

Austin Off-Leash Dog Park Safety

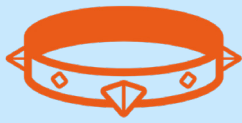

Keep your dog on-leash when walking to/from the off-leash area. Dogs are only allowed off-leash in designated areas.

Prevent exposure to disease. Make sure your dog's vaccinations are up-to-date.

Although puppies need exercise and socialization, wait until 4 months after vaccinations are complete, so they can play without picking up a disease.

Have a tag on the collar with your current information and microchip your dog in case it runs off.

The Austin Animal Center, 7201 Levander Loop, offers free microchips and engraved tags to residents of Travis County.

Bring water and a bowl so you and your dog stay hydrated. Watch for signs of heat exhaustion like rapid panting, drooling and stumbling.

Monitor your dog at ALL times and ensure playtime remains safe and fun. If another dog is too rough, take your dog to a new spot.

Be safe, have fun, and enjoy your time with your dog in our beautiful Austin parks.

And always Scoop the Poop!
