Several factors are considered when assigning a rating, including the local economy and the strength of the city's financial and administrative management as well as various debt ratios. GO net debt per capita is an important ratio and is calculated by dividing the net outstanding general obligation bond principal by the population. As of September 30, 2020, Austin's GO net debt per capita was \$1,524.57. The amount of debt owed by jurisdictions with boundaries overlapping the City's is also considered. The City's overlapping net debt per capita ratio is higher at \$5,211.39 because the debt of Travis County, the Austin Independent School District, as well as other local entities, is considered in the calculation. The City's GO bond ratings are the highest ranking given by two of the three prominent credit rating agencies (Standard & Poor's Services and Fitch).

Revenue bonds are different from GO bonds in that debt service is paid by ratepayers both inside and outside the City. Factors considered when rating revenue bonds include financial performance of the enterprise activity, long-range planning for capital improvements, and the process of setting rates and fees. The level of revenue debt is dependent upon the number of enterprise activities within the City. Because the City of Austin owns its own water and electric utilities, airport, and convention center, revenue debt issued by the City will exceed that issued by many municipalities of comparable size which do not provide those services.

Rating Agency	<u>General</u> Obligation	Austin Energy <u>Separate Lien</u>	Austin Water <u>Separate Lien</u>	Austin <u>Airport</u>	Convention <u>Center</u>
Moody's Investors Services	Aal	Aa3	Aa2	A1	Aa3

The City of Austin's bond ratings for open credits as of July 30, 2021 are:

N/R = Not Rated

Annual Bond Sales

The City Financial Policies include policies regarding remaining authorized but unissued general obligation bonds and the timing of bond elections. An estimated two years of authorized but unissued bonds shall remain before an election will be held. In addition, the total dollar amount of bond election propositions recommended to the voters shall not exceed the city's estimated ability to issue the bonds within a six-year period. This six-year period was recommended by the Council's Audit and Finance Committee on June 24, 1998 and is included in the City's Financial Policies. These policies will assist the City in completing projects approved by the voters in a reasonable amount of time.

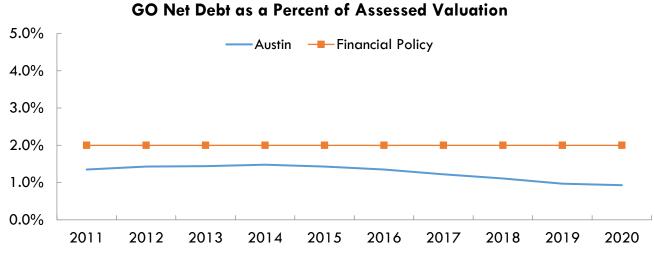

Authorized but Unissued GO Bonds	Amount
Transportation/Street Improvements	\$617,069,000
Parks and Recreation	\$139,547,000
Public Safety	\$28,554,000
Health and Human Services	\$14,853,000
Flood Mitigation, Open Space, Water Quality Protection	\$134,195,000
Cultural Arts & Library	\$130,697,000
Affordable Housing	\$187,360,000
Mobility	\$567,905,000
Total ¹	\$1,820,180,000
¹ As of September 30, 2021.	

Financial Policies

Financial policies adopted by the City Council guide the City's debt management. Discussion and status of selected policies are summarized in the following sections.

GO Debt

The ratio of GO net debt to total assessed valuation shall not exceed 2%. This ratio is calculated by dividing GO debt (net of debt service fund balance and self-supporting debt) by total assessed valuation. As of September 30, 2020, this ratio was 0.93% which is below the 2% policy requirement.

Austin Energy

Debt service coverage of a minimum of 2.0x shall be targeted. The anticipated debt service coverage ratio for FY 2021-22, on a budgetary basis, is 2.14x.

Total FY 2021-22 Revenue		\$1,490,258,496

Debt Service Coverage Ratio		1.32

Note: The actual debt coverage calculation will be performed according to rate covenants included in the Official Statements of those bonds backed by Airport revenue.

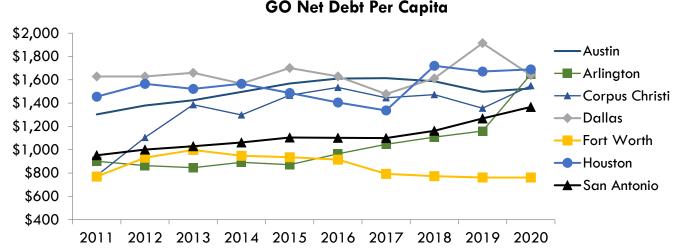

How Austin Compares

The following graphs compare the City of Austin to other Texas cities, using two of the City's adopted financial policies for debt management. A third comparison is also presented based on net debt per capita. The first graph compares the ratio of Austin's GO net debt as a percentage of assessed valuation to other Texas cities.

GO Net Debt as a Percentage of Assessed Valuation

Source: City of Austin and Entity Comprehensive Annual Reports - Financial Services

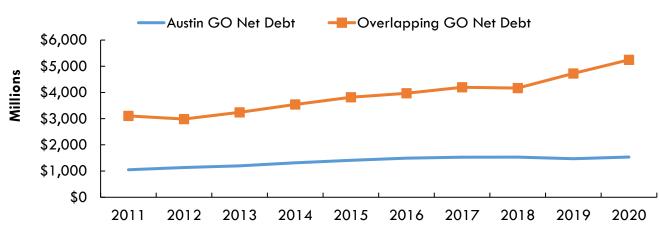

The following graph compares Austin's GO net debt per capita to other Texas cities. This statistic represents the rate of debt retirement versus debt issuance as well as growth in population.

Source: City of Austin and Entity Comprehensive Annual Reports - Financial Services

Overlapping Debt

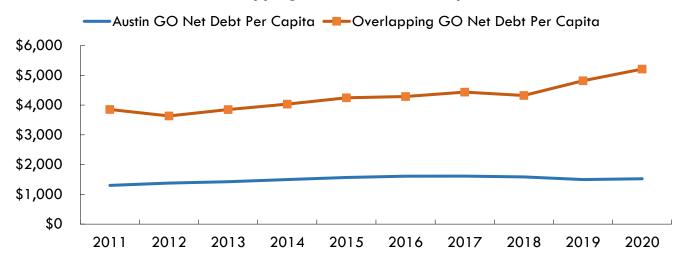

The following graphs reflect the additional debt burden imposed by other governmental units in the area, including Travis County, Austin Independent School District, and Austin Community College.

Overlapping GO Net Debt

Source: City of Austin - Financial Services

While citizens of Austin are impacted through individual tax rates of these entities, the City of Austin does not have the authority to impose restrictions on the other jurisdictions borrowing power.

Overlapping GO Net Debt Per Capita

Source: City of Austin - Financial Services

Conclusion

Because of the implementation and adherence to its debt management financial policies, Austin has been able to retain its excellent bond ratings even during periods of economic stress, and consequently, the City will continue to receive competitive interest rates when entering the bond market.

BOND INDEBTEDNESS

How to Read Debt Service Schedules

Debt service payments for fixed-rate transactions occur semi-annually and comprise principal and interest components. Debt service payments for variable-rate demand bonds occur monthly and comprise principal and interest components. The principal repayments result in the reduction of the total debt outstanding and occur once each year for most bond issues.

General Obligation (GO) Debt

As of September 30, 2021, the City of Austin will have \$1,419,890,000 in outstanding GO bonds, consisting of public improvement bonds (PIBs), certificates of obligation (COs), and contractual obligations (KOs). These bonds were issued to fund capital improvements such as streets, bridges, parks, libraries, fire and police stations, vehicle service centers, health clinics, and neighborhood centers. GO debt is supported by the full faith and credit of the City and is primarily repaid from ad valorem property taxes collected from both current and future property owners throughout the term of the debt.

Combined Utility Systems Revenue Debt

As of September 30, 2021, the City of Austin will have \$67,700,000 in outstanding Combined Utility Systems Revenue Bonds. These revenue bonds were issued to fund utility capital improvements such as electric power generation plants, water and wastewater treatment plants, transmission and distribution systems, and collection systems. Utility Systems Revenue debt is supported solely by a pledge of combined net revenues of the Electric Utility and the Water and Wastewater Utility Systems.

Electric Utility Separate Lien Debt

As of September 30, 2021, the City of Austin will have \$1,850,355,000 in outstanding Electric Utility Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund Austin Energy capital improvements. Electric Utility Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Electric Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate Lien Bonds.

Water and Wastewater Separate Lien Debt

As of September 30, 2021, the City of Austin will have \$2,178,175,000 in outstanding Water and Wastewater Separate Lien Revenue Refunding Bonds. These revenue bonds were issued to fund utility capital improvements such as water and wastewater treatment plants. Water and Wastewater Separate Lien Revenue debt is supported solely by a pledge of net revenues of the Water and Wastewater Utility System, and the pledge is on parity with the outstanding Combined Utility Systems Subordinate Lien Bonds.

Assumed Municipal Utility District Bonds

As of September 30, 2021, the City of Austin will have \$4,520,000 in outstanding assumed Municipal Utility District (MUD) Bonds. The Northwest Austin MUD #1 was dissolved in FY 2009-10, and the outstanding debt was assumed by the City of Austin as a general obligation pledge. The debt service payments are supported by revenue from Austin Water and the Watershed Protection Department.

Non-Utility Revenue Debt

As of September 30, 2021, the City will have \$1,080,585,000 of Non-Utility Revenue Bonds outstanding. This includes \$982,245,000 of Airport System Revenue Bonds; \$64,690,000 of Hotel Occupancy Tax Subordinate Lien Revenue Refunding Bonds issued to construct the expansion of the Convention Center; \$12,830,000 Convention Center/Waller Creek Venue Project Bonds issued to construct tunnel improvements along Waller Creek in the vicinity of the Convention Center; and \$20,820,000 Town Lake Park Community Events Center Venue Project Bonds issued to construct a civic center and parking garage. Airport Revenue Bonds are supported by revenue of the Aviation Department, Hotel Occupancy Tax Revenue Bonds are repaid from pledged revenue of the Hotel Occupancy Tax, and Town Lake Park Venue Project Bonds are repaid from pledged short-term motor vehicle rental taxes.

Schedule of Authorized but Unissued Revenue Debt

Voters authorized a portion of Revenue Bonds issued by the City in the past. However, the City does not immediately issue all of the debt that is authorized. Rather, the amount of debt issued each year depends upon the cash flow needs of the Capital Improvement Program, the City's debt issuance capacity, and bond market conditions.

BUDGET PROCESS

The City Manager is required by the City Charter to present proposed operating and capital budgets to the City Council at least 30 days prior to the October 1 beginning of the City's fiscal year. In addition, the City of Austin Charter mandates that a budget be adopted no later than September 27th for the new fiscal year beginning October 1st. The process leading to the budget adoption is participatory and includes a communications plan that encourages input from citizens, boards and commissions, City departments, and the City Council. The budget process focuses on identifying funding levels necessary to continue basic municipal services, address City Council priorities, and meet community goals, in accordance with the strategic plan adopted by City Council on March 8, 2018. Throughout the budget process, the City Manager provides the City Council with projected revenue collections and funding requirements for the upcoming fiscal year. This information enables the City Council to provide policy direction in developing the new budget.

The budget contains a detailed allocation of projected revenue and expenditures for all City funds and a summary of the City's debt position. The City Manager also includes an executive summary that outlines the essential elements of the financial plan. The Proposed Budget will be released in mid-July, well in advance of the City Charter requirement, and public input meetings will occur in July and August. There is also a formal Council budget question process, with the questions and answers posted at http://www.austintexas.gov/budget/cbq/index.cfm.

Budg	Budget Calendar for FY 2021-22				
Important dates as th	Important dates as the Budget is reviewed and analyzed prior to adoption				
January – April	Council policy input; Development of the 5-Year Financial Forecast				
March – June	Public input on budget and priorities; Boards and Commission meetings; Proposed Budget Development				
July 9	Proposed Budget delivered to Council				
Mid-July	Bilingual Taxpayer Impact Statement available online				
July 22 & 29	Public input meetings				
July 27 and Aug 3	Council Budget work sessions				
August 11-13	Proposed Budget and the Tax Rate Hearings; Budget Adoption and Tax Rate Adoption				

Communications Plan. Stakeholder input plays a pivotal role in the City's budget decision-making process. In the spirit of open government and increased transparency, the budget process includes community outreach and stakeholder engagement. Outreach this year includes:

- Annual citizen survey to acquire satisfaction and priority levels of City services;
- Over 1,200 responses to an online budget priority survey developed in partnership with the Stanford University Crowdsourced Democracy Team;
- 3 community meetings hosted by the equity commissions that comprise the Joint Inclusion Committee;
- 155 budget recommendations from the City's various Boards and Commissions;
- Bilingual budget video on austintexas.gov/budget;
- Access to real-time budget data at budget.austintexas.gov and capitalprojects.austintexas.gov;
- Access to the Proposed Budget at the Austin Public Library system; and,
- Access to budget documents and related reference materials online at austintexas.gov/finance.

Budget Amendments. General Fund Financial Policy 3 states that non-emergency amendments to the Adopted Budget (other than amendments that are fully offset by new revenue resulting from the initiative) shall be accomplished in one mid-year Council Meeting.

In keeping with the above General Fund financial policy, the process for amending all budgets and funds is outlined below.

- 1. The originating department and Budget Office work together to determine necessary Council actions.
- 2. The originating department receives approval to proceed from the City Manager's Office.
- 3. The originating department prepares the formal Request for Council Action (RCA) and ensures that all other departments affected by the proposed action approve the RCA.
- 4. The item is presented to the City Council for review and approval.
- 5. Upon approval, the Budget Office updates the system of record.

ORDINANCE NO.

AN ORDINANCE ADOPTING THE CITY OF AUSTIN BUDGET FOR FISCAL YEAR 2021-2022 BEGINNING ON OCTOBER 1, 2021 AND ENDING ON SEPTEMBER 30, 2022.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The City Council adopts the attached City of Austin Budget for Fiscal Year 2021-2022 beginning on October 1, 2021 and ending on September 30, 2022.

§

§

PART 2. This ordinance takes effect on _____, 2022.

ORDINANCE NO.

AN ORDINANCE AUTHORIZING FEES, FINES, AND OTHER CHARGES TO BE SET OR CHARGED BY THE CITY FOR FISCAL YEAR 2021-2022 BEGINNING ON OCTOBER 1, 2021 AND ENDING ON SEPTEMBER 30, 2022.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The City Council authorizes the fees, fines, and other charges listed in the attached Exhibits "A" and "B" to be set or charged by the City for Fiscal Year 2021-2022 beginning on October 1, 2021 and ending on September 30, 2022.

PART 2. To the extent that a previous ordinance conflicts with this ordinance, the earlier ordinance is repealed.

PART 3. Except as otherwise specifically provided in Exhibits "A" and "B," this ordinance takes effect on October 1, 2021. A fee, fine, or other charge for which a specific effective date has been established in Exhibits "A" and "B" takes effect on the specified effective dates.

PART 4. Council waives fees and reimburses costs for City co-sponsored events listed in Exhibit "C" and identified in the following Council actions:

Ordinance No. 20210610-088

These events are Council-approved co-sponsored events, which serve documented public purposes as set forth in the actions of Council noted above. Each event must annually provide reasonable documentation to the City Manager that the event brings a value to the City that is at least roughly equivalent to the fees waived or reimbursed by this action.

PASSED AND APPROVED	
, 2021	§ Steve Adler Mayor
APPROVED: Anne L. Morgan City Attorney	ATTEST: Jannette S. Gooda City Clerk

 Clean Community Fee

 The clean community fees are divided between Austin Resource Recovery and Code Compliance as authorized by City Code 15-6-33(D).

 Note: The "clean community fee" is what was formerly known as the "anti-litter/home chemical fee."

 Commercial, per month
 \$4.25 \$4.75

 Residential, per month
 \$4.25 \$4.75

 Once a utility service account has been activated at an address, Clean Community charges will not begin until after the seventeenth day.

Note

FY 2021-22 Fee Schedule

Austin Convention Center - Operating Fund	Fee
---	-----

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits, discounts and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges. The Director may use industry guidelines to calculate economic benefit. Contracts and contract addendums issued within thirty (30) days of the 1st contract day may be subject to unscheduled labor fees and equipment fees at the base rate. At the Austin Convention Center, all food and beverage is exclusive to the in-house food and beverage management company.

Labor and Equipment Information

An approximate discount rate of 25% will apply for show management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day. The standard rate applies for show management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate 25% increase of the standard rates for labor and/or equipment may apply for unscheduled/on-site requests to add or delete equipment (a reset) or a request for an unscheduled/on-site change (a changeover). Labor and equipment fees may apply to first room set if room specifications (including setup times and equipment needs) are not received within five (5) days of the first contract day. Changes made within five (5) days of the first contracted day of the event are subject to reset fees. A scheduled request to add or delete equipment (a reset) or a request for a change (a changeover) to the first room set is subject to labor and/or equipment fees.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply

Pre-Function Space and Outside Area Rental

Outside areas and pre-function space may not be used for exhibits unless the area is contracted as such and has prior approval by the Director. Rental is based on the footprint of the event and maybe waived with Director approval or charged up to the Minimum Daily Rental or on a per booth basis. Pre-function space and lobbies are generally used for pedestrian traffic or registration; therefore, the Department may be unable to reserve on an exclusive basis.

Column Wrap	\$500.00	per outdoor column

All subject to availability		

All subject to availability.

Credit will not be given for services ordered and not used. Unscheduled labor may be subject to overtime charges of one (1) and one-half (1/2) the regular rate. Final determination of the number and type of personnel required for an event will be made by the Department. A four (4) hour minimum may be charged unless otherwise specified. Charges will be made in one-half (1/2) hour increments after the initial four (4) hour minimum. Call-back charges will be a minimum of two (2) hours. Room resets beyond the initial set includes labor and additional equipment costs. The Standard Rate applies for Show Management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate discount of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day.

Utility Rates		

The Austin Convention Center Department (ACCD) offers an Incentive Rate to customers who order services in advance unless noted. This rate is a twenty-five percent (25%) discount off the Standard Rates listed. The ACCD will charge a Floor Rate, which is fifty-percent (50%) more than the Standard Rates listed, only if customers do not place an order by the Standard Rate deadline unless noted. 120 volt outlets ordered for computer labs, exhibits or events requiring special electrical configurations are charged the prevailing rate. Electrical cords provided are single receptacles (one plug) and provides a connection at one point only.

Note

FY 2021-22 Fee Schedule

Austin Convention Center - Palmer Events Center Revenue Fund

Fee

Facility Rentals

Consumer Shows-Trade Shows, Conferences, etc.

The Director has the discretion to modify facility rental pricing to accommodate for food and beverage spend as well as ancillary revenue. Exhibit Use

One (1) move-in or move-out is provided at no charge for each two show days. All other move-in and move-out days are charged at one-half (1/2) the Daily Rental. Access to a public address system is provided at no charge during event hours.

General Session Use

Equipment provided at one-half (1/2) of the equipment cost for the required set-up when used exclusively for a General Session. One move-in or move-out day is provided at no charge for each two show days, not to exceed three (3) days at no charge. A public address system is provided at no charge during event hours. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein. Food Functions (Banquets, Receptions, etc.)

Move-in or move-out days are charged at one-half (1/2) the daily rental, not to exceed the number of show days. A twenty percent (20%) catering fee is assessed on any food and beverage provided by an entity other than the in-house food and beverage service. The fee is based on the assessed retail value or comparable services in a convention center or like facility. The entity providing the food must enter into an outside caterer's agreement and comply with the terms therein.

Events Center with exhibit hall 1, daily rental Events Center with exhibit hall 2, daily rental Events Center with exhibit halls 1-2, daily rental General information \$4,300.00 - \$5,000.00 \$2,400.00 - \$3,000.00 \$6,700.00 - \$8,000.00

Austin Convention Center - Palmer Events Center Revenue Fund Fee Note

Daily use is considered to be no earlier than 6AM and terminating no later than 11:59PM on the same day. Overtime charges may be assessed at \$600.00 per hour per space after 12 midnight and before 6AM. Rental includes HVAC at 72° F, normal housekeeping services excluding the exhibit areas and property of others, i.e. aisle carpet, interior booth space and display areas. Additional fees will be assessed for the disposal of excess refuse or display materials left in rental areas. Damages or costs associated with excessive cleanup will be billed to the contractor along with a thirty percent (30%) administrative fee. The Department reserves the right to use a reasonable amount of space (a 30' by 30' area not including seating) in each Exhibit Hall to provide food and beverage services to customers. Definitions of terms herein shall be consistent with definitions attached to the Department Booking Policy.

The Director may negotiate special rates, charges, fees, credits and services for use of the Department facilities by customers who represent significant local economic impact, repeat business, hotel occupancy tax or substantial facility revenue, to maximize facility revenue during need period or to offset unexpected event challenges; provided, however, that the direct dollar impact from all sources must not be below the operating cost of the facility used by customers. The Director may use industry guidelines to calculate economic benefit. When an outside entity is utilized for food and beverage at the Lester E. Palmer Events Center, equipment and services are charged accordingly. Facility rental does not include equipment. Food and beverage service is exclusive to the in-house food and beverage management company in the Palmer Events Center meeting rooms 1-5.

Short term rental of Palmer Events Center meeting rooms 1-5, without the rental of an exhibit hall, is available within a ninety (90) day window.

All shows will be assessed the appropriate rental fee. Contracts and contract amendments issued within thirty (30) days of the 1st contract day may be assessed unscheduled labor fees and equipment fees at the standard rate.

Requests received from Show Management thirty-one (31) days or more from the first contract day for labor services, security services, equipment, waste management services, audio recording services and utility services will be charged the listed rate (incentive rate). An appropriate discount rate of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more days from the first contract day. Changes made within five (5) days of the first contracted day of the event are subject to reset fees. Labor and equipment fees may apply to first room set if room specifications (including setup times and equipment needs) are not received within five (5) days of the first contract day.

The Department rigging coordinator is required to approve onsite rigging. Labor charge will apply.

The Department Public Event Worker Supervisor is required when client sets outside equipment. Labor charge will apply.

Meeting Room Use

General Session Use

Charged at the Daily Rental per show day and includes one (1) single-level head table for four (4) people, and one (1) podium. Equipment and services are additional expenses and are not included in meeting room rental rate. One (1) move-in or move-out day is charged at one-half (1/2) the daily rental rate.

Food Function Use

Charged at daily rental rate, includes one (1) head table for four (4) people, one (1) podium. Move-in and move-out days are charged at one-half (1/2) the daily rental rate. All food and beverage is exclusive to the in-house food and beverage management company.

Standard Labor Rates		

Standard Labor Rates

Credit will not be given for services ordered and not used. Unscheduled labor may be subject to overtime charges of one (1) and one-half (1/2) the regular rate. Final determination of the number and type of personnel required for an event will be made by the Department. A four (4) hour minimum may be charged unless otherwise specified. Charges will be made in one-half (1/2) hour increments after the initial four (4) hour minimum. Call-back charges will be a minimum of two (2) hours. Room resets beyond the initial set includes labor and additional equipment costs. The Standard Rate applies for Show Management orders when complete event requirements or specifications are received thirty (30) days or less from the first contract day. An approximate discount of 25% will apply for Show Management orders when complete event requirements or specifications are received thirty-one (31) or more from the first contract day.

Utility Rates		

The Austin Convention Center Department (ACCD) offers an Incentive Rate to customers who order services in advance unless noted. This rate is a twenty-five percent (25%) discount off the Standard Rates listed. The ACCD will charge a Floor Rate, which is fifty-percent (50%) more than the Standard Rates listed, only if customers do not place an order by the Standard Rate deadline unless noted. 120 volt outlets ordered for computer labs, exhibits or events requiring special electrical configurations are charged the prevailing rate. Electrical cords provided are single receptacles (one plug) and provides a connection at one point only.

Austin Analytical Services		
Austin Analytical laboratory services can benefit other customers as well as the (City of Austin. The laborat	ory is equipped to provide PCB,
lead, asbestos, and other environmental and analytical testing to customers.		
Construction/Installation		
This service consists of pole or tower construction and conduit installation for ele	ectric or communications c	ompanies.
Distributed Generation		
This service provides on-site analysis for large industrial or commercial customer	rs to assess opportunities	for on-site electrical generation fo
these customers for peak shaving or emergency outage situations. If circumstant	ces for on-site generation	are favorable, Austin Energy may
provide or assist customers in obtaining distributed generation equipment. Austir	n Energy may own, operat	e, and/or maintain such
equipment.		
District Heating and Cooling Service		
Austin Energy may provide district cooling service to customers under long-term	service contracts. A contr	act shall be required to receive
service, and Austin Energy may enter into such contracts to the extent system ca		-

Educational Services		-
This service provides information and education on utility and competitive issues	such as safety, power qualit	v. planning. and energy

services.

Electric Reliability Council of Texas Wholesale Market Services

These services may be offered to eligible parties desiring to participate in the Electric Reliability Council of Texas (ERCOT) wholesale market. Austin Energy is currently registered as a Qualified Scheduling Entity in ERCOT and, as such, may provide scheduling, dispatching, communication, and a broad range of other services related to the ERCOT wholesale market.

Energy Management Services

Services include energy audits, feasibility studies, cost estimates, project management, providing, installing, and/or maintaining energyefficient equipment, and arranging for project financing for governmental, commercial, and industrial customers.

Green Building Program

The Green Building Program is a voluntary building rating system that encourages environmentally sound building, remodeling, and building maintenance practices. This program includes those services connected with providing "green building" practices: professional consulting, educational and informational "green building" services, and marketing of the same, all connected with providing and promoting environmentally sound building practices and systems ("green building"). Green Building services are available to individuals and business outside the City of Austin's electric service area as well to businesses within the service area boundary.

Lighting Products and Services

This service includes the supply and installation of lights or poles for commercial facilities and residences. Lights and poles may be owned and maintained by the Utility.

Maintenance Contracts for Customer-Owned Medium-Voltage Equipment

This service provides specific maintenance contracts for customers requesting assistance in repairing or providing maintenance on mediumvoltage equipment (over 600 volts). A maintenance contract will be prepared for each customer.

Power Quality or Reliability Contracting

This service provides contracts to improve customer power quality or reliability through the sale, lease, installation and maintenance of electrical devices. The final product or service offering will be based on that customer's specific needs.

Pricing Guidelines for Electric Utility Products and Services

Austin Energy Fee

Note

The pricing of electric products and services shall be derived from a competition-based pricing strategy. Competition-based pricing, also known as going-rate pricing, shall correlate prices for Austin Energy electric utility products and services to those of competitors for like goods and services in Austin, Texas or similar marketplaces. By including market-based surveys in the pricing process, competition based pricing includes within the pricing calculation the consumer's perception of the value of the product or service. The competition-based prices for products and services shall be selected by combining two standard pricing data sets and using pricing based on marginal cost.

(1) The first pricing data set is the price range between the average lowest and average highest prices of the product or service. This price range shall be determined by researching the prices of the product or service in the current marketplace. Both internal and external market price surveys may be used. This range becomes the competition-based price range as established by competition in the market place.

(2) The second pricing data set is the internally computed marginal cost of the product or service. Marginal cost is calculated by combining the determined total fixed and total variable costs to establish the floor of the profit margin.

(3) The final price of the product or service shall not be offered below the marginal cost of the product or service and must be within the determined competition-based price range.

(4) Calculation of the final price shall assume a product life cycle (to be determined for each product) for the purposes of determining the number of units or amount of service that will be sold.

(5) The final price for a particular product or service shall be a ratio of the sum of the marginal cost and targeted profit to the anticipated number of units to be sold.

Competition-based pricing assumes that the selected price represents the collective pricing wisdom of the electric utility product and service marketplace. It reflects a price that affords a fair profit in a competitive marketplace.

Pulse Metering, Submetering, and Interval Load Data Services

This service provides installation of pulse metering, submetering, or interval load data recorders at a customer's facility, and electronic collection of relevant data from a customer's facility, and provides customers with timely operating data to assist with the efficient operation of its equipment and facility.

Surge Protection

This service provides whole building and point-of-use surge protection from voltage spikes. These products will be suitable for residential and commercial establishments. Customers have the option of choosing either whole building surge protection installed at the meter or high quality surge protection strips for individual or grouped devices, or both.

Austin Transportation - Parking Management Fund	Fee	Note

On-Street Meter Rates

(1) The Transportation Department Director may not set a rate below what it minimally costs to provide service, but may also factor parking market rates when establishing on-street hourly parking rates.

(2) The Transportation Department Director may not dynamically adjust on-street metered rates more than once every three months and shall not exceed the minimums or maximums set by this ordinance. Rate adjustments shall be based on factors such as parking space occupancy.
(3) The Transportation Department Director may charge an on-street "event rate" based on anticipated event attendance, to mitigate congestive behavior or exponential increase in demand.

Administrative Fee	\$0.25	per transaction
Core Area	\$2.00 - \$5.00	/hour/space

Metered/Zoned Parking Space		
Parking Permit Application Fee	\$35.00	/application
Special Events Parking Rate	\$50.00	/space/day
Unmetered Parking Space		

Parking Rates for City Facilities

The City manager may set a rate for public use of a City parking facility in an amount not to exceed the following rates. The rate must be commercially reasonable with respect to the location of the facility and comparable business practices in the vicinity of the facility; provided, however that a parking rate may be waived or modified by the city manager:

(1) To avoid financial hardship to a member of the public in an emergency situation, enhance public convenience, safety, or improve efficiency of a parking facility;

(2) To comply with the terms of a parking contract authorized by the City Council;

(3) To facilitate public access to city officials and meetings; or,

(4) To reduce street congestion during significant public events attracting large numbers of people at a venue in the vicinity of a parking facility. Note: These authorized parking charges apply to City parking facilities unless a fee for a specific event or location is otherwise prescribed in this fee schedule or other ordinance.

Austin Water - Water Utility Operating Fund	Fee	Note
Utility Charges/Rates A. Water Service Rates		

For all bills rendered on or after November 1, 2021, these rates are applicable to all sales or service of water to customers served by the City of Austin.

Retail Customers

A. Minimum Charge Rates-Retail

1. Retail Monthly Meter Equivalent Minimum Charge-All Retail Classes

Customers will be assessed a monthly meter equivalent minimum charge for each meter when water consumption has registered or for service of at least 10 days of the monthly billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the Retail Monthly Meter Equivalent Minimum Charge.

Meter Size

a. 5/8"	\$7.25
b. 3/4"	\$10.60
c. 1"	\$13.60
d. 1 1/2"	\$15.50
e. 2"	\$25.40
f. 3"	\$75.10
g. 4"	\$124.80
h. 6"	\$253.80
i. 8"	\$482.20
j. 10"	\$760.20
k. 12"	\$998.40

2. Single-Family Residential Monthly Tiered Minimum Charge:

This fee is charged in addition to the Retail Monthly Meter Equivalent Minimum Charge. The residential monthly tiered minimum charge is applied based on the total billed consumption for the billing period as it falls within a rate block, not as a volumetric charge per 1,000 gallons.

Residential customers will be assessed a monthly tiered minimum charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period based on billed consumption for the billing period. Participants in the Customer Assistance Program (CAP) qualify for a waiver of the Monthly Tiered Minimum Charge.

Tier 1: 0 - 2,000 Gallons	\$1.25
Tier 2: 2,001 - 6,000 Gallons	\$3.55
Tier 3: 6,001 - 11,000 Gallons	\$9.25
Tier 4: 11,001 - 20,000 Gallons	\$29.75
Tier 5: 20,001 - Over Gallons	\$29.75

Austin Water - Water Utility Operating Fund	Fee	Note
3. Multifamily Monthly Minimum Charge:		
This fee is charged in addition to the Retail Monthly Meter Equivalen		
monthly minimum fixed charge for each meter when consumption ha	as registered, or for service of at least 1	0 days of the monthly billing
period based on meter size.		
Meter Size		
a. 5/8"	\$12.50	
b. 3/4"	\$21.00	
c. 1"	\$33.00	
d. 1 1/2"	\$42.00	
e. 2"	\$83.00	
f. 3"	\$292.00	
g. 4"	\$500.00	
h. 6"	\$1,042.00	
i. 8"	\$2,000.00	
j. 10"	\$3,167.00	
k. 12"	\$4,167.00	

4. Commercial Monthly Minimum Charge

This fee is charged in addition to the Retail Monthly Meter Equivalent Minimum Charge. Commercial customers will be assessed a monthly minimum fixed charge for each meter when consumption has registered, or for service of at least 10 days of the monthly billing period based on meter size.

Meter S	ize:
---------	------

a. 5/8"	\$8.75
b. 3/4"	\$15.00
c. 1"	\$23.00
d. 1 1/2"	\$29.00
e. 2"	\$58.00
f. 3"	\$204.00
g. 4"	\$350.00
h. 6"	\$729.00
i. 8"	\$1,400.00
j. 10"	\$2,217.00
k. 12"	\$2,917.00

5. Large Volume Monthly Minimum Charge

tin Water - Water Utility Operating Fund	Fee	Note

FY 2021-22 Fee Schedule

Fee added to Utility Bills for customer requests for Utility to cut off/on service to water meter for repairs or other miscellaneous reasons. Customers requesting meter flow tests whose outcomes determine that a low pressure issue was not found to be occurring on the City side will be assessed an Emergency Cut-off Fee.

Fee

Fire Hydrant Meter Fees

Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be deducted from the deposit, if applicable. Refer to City Ordinance No. 20051020-005.

FY 2021-22 Fee Schedule

Austin Water - Wastewater Utility Operating Ful

Fee

Utility Charges/Rates

A. Wastewater Service Rates

For all bills rendered on or after November 1, 2021, these rates are applicable to all service for wastewater treatment to retail customers served by the City of Austin. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge for retail customers will be based on their wastewater average.

Wastewater Service Rates for Retail Customers:

Existing Customers

(A) Retail Customers with Water Service

These rates are applicable to all retail customers who have metered water connections. Wastewater billing is based on the average water usage during the designated three (3) month wastewater averaging period; or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. If there is zero usage for two or all three months of the averaging period, a default wastewater average of 5,000 gallons will be assigned for residential customers until the next wastewater averaging period. For all other retail customers if there is zero usage for two or all three months of the averaging period. For all based on actual metered water usage monthly until the next wastewater averaging period.

(B) Wastewater Billing for Domestic Alternate Water Sources

Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure discharged into the sewer system and report meter discharged into the sewer system and report meter reads as required.

(C) Non-Residential Customers with associated Irrigation Meters (Multifamily, Commercial, Large Volume and Wholesale)

For those non-residential customers that have a separate City of Austin irrigation water meter for irrigation or alternative irrigation water source on the property other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base wastewater billing for domestic usage on actual monthly water consumption. Any property that has an irrigation meter requirement will base wastewater billing for domestic usage on actual monthly water consumption.

(D) Non-Residential Customers without irrigation needs or requirements on the property

Non-Residential Customers without irrigation needs or requirements on the property will base wastewater billing for domestic usage on actual monthly water consumption.

(E) Criteria and procedures for existing Commercial customers to qualify as a Large-Volume customer Criteria

An existing commercial customer of Austin Water must purchase more than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption to determine if any existing customers have exceeded the 85.0 million gallon level.

FY 2021-22 Fee Schedule

Austin Water -	Wastewater Utili	ity Operating Fund
----------------	------------------	--------------------

Fee

Procedures

Upon verification of the 85.0 million gallon purchase or consumption requirement in fiscal year one, Austin Water will include this customer as a large volume customer in its next rate setting cycle. The next rate setting cycle is during fiscal year two, and will set rates that are to be effective November 1 of fiscal year three. Austin Water will verify the water consumption in fiscal year two, before the rate change on November 1 of fiscal year three, to determine if the commercial customer has maintained the 85.0 million gallon water consumption level for the second consecutive fiscal year. If the commercial customer maintains the 85.0 million gallon level, the City will change the rates for the commercial customer to the large volume customer rates on November 1 of fiscal year three. The City will bill the commercial customer for water consumption after the November 1 rate change at the new large volume rate. The City will give no credit for water consumption in the qualifying fiscal years before the November 1 rate change. If the customer does not maintain the 85.0 million gallon level in the second fiscal year, the customer will remain at commercial class rates.

(F) Criteria and procedures for existing Large Volume customers with reduced volume

Criteria

An existing Large Volume customer of Austin Water purchases less than 85.0 million gallons of water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Austin Water will annually monitor water consumption for all existing large volume customers to determine whether the minimum 85.0 million gallon level has been met. Procedures

Upon verification of fiscal year water use below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing of the shortfall. If the customer falls below the 85.0 million gallon level for a second consecutive year, a second notice will be sent notifying the customer that they will be converted to the commercial class during the November billing cycle of that same year. Once a customer has lost industrial status, the criteria and procedures for an existing commercial customer to qualify as a large volume/industrial customer will be followed. Large volume customers that have implemented Austin Water approved conservation initiatives that causes their water consumption to fall below the 85 million gallons threshold may continue to receive the large volume rate provided that the annual water consumption remains above 65 million gallons and the reduced usage does not create a peaking factor that would be greater than the commercial class peaking factor.

(G) Existing Large Volume Customers with Major Process Changes

Criteria

An existing Large-Volume customer of Austin Water who has major process changes (e.g. sells off parts of the company, business changes with lower use projections, etc.) and the original business plans to purchase less than 85.0 million gallons of the water during a fiscal year that is between October 1 and September 30 at a single service address or campus. Procedures

FY 2021-22 Fee Schedule

Austin Water - Wastewater Utility Operating Fund

Upon notification of a major process change that reduces water use projections below the 85.0 million gallon consumption requirement to maintain large volume customer status, the Strategic Resource Services Division of Austin Water will notify the customer in writing that they will be converted to the commercial class on the billing cycle following the verification of the actual process change in which water use is reduced.

Fee

New Customers

(A) Residential

The City will impute a wastewater average of 5,000 gallons to new residential accounts until they have established a wastewater average. The Director of the Austin Water Utility or the Director's designee has the discretion to adjust the 5,000 gallon average when the customer has had an established wastewater average at another City of Austin service address.

(B) Non-Residential Customers without irrigation meter(s) (Multifamily, Commercial, Large Volume and Wholesale)

(1) Except as provided by subsection (2), if a non-residential customer establishes a new account at a service location where an earlier account established a wastewater average, the City will use the earlier wastewater average for wastewater service billing purposes until the new account establishes its own wastewater average.

(2) If in the judgment of the Director of the Austin Water Utility or the Director's designee, the new customer will place a substantially different demand on the wastewater collection and treatment system, the City will bill the new non-residential customer for wastewater service based on actual metered water consumption until the new non-residential customer has established a wastewater average.

(C) Wastewater Billing for Domestic Alternate Water Sources.

Wastewater volumes for Single Family Residential customers will be based on a historical wastewater average. In the absence of a historical wastewater average, the City will impute a wastewater average of 5,000 gallons. The customer has the option to install private water metering acceptable to the City to measure alternate water discharged into the sewer system and report meter reads as required. Non-residential customers must install approved private metering acceptable to the City to measure discharged into the sewer system and report meter discharged into the sewer system and report meter reads as required.

(D) Non-residential Customers with associated Irrigation Meters. (Multifamily, Commercial, Large Volume and Wholesale) If a new non-residential customer has installed a separate City water irrigation meter or alternative irrigation water source on the property, other than a water meter solely for a City Supported Community Garden or Urban Farm as defined in Chapter 14-7 of the City Code, the City will base the new customer's wastewater billing for domestic usage on actual monthly water consumption.

(E) Criteria and Procedures for new Large-Volume Customers

Criteria

New large volume customers that have requested connection to the water and wastewater system must submit water use projections to Austin Water as part of the service extension process. Austin Water will review the water use projections to verify that the customer would consume more than 85.0 million gallons within a fiscal year at a single service address or campus.

Procedures

ustin Water - Wastewater Utility Operating Fund	Fee	Note
After the customer has provided Austin Water with water use projectic approval, the City will classify the customer as a large volume custom water and wastewater system. If Austin Water does not approve the c gallon level, the City will classify the customer appropriately.	er and charge the appropriate rate	upon connection to the City's

Wastewater Service Rates for Wholesale Customers:		

Austin Water - Wastewater Utility Operating Fund	Fee	Note
--	-----	------

(A) Application. For all bills and charges rendered on or after November 1, 2021, the City will charge the following rates for wholesale customers.

These charges are applicable to wholesale wastewater service customers of the City of Austin who are water districts, municipal utility districts, or other utilities which have metered water connections. In the absence of measured sewage volume by a means acceptable to the City, the volume service charge will be based on the average water usage during the designated three (3) month wastewater averaging period, or monthly water consumption, whichever is lower. If there is zero usage during one of the three months in the averaging period, the month with zero usage is eliminated, and the remaining two months are used in the wastewater averaging calculation. For new customers who have not established an average water usage during the December, January, and February billing period, the City will use the actual water consumption figure or the measured sewage volume to establish the wastewater billing.

(B) New Customers. The volume rate for any wholesale customer that is not listed above will be based on a weighted cost of service average of all Wholesale customers. That rate will remain in effect until the new customer establishes a full 12 month's consumption history. After that time, the Austin Water Utility will establish an individual rate and seek approval of that rate by the City Council.

Utility Piping Permit Fee

\$699.00 \$708.20

Annual fee used to recoup the costs incurred in regulating the chemical providing companies performing temporary utility piping activities in the City of Austin's water service area (e.g., analyzing and documenting plans, specifications, applications and reports, monitoring and inspecting sites where temporary utility piping activities have be authorized, enforcing regulations when violations occur, etc.). All of these activities are conducted to ensure compliance with pretreatment program and other health and safety requirements. This annual Utility Piping Permit fee is prorated by quarter if the chemical provider company is in its first year of operation. Subsequent years of operation are charged at the full annual rate.

Utility Special Service Billings

The Utility charges the following hourly rates for these special service requests:

\$107.00 \$108.45
\$179.00 \$181.35
\$179.00 \$181.35
\$107.00 \$108.45

\$179.00 \$181.35

Wastewater Discharge Permit Base Fee

Permit Base Fees for Category I General and Category V Dental Industrial Users are charged on a monthly basis at 1/12 of the respective fee shown below. These Category I and Category V Permit Base Fees are only charged during the month(s) the General or Dental Industrial User's account is active. For all other Industrial Users (e.g. significant industrial users, categorical industrial users, major industrial users, other political subdivision industrial users, etc.) Permit Base Fees are charged on an annual basis at one of the rates shown below for Categories II through IV. This annual Permit Base Fee is prorated by quarter if the Industrial user is in its first year of operation. Subsequent years of operation are charged at the full annual rate. Analytical costs will be determined by the amount of Water Laboratory cost associated with each Industrial User. The Category V Permit Fee for Dental Industrial Users will only be applied when the federal categorical standards stipulated in 40 CFR 441 become effective.

Annual Permit Fee	
Category I - General Industrial Users	\$176.52 \$178.92
Category II - Significant Industrial Users	\$729.05 \$738.72
Category III - Major Industrial Users	\$729.05 \$738.72
Category IV - Categorical Industrial Users	\$954.89 \$967.68

Austin Water - Reclaimed Water	r Utility Operating Fund
--------------------------------	--------------------------

Fee

Utility Charges/Rates

A. Reclaimed Water Service Rates

For all bills and charges rendered on or after November 1, 2021, these rates are applicable to all sales or service of reclaimed water to retail customers served by the City of Austin. Customers will be assessed a monthly charge for each meter when water consumption has registered, or for service of at least 10 days of the monthly billing period. Reclaimed water used for domestic, cooling, or other non-irrigation purposes will be treated the same as potable water as it relates to wastewater billing.

Transport Discount Program		

The Emergency Medical Services Department may offer discounted transport fees (ALS1, ALS2, BLS) under the following circumstances: Financially Indigent:

Financially indigent means an uninsured or underinsured person who is accepted for care with a discounted obligation to pay for the services rendered based on Charity Care Eligibility System. Services eligible under this procedure will be made available to the patient on a sliding fee scale, in accordance with financial need, as determined in reference to Federal Poverty Guidelines (FPG) in effect at the time of the determination. To qualify an individual must:

Have a family income and family size as described by the Federal Poverty Levels

Poverty Guideline		
AGI falls below the 125% FPG	100%	Discounted Percent
AGI falls below the 150% FPG	75%	Discounted Percent
AGI falls below the 175% FPG	50%	Discounted Percent
AGI falls below the 200%	25%	Discounted Percent

Not have insurance to cover the ambulance service provided

Medically Indigent:

Medically indigent means a patient whose ATCEMS bills, after payment by third-party payers, exceeds a specified percentage of the person's Yearly Income, and who is unable to pay the remaining bill. A medically indigent patient will receive a 50% discount on the qualifying service. To qualify an individual must have:

A family income less than or equal to 500 percent of the Federal Poverty Guidelir ATCEMS bills exceeding ten percent (10%) of the patient/s Adjusted Gross Incom

Return Check Charges

The Texas Business and Commerce Code allows the City to change a processing fee for the return of a "payment device" that is defined as any check, item, paper or electronic payment, or other payment device used as a medium for payment. The Texas Local Government Code allows a service charge for a payment by credit card that is not honored by the credit card company. The City amount of the service charge is the same as the fee charged for the collection of a check drawn on an account with insufficient funds. Note: All departments except those established in Ordinance 89-0214 (Utility Service Regulations).

\$30.00

Concessions/Sales

Convenience Fee Depending on the form of payment, a convenience fee could be charged.

Printing/Copies

Copy Charges

The fees for copies of public information are prescribed by the Texas Attorney General's Office and approved by City Council.

Zilker Botanical Garden		

Entrance fees to the Zilker Botanical Garden may be waived as part of a membership program for the Zilker Botanical Garden Conservancy, up to the limit established by contract, but not to exceed the amount established by Ordinance No. 20180628-036. Funds raised by the Conservancy through a membership program will be utilized for additional educational and operational support of the Zilker Botanical Garden.

Building, facility, and grounds use fees/rentals may be waived for the purpose of educational programs and fundraising activities for the Zilker Botanical Garden Conservancy, up to the limit established by contract, but not to exceed the amount established by Ordinance No.

Multi Group Session (2 or More)	\$50.00	

Entry Fees

The City Manager shall waive the "per day" entry fee for all entrants to the Zilker Botanical Garden for the duration of the day a minimum of eight days per year to include at least three weekend days.

The City Manager has the authority to waive fees for PARD Director-identified user groups with financial needs, including but not limited to PARD scholarship recipients, Title One Schools, and participants in particular PARD programs.

The Parks Department shall analyze the impact of Per Day Entry Fee waivers on the goal of ensuring affordability for Austin residents as well as on revenues for Garden improvements and may develop alternative approaches to achieve the same affordability purpose.

The average cost among those of	mid-range for that position. Four	r different venues were
ility Charges/Rates Monthly Drainage Charge		

Watershed Protection

Note

Fee

A credit of up to a 50% reduction in the square feet of impervious cover may be provided for voluntary stormwater control measures as established by administrative rule.

Fee (all properties) = Impervious Cover (sqft) X Monthly Base Rate X Adjustment Factor

Monthly Base Rate: \$0.00498 per square foot of impervious cover.

% of Impervious Cover = Impervious Cover / Property Size

Adjustment Factor (AF) unique to each property:

AF = (1.5425 x % Impervious cover) + 0.1933

Monthly Drainage Charge = % Impervious Cover x Monthly Base Rate x Adjustment Factor

Regional Stormwater Management Participation Fees (RSMP)

Each Regional Stormwater Management Program (RSMP) agreement is mutually exclusive. No credit will be given for impervious cover paid for in previous RSMP agreements for subsequent phases of development. However, applicants may combine all related phases of a development into one RSMP agreement and remit the associated total payment at the time the permit for the first phase is approved. NOTE: Requirements for participation in the Regional Stormwater Management Program are located in Section 8.2.2 of the Drainage Criteria Manual. The RSMP payment in lieu of detention consists of two components; the construction cost component (CCC) and the land cost component (LCC). The two components are calculated independently for single-family developments and multi-family / commercial developments. Below are the details of how to calculate the fees.

1. RSMP Construction Cost Component (CCC)

The number of impervious acres is used to determine this part of the participation payment. The number of impervious acres is based on the maximum allowable impervious acreage as allowed by the more restrictive of zoning or watershed ordinance for subdivisions. Site plans may use the actual impervious cover for the site. For each fiscal year, the construction cost adjustment factor shall be recalculated in October as the ratio of the then current September ENR Construction Cost index divided by the September 2018 Construction Cost index. This new construction cost adjustment factor shall be applied to all participation payments collected during that fiscal year.

Commercial & Multi-family Residential Development

Number of Impervious Acres:

a) 0.00 - 1.00	\$129,000.00	per impervious acre
b) 1.01 - 2.00	\$70,000.00	per impervious acre
c) 2.01 - 5.00	\$44,000.00	per impervious acre
d) 5.01 - 10.00	\$29,000.00	per impervious acre

2. RSMP Land Cost Component (LCC)

The land cost component (LCC) is calculated separately for each type of development, in conjunction with the construction cost component. LCC = 80% * (Appraised Land Value/ Appraised Land Area) * 5% * (Land Cost Area)

Where:

units are [\$/acre * acre = \$]
Land Cost per Acre = Appraisal District (appraised value /appraised area) x Land Cost Area Land Cost Area =

New Development = Gross Site Area – Deductible Areas Redevelopment = Limits of construction – Deductible Areas

Deductible Areas = (Drainage Easements, Water Quality Easements, and Conservation Easements)

Note: Impervious cover areas within easements cannot be deducted from the land cost area.

Land costs will be based on the land valuation. This may be established by a certified appraiser or by Appraisal Districts. The RSMP applicant must provide the parcel identification number for each parcel within the proposed development prior to RSMP approval. Upon RSMP participation approval, the applicant must provide dated copies of either a certified appraisal or the appraisal district's valuation for each parcel within the proposed development.

Properties that are not appraised by Appraisal Districts, such as property owned by a governmental entity, may choose to use the capped land cost per acre values for RSMP participation. The land cost will be determined by the appraised value at the time of payment of the RSMP fee, not when the site is approved for participation in the RSMP. The effective date for Appraisal District valuations is the first of October for the current City of Austin fiscal year.

If a development encompasses more than one tax parcel, the land cost per acre will be based on the arithmetic mean of the land valuation from all parcels.

3. RSMP Total Cost = (CCC*ENR CCI AF) + (LCC*ICAF)

Where CCC uses the proposed rate structures and units are [\$/acre (different rates) * acres = \$]

ICAF = (1.5425 x percent [proposed total] impervious cover) + 0.1933

The impervious cover adjustment factor is from the Drainage Charge calculation and adjusts the land cost component down based on the total proposed impervious cover relative to the City's weighted average impervious cover (52.3%). If the impervious cover proposed for a site is greater than the City's weighted average, the ICAF will equal 1.

All Developments

ershed Protection	Fee	Note
For sites that are in more than one watershed, the calculated RSMP twatershed.	fee will be apportioned by the perce	ntage of the site in each
For sites that have extremely high appraised land values, the calculat site detention. Therefore, an overall cap of \$440,000 per acre of site a calculated payment would exceed the amount calculated based on the indexed annually based on the September ENR Construction Cost Inc	area will be used for the calculation is per acre cost. Glossary of Terms	

Residential Service

Application:

Applies to all electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other residential dwelling unit as classified by City Code or Ordinance whose point of delivery is at secondary voltage less than 12,470 volts nominal line to line located within Austin Energy's service territory. The rate tables below reflect rates with effective dates of November 1, 2021.

The appropriate General Service schedule applies where a portion of the dwelling unit is used for a) conducting a business, or other non-domestic purposes, unless such use qualifies as a home occupation pursuant to City Code Chapter 25-2-900 or the dwelling unit is classified as a residential shop house under City Code or Ordinance, or b) for separately-metered uses at the same premises, including, but not limited to water wells, gates, barns, garages, boat docks, pools, and lighting.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and allow reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For information on other applicable rates (i.e., Power Supply Adjustment, Community Benefit, and Regulatory Charge), please *see* corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Discounts:

Residential customers who receive, or who reside with a household member who receives, assistance from the Comprehensive Energy Assistance Program (CEAP), Travis County Hospital District Medical Assistance Program (MAP), Supplemental Security Income Program (SSI), Medicaid, Veterans Affairs Supportive Housing (VASH), the Supplemental Nutritional Assistance Program (SNAP), the Children's Health Insurance Program (CHIP), or the Telephone Lifeline Program are eligible for a discount under the Customer Assistance Program (CAP).

Initially, all eligible residential customers will be automatically enrolled in the discount program through a third-party matching process, with self-enrollment available directly through Austin Energy. For self-enrollment, the residential customer will provide documentation to show the household currently receives the approved assistance programs listed above or that demonstrates the household income is at or below 200 percent of the Federal Poverty Level (FPL) guidelines.

Eligible customers will be removed from the discount program in the following situations: 1) the customer's homesite improvement value, as most recently determined by the appropriate appraisal district, is equal to or greater than \$250,000.00, and household income is greater than 200 percent of the FPL guidelines; or 2) the customer owns two or more properties within the Austin Energy service territory, and household income is greater than 200 percent of the FPL guidelines. In either situation, the

eligible customer must provide sufficient information to enable Austin Energy to verify that the household income is at or below 200 percent of the FPL guidelines.

Customers enrolled in the discount program are exempt from the monthly Customer Charge and the CAP component of the Community Benefit Charge and shall receive a 10 percent bill reduction on kilowatthour-based charges. Customers enrolled in the discount may be eligible for bill payment assistance through arrearage management. Additionally, customers in the discount program, as well as other low income and disadvantaged residential customers, may be eligible for bill payment assistance through Plus 1 and for free weatherization assistance.

Rider Schedules:

Service under this rate schedule is eligible for application of GreenChoice® Rider, Community Solar Rider, and Non-Demand Value-Of-Solar Rider. Customers receiving service under the Community Solar Rider cannot combine services with either the Non-Demand Value-of-Solar Rider or GreenChoice® Rider.

General Service

Application:

Applies to all metered, non-residential secondary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to secondary voltage less than 12,470 volts nominal line to line. The rate tables below reflect rates with effective dates of November 1, 1.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For the purpose of this schedule, all demand for power in kilowatts (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor and load factor corrections.

When power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 13.5 kW, and if the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percentthen Billed kW equals 14.0 kW (13.5 kW x 0.90 / 0.87 power factor).

For information on other applicable rates (*i.e.*, PSA, CBC, Regulatory Charge, etc), please *see* corresponding schedules in this tariff (if applicable). For a definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Discounts:

For any independent school district, military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Electric service provided to a "religious sanctuary," a permanent or temporary building or facility that is primarily used for regular, organized group religious worship services that are open to the public, is eligible for the House of Worship Discount.

To be eligible for the House of Worship Discount, a customer must be a tax-exempt 501(c)(3) organization for federal tax purposes and a tax-exempt religious organization under Sections 151.310,

156.102 and 171.058 of the Texas Tax Code. The House of Worship Discount is not available for electric service provided to any school, educational facility, community recreational facility, child care facility, dormitory, residence, lodge, parking facility, gymnasium, meeting hall, office or event center.

For a customer eligible for the House of Worship Discount, Billed kW shall be the kilowatt demand during the fifteen-minute interval of greatest use during weekdays, excluding weekends, during the current billing month as determined by metering equipment installed by Austin Energy, adjusted for power factor as described above in Terms and Conditions.If a customer is receiving service under a secondary voltage rate schedule with demand greater than 10kW, and the customer's monthly load factor is below 20 percent, the Billed kW will be reduced to the value required to result in an effective load factor of 20 percent. Load factor is calculated as all energy consumption divided by Billed kW multiplied by number of hours within the billing month. For example, assuming a customer had energy consumption of 1,152 kWh, Billed kW of 16 kW, and 720 hours in the billing month, the load factor would be 10 percent [1,152 kWh ÷ (16 kW * 720 hours)]; therefore, to equal a 20 percent load factor the Billed kW would need to be reduced to 8 kW [1,152 kWh ÷ (20 percent load factor * 720 hours)]. Load factor is used only for determining a customer's Billed kW, not a customer's placement within the proper rate schedule and is calculated after the power factor adjustment.

Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider, either Non-Demand or Demand Value-Of-Solar Riders, and Load Shifting Voltage Discount Rider. Customers receiving service under either the Non-Demand or Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider.

Secondary Voltage (Demand less than 10 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 10 kW, or unmetered small cell pole equipment attached to City of Austin property. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will estimate usage in order to place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to the appropriate class and will be charged the corresponding rates beginning on January 1.

For each unmetered small cell pole equipment attached to City of Austin property, the daily billable energy consumption is 2.88 kWh per amperage (amp); therefore, to determine monthly billable energy consumption you would multiply the daily billable energy consumption by the equipment amperage rating and days in the billing month. For example, assuming a small cell pole attachment has a 5-amp equipment rating and there are 30 days in the billing month, then the monthly billable energy consumption would be 432 kWh [5 amps * 2.88 kWhs * 30 days]. 'Small cell pole equipment' refers to small wireless communications equipment or distributed antenna systems used to receive or transmit radio frequencies for low-powered radio access nodes consisting of radios, radio transceivers, antennas, amplifiers, switches, repeaters, or other related component equipment.

	Inside City Limits	Outside City Limits
Basic Charges (\$/month)

Billed kWhs	\$0.1009	\$0.1009

Secondary Voltage (Demand greater than or equal to 10 kW but less than 300 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 10 kW but did not meet or exceed 300 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will estimate usage in order to place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to the appropriate class and will be charged the corresponding rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that the customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in its connected load, which prevents the customer from meeting or exceeding the minimum-metered demand threshold of this rate schedule, and Austin Energy has verified these changes.

Large General Service

Application:

These rate schedules apply to all primary voltage electric service whose point of delivery is located within the limits of Austin Energy's service territory. These rates apply to primary voltage between 12,470 and 69,000 volts nominal line to line. The rate tables below reflect rates with an effective date of November 1, 1.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For the purpose of this schedule all demand for power in kilowatts (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying the metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 10,350 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 10,707 kW (10,350 kW x 0.90 / 0.87 power factor).

For information on other applicable rates (*i.e.*, PSA, CBC, Regulatory Charge, etc) please *see* corresponding schedules in this tariff (if applicable). For a definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Discounts:

For any independent school district, military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider, Demand Value-Of-Solar Rider, and Load Shifting Voltage Discount Rider. Customer receiving service under the Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider.

Primary Voltage (Demand less than 3,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months did not meet or exceed 3,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will estimate usage in order to place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to the appropriate class and will be charged the corresponding rates beginning on January 1.

This is the default rate option under this schedule.

	Inside City Limits	Outside City Limits

Primary Voltage (Demand greater than or equal to 3,000 kW and less than 20,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 3,000 kW but did not meet or exceed 20,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will estimate usage in order to place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to the appropriate class and will be charged the corresponding rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in its connected load, which prevents the customer from meeting or exceeding the minimum-metered kW threshold of this rate schedule, and Austin Energy has verified these changes. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

This is the default rate option under this schedule.

	Inside City Limits	Outside City Limits
Basic Charges		
Customer (\$/month)	\$2,200.00	\$2,200.00
Delivery (\$/kW)	\$4.50	\$4.50
Demand Charges (\$/kW)		
Billed kWs	\$9.17	\$9.17
Energy Charges (\$/kWh)

Regulatory Charge (\$/kW)		
Billed kWs	\$2.75	\$2.75

Primary Voltage (Demand greater than or equal to 20,000 kW)

These rates apply to any customer whose average metered peak demand for power during the most recent June through September billing months met or exceeded 20,000 kW. If a customer has insufficient usage history to determine the appropriate rate schedule, Austin Energy will estimate usage in order to place the customer in the appropriate class. Demand data will be reviewed annually in October. Customers will be assigned to the appropriate class and will be charged the corresponding rates beginning on January 1.

These rates shall apply for not less than twelve months following Austin Energy's determination that customer's average summer (June through September) metered peak demand level places customer in this rate class. The twelve-month requirement may be waived by Austin Energy if a customer has made significant changes in its connected load, which prevents the customer from meeting or exceeding the minimum metered kW threshold of this rate schedule and these changes have been verified by Austin Energy. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

	Inside City Limits	Outside City Limits
Basic Charges		
Customer (\$/month)	\$2,750.00	\$2,750.00
Delivery (\$/kW)	\$4.50	\$4.50
Demand Charges (\$/kW)

Community Benefit Charges (\$/kWh)		
Customer Assistance Program	\$0.00058	\$0.00058
Service Area Lighting	\$0.00122	\$0.00000
Energy Efficiency Services	\$0.00233	\$0.00233
Regulatory Charge (\$/kW)		
Billed kWs	\$2.75	\$2.75

High Load Factor Primary Voltage (Demand greater than or equal to 20,000 kW)

These rates apply to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

Minimum Bill:

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

Maximum Community Benefit Charges:

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any calendar year (prorated for any partial year). Charges for Service Area Lighting (SAL) and Energy Efficiency Services (EES) do not apply under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor. Dual Feed Service charges are not applicable to this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

Basic, energy, demand, and applicable community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time, they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024. PSA and Regulatory Charge will be set in accordance the appropriate rate schedule.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at primary voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

Basic Charges	
Customer (\$/month)	\$11,000.00
Delivery (\$/kW)	\$4.50
Demand Charges (\$/kW)	
Billed kWs	\$10.20
Energy Charges (\$/kWh)	
Billed kWhs	\$0.00000
Power Supply Adjustment Charge (\$/kWh)	
Billed kWhs	\$0.03009
Community Benefit Charges (\$/kWh)	
Customer Assistance Program	\$0.00058
Regulatory Charge (\$/kW)	
Billed kWs	\$2.75

Transmission Service

Application:

These rates apply to electric service at 69,000 volts or above nominal line to line, and whose point of delivery is located within the limits of Austin Energy's service territory. The rate tables below reflect rates with effective dates of November 1, 1.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For the purpose of this schedule all demand for power in kilowatts (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment, adjusted for power factor corrections.

When the power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, if the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 31,000 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 32,068 kW (31,000 kW x 0.90 / 0.87 power factor).

For information on other applicable rates charges (*i.e.*, PSA, CBC, Regulatory Charge, etc.)please *see* corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Discounts:

For any independent school district, military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Rider Schedules:

Service under this rate schedule is eligible for application of the GreenChoice® Rider and Load Shifting Voltage Discount Rider.

Transmission Voltage

This is the default rate option under this schedule.

	Inside City Limits	Outside City Limits
Basic Charges

High Load Factor Transmission Voltage (Demand greater than or equal to 20 MW)

These rates apply to any customer whose average monthly billed demand for power met or exceeded 20,000 kW and has an annual average monthly load factor of at least 85 percent.

Contract Term:

For a term ending at the end of the billing month that includes October 31, 2024, the customer shall enter into an exclusive sole supplier agreement to purchase its entire bundled electric service requirements for the facilities and equipment at the account service location, with an exception for on-site back-up generation and up to 1 MW of on-site renewable generation capacity. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the customer's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the customer's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the customer may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

Minimum Bill:

The minimum monthly bill is the highest billed demand established during the most recent 12-month billing period multiplied by the Demand Charge, in addition to any associated fuel, power supply, or block pricing charges.

Maximum Community Benefit Charges:

During the term of a service contract, Customer Assistance Program charges shall not exceed \$200,000 during any calendar year (prorated for any partial year). Charges for Service Area Lighting and Energy Efficiency Services (EES) do not apply under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the customer's billing month that includes October 31, 2024. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. The customer is ineligible for participation in energy efficiency, retail demand response, and renewable energy incentive programs. Billed amounts due and owing shall incur a penalty of one percent per month until paid.

Average annual monthly load factor is the sum of the customer's load factor percentages for the previous twelve billing months divided by twelve. Verified reductions in energy consumption made in response to a request for Emergency Response Service or another demand response program operated by ERCOT shall be credited in calculating load factor.

Basic, energy, demand, and applicable community benefits charges will be fixed for the initial contract period ending October 31, 2018, at which time; they are reset to the most recent cost of service study unity rates. The Austin City Council may amend these charges to be fixed for the period November 1, 2018, through October 31, 2021, and again for the period November 1, 2021, through October 31, 2024. PSA and Regulatory Charge will be set in accordance with their appropriate rate schedules.

If, during the initial contract period ending October 31, 2018, the City Council adopts new base electric rates for customers receiving service at transmission voltage based upon a comprehensive cost-of-service study, the customer may opt to have its contract rates adjusted to any applicable new rates during the initial contract term.

Lighting

Application:

These rates apply to customers who take service under the lighting rate schedules show below. For nonmetered lighting accounts, the supply of electricity is determined by the number of hours of operation based on hours of darkness. The rate tables below reflect rates with effective dates of November 1, 1.

Character of Service:

Service provided under these rate schedules are pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule remain unaffected by the application of any rider.

For information on other applicable rates charges (*i.e.*, PSA, CBC, Regulatory Charge, etc.), please *see* corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Discounts:

For any independent school district, military base as outlined in the Public Utility Regulatory Act §36.354, or State facilities, the monthly customer-, delivery-, demand-, and energy-charges billed pursuant to these rate schedules will be discounted by 20 percent; all other electric charges will be billed pursuant to these rate schedules and will not be discounted.

Rider Schedules:

Service under these rate schedules is eligible for application of the GreenChoice® Rider.

Customer-Owned, Non-Metered Lighting

These rates apply to non-metered electric service to the Texas Department of Transportation for sign lighting and safety illumination at various locations.

Energy Charges (\$/kWh)	
Billed kWhs	\$0.02604
Power Supply Adjustment Charge (\$/kWh)	
Billed kWhs	\$0.03078

Customer-Owned, Metered Lighting

These rates apply to electric service to metered athletic field accounts whose connected load is more than 85 percent attributable to lighting, as verified by Austin Energy.

Basic Charges (\$/month)

Customer	\$15.00
Delivery	\$0.00
Energy Charges (\$/kWh)	
Billed kWhs	\$0.06175
Power Supply Adjustment Charge (\$/kWh)	
Billed kWhs	\$0.03078

City of Austin - Owned Outdoor Lighting

These rates apply to electric service to non-metered outdoor lighting owned and operated by the City of Austin other than Service Area Lighting. "Billed kWh" will be used for the purpose of determining PSA charges.

Fixture Charges (\$/fixture/month)	
100 Watt or Less (Billed 35 kWh)	\$7.03
101 - 175 Watt (Billed 60 kWh)	\$12.05
176 - 250 Watt (Billed 90 kWh)	\$18.07
251 Watt or Greater (Billed 140 kWh)	\$28.12
Power Supply Adjustment Charge (\$/kWh)	
Billed kWhs	\$0.03078

Service Area Lighting

These rates apply to electric service for illumination and the operation of traffic signals on all public streets, highways, expressways, or thoroughfares; other than non-metered lighting maintained by the Texas Department of Transportation. Revenues received through the Service Area Lighting component of the Community Benefit Charge are applied to offset these charges inside the City of Austin.

Energy Charges (\$/kWh)	
Billed kWhs	\$0.23219
Power Supply Adjustment Charge (\$/kWh)	
Billed kWhs	\$0.03078

Power Supply Adjustment

Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 1.

Character of Service:

The Power Supply Adjustment (PSA) provides for the recovery of the preceding year's expenditures for (PSA Costs):

- ERCOT Settlements charges and credits from ERCOT, other than the Administrative Fees.
- Fuel Costs costs for fuel, fuel transportation, and hedging gains and losses.
- Net Purchased Power Agreement Costs costs and offsetting revenues (such as, bilateral sales and GreenChoice) associated with short- and long-term purchased power agreements, and costs for distributed generation production.

As part of the City of Austin's annual budgeting process, which includes a public hearing, the PSA is determined by calculating the sum of all net power supply costs divided by the historical twelve-month period service territory sales, plus any existing over- or under-recovery of PSA Costs balance divided by projected service territory sales preceding the effective date of the PSA. This results in an annual uniform system rate per kWh that is adjusted for voltage level and applied to each of the customer classes. At least once each year, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA by system voltage level. The PSA Cost calculation will break out Fuel Costs, ERCOT Settlements, and Net Purchased Power Agreement Costs; it will also show the extent of over- or under-recovery of PSA Costs for the previous twelve months.

From the effective date of the last PSA adjustment, the PSA may be adjusted to eliminate any over- or under-recovery if the balance of net PSA Costs recovered is either over or under 10 percent of the actual PSA Costs incurred during such period. If such over- or under-recovery is projected to remain either over or under 10 percent after 12 months from the effective date of the last PSA adjustment, then the PSA shall be adjusted to eliminate the amount of the over- or under-recovery balance within the next 12 months. Within 30 days of any adjustment of the PSA to eliminate over- or under-recovery of PSA Costs, the City Manager will publicly present a report to the City Council that provides the underlying calculations for the PSA, both pre- and post-adjustment by system voltage level.

Voltage Level	Adjustment Factor	Power Supply Rate (\$/kWh)
System Average	1.0000	\$0.03063
Secondary	1.0049	\$0.03078
Primary	0.9821	\$0.03009
Transmission	0.9696	\$0.02970

The PSA charges by voltage level are:

Renewable Offtake Agreement Option:

Qualifying customers who desire to purchase and receive additional renewable energy and associated renewable energy credits (RECs) to meet their sustainability targets may enter into a contract with Austin Energy backed by a renewable power purchase agreement (RPPA) between Austin Energy and a third-party generator for a specified megawatt-hour (MWh) amount, depending upon market availability. The customer's PSA charge will be adjusted by Austin

Energy's ERCOT-settled net financial gains and losses from the RPPA (the positive or negative difference between the RPPA MWh price and settled nodal price for each generated MWh) for the contracted amount in the month following ERCOT settlement. In the event an adjustment would reduce the PSA charge to below zero in a given month, the negative amount will be carried forward as a credit to be applied to future PSA charges. Austin Energy will retire any associated RECs on the customer's behalf.

To qualify for a RPPA-backed contract, the customer shall (1) maintain during the contract term an average monthly billed demand of at least 75,000 kW and an average annual load factor of at least 85 percent, and (2) have (or provide through an affiliate guarantee) a creditworthiness no lower than a rating of BBB- by Standard & Poor's Rating Group or Baa2 by Moody's Investor Services, Inc., or provide other appropriate security backed by a qualified financial institution as approved by Austin Energy.

Additional contract terms and conditions, related QSE and other fees, financial security requirements, and other matters shall be determined by Austin Energy. All energy, demand, customer, and other charges shall be billed as set forth in the applicable rate schedule.

Community Benefit Charge

Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 1.

Character of Service:

The Community Benefit Charge recovers certain costs incurred by the utility on behalf of Austin Energy's service area customers and the greater community. The charges are determined through the City budget process and applied by system voltage level. The charges include three specific programs and services provided to customers.

- 1. Service Area Lighting (SAL) recovers the cost of street lighting (other than lighting maintained by Texas Dept. of Transportation), the operation of traffic signals located inside Austin Energy's service territory, and certain lights owned by the City of Austin and operated on behalf of the City's Parks and Recreation Department. Customers whose point of delivery is located outside the city limits of Austin are not subject to the Service Area Lighting component of the Community Benefit Charge.
- 2. Energy Efficiency Services (EES) recovers the cost of energy efficiency rebates and related costs, solar incentives, and the Green Building program offered by Austin Energy throughout its service area.
- 3. The Customer Assistance Program (CAP) funds projects that help qualifying low-income and other disadvantaged residential customers through bill discounts, payment assistance (Plus 1), arrearage management (available only for customers receiving the CAP discount), and weatherization services. Funding for CAP is provided through the CAP component of the Community Benefit Charge and unexpended and re-appropriated funds.

Information regarding CAP shall be made available quarterly, including the number of residential customers enrolled automatically and through self-enrollment, the total and average amount of benefits provided, and the number of residential customers referred to the low-income weatherization program. With Council approval, funds unspent at the end of a fiscal year shall be rolled over to the next fiscal year's budget for the CAP program.

Rate Schedules	Service Area	Energy Efficiency	Customer Assistance
	Lighting	Services	Program
Secondary Voltage (Re	esidential) (\$/kWh)		
Inside City Limits	\$0.00124	\$0.00238	\$0.00154
Outside City Limits	\$0.00000	\$0.00238	\$0.00106
Secondary Voltage (No	on-Residential) (\$/k	Wh)	
Inside City Limits	\$0.00124	\$0.00238	\$0.00058
Outside City Limits	\$0.00000	\$0.00238	\$0.00058
Primary Voltage (\$/kWh)			
Inside City Limits	\$0.00122	\$0.00233	\$0.00058
Outside City Limits	\$0.00000	\$0.00233	\$0.00058
Transmission Voltage (\$/kWh)			
Inside City Limits	\$0.00120	\$0.00230	\$0.00058

Outside City Limits	\$0.00000	\$0.00230	\$0.00058
Primary and Transmissi	ion Voltage ≥ 20 M	IW @ 85% aLF (\$/kWh)
Inside City Limits	\$0.00000	\$0.00000	\$0.00058
Outside City Limits	\$0.00000	\$0.00000	\$0.00058

Regulatory Charge

Application:

Applies to all electric service whose point of delivery is located within the limits of Austin Energy's service territory, unless otherwise stated. The rates for this pass-through charge are effective November 1, 1.

Character of Service:

The Regulatory Charge recovers the following costs 1) ERCOT transmission service charges and credits; 2) NERC/TRE regulatory fees and penalties; 3) the ERCOT Nodal and Administrative Fees; and 4) other material regulatory fees or penalties specific to the electric industry. The Regulatory Charge is applied by system voltage level on either an energy or demand basis and may be adjusted to eliminate any over- or under-recovery on a system basis. Changes to the Regulatory Charge shall be determined after notice and public hearing as required by City code.

	Regulatory (Energy) (\$/kWh)	Regulatory (Demand)
Voltage Level		(\$/kW)
Secondary	\$0.01009	\$2.81
Secondary – State Contract Rate	N/A	\$3.75
Primary	N/A	\$2.75
Primary – State Contract Rate	N/A	\$3.67
Transmission	N/A	\$2.72

Note: The Regulatory Charge specified in the State's service contract will remain fixed for the initial contract period, ending August 31, 2021.

Standby Capacity

Application:

These rates apply to electric service for standby power provided by Austin Energy whose point of delivery is located within the limits of Austin Energy's service territory.

Character of Service:

Service is provided under this rate schedule pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

The Standby Capacity will be stipulated in the contract between Austin Energy and the customer. If during any scheduled or unscheduled outage, the customer exceeds the contracted amount of Standby Capacity, the capacity for billing Standby Service will be increased to actual amount for the next twelve months. After twelve months billing at the new capacity level, the capacity for billing Standby Service will be reduced to the original contracted amount.

Customer will be assessed a monthly Minimum Bill equal to the Standby Capacity Rate times the Standby Capacity.

Voltage Level	Monthly Standby Capacity Rate (\$/kW)
Primary	\$2.80
Transmission	\$2.60

For months where the customer takes power from Austin Energy, monthly billing for power will be at the underlying rates within the standard rate schedules for which the customer's load and voltage would qualify for that month, including all applicable riders. Such monthly billing will also include the charges for Standby Capacity as described above.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

<u>Rider Rate Schedules</u>

Application:

These rider rates apply to electric service whose point of delivery is located within the limits of Austin Energy's service territory.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

GreenChoice® Rider

Subscriptions under the GreenChoice® program support Austin Energy's inclusion of renewable fuel sources in its power generation portfolio. Energy acquired or produced by Austin Energy cannot be directed to any one particular destination on the ERCOT electric grid, including participant's premises.

Application:

This rider applies to electric service to a customer subscribed to the City of Austin's GreenChoice® program.

Terms and Conditions:

A customer's account must be in good standing. In addition, some subscriptions allow for the qualification of accolades. If in the event of a conflict with this rider, the terms of a subscription contract in effect shall prevail. The General Manager of Austin Energy shall develop the contract terms and conditions for subscriptions.

Unless otherwise specified in a subscription contract in effect on September 30, 2013, for Batches 5 or 6 subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage through the Batch's end date. Batches 5 and 6 are closed to additional subscriptions.

For Residential SmartCents or Commercial BusinessCents subscriptions, the GreenChoice® Charges will be applied to 100 percent of the customer's energy usage. Both SmartCents and BusinessCents are non-contract subscriptions with no penalty for unsubscribing.

For Commercial Energizer subscription, the GreenChoice® Charge will be applied to 100 percent of the customer's energy usage. Energizer is a 12-month contract subscription that converts a month-to-month subscription after the contracts end date; after this term expiration the customer may re-subscribe to a new subscription product.

For all Commercial Patron 15, 17, or 20 subscriptions, the GreenChoice® Charges will be applied to each customer's account for a specified amount of energy usage of at least 100,000 kilowatt-hours per billing month, up to 100 percent of the customer's energy usage. Any commercial customer is eligible with a minimum of 1.2 MWh annual load on one or a combination of accounts. Patron subscriptions are written contracts with specific terms and end dates at a fixed charge; after the expiration the customer may resubscribe to a new subscription product. Customers may not unsubscribe from the program at any time prior to the expiration of their contract.

GreenChoice® Charges:

While subscribed to the GreenChoice® program, a customer will be billed GreenChoice® Charge in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage, unless otherwise noted in the appropriate rate schedule.

Subscription Type	GreenChoice® Charges (\$/kWh)
Effective Dates before October 1, 2013	
Batch 5 (End Date December 31, 2022)	\$0.055000
Batch 6 (End Date December 31, 2021)	\$0.057000
Effective Date January 1, 2017	
Residential SmartCents (No Contract)	PSA amount plus \$0.00750
Commercial BusinessCents (No Contract)	PSA amount plus \$0.00750
Commercial Energizer (12-Month Contract)	PSA amount plus \$0.00750
Commercial Patron 17 (End Date December 31, 2021)	\$0.03800
Commercial Patron 20 (5-Year Contract)	\$0.03600

Value-Of-Solar Rider

Application:

Applies to any electric service account, excluding transmission voltage and lighting accounts, that has an on-site solar photovoltaic system that has a capacity less than 10,000 kW-ac interconnected with Austin Energy's distribution system behind the master meter ("Solar Customer"); or customers recognized by Austin Energy as a "Shared Solar Customer" where an assigned portion of metered solar production from a designated on-site photovoltaic system is allocated to the Shared Solar Customer's account.

Terms and Conditions:

Billable kilowatt-hours shall be based on metered energy delivered by Austin Energy's electric system and the metered energy consumed from an on-site solar system; also known as, the total metered energy consumption during the billing month. All non-kWh-based charges set out in the underlying service rate schedules shall remain unaffected by the application of this rider.

For each billing month, the Solar Customer shall receive a non-refundable, non-transferable credit equal to the metered kilowatt-hour output of the customer's photovoltaic system multiplied by the current applicable Value-of-Solar rate.

For each billing month, the Shared Solar Customer shall receive a non-refundable, non-transferable credit equal to the customer's proportional amount of the metered kilowatt-hour output of the designated photovoltaic system multiplied by the current applicable Value-of-Solar rate.

Credits are applicable to the customer's total monthly bill for electric service in the customer's name on the same premise and account where the on-site solar photovoltaic system is associated. Any remaining credit amount shall be carried forward and applied to the customer's next electric service bill. In the event of service termination, the customer will forfeit any remaining credit balance, and the credit balance will be applied to the Power Supply Adjustment (PSA) to reduce net purchased power costs.

The Value-of-Solar rates, methodology, and inputs will be re-assessed and updated during Austin Energy's rate review using the calculations outlined in Appendices A, B, and C of this tariff.

Customers receiving service under either Non-Demand or Demand Value-Of-Solar Riders cannot combine services with the Load Shifting Voltage Discount Rider. Renewable Energy Credits (RECs) and all other renewable energy attributes for generation receiving Value-of-Solar credits are aggregated by Austin Energy. All RECs for energy consumed onsite will be retired on behalf of the solar customer.

Rate Schedule Type	Value-of-Solar Rate (\$/kWh)
Non-Demand	\$0.09700
Demand (Solar capacity less than 1,000 kW-ac)	\$0.06700
Demand (Solar capacity greater than or equal to 1,000 kW-ac)	\$0.04700

Community Solar Rider

Application:

Applies to any Residential Service account that subscribes to a community solar program, and is available on a first-come, first-served basis, until the program is fully subscribed. Once fully subscribed, no new customers will be allowed to take service under this rider until additional community solar projects are added to the program.

Terms and Conditions:

Customer subscription must be for 100 percent of the customer's monthly energy usage. Customers may unsubscribe at any time; however, a customer that unsubscribes may not re-subscribe for Community Solar Rider for a period of 12 months. Service under this rider is considered portable within Austin Energy's service territory, meaning that if a customer subscribes at one premise and moves to another, the customer may remain a subscriber. Subscriptions support Austin Energy's inclusion of local community solar photovoltaic systems in its power generation portfolio.

Customers receiving service under the Community Solar Rider cannot combine services with the Valueof-Solar Rider or GreenChoice® Rider; or participate in any time-of-use rates.

Discounts:

Eligible residential Customer Assistance Program (CAP) participants that subscribe to community solar qualify for a reduced Community Solar Adjustment charge.

Community Solar Charges:

While subscribed to the Community Solar program, a customer will be billed a Community Solar Adjustment in lieu of the Power Supply Adjustment (PSA) that would otherwise apply to the customer's subscribed energy usage.

Subscriber Eligibility	Effective Date	Community Solar Adjustment (\$/kWh)
Residential Service	January 1, 2017	\$0.04270
Residential CAP Participants	February 1, 2018	\$0.02770

Load Shifting Voltage Discount Rider

Application:

Applies to any non-residential customer who, at a minimum, shifts 30 percent of the customer's normal annual monthly average on-peak billed demand using storage technologies (*e.g.*, thermal energy storage) and whose point of delivery is located within the limits of Austin Energy's service territory. "Normal on-peak billed demand" is defined as the maximum-billed demand recorded prior to taking service on this discount rider rate schedule, and corresponding energy, during the last 12-month period, or as may be determined by Austin Energy.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

The load shifting voltage discount rider rate schedule will be applied to the underlying rates within the standard rate schedules for which the customer's load and voltage would qualify. Customer shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes.

The Billed kW used to determine the Electric Delivery, the Demand, and Regulatory Charges shall be based on the highest 15-minute metered demand recorded during the Load Shifting on-peak period and adjusted for power factor. The Energy Charge shall be based on all energy consumption during the Load Shifting on-peak period. All other charges (*i.e.*, PSA, CBC, Regulatory Charge, etc.) will be billed at the underlying rate schedule based on all consumption.

The load shifting on-peak period load shall be shifted, not eliminated, nor replaced by the use of alternative fuels. There is no load forgiveness for operations during on-peak periods. Customers receiving service under this rate schedule are not eligible for any other forms of discounts; except for service to a facility owned and operated by the State of Texas or the Board of Regents of the University of Texas System. In addition, customers receiving service under Load Shifting Voltage Discount Rider cannot combine services with either Non-Demand or Demand Value-Of-Solar Riders. For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Load Shifting Periods

	Time Periods	Annual
Demand		
On-Peak	3:00 P.M. – 6:00 P.M.	Examplex
Off-Peak	6:00 P.M. – 3:00 P.M.	Everyday
Energy		
On-Peak	7:00 A.M. – 10:00 P.M.	Examiday
Off-Peak	10:00 P.M. – 7:00 A.M.	Everyday

Electric Vehicle Public Charging

Application:

This rate schedule applies to electric service to a customer using a public electric vehicle charging station under the Electric Vehicle Public Charging program. For subscription members, charging is a fixed sixmonth service fee that allows unlimited charging on Level 1 and Level 2 charging stations. For nonsubscription members, charging is based on the charging station type, for which, a 'per-minute' rate is applied for the entire duration that the electric vehicle is connected to the charging station, referred to as 'plug-in to plug-out.' To improve station availability for all members, DC Fast charging stations are based on a per-minute rate applied from plug-in to plug-out.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is required.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this are unaffected by the application of any rider.

For information on other applicable rates (*i.e.*, PSA, CBC, Regulatory Charge, etc.) please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Subscription Members			
Unlimited Level 1 and Level 2 Charging (\$/six-months) \$23.095			
Non-Subscription Members: Plug-in to Plug-out			
Level 2 Charging (\$/minute) \$0.03			
All Members: Plug-in to Plug-out			
DC Fast Charging (\$/minute) \$0.21			

Pilot Programs

Application:

Each individual pilot program described in this section will be limited to a participation of 100 individual meters on a first-come, first-served basis, unless stated otherwise on the applicable rate schedule. At any time, Austin Energy may administratively suspend availability of these pilot programs or modify the number of individual meters allowed to participate.

The pilot time-of-use power supply rates will be applied to the underlying standard rate schedules for which the customer's characteristics, load, and voltage would qualify, but with the time-based power supply charge identified below in lieu of the power supply adjustment rates. All character of services, terms, conditions, and discounts from the underlying standard rate schedule apply, unless specifically modified by the terms of the pilot program.

Terms and Conditions:

Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under these rate schedules are unaffected by the application of any rider.

Pilot program availability is contingent upon system configuration, availability of appropriate meters, and the customer's premise. Customers selecting these rate options are not eligible to participate in levelized billing. For information on rates (*i.e.*, PSA, CBC, Regulatory Charge, etc.) prior to this effective date, please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

Customers are advised to conduct their own independent research before deciding to participate in a pilot program.

At Austin Energy's sole discretion, during extreme unforeseen circumstances, the customer may be allowed to prematurely stop receiving service pursuant to these pilots without being back billed or have the termination fee waived.

Residential Service

Application:

These pilot programs' rate schedules apply to electric service for domestic purposes in each individual metered residence, apartment unit, mobile home, or other dwelling unit whose point of delivery is located within the limits of Austin Energy's service territory.

Rider Schedules:

Services under these rate schedules are eligible for application of GreenChoice® Rider, Community Solar Rider, and Non-Demand Value-Of-Solar Rider, unless stated otherwise on their applicable rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption in addition to applicable power and fuel charges. Customers receiving service under the Community Solar Rider cannot combine services with either the Non-Demand Value-of-Solar Rider or GreenChoice® Rider.

Time-Of-Use Rate

Customers receiving service under the Residential Service rate schedule may choose the following timeof-use power supply charges in lieu of the normal power supply adjustment rates to be applied for a term of no less than 12 consecutive billing cycles. If a customer elects to stop receiving service pursuant to this rider before the conclusion of the initial 12 consecutive billing cycles, Austin Energy will calculate what the customer's bills would have been using the Residential Service Power Supply Adjustment rates. If the application of these rates result in a higher bill, the customer will be back billed for difference between this higher amount and the amount paid pursuant to this rider.

Power	Supply	Periods:	

Weekdays	
Off-Peak	10:00 P.M. – 7:00 A.M.
Mid-Peak	7:00 A.M. – 3:00 P.M., 6:00 P.M. – 10:00 P.M.
On-Peak	3:00 P.M. – 6:00 P.M.
Weekends	
Off-Peak	Entire Day

Time-Of-Use Power Supply Charges

		Summer	Non-Summer	
		(June through September)	(October through May)	
Power Supply (Charges (\$/kWh)

	Off-Peak	\$0.03025	\$0.02982	
	Mid-Peak	\$0.03025	\$0.02982	
	On-Peak	\$0.06605	\$0.03139	
Weekends				
	Off-Peak	\$0.03025	\$0.02982	

EV360SM Plug-In Electric Vehicle Charging Subscription

Application:

For a separate residential meter circuit, installed at the customer's expense, attached to an in-home electric vehicle level 1, or higher, charging station for charging a plug-in electric vehicle (PEV).

Customers receiving service under this rate schedule may choose the following electric vehicle subscription charge to be applied for a term of no less than 12 consecutive billing cycles. If the customer elects to terminate participation in the program, the customer must pay an early termination fee of \$200.00. This rate schedule includes unlimited customer access to public electric vehicle charging stations under the Electric Vehicle Public Charging rate schedule.

Terms and Conditions:

These charges are in addition to any other services the premise might be receiving. Customers served under this rate schedule will be provided separate primary meter billing amounts and PEV meter billing

amounts in their electric bills. The customer's primary metered usage is billed according to the primary rate schedule selected by the customer. The customer's PEV usage is billed according to this residential PEV schedule. The PEV meter billed amount will be based upon data delivered to Austin Energy.

All in-home electric vehicle charging must be done during off-peak periods; otherwise, any energy consumption during on-peak periods will be multiplied by Power Supply Charges.

A one-time enrollment fee of \$150 will be applied.

Customers receiving PEV charging station service are not eligible for any discounts under this rate schedule. Application of GreenChoice® Rider and Community Solar Rider will be applied to all energy consumption from the PEV meter in addition to Power Supply Charges.

<u>Time Periods:</u>

Commercial Service

Fleet and Public Electric Vehicle Charging

Application:

This rate schedule applies to secondary voltage electric service to a single metered point of delivery with a load at least 90 percent attributable to electric vehicle charging, as verified by Austin Energy, with an average monthly billed demand greater than 100 kW over the previous 6 billing months, or as determined by Austin Energy for accounts with a billing history of less than 6 months. Participation is limited to ten customers, on a first-come, first-served basis.

A customer receiving service under this schedule may elect to take service under the applicable standard rate schedule but only after receiving service on this schedule for 12 consecutive billing months. If a customer elects to discontinue service under this schedule, the customer will not be permitted to return to this schedule for a period of one year. This program supports high usage applications of charging for public facing charging infrastructure and facilities serving fleet, bulk, and delivery electric vehicles; transit, commuter, and school buses; and other ground transportation equipment and vehicles.

Character of Service:

Service is provided under these rate schedules pursuant to City Code Chapter 15-9 (*Utility Service Regulations*) and the City of Austin Utility Criteria Manual, as both may be amended from time to time, and such other rules and regulations as may be prescribed by the City of Austin. Electric service of one standard character will be delivered to one point of service on the customer's premises and measured through one meter unless, at Austin Energy's sole discretion, additional metering is permitted.

Terms and Conditions:

The customer shall own, maintain, and operate all facilities and equipment on the customer's side of the point of delivery. Customers shall permit Austin Energy to install all equipment necessary for metering and permit reasonable access to all electric service facilities installed by Austin Energy for inspection, maintenance, repair, removal, or data recording purposes. All non-kilowatt-hour charges under this schedule are unaffected by the application of any rider.

For the purpose of this schedule all demand for power in kilowatts (kW) is referred to as "Billed kW" and shall be measured as the metered kilowatt demand during the fifteen-minute interval of greatest use during the billing month as determined by Austin Energy's metering equipment and adjusted for power factor and load factor corrections.

When power factor during the interval of greatest use is less than 90 percent, as determined by metering equipment installed by Austin Energy, the Billed kW shall be determined by multiplying metered kilowatt demand during the fifteen-minute interval of greatest use by a 90 percent power factor divided by the recorded power factor, rounded to the nearest hundredth, during the interval of greatest use. For example, the metered kilowatt demand during the fifteen-minute interval of greatest monthly use is 13.5 kW, and the power factor during the fifteen-minute interval of greatest monthly use is 86.7 percent; therefore, the Billed kW equals 14.0 kW (13.5 kW x 0.90 / 0.87 power factor).

For information on other applicable rates (*i.e.*, PSA, CBC, Regulatory Charge, etc.) please see corresponding schedules in this tariff (if applicable). For definition of charges listed below, see "Glossary of Terms" at the back of this tariff.

	Inside City Limits	Outside City Limits
Basic Charges

Power Supply Adjustment Charge (\$/kWh)		
Billed kWhs	\$0.03078	\$0.03078
Community Benefit Charges (\$/kWh)		
Customer Assistance Program	\$0.00058	\$0.00058
Service Area Lighting	\$0.00124	\$0.00000
Energy Efficiency Services	\$0.00238	\$0.00238
Regulatory Charge (\$/kW)		
Billed kWs	\$2.81	\$2.81

State of Texas Contract Service

Beginning June 1, 2017, this rate schedule applies to service to a facility owned and operated by the State of Texas or the Board of Regents of the University of Texas System (collectively "State") that receives service at secondary or primary voltages with a demand equal to or greater than 500 kilowatts. A State account may be included under the service contract if 1) it qualifies for service under the Large Service Contract schedule on May 31, 2017; or 2) at the start of the first billing month after it has reached a monthly peak demand of at least 500 kW twice during the preceding 12 billing months.

Contract Term:

To receive service under this rate schedule the State must enter into an exclusive sole supplier service contract to purchase its entire bundled electric service requirements within Austin Energy's service area, with an exception for on-site back-up generation and up to one megawatt of on-site renewable generation capacity or entirety self-generation for standby rates. The contract term shall run from June 1, 2017, through the billing month that includes August 31, 2026. The City Manager or his designee may establish and agree to terms and conditions for a service contract consistent with this rate schedule.

Block Power Supply Pricing:

In lieu of the Power Supply Adjustment, the State's service contract may provide a fixed power supply charge for a monthly block quantity of energy for a defined term, based on the cost of wholesale power market prices. Block pricing is contingent on the availability of authorized funding and the State's satisfaction of credit requirements. All billed energy not subject to block pricing is subject to the variable Power Supply Adjustment (or GreenChoice® rider), as may be amended from time to time, or any other successor power or fuel adjustment schedules.

The kWh block price shall be the actual wholesale kWh cost to Austin Energy of the block quantity supplied, plus a renewable portfolio charge based upon the forecast kWh price of renewable energy credits in the ERCOT market during the term of the block pricing.

In lieu of the renewable portfolio charge, the State may opt to designate an equal renewable portfolio dollar value as a monthly block quantity of GreenChoice® energy by paying the per-kWh price difference between the wholesale power price paid by Austin Energy and the applicable GreenChoice® Charge for the specified quantity.

Community Benefit Charges:

Rebates received by the State for energy efficiency measures may be applied at the State's option as a reduction to the monthly electric bill for the facility that implemented the measures. The State's service contract may provide for additional engineering and staff support from Austin Energy for the identification of energy efficiency projects at State facilities. Charges for Service Area Lighting (SAL) and Customer Assistance Program (CAP) do not apply to service under this rate schedule.

Terms and Conditions:

This schedule is effective through the end of the State's billing month that includes August 31, 2026. Austin Energy may provide service under this schedule as a bundled entity or, if retail deregulation is implemented in its service area, as separate, unbundled entities. Dual Feed Service charges are not applicable to a facility receiving service under this rate schedule within the capacity utilization requirements provided in the Austin Energy Fee Schedule.

If the State is required by state or federal law to act in a manner inconsistent with the terms of this rate schedule or its service contract, then the State may upon prior written notice to Austin Energy cancel, or modify in whole or in part, this Service Contract as necessary to comply with state or federal law.

For purposes of this rate schedule the State does not include a conservation and reclamation district created pursuant to Article XVI, Section 59 of the Texas Constitution. The State may opt to terminate its service contract if the City adopts a rate schedule that offers more favorable rates, terms, or conditions than provided by this rate schedule and that describes a customer class for which the State's secondary or primary voltage service accounts qualify. The State may exercise this option by providing written notice of its intent to Austin Energy and by executing the written agreement, if any, required to receive service under the new tariff.

Standard Rates:

Basic, energy, demand, and applicable Community Benefits Charges will be fixed for the initial service contract period ending August 31, 2021, as set forth in Ordinance No. 20160829-004. The Austin City Council may amend these charges to be fixed for the period September 1, 2021, through August 31, 2023, and again for the period September 1, 2023, through August 31, 2026. PSA charge will be set in accordance with the appropriate rate schedule.

If, during the initial service contract period ending August 31, 2021, the City Council adopts new base electric rates for State accounts receiving service contract at secondary, primary, or transmission voltages based on a comprehensive cost-of-service study, the State may opt to have its contract rates adjusted to any new rate for which an account would qualify during the initial contract term.

Regulatory Charge will remain fixed for the initial contract period ending August 31, 2021. For the periods of September 1, 2021, through October 31, 2023, and September 1, 2023, through August 31, 2026, the regulatory charge will be reset and fixed in accordance with the regulatory charge schedule, plus an adjustment for any over- or under-recovery of Regulatory Charge from the previous contract period. The regulatory charge may be adjusted during any two-year period if an over-recovery of more than 110 percent or an under-recovery of less than 90 percent of costs occurs. Regulatory charges may vary in accordance with executed contracts.

Appendices

Appendix A

Non-Demand Value-Of-Solar Assessment

The Non-Demand Value-of-Solar, previously known as the "Value-of-Solar Rider," is a rate schedule rider that has historically been set annually through Austin Energy's budget approval process. The rate is based on the average of the annual Value-of-Solar assessment of the prospective year and the previous four years' Value-of-Solar assessments based on the following methodology. Starting on January 1, 2018, the rate will be held constant; the methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below, and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale price based on future natural gas prices.	$\left[\begin{array}{c} \underline{\sum(\text{Implied Heat Rate * Gas Price * PV Production * Risk Free Discount Factor})}{\sum(\text{PV Production * Risk Free Discount actor})}\right]^{(1+ \text{ Loss Factor})}$
Plant O&M Value	Estimated avoided cost associated with natural gas plant operations and maintenance by meeting peak load through customer-sited renewable resources.	(∑ (O & M Cost * (1+Inflation) ^ year * PV Capacity * Risk Free Discount Factor)) * (1+ Loss Factor) ∑ (PV Production * Risk Free Discount Factor)
Generation Capacity Value	Estimated avoided cost of capital by meeting peak load through customer-sited renewable resources, inferred from ERCOT market price data.	(∑ (Annual Capital Carrying Cost * PV Capacity * Risk Free Discount Factor)) * Load Match * (1+ Loss Factor) ∑ (PV Production * Risk Free Discount Factor)
Transmission and Distribution Value	Estimated savings in transmission costs resulting from the reduction in the peak load by locally-sited renewable resources, and savings or	(∑ (Transmission Cost * PV Capacity * Risk Free Discount Factor)) * Load Match * (1+ Loss Factor) ∑ (PV Production * Risk Free Discount Factor)
	costs related capital investments to distribution grid.	 Where Transmission Cost is Austin Energy's contribution to ERCOT Transmission Cost of Service (TCOS). N.B.: Distribution value is currently not calculated, but will need further review as solar penetration increases.
Environmental Value	Estimated avoided emissions cost to comply with local policy objectives.	Set at \$0.015 per kWh based on estimated avoided emissions at Austin Energy emission rate and priced at the societal cost of carbon.

Historical Values

Effective Date	Value-of-Solar Assessment (\$/kWh)	Value-of-Solar Rate (\$/kWh)
October 1, 2012	\$0.12800	\$0.12800
January 1, 2014	\$0.10700	\$0.10700
January 1, 2015	\$0.10000	\$0.11300
January 1, 2016	\$0.09700	\$0.10900
January 1, 2017	\$0.09700	\$0.10600
January 1, 2018	\$0.08500	\$0.09700

Appendix B

Demand Value-Of-Solar Assessment: Capacity less than 1,000 kW-ac

The methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below; and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale prices based on future natural gas prices and scarcity premium using ERCOT historical wholesale market prices.	 ∑(Effective Implied Heat Rate * Gas Price * PV Production * Risk Free Discount Factor) ∑ (PV Production * Risk Free Discount actor) Where Effective Implied Heat Rate = Forward Implied Heat Rate + Scarcity Premium
Transmission and Distribution Value	Estimated savings in transmission costs resulting from the reduction in the peak load by locally-sited renewable resources, and savings or costs related capital investments to distribution grid.	 (∑ (Transmission Cost * PV Capacity * Risk Free Discount Factor)) * Load Match * (1+ Loss Factor) ∑ (PV Production * Risk Free Discount Factor) Where Transmission Cost is Austin Energy's contribution to ERCOT Transmission Cost of Service (TCOS). N.B.: Distribution value is currently not calculated, but will need further review as solar penetration increases.
Environmental Value	Estimated avoided emissions cost to comply with local policy objectives.	Set at \$0.015 per kWh based on estimated avoided emissions at Austin Energy emission rate and priced at the societal cost of carbon.

Appendix C

Demand Value-Of-Solar Assessment: Capacity greater than or equal to 1,000 kW-ac

The methodology and inputs will be reviewed and updated during regular Austin Energy cost of service studies using the calculations outlined below; and any changes will be proposed through subsequent rate case proceedings:

Component	Definition	Formula
Energy Value	Estimated avoided cost of energy to meet electric loads as well as transmission and distribution losses, based on the solar production profile. This is inferred from forward projections of ERCOT wholesale prices based on future natural gas prices and scarcity premium using ERCOT historical wholesale market prices.	$\sum \underbrace{\sum (Effective Implied Heat Rate * Gas Price * PV Production * Risk Free Discount Factor)}_{\sum (PV Production * Risk Free Discount actor)} $ (1+ Loss Factor) - Where Effective Implied Heat Rate = Forward Implied Heat Rate + Scarcity Premium

Value	comply with local policy objectives.	societal cost of carbon.

CITY OF AUSTIN - ELECTRIC RATE SCHEDULES

Glossary of Terms

The purpose of this section is for customers to have a better understanding of the terminology used within the electric industry.

Adjustment Clauses

A provision in Austin Energy's tariff that provides for periodic changes in charges or credits to a customer due to increases or decreases in certain costs over or under those included in base rates.

Base Rate

That portion of the total electric rate covering the general costs of doing business, except for fuel, purchased power, and other pass-thru expenses. Throughout the tariff, base rates refer to customer, electric delivery, demand, and energy charges.

Billed Demand

The demand upon which billing to a customer is based, as specified in a rate schedule or contract, metered demand or billed demand may be the metered demand adjusted for power factor as specified in the rate schedule. It may also be based on the contract year, a contract minimum, or a previous maximum that does not necessarily coincide with the actual measured demand of the billing period.

Customer

A meter, individual, firm, organization, or other electric utility that purchases electric service at one location under one rate classification, contract, or schedule. If service is supplied to a customer at more than one location, each location shall be counted as a separate customer unless the consumptions are combined before the bill is calculated.

Customer Charge

Customer Charge is a monthly charge to help Austin Energy recover the customer-related fixed costs that reflect the minimum amount of equipment and services needed for customers to access the electric grid. Such costs are billing, metering, collections, customer service, service drops, cost of meters, meter maintenance, and other customer-related costs; these costs vary with the addition or subtraction of customers. These costs do not vary with usage; therefore, it is appropriate to recover these costs in the Customer Charge, rather than Energy Charges.

Customer Class

The grouping of customers into homogeneous classes. Typically, electric utility customers are classified on a broad category of customer service: residential, general service (commercial), large general service (industrial), lighting, or contract. Some electric systems have individual customers (large users) with unique electric-use characteristics, service requirements, or other factors that set them apart from other general customer classes and thus may require a separate class designation.

Delivery (Distribution) Charges

The charges on an electric customer's bill for the service of delivering or moving of electricity over the distribution system from the source of generation to the customer's premise; sometimes referred to as Electric Delivery.

Demand Charges

That portion of the charge for electric service based upon the electric capacity (kW or kVa) consumed and billed based on billing demand under an applicable rate schedule. The cost of providing electrical transmission and distribution equipment to accommodate the customer's largest electrical load during a given period of time.

Demand (kW)

The rate at which electricity is being used at any one given time. Demand differs from energy use, which reflects the total amount of electricity consumed over a period of time. Demand is often measured in kilowatts, while energy use is usually measured in kilowatt-hours. The term "load" is considered synonymous with "demand."

Electric Meter

A device that measures the amount of electricity a customer uses.

Electric Rate

The price set for a specified amount of electricity in an electric rate schedule or sales contract.

Electric Reliability Council of Texas (ERCOT)

An independent system operator that schedules power for the region, which represents about 90 percent of the State of Texas's electric load.

Energy Charges

That portion of the charge for electric service based upon the electric energy consumed or billed. Electrical energy is usually measured in kilowatt-hours (kWh), while heat energy is usually measured in British thermal units (Btu).

Energy Efficiency Programs

Programs sponsored by utilities or others specifically designed to achieve energy efficiency improvements. Energy efficiency improvements reduce the energy used by specific end- use devices and systems, typically without affecting the services provided. These programs reduce overall electricity consumption. Such savings are generally achieved by substituting technically more advanced equipment to produce the same level of end-use services (e.g. lighting, heating, motor drive) with less electricity. Examples include high-efficiency appliances, efficient lighting programs, high-efficiency heating, ventilating and air conditioning (HVAC) systems or control modifications, efficient building design, advanced electric motor drives, and heat recovery systems.

Energy Efficiency Service Charge

Charge assessed to customers to offset the cost of energy efficiency program services offered by Austin Energy.

Fuel or Power Supply Adjustment (PSA)

A rate schedule that provides for an adjustment to the customer's bill for the cost of power supply.

Green Pricing (GreenChoice)

An optional Austin Energy service that allows customers an opportunity to support a greater level of Austin Energy's investment in and/or purchase of power from renewable energy technologies. Participating customers pay a premium on their electric bill to cover the incremental cost of the additional renewable energy.

Inverted Rate Design

A rate design for a customer class for which the unit charge for electricity increases as usage increases.

Kilowatt-hour (kWh)

The basic unit of electric energy equal to one kilowatt of power supplied to or taken from an electric circuit steadily for one hour. One kilowatt-hour equals 1,000 watt-hours. The number of kWhs is used to determine the energy charges on your bill.

Load Factor (LF)

The ratio of the average load in kilowatts supplied during a designated period to the peak or maximum load in kilowatts occurring in that period. Load factor, in percent, is derived by multiplying the kilowatt-hours in the period by 100 and dividing by the product of the maximum demand in kilowatts and the number of hours in the period.

Load Profile

Shows the quantity of energy used by a class of customers at specific time intervals over a 24-hour period.

Load Shifting

Involves shifting load from on-peak to mid- or off-peak periods. Popular applications include use of storage water heating, storage space heating, cool storage, and customer load shifts to take advantage of time-of-use or other special rates.

Megawatt (MW)

One megawatt equals one million watts or 1,000 kWs.

Megawatt-hour (MWh)

One megawatt-hour equals one million watt-hours or 1,000 kWhs.

Minimum Bill

A minimum charge to a customer during the applicable period of time, which is typically the customer charge. A provision in a rate schedule stating that a customer's bill cannot fall below a specified level. A minimum charge is similar to a customer charge because it is designed to recover fixed costs of services such as meter reading, billing and facilities maintenance. Although this charge does not generally recover the full cost of these services, it does give the customer a price signal that these costs do exist.

Off-Peak

Period of time when the need or demand for electricity on AE's system is low, such as late evenings, nights, weekends, and holidays.

On-Peak

Period of time when the need or demand for electricity on AE's system is high, normally during the late afternoons and early evening hours of the day from Monday through Friday, excluding holidays.

Peak Load Pricing

Pricing of electric service that reflects different prices for system peak periods or for hours of the day during which loads are normally high.

Peak Season Pricing

Pricing of electric service that reflects different prices for system peak seasonal periods.

Power Factor (PF)

The ratio of real power (kW) to apparent power (kVA) at any given point and time in an electrical circuit. Generally, it is expressed as a percentage ratio.

Power Factor Adjustment

A clause in a rate schedule that provides for an adjustment in the billing if the customer's power factor varies from a specified percentage or range of percentages.

Primary Voltage

The voltage of the circuit supplying power to a transformer is called the primary voltage, as opposed to the output voltage or load-supply voltage, which is called secondary voltage. In power supply practice the primary is almost always the high-voltage side and the secondary the low-voltage side of a transformer, except at generating stations.

Public Street and Highway Lighting

Electricity supplied and services rendered for the purpose of lighting streets, highways, parks, and for other public places; or for traffic or other signal system service for municipalities, or for other divisions or agencies of State or Federal governments.

Rate Schedule

A statement of the rates, charges, and terms and conditions governing the provision of electric service that has been accepted by a regulatory body with established oversight authority.

Rate Structure

The design and organization of billing charges to customers. A rate structure can comprise one or more of the rate schedules defined herein.

Seasonal Rates

Rate schedules that are structured for the different seasons of the year. The electric rate schedule usually considers demand based on weather and other factors.

Secondary Voltage

The output voltage or load-supply voltage of a transformer or substation. In power supply practice secondary voltage is generally the low-voltage side of a transformer, except at generating stations.

Single-Phase Service

Service where facility (e.g., house, office, warehouse) has two energized wires coming into it. Typically serves smaller needs of 120V/240V. Requires less and simpler equipment and infrastructure to support and tends to be less expensive to install and maintain.

Special Contract Rate Schedule

An electric rate schedule for an electric service agreement between Austin Energy and another party in addition to, or independent of, any standard rate schedule.

Standby Service

Service that is not normally used but that is available through a permanent connection in lieu of, or as a supplement to, the usual source of supply.

<u>Tariff</u>

A published collection of rate schedules, charges, terms of service, rules and conditions under which the Austin Energy provides electric service to the public.

Thermal Energy Storage (TES)

Is a technology that stocks thermal energy by heating or cooling a storage medium so that the stored energy can be used later for heating and cooling applications and power generation.

Three-Phase Service

Electric energy that is transmitted by three or four wires to the customer. Relatively high voltage customers usually receive three-phase power.

Time-of-Use (TOU) or Time-of-Day Rates

A rate structure that prices electricity at different rates, reflecting the changes in the AE's costs of providing electricity at different times of the day. With time-of-use rates, higher prices are charged during the time when the electric system experiences its peak demand and marginal (incremental) costs are highest. Time-of-use rates better reflect the cost of providing service, sending more accurate price indicators to customers than non-time-of-use rates. Ultimately, these rates encourage efficient consumption, conservation and shifting of load to times of lower system demand.

Value of Service

A utility pricing concept in which the usefulness or necessity of a service to a customer group replaces or supplements cost factors as a major influence on the rates charged to the group. In ratemaking, this means that the price charged reflects the service's value to the customer rather than its cost to the producer. Value of service need not equal the cost of service; for example, Austin Energy's Value-of-Solar is such a product.

Volt (V)

The unit of electromotive force or electric pressure analogous to water pressure in pounds per square inch. It is the electromotive force that, if steadily applied to a circuit having a resistance of one ohm, will produce a current of one ampere.

Watt (W)

The electrical unit of real power or rate of doing work. The rate of energy transfers equivalent to one ampere flowing due to an electrical pressure of one volt at unity power factor. One watt is equivalent to approximately 1/746 horsepower, or one joule per second.

ORDINANCE NO.

AN ORDINANCE LEVYING MUNICIPAL PROPERTY (AD VALOREM) TAXES FOR THE CITY OF AUSTIN, TEXAS, FOR FISCAL YEAR 2021-2022.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The City Council levies, approves, and orders to be assessed and collected for the Fiscal Year 2021-2022, and for each subsequent calendar year until otherwise ordained, on all property in the limits of the City of Austin that is not exempt from taxation, a property (ad valorem) tax at the rate of $_$ per \$100 of taxable value. The tax rate consists of two components, each of which are separately approved by Council: $_$ per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the total amount published under Section 26.04(e)(3)(C) of the Texas Property Tax Code (Tax Code), less any amount of additional sales and use tax revenue that will be used to pay debt service; and $_$ per \$100 of taxable value, the rate that, if applied to the total taxable value, will impose the amount of taxes needed to fund maintenance and operation expenditures of the City for the coming year.

PART 2. The Council adopts the following property tax exemptions as further described in Exhibits "A" and "B-1" and "B-2":

Agriculture	Exhibit A
Disabled Veterans	Exhibit A
Straight Disability Local Option	Exhibit A
Elderly Homestead	Exhibit A
Residence Homestead	Exhibit A
Historic – State Landmarks	Exhibit B-1
Historic – City Landmarks	Exhibit B-2

Council finds that all of the properties identified in Exhibit B-1are designated as Recorded Texas Historic Landmarks or as state recorded archeological landmarks in accordance with Section 11.24(1) of the Tax Code.

AUSTIN PROPERTY TAX EXEMPTIONS

<u>AGRICULTURE</u> = Variable per acre of farmland / tax exempt

Agriculture - Confirmed agricultural property is taxed on the basis of a special valuation of the use (productivity) of the land. The area location (school district) and agricultural classification (dry crop, improved pasture or native pasture) determines the taxable value per acre of land.

<u>DISABLED VETERANS</u> = Variable based on percent of disability

Partially disabled veterans exemptions range from \$5,000 to \$12,000 based on the following schedule:

% Disability	Exemption
10-29	\$5,000
30-49	\$7,500
50-69	\$10,000
70-99	\$12,000

Disabled veterans with a 100 percent disability are entitled to a tax exemption of the total appraised value of the residence homestead.

<u>RESIDENCE HOMESTEAD</u> = 20 percent

Persons with a residence homestead are entitled to a 20 percent tax exemption of the assessed valuation of their home.

STRAIGHT DISABILITY LOCAL OPTION = \$113,000

Disabled persons (unable to hold a job) on social security or forced retirement can apply for and receive an \$113,00 tax exemption.

ELDERLY HOMESTEAD = \$113,000

Persons 65 years and older can apply for and receive an \$113,000 tax exemption on their home.

ORDINANCE NO. 2021_____

AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE AUSTIN FIRE DEPARTMENT; CREATING CERTAIN POSITIONS; AND REPEALING ORDINANCE NO. 20200812-003 RELATING TO FIRE DEPARTMENT CLASSIFICATIONS AND POSITIONS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The Council makes the following findings:

(A) The City adopted Texas Local Government Code Chapter 143 (*Municipal Civil Service*), which applies to members of the classified service in the Austin Fire Department.

(B) Chapter 143 (*Municipal Civil Service*) provides that the City Council shall establish the classifications for the Fire Department and the number of positions in each classification.

(C) The Fire Department recommends the creation of certain classified positions to improve delivery of fire services and to increase efficiency.

PART 2. The civil service classifications of the Fire Department and the number of positions in each classification are established as follows:

(A) Assistant Chief

(B) Division Chief

(C) Battalion Chief

(D) Captain

- (E) Lieutenant
- (F) Fire Specialist
- (G) Firefighter

PART 3. This Ordinance does not affect or amend the Collective Bargaining Agreement between the City of Austin and the Austin Firefighters Association, Local 975 of the International Association of Firefighters, effective on October 1, 2017, which shall continue to apply to all civil service classifications except as specified in that Agreement.

PART 4. The Base Salary Schedules attached to the Collective Bargaining Agreement ratified on September 28, 2017 are adopted for each civil service classification except Assistant Chief.

PART 5. Ordinance 20200812-003 is repealed.

PART 6. This Ordinance takes effect on October 1, 2021.

ORDINANCE NO. 2021

AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE AUSTIN POLICE DEPARTMENT; ELIMINATING CERTAIN POSITIONS; AND REPEALING ORDINANCE NO. 20200812-004 RELATING TO POLICE DEPARTMENT CLASSIFICATIONS AND POSITIONS.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The Council finds:

- (A) The City adopted Texas Local Government Code Chapter 143 (*Municipal Civil Service*), which applies to members of the classified service in the Austin Police Department.
- (B) Chapter 143 (*Municipal Civil Service*) provides that the City Council shall establish the classifications for the Police Department and the number of positions in each classification.
- (C) The Police Department recommends the creation of certain classified positions to improve the delivery of police services and increase efficiency in the Police Department.

PART 2. The following civil service classifications of the Police Department and the number of positions in each classification are established as follows:

(A)	Assistant Chief	
(B)	Commander	
(C)	Police Lieutenant	
(D)	Police Sergeant	
(E)	Police Corporal/Police Detective	
(F)	Police Officer	

PART 3. This Ordinance does not affect or amend the Meet and Confer Agreement between the City of Austin and the Austin Police Association, effective on November 15, 2018, which shall continue to apply to all civil service classifications except as specified in that Agreement.

PART 4. The Base Salary Schedules attached to the Meet and Confer Agreement effective on November 15, 2018 are adopted for each civil service classification except Assistant Chief.

PART 5. Ordinance No. 20200812-004 is repealed.

PART 6. This Ordinance takes effect on October 1, 2021.

ORDINANCE NO. 2021____

AN ORDINANCE ESTABLISHING CLASSIFICATIONS AND POSITIONS IN THE CLASSIFIED SERVICE OF THE EMERGENCY MEDICAL SERVICES DEPARTMENT; CREATING CERTAIN POSITIONS; AND REPEALING ORDINANCE NO. 20200812-005 RELATING TO EMERGENCY MEDICAL SERVICES DEPARTMENT CLASSIFICATIONS AND POSITIONS

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The Council finds:

- (A) In accord with the procedures in Subchapter K of Texas Local Government Code Chapter 143 (*Civil Service Status of Emergency Medical Services Personnel in Certain Municipalities*) the City has adopted Chapter 143, which applies to certain employees in City's Emergency Medical Services Department.
- (B) Subchapter K of Chapter 143 provides that the City Council shall establish the classifications for the Emergency Medical Services Department and the number of positions in each classification.
- (C) The Emergency Medical Services Department recommends the creation of certain classified positions to improve the delivery of emergency medical services and increase efficiency in the Emergency Medical Services Department.

PART 2. "Emergency Medical Services Department" means the Austin-Travis County Emergency Medical Services Department.

PART 3. The Emergency Medical Services Department shall be divided into three Divisions designated as the Field Division, Communications Division, and Operations Division. The number of positions in each civil service classification within each Division is established as follows:

Field Division:

- (A) Commander Field ______
 (B) Captain Field ______
 (C) Clinical Specialist Field ______
- (D) Medic Field

Page 1 of 3

Communications Division:

(A) Commander - Communications

(B) Captain - Communications

(C) Clinical Specialist - Communications

(D) Medic - Communications

Operations Division:

(A) Assistant Chief

(B) Division Chief

PART 4. This Ordinance does not affect or amend the Meet and Confer Agreement between the City and the Austin-Travis County EMS Employees Association effective on September 16, 2018, which shall continue to apply to all civil service classifications except Assistant Chief, as specified in that Agreement.

PART 5. The Base Salary Schedules attached to the Meet and Confer Agreement effective on September 16, 2018 are adopted for each civil service classification except Assistant Chief.

PART 6. Ordinance 20200812-005 is repealed.

PART 7. This ordinance takes effect on October 1, 2021.

GLOSSARY

ACCRUAL BASIS A method of accounting that recognizes revenue when earned, rather than when collected; expenses are recognized when incurred, rather than when paid.

ACTIVITY A set of services performed by a department grouped together by a common purpose, which produces outputs and results.

ADJUSTMENT TO GAAP A bookkeeping entry made at the end of the fiscal year to assign income and expenses to a different year. These entries are made according to Generally Accepted Accounting Principles (GAAP) and under the accrual accounting systems in order to correctly reflect the timing of income and expenditures. (See also GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP))

ADMINISTRATIVE SUPPORT A cost allocation which transfers funds from the General Fund and enterprise funds to the Support Services Fund for specific central administrative functions that benefit those funds, such as the City Manager's Office, the Financial Services Department, Communications and Public Information, and the Human Resources Department. (See also Cost Allocation Plan)

AD VALOREM TAX (PROPERTY TAX) The property tax that is payable at a rate per \$100 of taxable property value. The City Council sets the ad valorem tax rate every year as part of the budget process. A portion of the tax funds General Fund operations, and the remaining portion funds General Obligation Debt Service. (See also GENERAL FUND, GENERAL OBLIGATION (GO) BONDS)

AMENDED BUDGET Amended budget, as used throughout the Budget Document, refers to the original adopted budget plus any amendments passed by the City Council during the fiscal year. (See also BUDGET, BUDGET AMENDMENT)

AMORTIZATION An accounting method that reduces the value of a loan or an intangible asset, such as the City's pension systems, over time. (See also DEPRECIATION)

ANNUAL BUDGET PROCESS The activities that encompass the development, implementation, and evaluation of the City of Austin's operating and capital budgets.

APPROPRIATION The legal device by which the City Council authorizes the spending of City funds for specific purposes. Operating appropriations are approved for a single fiscal year, but capital improvement appropriations are multi-year and remain in place until exhausted. (See also RE-APPROPRIATION)

APPROVED BUDGET The term "approved budget," as used throughout the Budget Document, represents the budget as originally adopted by the City Council. (See also BUDGET)

ASSESSED VALUATION An assessed valuation represents the appraised valuation less any exemptions. A government sets a valuation upon real estate or other property as a basis for levying taxes.

BACKCHARGE An expense reimbursement budgeted in one department for service costs charged to another department. (See also EXPENSE *REFUND*)

BAD DEBT The unsecured debt for which interest or payment is past due, unpaid for six months, and is not in the process of collection.

BALANCED BUDGET A budget in which planned expenditures can be met by current income from taxation and other central government receipts.

BASIS OF ACCOUNTING The methodology guiding how revenue and expenditures are recognized in City accounts and reported in the City's financial records, regardless of the measurement focus applied. Accounting records for governmental funds are maintained on a modified accrual basis, meaning revenue is recorded when available and measurable, and expenditures are recorded when services or goods are received and the liabilities are incurred. Accounting records for proprietary fund types and trust funds are maintained on an accrual basis. (See also MODIFIED ACCRUAL) **BEGINNING BALANCE** The cash brought forward in a fund from the previous fiscal year's ending balance. (See also ENDING BALANCE / FUND BALANCE)

BOND ELECTION A bond election authorizes the issuance of long-term general obligation (GO) debt for capital improvements. The taxing authority of the city backs GO bonds. (See also AD VALOREM TAX (PROPERTY TAX), GENERAL OBLIGATION (GO) BOND, PUBLIC IMPROVEMENT BOND (PIB))

BOND A debt instrument that requires repayment of a specified principal amount on a certain date (maturity date), together with interest at a stated rate.

BOND ISSUANCE / SALE The process where the City sells bonds as a means of borrowing capital for projects. The City then repays this debt to the lender over a period of time similar to the manner in which a homeowner pays a mortgage.

BOND PROCEEDS The amount of principal received from bond issuances (sales) to back up capital improvement expenses.

BUDGET A financial plan showing planned expenditures and the means of financing them. (See also OPERATING BUDGET and CAPITAL BUDGET)

BUDGET AMENDMENT A revision to the current fiscal year operating or capital budget approved by the City Council. (See also BUDGET)

CAPITAL BUDGET A plan of proposed projects or investments for fixed assets (primarily infrastructure) and the means of financing them. The annual capital budget is the primary means by which most of the acquisition and construction activities for facilities and major improvements of a government occur. (See also BUDGET, CAPITAL IMPROVEMENT PROGRAM (CIP), SPEND PLAN)

CAPITAL IMPROVEMENT PROGRAM (CIP) The City of Austin's comprehensive program that projects the capital (infrastructure) needs of a community. Generally, it is a cyclical process that estimates the needs for a set number of years. (See also CAPITAL BUDGET, SPEND PLAN)

CAPITAL OUTLAY An item that costs more than \$5,000 and has a useful life of more than one year.

CERTIFICATE OF OBLIGATION (CO) Used to fund public works similarly to a public improvement bond (PIB), but does not generally require voter authorization, and is backed by the City's ad valorem taxing power. A certificate can be used for real property purchase and construction. (See also AD VALOREM TAX (PROPERTY TAX), GENERAL OBLIGATION (GO) BOND, PUBLIC IMPROVEMENT BOND (PIB))

CONTRACTUALS The services purchased by the City, such as consultants, security, or leased space. (See also OBJECT CODE, OBJECT CODE CATEGORY)

COMMERCIAL PAPER A short-term, unsecured promissory note, usually due within 30-45 days. Generally, the notes are backed by a line of credit with a bank. Only used by Austin Energy and Austin Water in the City of Austin.

COMMODITIES Consumable goods such as asphalt, concrete, office supplies, small tools, and fuel. (See also OBJECT CODE, OBJECT CODE CATEGORY)

CONTRACTUAL OBLIGATION (KO) A short-term debt instrument that does not require voter authorization, used to finance the purchase of items such as equipment and vehicles. (See also AD VALOREM TAX (PROPERTY TAX), GENERAL OBLIGATION (GO) BOND)

COST The amount of money or other consideration exchanged for property, services, or an expense.

COST ALLOCATION PLAN (CAP) In addition to the direct cost of providing services, governments also incur indirect costs. Such indirect costs include shared administrative expenses where a department or agency incurs costs for support that it provides to other departments/agencies (e.g., legal, finance, human resources, facilities, maintenance, technology). A CAP summarizes, in writing, the methods and procedures used to allocate these costs to the benefiting City departments. (See also Administrative Support)

CURRENT Designates the present fiscal period, as opposed to past or future periods. It usually means items likely to be fully utilized or converted into cash within one fiscal year. (See also CURRENT ASSETS) **CURRENT ASSETS** Items such as cash and inventory that are expected to be used within the fiscal year. (See also CURRENT, FIXED ASSETS, WORKING CAPITAL)

CURRENT LIABILITIES Short-term obligations, such as debt or payments, that are due within the fiscal year. (See also CURRENT, WORKING CAPITAL)

CURRENT YEAR ESTIMATE (CYE) The level of revenue, expenditures, or performance data projected to be received, spent, or achieved by the end of the current fiscal year.

DEBT SERVICE The amount of money required for interest and principal payments on an outstanding debt in any given year.

DEBT SERVICE COVERAGE An indicator of the financial strength of a project financed by revenue bonds. The calculation is net revenue divided by the debt service. Net revenue is total revenue less operating and maintenance expenses, and debt service is annual principal and interest payments on debt. (See also DEBT SERVICE, REVENUE BOND)

DEBT SERVICE FUND A fund established to account for the payment of principal and interest on longterm debt.

DEBT SERVICE RESERVE A fund that may pay debt service for revenue bonds if the sources of the pledged revenue do not generate sufficient funds to satisfy the debt service requirements.

DEFICIT The excess of expenditures over revenue during an accounting period. Sentence

DEPRECIATION An accounting method that reduces the value of a tangible asset over time. (See also AMORTIZATION)

EFFECTIVE RATE The calculated tax rate that would provide the City with about the same amount of revenue received in the year before, using only properties taxed in both years. If property values rise, the effective tax rate will go down and vice versa. The effective tax rate is generally equal to the prior year's taxes divided by the current taxable value of properties that were also on the tax roll in the prior year. (See also AD VALOREM TAX (PROPERTY TAX), ASSESSED VALUE, NOMINAL RATE) **ENCUMBRANCE** A commitment to make a payment in the future. Encumbrances can either be converted to expenditures once a payment is made, or deencumbered if the payment is not necessary. Only included in capital spend plans when the encumbrance is expected to be paid out. (See also EXPENDITURE, EXPENSE)

ENDING BALANCE / FUND BALANCE The cash remaining after current expenditures are subtracted from the sum of the beginning fund balance and current revenue. Portions of the fund balance may be reserved for various purposes. (See also *BEGINNING BALANCE*)

ENTERPRISE FUND Used to account for operations that are financed and operated like a private business enterprise. Costs are financed or recovered primarily through user charges. Major enterprise funds include the Austin Water, Austin Energy, and Airport operating funds. (See also FUND)

EXPENDITURE A decrease in net financial resources. They include current operating expenses that require the current or future use of net current assets, debt service, and capital outlay.

EXPENSE A decrease in net total assets. They represent the total cost of operations during a period, regardless of the timing of related expenditures.

EXPENSE REFUND A cost reimbursement from other departments. It is usually associated with some service provided by one department on behalf of another. (See also BACKCHARGE)

FEE A charge for services provided by City departments.

FISCAL YEAR The fiscal year for the City of Austin begins on October 1st and ends on September 30th. As a result, the fiscal year quarters are three months ahead of calendar year quarters. For example, Quarter 1 is October through December, not January through March.

FIXED ASSETS The capital assets and tangible things that are expected to be in use for more than one fiscal year. Examples are land, buildings, and machinery and equipment. (See also CURRENT ASSETS, DEPRECIATION)

FIXED COST A cost, such as rent, that does not change with increases or decreases in the amount of services provided.

FULL-TIME EQUIVALENT (FTE) An authorized position in the budget. In most cases, a 1.0 FTE is equal to a 40-hour work week, but for Fire and EMS the number of hours worked in a week for a 1.0 FTE may be different.

FUND A fiscal and accounting entity with a selfbalancing set of accounts that records cash and other financial resources, all related liabilities, residual equities or balances, and changes therein, which are segregated for the purpose of carrying out specific activities or attaining certain objectives. (See also FUND CATEGORY)

FUND CATEGORY A high-level way to organize revenue and expenditures for a Citywide view of the budget, such as General, Enterprise, Reserves, Internal Service, Special Revenue, and Debt Retirement. (See also FUND)

FUNDING SOURCE Sources of revenue that fund various objectives for the City. Funding sources include cash, debt, grants, and other, and are most explicitly used in the capital budget. (See also CAPITAL BUDGET, CAPITAL IMPROVEMENT PROGRAM (CIP))

FUND SUMMARY / **FINANCIAL SUMMARY** A financial forecasting statement for any period that combines beginning and ending balances, including estimated revenue.

GENERAL FUND The primary operating fund of the City. General Fund expenditures include public safety, community service, and neighborhood planning and affordable housing functions, and it is funded through property taxes, sales taxes, utility transfers, fines and fees, and other revenue.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP) The established standards that guide how financial statements are prepared and presented, such as what items should be recognized, what amounts should be reported for each of the elements, what line items should be included, how items should be aggregated, and what specific information is most important. (See also ADJUSTMENT TO GAAP) **GENERAL OBLIGATION (GO) BOND** Secured by the full faith and credit of the issuer, GO bonds issued by governments are secured by a pledge of the issuer's ad valorem taxing power. They are usually issued to pay for general capital improvements, such as parks and streets. (See also BOND, CERTIFICATE OF OBLIGATION (CO), CONTRACTUAL OBLIGATION (KO), PUBLIC IMPROVEMENT BOND (PIB))

GOVERNMENTAL FUNDS Generally used to account for tax-supported activities, there are five different types of governmental funds: general, special revenue, debt service, capital projects, and permanent funds. (See also FUND)

GRANT A contribution by outside governments or agencies awarded to the City. The contribution is usually made for a specified function (for example, education), but it is sometimes also for general purposes.

INDIRECT COST An expense necessary for the functioning of the organization as a whole that cannot be directly assigned to one service. (See also OVERHEAD)

INTERNAL SERVICE FUND Used to account for the financing of goods or services provided by one City department to other City departments or to other governmental units on a cost-reimbursement basis. These activities include, but are not limited to, capital projects management, combined emergency center operations, employee health benefits, fleet services, information services, liability reserve (Citywide self-insurance) services, support services, wireless communication services, and workers' compensation coverage. (See also FUND)

KEY PERFORMANCE INDICATOR A performance measure that has been determined by the department to be an important measure that indicates the department's success. (See also *PERFORMANCE MEASURE*) **MODIFIED ACCRUAL** City of Austin governmental funds are budgeted using the modified accrual basis, with revenue recognized when they become measurable. Revenue is "measurable" when the amount of the transaction can be reasonably determined. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred and is expected to be liquidated within 60 days.

NOMINAL RATE The same set ad valorem tax rate as the prior year, regardless of changes in assessed property value. (See also AD VALOREM TAX (PROPERTY TAX), ASSESSED VALUE, EFFECTIVE RATE)

NOTE A written, short-term promise of the issuer to repay a specified principal amount on a certain date, together with interest at a stated rate, or according to a stated formula, payable from a defined source of anticipated revenue. Notes usually mature in less than five years. (See also BOND)

OBJECT CODE For expenditures, an object code is the article purchased or the service obtained. Examples are wages, electricity, rental, maintenance, travel, office supplies, and computer hardware. (See also CONTRACTUALS, COMMODITIES, EXPENSE, EXPENDITURE, OBJECT CODE)

OBJECT CODE CATEGORY The expenditure classification according to the types of items purchased or services obtained, such as personnel, contractuals, or commodities. (See also CONTRACTUALS, COMMODITIES, EXPENSE, EXPENDITURE, OBJECT CODE)

OBLIGATED The total commitments calculated from the sum of expenditures and encumbrances. (See also EXPENDITURE, ENCUMBRANCE)

OPERATING BUDGET The annual appropriation approved by City Council that enables the City of Austin to provide services to the public.

ORDINANCE A formal legislative enactment by City Council. If it is not in conflict with any higher form of law, such as a State statute or constitutional provision, it has the full force and effect of law within the city's boundaries. **OVERHEAD** The cost or expense not directly attributable to provision of a product or service, such as leased space or utility expenses. For example, a fee charge can include these costs in an overhead rate. (See also FIXED COST, INDIRECT COST)

PERFORMANCE MEASURE The measurable information regarding the work performed within a department or strategic outcome. (See also KEY PERFORMANCE INDICATOR)

PROGRAM A major line of business or division within a department. It consists of a group of common activities that provide services and produce results for citizens. It is the lowest level presented in the Budget Document.

PROPRIETARY FUND A proprietary fund distinguishes operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's ongoing operations, such as providing electric or water / wastewater services. Other revenue or expenses are non-operating items. Consist of enterprise funds and internal service funds. (See also FUND)

PUBLIC IMPROVEMENT BOND (PIB) A voterapproved bond issued by the City that is secured by and payable from ad valorem taxes to finance the cost of purchasing land or making improvements to real property for the purpose of public improvement within the municipality. Examples of tax-supported PIBs include street, signal, and pedestrian improvements; parkland, parks, and cultural facility improvements; library facility improvements; and affordable housing. (See also AD VALOREM TAX (PROPERTY TAX), GENERAL OBLIGATION (GO) BOND)

RE-APPROPRIATION An expense authorization not expensed or encumbered by the end of the fiscal year that is deemed important are brought to the City Council to be re-appropriated in the new fiscal year. (See also APPROPRIATION) **REFUNDING** A process to issuing new bonds to refinance an outstanding bond issue. There are two major reasons for refunding: 1) to reduce the issuer's interest costs, or 2) to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds are either deposited in escrow to pay the debt service on the outstanding obligations when due, or they are used to immediately retire the outstanding obligations. The new obligations are referred to as the "refunding bonds" and the outstanding obligations being refinanced are referred to as the "refunded bonds" or the "prior issue." (See also BOND)

REQUIREMENTS The expenses of a fund, department, or program. (See EXPENDITURE, EXPENSE)

RESERVE An account in which a portion of the fund balance is set aside for a future use and which is, therefore, not available for further appropriation or expenditure.

RESOLUTION A formal expression of the opinion or will of the City Council adopted by a vote, requiring less legal formality than an ordinance.

REVENUE The income generated from taxes, fines and fees, payments, and other revenue. Also includes various transfers from other governmental entities or City of Austin departments.

REVENUE BOND A bond payable from a specific source of revenue and is not paid for by the ad valorem tax rate. Pledged revenue may be derived from operation of the financed project, grants, excise, or other specified non-ad valorem tax. (See also DEBT SERVICE COVERAGE)

ROLLBACK RATE The calculated maximum ad valorem tax rate allowed by law without voter approval. The rollback rate provides a city with about the same amount of tax revenue it spent the previous year for day-to-day operations, plus an extra 3.5 percentage increase for those operations, in addition to sufficient funds to pay debts in the coming year. Voters must approve a tax rate higher than the rollback rate for it to go into effect. (See also AD VALOREM TAX (PROPERTY TAX))

SERVICE An activity provided to customers, either internal departments or the public.

SPEND PLAN The spend plan is the projected capital improvement expenses, or cash spent, in a given period. Spend plans should not to include encumbrances unless they are to be converted to expenditures in that period.

STRUCTURAL BALANCE The state when current revenue sufficiently supports current expenditures. (See also BALANCED BUDGET)

TAX A compulsory charge levied by a government for the purpose of financing services performed for the common benefit. This term does not include specific charges made against particular persons or property for current or permanent benefits, such as special assessments, or charges for services rendered, such as a rate or fee.

TAX INCREMENT FINANCING (TIF) A financing method local governments can use to pay for improvements that will draw private investment to an area. Tax increment financing is not an additional tax, but it instead redirects some of the ad valorem tax from property in a geographic area designated as a Tax Increment Reinvestment Zone (TIRZ) to pay for improvements in the zone. (See also AD VALOREM TAX (PROPERTY TAX))

TAX RATE The amount of tax levied for each \$100 of assessed valuation.

TRANSFER The authorized exchange of cash or other resources between funds or departments. Must include a revenue-to-expense transaction.

UNIT As a cost center for funds and departments, budgets, expenditures, and revenues are recorded at this level.

VOTER AUTHORIZATION The total amount included in the bond ballot language approved by voters, which is the total amount the City can spend and back by bond proceeds in relation to the capital projects in a bond proposition. (See also BOND)

WORKING CAPITAL The measure of liquidity, or the ability to convert assets into cash. Calculated by subtracting current liabilities from current assets. (See also CURRENT ASSETS, CURRENT LIABILITIES)
